To the Plan Administrator
TI Group Automotive Systems Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audits

We have performed audits of the financial statements of TI Group Automotive Systems Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2022 and 2021 and the related statement of changes in net assets available for benefits for the years then ended and the statement of accumulated plan benefits as of December 31, 2021 and the related statement of changes in accumulated plan benefits for the year then ended and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021 and for the years then ended stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audits of the Financial Statements* section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audits of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or that may become due to such participants.

Auditor's Responsibilities for the Audits of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audits* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that audits conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing audits in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of the ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

To the Plan Administrator
TI Group Automotive Systems Retirement Plan

Supplemental Schedules Required by ERISA

The supplemental schedules of assets held at end of year as of December 31, 2022 and reportable transactions for the year ended December 31, 2022 are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplemental information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1 - Plan Description

The following description of TI Group Automotive Systems Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan's agreement for a more complete description of the Plan's provisions.

General

The plan sponsor for the Plan is TI Group Automotive Systems LLC (the "Company" or the "Plan Sponsor"). The Plan is a defined benefit plan designed to provide pension and certain disability benefits to retirees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Employees become participants in the Plan following completion of the eligibility requirements, as described in the Plan's agreement. During 2019, TI Group Automotive Systems Master Hourly Employees' Retirement Plan (the "Hourly Plan"); TI Automotive Systems Cynthiana, Kentucky Hourly Employees' Retirement Plan (the "Cynthiana Plan"); TI Group Automotive Systems UAW Local 369 Retirement Plan (the "Warren Plan"); and TI Automotive UAW Local No. 9699 Pension Plan (the "Walbro Plan") (collectively, the "Merged Plans") were merged into TI Group Automotive Systems Retirement Plan for Salaried Employees (the "Salaried Plan"), which was subsequently renamed TI Group Automotive Systems Retirement Plan. Each employee group covered by the Merged Plans maintained benefits in the Plan, as previously provided under the Merged Plans. The benefits provided to the respective employee groups are described below.

The salaried group covers substantially all salaried employees of the Company hired prior to February 28, 2006 in the United States; hourly employees at the Winchester, Kentucky facility hired on or after January 25, 2000, with an employment or reemployment date on or before February 28, 2006; and participants in the merged plan of TI Group Automotive Systems UPGWA Local 124 Retirement Plan. Excluding the Merged Plans, to be eligible to participate in the salaried group, a participant must be a salaried employee with an employment commencement date or reemployment commencement date on or before February 28, 2006. The salaried group was frozen to new participants effective February 28, 2006 and amended effective December 31, 2008 to freeze further accrual of benefits for active participants.

The hourly group covers substantially all nonunion hourly employees of the sponsor located in the United States. Effective December 31, 2008, the hourly group can no longer enter the Plan, and the group's benefits are frozen for further accrual for active participants.

The Cynthiana group covers substantially all hourly UAW Local 1937 employees subject to collective bargaining at the Cynthiana, Kentucky plant location of the Company. Effective July 1, 2008, the Cynthiana group can no longer enter the Plan.

The Warren group covers substantially all hourly UAW Local 369 employees subject to collective bargaining at the Warren, Michigan plant location of the Company. Effective October 6, 2016, the Warren group can no longer enter the Plan, and the group's benefits are frozen for further accrual for active participants.

The Walbro group covers substantially all UAW Local 9699 employees subject to collective bargaining at the Caro, Michigan plant location of the Company. Effective November 8, 2006, the Walbro group can no longer enter the Plan. As of December 31, 2020, the Plan was amended to freeze further accrual of benefits for active participants in the Walbro group.

December 31, 2022 and 2021

Note 1 - Plan Description (Continued)

Benefits and Vesting

The Plan provides benefit payments to participants for disability, death, termination, retirement, early retirement, and delayed retirement. The salaried group benefits are generally calculated based on a percentage of compensation and a factor of credited years of service, as defined in the plan agreement. The hourly, Cynthiana, Warren, and Walbro groups benefits are calculated based on the participants' credited years of service multiplied by a factor defined by the plan agreement. Both annuity payments and lump-sum payments are made out of the Plan. Participants may elect to receive a lump-sum payment if their vested balances are less than \$10,000. Participants are fully vested for normal retirement benefits after five years of service.

Death Benefits

In certain circumstances, if an active or terminated employee who has a vested interest in the Plan dies prior to his or her normal retirement age, the surviving spouse or designated beneficiary shall receive a survivor benefit, as defined in the Plan's agreements.

Funding

The Plan is funded by the Plan Sponsor. The Plan Sponsor intends to contribute such amounts to the Plan as necessary to provide assets sufficient to fund pension plan costs accrued, including amortization of past service costs. The Plan has met the ERISA minimum funding requirements for the plan years ended December 31, 2022 and 2021.

Party-in-interest Transactions

Certain assets of the Plan are in investment funds managed by State Street Bank & Trust Company or its affiliates. State Street Bank & Trust Company is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value.

The common collective trust funds are valued at net asset value per share (NAV) (or its equivalent) of the funds, which is based on the fair value of the funds' underlying assets. There were no unfunded commitments or redemption restrictions. The corporate debt securities are valued using quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry-standard models that consider various assumptions, including time value and yield curve, as well as other relevant economic measures. The interest-bearing cash is valued at fair value based on their outstanding balances. See Note 4 for additional information.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Benefit Payments

Benefits are recorded when paid.

December 31, 2022 and 2021

Note 2 - Summary of Significant Accounting Policies (Continued)

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable, under the plan provisions, to the service that employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The present value of accumulated plan benefits is actuarially determined and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment due to death, disability, or retirement between the valuation date and the expected date of payment.

Actuarial Assumptions

The actuarial present value of accumulated plan benefits is determined by an actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of December 31, 2021 were (a) life expectancy of healthy and disabled participants based upon the Pri-2012 Mortality Table with white collar and blue collar adjustments projected with Scale MP-2021, (b) average retirement age of 61, (c) discount rate of 2.80 percent, and (d) actuarial cost method of present value of accrued benefits (unit credit method).

The forgoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The decrease in the accumulated plan benefits due to a change in actuarial assumptions in 2021 was the result of the change in discount rate, mortality tables, and estimated administrative expenses.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

Contributions to the Plan and the accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the financial statements.

Administrative Expenses

Various administrative costs are paid by the Plan unless the Plan Sponsor elects to pay them, in which case the Plan is alleviated from paying the expenses. During 2022 and 2021, the Plan Sponsor elected to pay certain expenses. These transactions qualify as party-in-interest transactions.

December 31, 2022 and 2021

Note 2 - Summary of Significant Accounting Policies (Continued)

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 6, 2023, which is the date the financial statements were available to be issued.

Annuity Contract

On November 10, 2021, the Plan purchased an annuity contract from Principal Life Insurance Company (Principal). Under the agreement, Principal assumed the obligation to pay future pension benefits, starting on January 1, 2022, for retirees currently receiving benefits whose monthly annuity benefit did not exceed \$350. The purchase price of the annuity contract was approximately \$28,900,000 and is reported in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2021. The impact of the annuity purchase is reflected in the actuarial present value of accumulated plan benefits and statement of changes in accumulated plan benefits as of and for the year ended December 31, 2021.

Note 3 - Certified Information

State Street Bank & Trust Company (the "Trustee") holds the Plan's investments and executes all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements, schedule of assets held at end of year, and schedule of reportable transactions are based solely on information certified by the Trustee.

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

- (1) This class represents investments in actively managed common collective trust funds that invest primarily in equity securities, which may include common stocks, options, and futures.
- (2) This class represents investments in actively managed common collective trust funds that invest in a variety of fixed-income investments, which may include corporate bonds, both U.S. and non-U.S. municipal securities, interest rate swaps, options, and futures.
- (3) This class represents investments in actively managed common collective trust funds that invest primarily in fixed-income securities, including, but not limited to, bonds; notes; or other investments, such as government securities, commercial paper, certificates of deposit, master notes, or variable amount notes, with the objective of providing high current income consistent with the preservation of capital and the maintenance of liquidity.

The investment (loss) income for the Plan for the years ended December 31, 2022 and 2021 is as follows:

	2022	2021
Net realized and unrealized (depreciation) appreciation on fixed-income investments	\$ (30,313,265)	\$ 18,053,297
Net realized and unrealized (depreciation) appreciation on other investments	(4,163,200)	2,982,440
Total investment (loss) income	\$ (34,476,465)	\$ 21,035,737

December 31, 2022 and 2021

Note 5 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 6 - Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Provide benefits for all participants or beneficiaries whose benefits have been, or could have been, in pay status for the entire three-year period prior to termination, based on the plan provisions in effect during the five-year period ending on such date under which such benefit would be the least.
2. Provide all other benefits guaranteed under Title IV of the Employee Retirement Income Security Act of 1974 (without regard to the limitation of Section 4022(b)(3) or the limitation on benefits payable to "substantial owners" of Section 4022(b)(5)).
3. Provide all other vested benefits other than those becoming nonforfeitable solely on account of the termination of the Plan.
4. Provide all other benefits under the Plan.

The Pension Benefit Guaranty Corporation (PBGC) guarantees the payment of all nonforfeitable basic benefits subject to certain limitations prescribed by ERISA. Whether all participants receive their benefits should a plan terminate at some future time will depend on the sufficiency, at that time, of the plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.
