INDEPENDENT AUDITOR'S REPORT

Trustees
King Industries, Inc. 401(k) Retirement Plan
Norwalk, Connecticut

Opinion

We have audited the accompanying financial statements of King Industries, Inc. 401(k) Retirement Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years ended December 31, 2022 and 2021, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of King Industries, Inc. 401(k) Retirement Plan as of December 31, 2022 and 2021, and the changes in its net assets available for benefits for the years ended December 31, 2022 and 2021, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of King Industries, Inc. 401(k) Retirement Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about King

Industries, Inc. 401(k) Retirement Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of King Industries, Inc. 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about King Industries, Inc. 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required By ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets held for investment purposes at the end of the year (Attachment to Schedule H of IRS Form 5500) is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such

information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

**KING INDUSTRIES, INC. 401(k) RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS**

A. DESCRIPTION OF PLAN

The following description of the King Industries, Inc. 401(k) Retirement Plan provides general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of the Company who attain age 20 ½ and complete 90 days of service. Effective May 16, 2016, security guard 2, temporary employees, seasonal employees, college interns, and co-op students are excluded. The Plan is subject to the provisions of the Employment Security Act of 1974 (ERISA).

Contributions

Participants may make elective deferral contributions (lesser of 50% of eligible compensation or \$20,500 in 2022). Participants who are projected to be age 50 or older at the end of the calendar year and who are making deferral contributions to the plan may also make a catch-up contribution of up to \$6,500 in 2022. In addition to the elective deferrals of employees, the Company may make discretionary contributions to the plan. Effective November 1, 2011, the Company may make separate contributions to each participant group (group one: employees hired before November 1, 2011; group two: employees hired on or after November 1, 2011). Participants may make rollover contributions from other qualified plans. Effective March 30, 2014, participants are also allowed to make Roth contributions.

Participants' Accounts

Participants' accounts are credited with the participants' contributions, rollover contributions, allocation of discretionary employer contributions and allocation of forfeitures for eligible participants, and earnings thereon.

Vesting

Participants are immediately vested in their contributions, including their rolled over contributions, plus earnings thereon. Vesting in Employer Discretionary Contributions are based on years of continuous service. Participants are 100% vested after 5 years of credited service. Effective January 1, 2018, participants hired prior to January 1, 2018 will be 100% vested in Employer Discretionary Contributions.

Notes Receivable from Participants

Participants may borrow from their fund accounts. The loan will be limited to the lesser of \$50,000 or 1/2 of the participant's vested account balance. The loan will be secured by 50% of the participant's vested account balance. The interest rate will be the prevailing rate determined by the Plan Administrator. The outstanding participant loan balance as of December 31, 2022 and 2021 is \$544,503 and \$530,592, respectively.

Forfeitures

Forfeitures are retained in the plan (invested in Fidelity Managed Income Portfolio). Forfeitures from participants' accounts will be first used to pay administrative expenses and the remaining amounts will be applied to reduce Employer Contributions. Forfeitures from Employer Contributions will be allocated to the accounts of eligible participants. The unused forfeited amount as of December 31, 2022 and 2021 is \$73,274 and \$50,971, respectively.

A. DESCRIPTION OF PLAN (continued)

Payment of Benefits

You may defer receipt of your distribution until a later date, however, you cannot postpone it if your vested account balance is \$1,000 or less in which case the plan administration will direct the trustee to distribute it to you as a lump sum distribution without your consent. If your vested account balance exceeds \$1,000, you may delay your distribution until you are required by law to receive minimum required distributions. You will have a continuing election to request a distribution if you elect to postpone your distributions unless you are re-employed by your employer. The value of your account balance will continue to increase or decrease, as appropriate, based on the investment returns until it is distributed. Your written consent will be required for any distributions if your vested account balance is greater than \$1,000.

Investment Options

All investments are directed by participants. Participants may choose from the following (22 mutual funds and Fidelity Managed Income Portfolio Class 1) and change their investment directions on a daily basis. Effective 10/17/2022, Dodge & Cox Stock X and Vanguard Info Tech Index are added to the Options and Virtus NFJ Dividend Value and Virtus Technology are removed from the Options.

B. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

All investments in Mutual Funds are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Shares of Mutual Funds are valued at quoted market prices. Investment in Fidelity Managed Income Portfolio Class 1 (no longer considered a fully benefit-responsive investment contract) is also reported at fair value. Contract value of Fidelity Managed Income Portfolio Class 1 at December 31, 2022 and 2021 is \$2,276,224 and \$2,290,634, respectively. Also see notes under "Fair Value Measurements." Purchases and sales of securities are recorded on a trade-date basis. Interest income, if any, is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Investment Transactions and Income of Fidelity Managed Income Portfolio Class 1

Investment transactions are accounted for on a trade date basis. Investment income is accrued as earned. Income earned from wrap contracts is reported net of fees paid to wrap contract providers.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related expenses are recorded as participant loan maintenance and miscellaneous fees and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2022 and 2021. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefit payments are recorded when paid.

KING INDUSTRIES, INC. 401(k) RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
(continued)

B. SUMMARY OF ACCOUNTING POLICIES (continued)

Excess Participants' Contributions

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as liabilities with the corresponding reductions to contributions. The excess participants' contributions for the years ended December 31, 2022 and 2021 is \$0.

Administrative Expenses

Fidelity funds are managed by Fidelity Management Trust Company. Fidelity is also the recordkeeper and provides administrative services. Certain fees are paid by the Company and certain fees are paid by the Plan. Fees paid by the Plan are reported as Participant loan maintenance and miscellaneous fees on the Statements of Changes in Net Assets Available for Benefits. Investment related expenses are reflected in net (depreciation) appreciation of fair value of investments. Other fees, including the auditor's fees, are paid by the Company.

Subsequent events

The plan has evaluated subsequent events through October 11, 2023, the date the financial statements were available to be issued. King Industries, Inc. going concern and its ability to continue to make the employer discretionary contributions to the King Industries, Inc. 401(k) Retirement Plan are not affected by COVID-19. Market fluctuations – See next page under E. INVESTMENTS

C. TAX STATUS

The trust established under the Plan to hold the Plan's assets is qualified pursuant to the appropriate section of the Internal Revenue Code (IRC), and, accordingly, the trust's net investment income is exempt from income taxes. Effective July 1, 2008, the Plan adopted the Fidelity Prototype Profit Sharing/401(k) Plan and Fidelity has obtained a favorable opinion letter dated June 30, 2020 from the Internal Revenue Service and the Plan Sponsor believes that the Plan continues to qualify and to operate in compliance with the applicable requirements of the IRC. Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the plan has taken certain positions that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

D. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the plan to discontinue its contributions at any time and to terminate the plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their employer contributions.

F. RELATED PARTIES AND PARTIES-IN-INTEREST TRANSACTIONS

Fidelity funds are managed by Fidelity Management Trust Company. Fidelity is also the recordkeeper and provides administrative services. Certain fees are paid by the Company and certain fees are paid by the Plan. Fees paid by the Plan are reported as Participant loan maintenance and miscellaneous fees on the Statements of Changes in Net Assets Available for Benefits. Fidelity Management Trust Company is also the trustee as defined by the plan, therefore, these transactions qualify as parties-in-interest transactions. Other fees, including the auditor's fees, are also paid by the Company.

G. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.

H. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy give the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2

Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The Managed Income Portfolio (Portfolio) was established under the Declaration of Trust for the Fidelity Group Trust for Employee Benefit Plans (Trust) dated April 23, 1981, as amended thereafter from time to time. Fidelity Management Trust Company (FMTC), a Massachusetts chartered trust company, is the Trustee of the Trust and the Manager of the Portfolio. The Portfolio offers two classes of units, Class I and Class II, each of which have equal rights to assets.

The Portfolio's investment objective is to seek the preservation of capital and to provide a competitive level of income over time that is consistent with the preservation of capital. To achieve its investment objective, the Portfolio invests in assets (typically fixed-income securities or bond funds and may include derivative instruments such as futures contracts and swap agreements), enters into "wrap" contracts issued by third-parties, and invests in cash equivalents represented by shares in money market funds. FMTC seeks to minimize the exposure of the Portfolio to wrap credit risk through, among other means, diversification of the wrap contracts across an approved group of issuers. The Portfolio's ability to receive amounts due pursuant to these contracts is dependent upon the issuers' ability to meet their financial obligations.

I. FIDELITY MANAGED INCOME PORTFOLIO

Investment Objectives:

The primary investment objective of the Portfolio is to seek the preservation of capital; the secondary investment objective of the Portfolio is to provide a level of income over time that is consistent with the preservation of capital.

Eligible Investments:

The Portfolio will be primarily invested in the following types of fixed income securities:

- Investment contracts issued by insurance companies, banks, and other financial institutions.
- Debt obligations issued or guaranteed by the U.S. government, U.S. government agencies or U.S. government-sponsored corporations or agencies.
- Debt obligations of domestic and non-U.S. corporations, foreign governmental issuers, and supranationals.
- Mortgaged-backed securities, including collateralized mortgage obligations and commercial mortgage-backed securities, and other debt instruments backed by mortgage-backed securities.
- Asset-backed securities.
- Obligations issued or guaranteed by U.S. local, city and state governments and agencies.
- Private placements, including securities defined under Rule 141A.
- Derivative instruments, including futures contracts, option contracts, and swap agreements.
- Other securities including, but not limited to, zero coupon bonds, medium-term notes, preferred securities, structured notes, floating-rate debt, and inflation protected securities.
- Cash or short-term debt obligations including, but not limited to, government securities, commercial paper, certificates of deposit, time deposits, bankers' acceptances, and repurchase agreements.
- Collective investment vehicles or shares of investment companies that invest primarily in fixed income securities; provided, however, that any such investments in collective investment vehicles or shares of investment companies which are managed by the Trustee or its affiliates shall be made in accordance with the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

The Trustee may lend Portfolio securities through its securities lending operations.

Investment Restrictions

Under normal market conditions, the Portfolio will follow the guidelines listed below:

- At the time of purchase, fixed income securities and investment contracts must meet the then current credit and diversification requirements.
- At the time of purchase, collective investment vehicles and investment companies must have a weighted average internal or external credit rating that meets the then current credit and diversification requirements.
- Securities downgraded below BBB- (or equivalent) subsequent to purchase may be held subject to the then current credit and diversification requirements.
- Investment of the Portfolio shall include features (e.g., investment contracts) that allow the Portfolio to utilize contract (book) value accounting.

NOTES TO FINANCIAL STATEMENTS
(continued)

I. FIDELITY MANAGED INCOME PORTFOLIO (continued)

Diversifications

Under normal market conditions, the Portfolio will follow the guidelines listed below:

- At the time of purchase, the maximum investment in the debt of a single credit issuer or collateral pool will be 5% of the Portfolio. Debt obligations issued or guaranteed by the U.S. government, U.S. government agencies and U.S. government-sponsored enterprises are exempt from this limitation.
- At the time of purchase, the maximum investment in structured product securities of any single sponsor will be no more than 10%. Debt obligations issued or guaranteed by the U.S. government, U.S. government agencies and U.S. government-sponsored enterprises are exempt from this limitation.

Duration

The maximum duration of the Portfolio shall be three and one-half (3.5) years.

Valuation

Investments are valued as of 4:00 p.m. Eastern time on the last calendar day of the period. It is the policy of the Portfolio to use its best efforts to maintain a stable net asset value (NAV) of \$1.00 per unit, although there is no guarantee that the Portfolio will be able to maintain this value. In accordance with valuation policies and procedures approved by the Trustee, the Portfolio attempts to obtain prices from one or more third party pricing vendors or brokers to value its investments. When current market prices or quotations are not readily available or reliable, securities will be fair valued in good faith by the FMTC Fair Value Committee (the Committee), in accordance with procedures adopted by the Trustee. Factors used in determining fair value vary by security type and may include market or security specific events, changes in interest rates and credit quality. The frequency with which these procedures are used cannot be predicted and they may be utilized to a significant extent. The Committee oversees the Portfolio's valuation policies and procedures and is responsible for approving and reporting to the Trustee all fair value determinations.

The Portfolio is valued daily and will seek to maintain a stable net asset value. Neither the Portfolio nor the Trustee can guarantee that the unit value shall always remain stable. Any benefit responsive investment contracts in the Portfolio will be valued at their contract value, in accordance with generally accepted accounting principles. These investment contracts provide for benefit responsive withdrawals and investment exchanges at contract value; however, withdrawals or investment exchanges prompted by an employer-initiated event, such as withdrawals resulting from the sale of a division of the sponsor of a Participating Plan (the "Plan Sponsor"), a corporate layoff or early retirement program, change(s) in the investment options of a Participating Plan, or termination or partial termination of a Participating Plan, may be paid at the contract's market value, which may be less than contract value, or may be subject to a contract charge or penalty.

Eligible Investors

The Portfolio shall only be made available to 401(k), profit sharing and other qualified or governmental defined contribution plans, including retirement income accounts under Internal Revenue Code Section 403(b)(9) meeting the definition of Qualified Investor under Section 1.12 of the Trust. Monies may be invested in the Portfolio as a result of participant investment directions under a Participating Plan or as a result of Plan Sponsor investment directions with respect to some or all of a participant's account or with respect to forfeitures or other amounts temporarily held on an unallocated basis under a Participating Plan.

Limitations on Withdrawals and Exchanges

- **Participant-Directed Withdrawals and Exchanges -**
Withdrawals made in order to accommodate distribution to participants under a Participating Plan, whether in-service or following termination of employment, may be made on any business day. Withdrawals made in order to accommodate a participant-directed exchange to another investment option under a Participating Plan may be made on any business day, provided that the exchange is not directed into a competing fund (money market funds, self-directed brokerage, or certain other types of fixed income funds). Transferred amounts must be held in a non-competing investment option for 90 days before subsequent transfers to a competing fund can occur.
- **Non-Participant Directed Withdrawals –**
Withdrawals directed by a Plan Sponsor must be preceded by twelve (12) months written notice to the Trustee; provided, however, that the Trustee may, in its discretion, complete any such plan-level withdrawals before the expiration of such twelve (12) month period.

Changes in Portfolio Investment Objectives and Guidelines

The Trustee in its discretion may make changes from time to time in the Portfolio's investment objectives and guidelines. Sixty (60) days prior notice of any such change must be provided to the Applicable Fiduciary of each Participating Plan having an interest in the Portfolio.

Units of Participation

The beneficial interest in the net assets of the Portfolio is represented by units. Net asset value per unit is determined each business day. Issues and redemptions of units are recorded, upon receipt of unitholder's instructions in good order, based on the next determined net asset value per unit normally each day. In unusual market conditions, in accordance with the Declaration of Trust, the Trustee may in its sole discretion, impose restrictions on issues and redemptions of units.

INDEPENDENT AUDITOR'S REPORT

Trustees
King Industries, Inc. 401(k) Retirement Plan
Norwalk, Connecticut

Opinion

We have audited the accompanying financial statements of King Industries, Inc. 401(k) Retirement Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years ended December 31, 2022 and 2021, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of King Industries, Inc. 401(k) Retirement Plan as of December 31, 2022 and 2021, and the changes in its net assets available for benefits for the years ended December 31, 2022 and 2021, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of King Industries, Inc. 401(k) Retirement Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about King

Industries, Inc. 401(k) Retirement Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of King Industries, Inc. 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about King Industries, Inc. 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required By ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets held for investment purposes at the end of the year (Attachment to Schedule H of IRS Form 5500) is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such

information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

**KING INDUSTRIES, INC. 401(k) RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS**

A. DESCRIPTION OF PLAN

The following description of the King Industries, Inc. 401(k) Retirement Plan provides general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of the Company who attain age 20 ½ and complete 90 days of service. Effective May 16, 2016, security guard 2, temporary employees, seasonal employees, college interns, and co-op students are excluded. The Plan is subject to the provisions of the Employment Security Act of 1974 (ERISA).

Contributions

Participants may make elective deferral contributions (lesser of 50% of eligible compensation or \$20,500 in 2022). Participants who are projected to be age 50 or older at the end of the calendar year and who are making deferral contributions to the plan may also make a catch-up contribution of up to \$6,500 in 2022. In addition to the elective deferrals of employees, the Company may make discretionary contributions to the plan. Effective November 1, 2011, the Company may make separate contributions to each participant group (group one: employees hired before November 1, 2011; group two: employees hired on or after November 1, 2011). Participants may make rollover contributions from other qualified plans. Effective March 30, 2014, participants are also allowed to make Roth contributions.

Participants' Accounts

Participants' accounts are credited with the participants' contributions, rollover contributions, allocation of discretionary employer contributions and allocation of forfeitures for eligible participants, and earnings thereon.

Vesting

Participants are immediately vested in their contributions, including their rolled over contributions, plus earnings thereon. Vesting in Employer Discretionary Contributions are based on years of continuous service. Participants are 100% vested after 5 years of credited service. Effective January 1, 2018, participants hired prior to January 1, 2018 will be 100% vested in Employer Discretionary Contributions.

Notes Receivable from Participants

Participants may borrow from their fund accounts. The loan will be limited to the lesser of \$50,000 or 1/2 of the participant's vested account balance. The loan will be secured by 50% of the participant's vested account balance. The interest rate will be the prevailing rate determined by the Plan Administrator. The outstanding participant loan balance as of December 31, 2022 and 2021 is \$544,503 and \$530,592, respectively.

Forfeitures

Forfeitures are retained in the plan (invested in Fidelity Managed Income Portfolio). Forfeitures from participants' accounts will be first used to pay administrative expenses and the remaining amounts will be applied to reduce Employer Contributions. Forfeitures from Employer Contributions will be allocated to the accounts of eligible participants. The unused forfeited amount as of December 31, 2022 and 2021 is \$73,274 and \$50,971, respectively.

A. DESCRIPTION OF PLAN (continued)

Payment of Benefits

You may defer receipt of your distribution until a later date, however, you cannot postpone it if your vested account balance is \$1,000 or less in which case the plan administration will direct the trustee to distribute it to you as a lump sum distribution without your consent. If your vested account balance exceeds \$1,000, you may delay your distribution until you are required by law to receive minimum required distributions. You will have a continuing election to request a distribution if you elect to postpone your distributions unless you are re-employed by your employer. The value of your account balance will continue to increase or decrease, as appropriate, based on the investment returns until it is distributed. Your written consent will be required for any distributions if your vested account balance is greater than \$1,000.

Investment Options

All investments are directed by participants. Participants may choose from the following (22 mutual funds and Fidelity Managed Income Portfolio Class 1) and change their investment directions on a daily basis. Effective 10/17/2022, Dodge & Cox Stock X and Vanguard Info Tech Index are added to the Options and Virtus NFJ Dividend Value and Virtus Technology are removed from the Options.

B. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

All investments in Mutual Funds are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Shares of Mutual Funds are valued at quoted market prices. Investment in Fidelity Managed Income Portfolio Class 1 (no longer considered a fully benefit-responsive investment contract) is also reported at fair value. Contract value of Fidelity Managed Income Portfolio Class 1 at December 31, 2022 and 2021 is \$2,276,224 and \$2,290,634, respectively. Also see notes under "Fair Value Measurements." Purchases and sales of securities are recorded on a trade-date basis. Interest income, if any, is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Investment Transactions and Income of Fidelity Managed Income Portfolio Class 1

Investment transactions are accounted for on a trade date basis. Investment income is accrued as earned. Income earned from wrap contracts is reported net of fees paid to wrap contract providers.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related expenses are recorded as participant loan maintenance and miscellaneous fees and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2022 and 2021. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefit payments are recorded when paid.

KING INDUSTRIES, INC. 401(k) RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
(continued)

B. SUMMARY OF ACCOUNTING POLICIES (continued)

Excess Participants' Contributions

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as liabilities with the corresponding reductions to contributions. The excess participants' contributions for the years ended December 31, 2022 and 2021 is \$0.

Administrative Expenses

Fidelity funds are managed by Fidelity Management Trust Company. Fidelity is also the recordkeeper and provides administrative services. Certain fees are paid by the Company and certain fees are paid by the Plan. Fees paid by the Plan are reported as Participant loan maintenance and miscellaneous fees on the Statements of Changes in Net Assets Available for Benefits. Investment related expenses are reflected in net (depreciation) appreciation of fair value of investments. Other fees, including the auditor's fees, are paid by the Company.

Subsequent events

The plan has evaluated subsequent events through October 11, 2023, the date the financial statements were available to be issued. King Industries, Inc. going concern and its ability to continue to make the employer discretionary contributions to the King Industries, Inc. 401(k) Retirement Plan are not affected by COVID-19. Market fluctuations – See next page under E. INVESTMENTS

C. TAX STATUS

The trust established under the Plan to hold the Plan's assets is qualified pursuant to the appropriate section of the Internal Revenue Code (IRC), and, accordingly, the trust's net investment income is exempt from income taxes. Effective July 1, 2008, the Plan adopted the Fidelity Prototype Profit Sharing/401(k) Plan and Fidelity has obtained a favorable opinion letter dated June 30, 2020 from the Internal Revenue Service and the Plan Sponsor believes that the Plan continues to qualify and to operate in compliance with the applicable requirements of the IRC. Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the plan has taken certain positions that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

D. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the plan to discontinue its contributions at any time and to terminate the plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their employer contributions.

F. RELATED PARTIES AND PARTIES-IN-INTEREST TRANSACTIONS

Fidelity funds are managed by Fidelity Management Trust Company. Fidelity is also the recordkeeper and provides administrative services. Certain fees are paid by the Company and certain fees are paid by the Plan. Fees paid by the Plan are reported as Participant loan maintenance and miscellaneous fees on the Statements of Changes in Net Assets Available for Benefits. Fidelity Management Trust Company is also the trustee as defined by the plan, therefore, these transactions qualify as parties-in-interest transactions. Other fees, including the auditor's fees, are also paid by the Company.

G. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.

H. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy give the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2

Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The Managed Income Portfolio (Portfolio) was established under the Declaration of Trust for the Fidelity Group Trust for Employee Benefit Plans (Trust) dated April 23, 1981, as amended thereafter from time to time. Fidelity Management Trust Company (FMTC), a Massachusetts chartered trust company, is the Trustee of the Trust and the Manager of the Portfolio. The Portfolio offers two classes of units, Class I and Class II, each of which have equal rights to assets.

The Portfolio's investment objective is to seek the preservation of capital and to provide a competitive level of income over time that is consistent with the preservation of capital. To achieve its investment objective, the Portfolio invests in assets (typically fixed-income securities or bond funds and may include derivative instruments such as futures contracts and swap agreements), enters into "wrap" contracts issued by third-parties, and invests in cash equivalents represented by shares in money market funds. FMTC seeks to minimize the exposure of the Portfolio to wrap credit risk through, among other means, diversification of the wrap contracts across an approved group of issuers. The Portfolio's ability to receive amounts due pursuant to these contracts is dependent upon the issuers' ability to meet their financial obligations.

I. FIDELITY MANAGED INCOME PORTFOLIO

Investment Objectives:

The primary investment objective of the Portfolio is to seek the preservation of capital; the secondary investment objective of the Portfolio is to provide a level of income over time that is consistent with the preservation of capital.

Eligible Investments:

The Portfolio will be primarily invested in the following types of fixed income securities:

- Investment contracts issued by insurance companies, banks, and other financial institutions.
- Debt obligations issued or guaranteed by the U.S. government, U.S. government agencies or U.S. government-sponsored corporations or agencies.
- Debt obligations of domestic and non-U.S. corporations, foreign governmental issuers, and supranationals.
- Mortgaged-backed securities, including collateralized mortgage obligations and commercial mortgage-backed securities, and other debt instruments backed by mortgage-backed securities.
- Asset-backed securities.
- Obligations issued or guaranteed by U.S. local, city and state governments and agencies.
- Private placements, including securities defined under Rule 141A.
- Derivative instruments, including futures contracts, option contracts, and swap agreements.
- Other securities including, but not limited to, zero coupon bonds, medium-term notes, preferred securities, structured notes, floating-rate debt, and inflation protected securities.
- Cash or short-term debt obligations including, but not limited to, government securities, commercial paper, certificates of deposit, time deposits, bankers' acceptances, and repurchase agreements.
- Collective investment vehicles or shares of investment companies that invest primarily in fixed income securities; provided, however, that any such investments in collective investment vehicles or shares of investment companies which are managed by the Trustee or its affiliates shall be made in accordance with the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

The Trustee may lend Portfolio securities through its securities lending operations.

Investment Restrictions

Under normal market conditions, the Portfolio will follow the guidelines listed below:

- At the time of purchase, fixed income securities and investment contracts must meet the then current credit and diversification requirements.
- At the time of purchase, collective investment vehicles and investment companies must have a weighted average internal or external credit rating that meets the then current credit and diversification requirements.
- Securities downgraded below BBB- (or equivalent) subsequent to purchase may be held subject to the then current credit and diversification requirements.
- Investment of the Portfolio shall include features (e.g., investment contracts) that allow the Portfolio to utilize contract (book) value accounting.

KING INDUSTRIES, INC. 401(k) RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
(continued)

I. FIDELITY MANAGED INCOME PORTFOLIO (continued)

Diversifications

Under normal market conditions, the Portfolio will follow the guidelines listed below:

- At the time of purchase, the maximum investment in the debt of a single credit issuer or collateral pool will be 5% of the Portfolio. Debt obligations issued or guaranteed by the U.S. government, U.S. government agencies and U.S. government-sponsored enterprises are exempt from this limitation.
- At the time of purchase, the maximum investment in structured product securities of any single sponsor will be no more than 10%. Debt obligations issued or guaranteed by the U.S. government, U.S. government agencies and U.S. government-sponsored enterprises are exempt from this limitation.

Duration

The maximum duration of the Portfolio shall be three and one-half (3.5) years.

Valuation

Investments are valued as of 4:00 p.m. Eastern time on the last calendar day of the period. It is the policy of the Portfolio to use its best efforts to maintain a stable net asset value (NAV) of \$1.00 per unit, although there is no guarantee that the Portfolio will be able to maintain this value. In accordance with valuation policies and procedures approved by the Trustee, the Portfolio attempts to obtain prices from one or more third party pricing vendors or brokers to value its investments. When current market prices or quotations are not readily available or reliable, securities will be fair valued in good faith by the FMTC Fair Value Committee (the Committee), in accordance with procedures adopted by the Trustee. Factors used in determining fair value vary by security type and may include market or security specific events, changes in interest rates and credit quality. The frequency with which these procedures are used cannot be predicted and they may be utilized to a significant extent. The Committee oversees the Portfolio's valuation policies and procedures and is responsible for approving and reporting to the Trustee all fair value determinations.

The Portfolio is valued daily and will seek to maintain a stable net asset value. Neither the Portfolio nor the Trustee can guarantee that the unit value shall always remain stable. Any benefit responsive investment contracts in the Portfolio will be valued at their contract value, in accordance with generally accepted accounting principles. These investment contracts provide for benefit responsive withdrawals and investment exchanges at contract value; however, withdrawals or investment exchanges prompted by an employer-initiated event, such as withdrawals resulting from the sale of a division of the sponsor of a Participating Plan (the "Plan Sponsor"), a corporate layoff or early retirement program, change(s) in the investment options of a Participating Plan, or termination or partial termination of a Participating Plan, may be paid at the contract's market value, which may be less than contract value, or may be subject to a contract charge or penalty.

Eligible Investors

The Portfolio shall only be made available to 401(k), profit sharing and other qualified or governmental defined contribution plans, including retirement income accounts under Internal Revenue Code Section 403(b)(9) meeting the definition of Qualified Investor under Section 1.12 of the Trust. Monies may be invested in the Portfolio as a result of participant investment directions under a Participating Plan or as a result of Plan Sponsor investment directions with respect to some or all of a participant's account or with respect to forfeitures or other amounts temporarily held on an unallocated basis under a Participating Plan.

Limitations on Withdrawals and Exchanges

- **Participant-Directed Withdrawals and Exchanges -**
Withdrawals made in order to accommodate distribution to participants under a Participating Plan, whether in-service or following termination of employment, may be made on any business day. Withdrawals made in order to accommodate a participant-directed exchange to another investment option under a Participating Plan may be made on any business day, provided that the exchange is not directed into a competing fund (money market funds, self-directed brokerage, or certain other types of fixed income funds). Transferred amounts must be held in a non-competing investment option for 90 days before subsequent transfers to a competing fund can occur.
- **Non-Participant Directed Withdrawals –**
Withdrawals directed by a Plan Sponsor must be preceded by twelve (12) months written notice to the Trustee; provided, however, that the Trustee may, in its discretion, complete any such plan-level withdrawals before the expiration of such twelve (12) month period.

Changes in Portfolio Investment Objectives and Guidelines

The Trustee in its discretion may make changes from time to time in the Portfolio's investment objectives and guidelines. Sixty (60) days prior notice of any such change must be provided to the Applicable Fiduciary of each Participating Plan having an interest in the Portfolio.

Units of Participation

The beneficial interest in the net assets of the Portfolio is represented by units. Net asset value per unit is determined each business day. Issues and redemptions of units are recorded, upon receipt of unitholder's instructions in good order, based on the next determined net asset value per unit normally each day. In unusual market conditions, in accordance with the Declaration of Trust, the Trustee may in its sole discretion, impose restrictions on issues and redemptions of units.
