Report of Independent Auditors

The Plan Administrator and Administration Committee of
Russell Investments Retirement Plan

Report on the Audit of the Financial Statements

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Russell Investments Retirement Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Russell Investments Retirement Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Russell Investments Retirement Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Russell Investments Retirement Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Russell Investments Retirement Plan's internal control. Accordingly, no such opinion is expressed.

- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Russell Investments Retirement Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter

Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, line 4(i) – schedule of assets (held at end of year) as of December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA.

- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Russell Investments Retirement Plan

Notes to Financial Statements

Note 1 – Description of Plan

The following description of Russell Investments Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan, covering employees of Russell Investments Group, LLC (RIGI) and certain of its subsidiaries (the Company) who are 18 years of age or older. New employees may contribute to the Plan upon hire as long as they meet the eligibility requirements for the Plan. Employer contributions will begin after an employee attains six months of service or has had 1,000 hours of service during the 12-month period beginning with his or her initial employment date or Plan year. Any employee classified by the Company as an “intern” is not eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Milliman, Inc. (Milliman or Recordkeeper) is the Plan's recordkeeper. Russell Investments Trust Company (Trustee), a wholly owned subsidiary of the Company, is the Trustee of the Plan. State Street Corporation (State Street or Custodian) is the Custodian of the Plan. On October 2, 2023, the Plan changed recordkeeper from Milliman to Empower Institutional, and changed their custodian and trustee to Empower Trust Company, LLC. Assets of \$541,100,385 were transferred from State Street to Empower Trust Company, LLC on October 2, 2023.

Contributions – Contributions are based on a percentage of a participant's covered pay. Covered pay is defined in the Plan and cannot exceed \$305,000, as adjusted for cost-of-living increases in accordance with Section 401(a)(17)(B) of the Internal Revenue Code (IRC). Each year, participants may voluntarily contribute on a pre-tax basis or an after-tax basis. Employees who are eligible, but not contributing to the Plan, are automatically enrolled in the Plan 60 days after their eligibility date. Automatic enrollment allows for participants to make a pre-tax contribution of 3% of covered pay unless they have elected out of auto-enrollment or choose a different contribution amount. The 3% automatic enrollment rate will automatically increase by 1% as of April 1, following the participant's enrollment date, and each subsequent enrollment date, until the automatic enrollment rate equals 5% of covered pay. All contributions are subject to limits provided by the IRC.

Each year, the Company's board of directors has the discretion to determine the amount of employer contribution to be made to the Plan, but in no event will the contribution exceed the maximum deductible amount allowed by the IRC. The employer contribution is made up of two components: a discretionary nonelective contribution for participants who are employed as of the last day of the year and a matching contribution. There was no discretionary nonelective contribution for the year ended December 31, 2022. The matching contribution is 100% of a participant's pre-tax 401(k) and/or Roth 401(k) contributions up to 5% of covered pay. The matching contribution is made each pay period based upon contributions and covered pay during that pay period. There is also a year-end look-back for the matching contribution for participants whose annual contributions meet or exceed 5% of covered pay but who did not receive their full matching contributions. The discretionary nonelective contribution and the matching contribution are both subject to the Plan's vesting schedule.

Participant accounts – Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes to Financial Statements

Vesting – Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the employer's discretionary nonelective contribution, matching contribution, and related earnings is based on years of credited service. The employer's contributions vest at a rate of 20% after the first year of vesting service and become fully vested after five years of service. A participant also becomes fully vested upon death, normal retirement age of 55, total and permanent disability, or termination of the Plan.

Forfeitures – Upon a participant's termination, the nonvested portion of the employer contribution account is forfeited and may be used to reduce future employer contributions. However, if the participant resumes employment, the forfeited amount may be restored if the employee repays to the Plan the full amount of the distribution attributable to the vested account balance and meets other criteria. At December 31, 2022 and 2021, forfeited nonvested accounts totaled \$411,542 and \$696,918, respectively. Forfeitures of unvested Company matching and discretionary nonelective contributions from terminated participants' accounts are used to offset future Company matching and discretionary nonelective contributions. During 2022, employer contributions were offset by forfeitures totaling \$551,953.

Investment options – Upon enrollment in the Plan, a participant may direct contributions among a variety of commingled trust funds and a mutual fund. Participants may change their investment options at any time.

Payment of benefits – On termination of service, a participant may elect to receive either a lump-sum amount equal to the value of their vested account; or monthly, quarterly, semiannual, or annual installments over a stated period; or to purchase a single or joint-life annuity. If the benefit amount is less than \$1,000, the Plan may distribute to the participant a lump-sum amount, if a direct rollover is not elected within a specified period of time.

Refund of excess contributions – For the Plan years ended December 31, 2022 and 2021, certain participants contributed more than the allowable contributions to the Plan. In order to continue as a qualified plan, the excess participant contributions were refunded to participants during the subsequent Plan year. Such amounts to be refunded to participants are reflected as a payable for excess contributions on the statements of net assets available for benefits.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting – The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual basis of accounting.

Use of estimates – The preparation of financial statements in accordance with generally accepted accounting principles requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment valuation – The investments are stated at fair value. The Plan's Trustee certifies the fair value of all investments. If available, quoted market prices are used to value investments.

Russell Investments Retirement Plan

Notes to Financial Statements

Fair value is the price that would be received to sell an asset or paid to transfer a liability (the “exit price”) in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net appreciation or depreciation in fair value of investments consists of both the realized gains and losses and unrealized appreciation and depreciation of those investments.

Payment of benefits – Benefits are recorded when paid.

Administrative expenses – Certain administrative functions are performed by officers and employees of the Company. No such officers or employees receive compensation from the Plan. Administrative expenses and investment fees incurred by the Plan are paid directly by the Company.

Subsequent events – Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide evidence about conditions that existed at the date of the statement of net assets available for benefits, included the estimates inherent in the process of preparing the financial statements. The Plan’s financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before the financial statements are available to be issued.

The Plan has evaluated subsequent events through October 10, 2023, which is the date the financial statements were available to be issued.

Note 3 – Fair Value Measurements

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Russell Investments Retirement Plan

Notes to Financial Statements

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Common commingled trust funds – Units held in common commingled trust funds are valued using the net asset value practical expedient (NAV practical expedient) according to the audited financial statements of the common commingled trust funds at year-end. The NAV practical expedient is based on the fair value of the underlying assets owned by the common commingled trust funds, minus its liabilities, and then divided by the number of units outstanding. Assets reflect pricing developed on market data obtained from sources independent of the Plan. Common commingled trust funds mainly consist of equities and fixed income. Funds are highly liquid and do not have any liquidity restrictions.

Registered investment companies (mutual funds) – Valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The fund held by the Plan are deemed to be actively traded. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission.

The valuation methods used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table discloses, by level, the fair value hierarchy of the Plan's assets at fair value as of:

Fair Value Measurement at December 31, 2022				
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 3,192,074	\$ -	\$ -	\$ 3,192,074

Note 4 – Party-in-Interest Transactions

Plan investments are units in commingled trust funds and a mutual fund managed by Russell Investments Trust Company. Russell Investments Trust Company is the Trustee, as defined by the Plan and an affiliate of the Company; therefore, these transactions qualify as exempt party-in-interest transactions. There were no fees paid by the Plan for these investment management services for the year ended December 31, 2022.

Note 5 – Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company, by a letter dated March 2, 2012, that the Plan and trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, management has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities, that changes in the values of the investments in the near term could materially affect a participant's account balance and the amounts reported in the financial statements.

Note 7 – Information Certified by the Trustee

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee of the Plan has certified to the completeness and accuracy of:

- Investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2022 and 2021.
- Net depreciation in fair value of investments, dividends, and interest, reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2022.
- Investments reflected on the schedule of assets (held at end of year).

Note 8 – Plan Termination

Although it has not expressed any intention to do so, the Company has the right to terminate the Plan and discontinue its contributions at any time. If the Plan is terminated, amounts allocated to a participant's account become fully vested.

Note 9 – Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31:
