Report on the Audit of the Financial Statements

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Bashas' Employees Defined Benefit Pension Plan and Trust, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Bashas' Employees Defined Benefit Pension Plan and Trust's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section.

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

CLA (CliftonLarsonAllen LLP) is an independent network member of CLA Global. See CLAglobal.com/disclaimer.

- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Bashas' Employees Defined Benefit Pension Plan and Trust and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Bashas' Employees Defined Benefit Pension Plan and Trust's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bashas' Employees Defined Benefit Pension Plan and Trust's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Bashas' Employees Defined Benefit Pension Plan and Trust's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2022, and the supplemental schedule of reportable transactions for the year then ended, are presented for purposes of additional analysis and are not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTE 1 DESCRIPTION OF THE PLAN

The following brief description of the Bashas' Employees Defined Benefit Pension Plan and Trust (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan is a defined benefit pension plan initially effective January 4, 1970. The Plan has been amended and restated throughout the years and was most recently restated effective January 1, 2016 and amended effective August 1, 2023 for an annuity payment window. The Plan was previously amended effective December 14, 2021 to transfer sponsorship to Raley's Arizona, LLC (the Company) in connection with the purchase of Bashas'. The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Bashas' Pension Plan Administrative Committee is responsible for the oversight of the Plan.

Eligibility

An employee with one year of service (who completed 1,000 hours or more) in a 12-consecutive-month period from the date employment begins and have completed five years of service, are entitled to annual pension benefits beginning at the normal retirement age of 65.

On January 23, 2009, Bashas' (the Company) elected to freeze all future benefit accruals under the Plan. As of the Plan's freeze date, no further hours of service will be credited, no new participants will enter the Plan, and a participant's average compensation will be frozen as of the freeze date.

Pension Benefits and Vesting Requirements

The benefit to which a participant is entitled is based on his or her years of service and compensation prior to the Plan's freeze date.

The Plan provides a five-year cliff vesting schedule; however, all participants became 100% vested in their accrued benefits as of the Plan's freeze date.

Form of Retirement Benefit

If the present value of a participant's accrued benefit is less than $5,000, the normal form of distribution is one lump sum cash payment and the participant is not permitted to elect any optional form of payment. If the present value of a participant's accrued benefit exceeds $5,000 the normal form is monthly straight life annuity payable in equal installments for the life of the participant that terminates upon the participant's death. The participant may, subject to the spousal consent requirement set forth in the Plan, elect to have his or her benefit distributed in optional form of distribution. Each optional form of distribution is the actuarial equivalent of the normal form of retirement benefit. The optional forms of distribution available are life annuity or straight life annuity, or a life annuity with period certain.

NOTE 1 DESCRIPTION OF THE PLAN (CONTINUED)

If the present value of the vested benefit is less than $200, the benefit will be cashed-out without the consent of the participant. The participant must consent to any benefit distribution that is greater than $200.

Death and Disability Benefits

If a married participant dies after retirement and has begun receiving benefit payments, benefits will continue to be paid under the same form elected to the surviving spouse. If payments have not yet begun, the surviving spouse will receive a minimum death benefit with respect to the accrued benefit in the form of a qualified pre-retirement survivor annuity. No death benefit is payable to a single participant. The Plan does not provide disability retirement benefits.

NOTE 2 SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Payment of Benefits

Benefit payments are recorded when paid.

Investment Valuation and Income Recognition

The Plan's investments are valued at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net deprecation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates

The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make significant estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements. These estimates and assumptions also affect the actuarial present value of accumulated Plan benefits as of the benefit information date, the changes in net assets available for benefits, changes in accumulated Plan benefits during the reporting period, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated Plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to:

NOTE 2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Actuarial Present Value of Accumulated Plan Benefits (continued)

a) Retired or terminated employees or their beneficiaries,
b) Beneficiaries of employees who have died, and
c) Present employees or their beneficiaries.

Benefits under the Plan are based on the employees' highest five consecutive complete credited years of compensation out of the last 10 latest years prior to the normal retirement date. The accumulated Plan benefits for active employees are based on their highest five consecutive complete credited years of compensation ending on the date as of which the benefit information is presented (the valuation date).

Benefits payable under all circumstances – retirement, death, and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided through annuity contracts are excluded from Plan assets and are also excluded from accumulated Plan benefits.

The actuarial present value of accumulated Plan benefits is determined by the Plan's actuary, Findley, a Division of USI, and is that amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, withdrawal, or retirement) between the valuation date and the expected date of payments.

Administrative Expenses

Direct administrative expenses of the Plan can be paid by the Plan or the Company. Substantially all administrative expenses were paid by the Plan during 2022 and 2021. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net investment loss presented in the accompanying statements of changes in net assets available for benefits.

Subsequent Events

The Plan has evaluated subsequent events through October 10, 2023, the date the financial statements were available to be issued.

In June 2023, the Plan sponsor entered into an annuity contract with Western Southern, and as such, approximately $24,000,000 was transferred out of the Plan.

NOTE 3 CERTIFICATION OF INVESTMENT INFORMATION

Wells Fargo Bank, N.A. and Principal Bank., the former trustee and custodian of the Plan, respectively, has supplied the Plan administrator with a certification as to the completeness and accuracy of the following data included in the accompanying financial statements and supplemental schedules. Wells Fargo certification information is applicable as of and for the year ended December 31, 2021, and Principal certification information is applicable as of and for the year ended December 31, 2022.

a. Investments as shown in the accompanying statements of net assets available for benefits of $186,938,739 and $253,709,088 as of December 31, 2022 and 2021, respectively.

b. Net investment loss as shown in the accompanying statements of changes in net assets available for benefits of $(55,712,244) and $(5,358,313) for the years ended December 31, 2022 and 2021, respectively.

NOTE 4 FUNDING

The Company contributes to the Plan as determined by an independent actuary and minimum funding standards under current federal income tax laws. Participants may not make contributions to the Plan. The Company did not make any contributions during 2022 and 2021, respectively. Minimum funding requirements were met for each of the years ending December 31, 2022 and 2021.

NOTE 5 FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

NOTE 5 FAIR VALUE MEASUREMENTS (CONTINUED)

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used at December 31, 2022 and 2021.

Cash Equivalents: Valued based on cost, which approximates fair value in a noninflationary economy and is protected by the Federal Deposit Insurance Corporation (FDIC).

Common Collective Trusts: Valued at the net asset value (NAV) of units of the bank collective trust. NAV is a readily determinable fair value and is the basis for current transactions. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Real Estate Limited Partnership: Valued at the NAV of shares held by the Plan at year-end. The NAV is used as practical expedient to estimate fair value. This practical expedient is not used when it is determined to be probable that the Plan will sell the investment for an amount different than the reported NAV.

The following tables set forth by level, within the fai value hierarchy, the Plan's assets at fair value as of December 31:

	2022			
	Level 1	Level 2	Level 3	Total
Cash and Cash Equivalents	$ 1,377,102	$ -	$ -	$ 1,377,102

Total Investments at NAV				15,358
Total Investments				$ 253,724,446

NOTE 5 FAIR VALUE MEASUREMENTS (CONTINUED)

The following table sets forth additional disclosures for the fair value measurement of investments in certain entities that calculate net asset value per share (or its equivalent) at December 31:

Investment Type	Fair Value as of December 31, 2022	Fair Value as of December 31, 2021	Unfunded Commitments 2022	Unfunded Commitments 2021	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Limited Partnership Interest						
Real Estate Fund	$ 13,003	$ 15,358	$ -	$ -	Varies	Varies

The fund seeks to provide the partners with capital appreciation, dividends, interest, operating cash flow and fee income through the investments held.

NOTE 6 PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits former employees or their beneficiaries have been receiving for at least three years, or those employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.

2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. governmental agency) up to the applicable limitations (discussed subsequently).

3. All other vested benefits (that is, vested benefits not insured by the PBGC).

4. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor’s pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan’s termination.

NOTE 6 PLAN TERMINATION (CONTINUED)

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

NOTE 7 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated Plan benefits are those benefits attributable under the Plan's provisions for the services that employees have rendered. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries; (b) beneficiaries of deceased employees; and (c) present employees or their beneficiaries.

The accumulated Plan benefits for active employees are based on their compensation during the year in which the benefit information is presented (the valuation date). Benefits, payable under all circumstances (retirement, death, and termination of employment), are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated vested and nonvested benefits as of December 31, 2021, the latest date for which such information is available, is as follows:

Vested Benefits:	
Participants and Beneficiaries Receiving Payments	$ 102,208,890
Other Participants	148,558,438
Total Vested Benefits	250,767,328
Nonvested Benefits	14,291
Total Actuarial Present Value of Accumulated Pension Benefits	$ 250,781,619

The change in actuarial present value of accumulated vested and nonvested benefits for the year ended December 31, 2021, the latest date for which such information is available, is as follows:

Change in Actuarial Present Value of Accumulated Pension Benefits:	
Actuarial Present Value of Accumulated Pension Benefits - Beginning of Year	$ 256,444,382
Increase due to Additional Benefit Accumulation and Net Actuarial Experience Gains and Losses	911,285
Changes in Assumptions	(5,077,744)
Interest	7,185,814
Benefits Paid	(8,682,118)
Actuarial Present Value of Accumulated Plan Benefits - End of Year	$ 250,781,619

NOTE 7 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (CONTINUED)

The computations of the actuarial present value of accumulated Plan benefits were made as of January 1, 2022. Had the valuations been performed as of December 31, there would be no material differences. As of January 1, 2022, the discount rate was updated from 2.85% to 3.06% and the mortality table for the funding target was changed from RP-2014 adjusted back to 2006 tables to Pri-2012 tables.

The actuarial present value of accumulated Plan benefits results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of January 1, were as follows:

	January 1, 2022	January 1, 2021
(a) Interest	3.06%	2.85%
(b) Retirement Age	Varying Rates Between Ages 55 and 70, with 5 Years of Service	Varying Rates Between Ages 55 and 70, with 5 Years of Service
(c) Mortality Table Code	Pri-2012 Mortality Tables	RP-2014 Blue Collar Mortality Tables
(d) Representative Annual Withdrawal Rate	5-Year Select and Ultimate Table Based on Sentry Experience	5-Year Select and Ultimate Table Based on Sentry Experience
(e) Actuarial Cost Method	Unit Credit	Unit Credit

The forgoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

NOTE 8 RISKS AND UNCERTAINTIES

The investment securities in which the Plan invests are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

NOTE 8 RISKS AND UNCERTAINTIES (CONTINUED)

Plan contributions and the actuarial present value of accumulated Plan benefits are prepared based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 9 TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated September 12, 2016, that the Plan and related trust are designed in accordance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 10 PARTY-IN-INTEREST TRANSACTIONS

The Plan investments were previously managed by Wells Fargo Bank, N.A. As of February 2021, the Plan investments are managed by Principal Bank (Principal) and Goldman Sachs. Both Principal and Goldman Sachs are custodians as defined by the Plan and, therefore, the investment transactions qualify as party-in-interest transactions. Fees paid by the Plan to Principal were $440,528 for the year ended December 31, 2022. Fees paid by the Plan to Wells Fargo were $483,885 for the year ended December 31, 2021.

Statement of Actuarial Assumptions and Methods

Minimum Funding Annual Interest Rates

24-month segment rates averaged through the end of August 2021 and published in September 2021 (as prescribed by IRC 430) and adjusted to reflect ARPA:

- Segment 1 (0 – 5 years) 4.75%
- Segment 2 (5 to 20 years) 5.18%
- Segment 3 (more than 20 years) 5.92%
- Effective Interest Rate 5.46%

Maximum Deductible Annual Interest Rates

24-month segment rates averaged through the end of August 2021 and published in September 2021 (as prescribed by IRC 430) as follows:

- Segment 1 (0 – 5 years) 1.07%
- Segment 2 (5 to 20 years) 2.68%
- Segment 3 (more than 20 years) 3.36%
- Effective Interest Rate 2.97%

PBGC Annual Interest Rates

Spot segment rates based on December 2021 and published in January 2022 using the Standard Method (as prescribed by IRC 430) as follows:

- Segment 1 (0 – 5 years) 1.16%
- Segment 2 (5 to 20 years) 2.72%
- Segment 3 (more than 20 years) 3.10%
- Effective Interest Rate 2.87%

ASC 960 Discount Rate

Discount Rate 3.06%

Rationale: as selected by the Plan Sponsor to align with ASC 715 assumptions

Salary Scale

Not applicable

Mortality

Funding: Mortality as provided in Notice 2020-85 male and female, with different rate for annuitants and nonannuitants (as prescribed by IRC 430).

ASC 960-20:

- Healthy Active Non-Annuitants: Pri-2012 Blue Collar Mortality Table (male and female) projected 15 years beyond the valuation date using Projection Scale MP-2021 (as selected by Plan Sponsor to align with ASC 715 results).

- Healthy Terminated Vested Non-Annuitants and Healthy Annuitants: Pri-2012 Bottom Quartile Mortality (male and female) projected 7 years beyond the valuation date using Projection Scale MP-2021 (as selected by Plan Sponsor to align with ASC 715 results).

- Disabled Mortality: Pri-2012 Disabled Lives Mortality (male and female) projected 7 years beyond the valuation date using Projection Scale MP-2021 (as selected by Plan Sponsor to align with ASC 715 results).

Rates of Retirement

Actives are assume to retire based on age as follows:

Age	Retirement Rate	Age	Retirement Rate
55	10%	64	15%
56	5%	65	20%
57	5%	66	20%
58	5%	67	20%
59	5%	68	20%
60	5%	69	20%
61	5%	70	20%
62	20%	71 and Over	100%
63	15%		

Terminated Vested participants and Deferred Beneficiaries are assumed to commence at Normal Retirement Date.

Rationale: as selected by Plan Sponsor to meet historical experience

Weighted Average Retirement Age is 63. This is the average retirement age for someone eligible to retire at all ages using the assumed retirement rates and no other decrements.

Rates of Turnover

Active participants are assumed to decrement under retirement assumptions

The following additional rates apply on a select basis.

Year	Rate
0	0.4225
1	0.1645
2	0.1400
3	0.1050
4	0.0525

Rates of Disability

The rates at which participants became disabled by age and gender are shown below.

Age	Males	Females
25	0.00038	0.00047
30	0.00048	0.00080
35	0.00069	0.00136

45	0.00202	0.00323
50	0.00358	0.00533
55	0.00722	0.00952
60	0.01256	0.01159

Assumptions Made In Valuing Spouse's Benefit

85% of males and 55% of female participants are assumed to be married with same age spouses.

Optional Form Selection

All participants are assumed to elect a single life annuity.

Provision for Expenses

The expected expenses were assumed to equal the prior year expenses, minus the PBGC premium for last year, plus the PBGC premium for this year.

Standing Elections

The client has not signed an election that provides for the automatic use of the Carryover Balance and/or Prefunding Balance if necessary to meet the minimum funding requirement.

Asset Method

Funding: Market Value of Assets plus interest adjusted accrued but unpaid contributions as of the valuation date.

ASC 960-20: Market Value of Assets plus any contributions for prior plan years that will be made in this plan year.

Funding Method

Pure Unit Credit

The actuarial liabilities shown in this report are determined using software purchased from an outside vendor which was developed for this purpose. Certain information is entered into this model in order to generate the liabilities. These inputs include economic and non-economic assumptions, plan provisions, and census information. We rely on the coding within the software to value the liabilities using the actuarial methods and assumptions selected. Both the input to and the output from the model is checked for accuracy and reviewed for reasonableness.

Employees Valued	Only participants as of the valuation date were valued.
Changes in Assumptions and Methods since the Last Actuarial Valuation	The interest rates used for determining the funding target in the prior year were 4.75%, 5.36% and 6.11%. These rates were updated to the rates required for the current plan year. The mortality table for the funding target was changed as required under PPA '06. The following updates were made to the ASC 960 assumptions to align with ASC 715: • The discount rate was updated from 2.85% to 3.06%. • The mortality improvement scale for ASC 960 purposes was updated to MP-2021.
Justification for Changes in Actuarial Assumptions	The only assumption changes were to prescribed actuarial assumptions or as a result of At-Risk status. Therefore, the plan did not need IRS approval to change assumptions and there is no need to disclose any "Change in Actuarial Assumptions."

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Summary of Principal Plan Provisions

Plan Sponsor	Raley's Arizona LLC
EIN/PN	87-2167964 / 001
Effective Date	January 4, 1970; restated effective January 1, 2016 and last amended December 2, 2016.
Plan Year	The 12-month period beginning each January 1.
Participation	Each employee other than a collective bargaining employee is eligible to become a participant in the plan on the earlier of the January 1 or July 1 immediately following his completion of 12 months of service and 1,000 hours of service participation. No new participants shall commence participation in the plan after March 15, 2009, or May 28, 2009 for some employees.
Compensation	Compensation for plan purposes means W-2 compensation plus pre-tax salary deferrals earned while a participant but excluding certain expense reimbursements and fringe benefits. A participant's annual compensation for plan purposes is limited as required under Code §401(a)(17).
Social Security Covered Compensation	Average of the Taxable Wage Bases in effect for each calendar year during the 35-year period ending with the last day of the calendar year in which the participant attains (or will attain) Social Security Retirement Age.
Years of Service	Vesting Service credited for benefit and vesting purposes means the number of plan years in which the employee completes at least 1,000 hours of service, subject to certain break in service rules.
Accrued Benefit	No further benefits will accrue under the plan after March 15, 2009 (or May 28, 2009 for some employees).
Additional Accrued Benefit	Contribution amounts as of January 4, 1992.
Normal Retirement Benefit	*Eligibility:* The Normal Retirement Date is the first day of the calendar month coincident with or next following the later of the participant's 65th birthday; or the date, whichever occurs first, that the participant completes five years of service or the 5th anniversary of the participant's date of hire with the employer. *Monthly Benefit*: No further benefits will accrue under the plan after March 15, 2009 (or May 28, 2009 for some employees).

Early Retirement Benefit	*Eligibility:* A participant may retire early after he has attained age 55 and completed 5 years of service with the employer. *Monthly Benefit*: The deferred benefit, to commence at the participant's normal retirement date, is equal to the participant's accrued benefit determined as of his early retirement date. Upon making a written request, the participant's benefit may commence at any time after his termination of employment. If the benefit is to commence immediately, the deferred benefit is reduced by 0.5% for each month by which the participant's date of benefit commencement precedes his normal retirement date.
Late Retirement Benefit	*Eligibility:* Terminate employment after normal retirement date *Monthly Benefit*: The Accrued Benefit determined at Normal Retirement Date or Late Retirement
Disability Benefit	There is no disability benefit.
Death Before Retirement Benefit	*Eligibility:* In the event of the death of a participant after becoming eligible for a vested benefit under the plan, and while either (i) actively employed by the employer, or (ii) on deferred vested status but prior to receiving any retirement benefits, a monthly survivorship benefit shall be payable to the participant's surviving spouse. *Monthly Benefit*: The monthly benefit is payable on the first day of the calendar month following the participant's date of death or the earliest date the participant could have elected benefit payments to commence, whichever is later, and continuing for the lifetime of the surviving spouse. The benefit is determined as 50% of the benefit the beneficiary would have received if the participant had terminated employment the day before his death (or on his actual date of termination if earlier), had lived to the benefit commencement date, and elected an immediate joint and 50% to survivor benefit. *Additional Death Benefit:* If unmarried at the time death, the Additional Accrued Benefit Account will be paid to the beneficiary as a lump sum payment. If married at the time of death, the Additional Accrued Benefit Account will be paid to the spouse in the form of a single life annuity or as a lump sum payment.

Termination Benefit

Eligibility:

If a participant terminates employment after completion of five or more years of vesting service, the participant is entitled to a deferred vested retirement benefit commencing at normal retirement.

Monthly Benefit:

The amount of the benefit is computed in the same manner as the accrued benefit based upon service accrued and compensation earned through the date of termination. A participant shall be 100% vested when he attains normal retirement age.

Other Termination of Employment

If employment is otherwise terminated before retirement, no benefits are provided under the plan.

Top-Heavy Status

If employment is otherwise terminated before retirement, no benefits are provided under the plan. If in any year the plan is determined to be top heavy, the following provisions will take effect:

- A minimum accrued benefit will be determined for each participant equal to 2% of the average earnings, multiplied by the participant's years of service during which the plan is top heavy, limited to 10 such years.

- Participants will become vested in their accrued benefits according to the following schedule:

Years of Vesting Service	Vesting Percentage
less than 5	0%
5	100%

Optional Forms of Payments

Subject to the applicable plan conditions, a participant may select an optional method of benefit payment, in lieu of the prescribed life income, which is actuarially equivalent thereto. The purpose of the optional method is to permit the guarantee of retirement income payments for a minimum period of time (i.e., 5, 10 or 15 years) or to provide a continued life income to a surviving beneficiary after the death of a participant (i.e., 50%, 75% or 100% joint and survivor). However, if no option is elected and the participant is married at the date the benefit commences, the monthly benefit will automatically be paid in the form of a 50% joint and survivor annuity.

If the actuarial equivalent single sum amount due a terminated participant is less than $5,000, such amount shall be distributed to the participant in lieu of any other benefits under the plan.

Actuarial Equivalence	Actuarial equivalent Accrued Benefit: RP-2000 blended for males and females (50%/50%), as published under the RP-2000 Mortality Table for Healthy Annuitants adjusted for Small Amount for ages 50 or older and the RP-2000 Mortality Table for Employees adjusted for Blue Collar ages under 50 and an interest rate of 6%. Single sum calculations shall be determined using the mandated mortality table described under Code Section 417(e)(3). The interest rates used for single sum shall be the November segment rates prescribed in Code Section 417(e)(3).
Benefits Available As Lump Sums	This plan pays only small benefit amounts (lump sum less than $5,000).
Contributions to the Plan	The employer contributes actuarially determined amounts to finance the plan benefits. Participants had the option to make Employee Contributions between January 4, 1987 and January 4, 1992 to an Additional Accrued Benefit Account. Prior to that, there was a Target Benefit Account, which was converted to the Additional Accrued Benefit Account.
Investment of Plan Funds	The assets of the pension plan will be invested by the trustee in accordance with the terms of the trust agreement.
Maximum Benefit Limit	The Internal Revenue Code Section 415 Maximum Benefit payable as a life annuity at Social Security Normal Retirement Age.
Plan Compensation Limit	The Section 401(a)(17) Maximum Compensation that can be recognized for benefit calculation purposes.
Changes in Plan Provisions	The automatic changes, if any, in the plan compensation limit and maximum benefit limit were recognized as amendments for funding purposes.
