INDEPENDENT AUDITORS' REPORT

Plan Administrator
Bridgestone APM Company Retirement Plan
Upper Sandusky, Ohio

Report on the Audit of the Financial Statements

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2022 Financial Statements

We have performed an audit of the accompanying financial statements of Bridgestone APM Company Retirement Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2022 (in liquidation), related statement of changes in net assets available for benefits for the year then ended (in liquidation), the statement of accumulated plan benefits as of December 31, 2021 (ongoing) and the related statement of changes in accumulated plan benefits for the year then ended (ongoing) and the related notes to the financial statements (2022 Financial Statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Bridgestone APM Company Retirement Plan performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion on the 2022 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the 2022 Financial Statements section:

- The amounts and disclosures in the 2022 financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- The information in the 2022 financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2022 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the 2022 Financial Statements section of our report. We are required to be independent of Bridgestone APM Company Retirement Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter

As discussed in Notes 1, 2, and 6 to the financial statements, the Board of Directors authorized the termination of the plan effective April 1, 2022 and Plan management determined liquidation is imminent. In accordance with accounting principles generally accepted in the United States of America, the plan has changed its basis of accounting from the ongoing basis used in presenting the 2021 financial statements to the liquidation basis used in presenting the 2022 financial statements. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the 2022 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the 2022 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2022 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the 2022 financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Bridgestone APM Company Retirement Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2022 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matters

2022 Supplemental Schedules Required by ERISA

The supplemental schedule of reportable transactions for the year ended December 31, 2022 (in liquidation) is presented for purposes of additional analysis and is not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditors' Report on the 2021 Financial Statements

The 2021 financial statements of Bridgestone APM Company Retirement Plan were audited by Gilmore Jason Mahler, LTD, whose members and professional staff joined CliftonLarsonAllen LLP as of January 1, 2023, and has subsequently ceased operations. In accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the prior year audit did not extend to any statements or information related to assets held for investment of the plan that were certified by a qualified institution. Their report dated October 14, 2022 indicated that (a) the amounts and disclosures in the 2021 financial statements, other than those agreed to or derived from the certified investment information, were presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America, and (b) the information in the 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C). Their report also indicated that the form and content of the 2021 supplemental schedule, other than the information in the 2021 supplemental schedule that agreed to or is derived from the certified investment information, was presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA; and the information in the 2021 supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determines meets the requirements of ERISA Section 103(a)(3)(C).

BRIDGESTONE APM COMPANY RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022 (IN LIQUIDATION) AND 2021 (ONGOING)

NOTE 1 DESCRIPTION OF THE PLAN

The following description of the Bridgestone APM Company Retirement Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan, which was amended and restated effective January 1, 2009, is a noncontributory fixed benefit formula plan covering all employees of Bridgestone APM Company (the Company, Plan Administrator or Plan Sponsor) who have one year of service, as defined by the Plan, and have reached 18 years of age. Japanese resident aliens are excluded from participation in the Plan.

Effective May 1, 2009, the Plan was amended to provide that no employee hired on or after that date is eligible for participation in the Plan and no inactive or former participant will again become eligible for active participation in the Plan.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan trustee is Principal Life Insurance Company (Principal). Principal provided a certification of Plan assets for 2022 and 2021.

Plan Termination

In 2022, the Board of Directors approved to amend and terminate the Plan effective April 1, 2022 (also see Note 6). As part of the plan for liquidation, the Plan was amended to allow for a lump-sum distribution or purchase of an annuity. The Plan administrator notified eligible participants of their options, subject to amended provisions. In December 2022, approximately \$32,700,000 in lump-sum payments were paid out to participants who elected this option. See separate disclosure in Note 1 on the purchase of an annuity contract. All participants became 100% vested in benefits earned.

Benefit Payments

Participants employed by the Company at the normal retirement age of 65 are entitled to retirement benefits payable in the form of a pension, which is the actuarial equivalent of the participants' normal form of benefit. The participants' normal monthly benefit is equal to the product of (a) and (b) reduced by (c) below:

- a) An amount equal to (1) 1.00% of average compensation (as defined in the Plan document) not in excess of the social security base, plus (2) 1.35% of average compensation in excess of the social security base.
- b) Accrual service (not to exceed 40 years) on retirement date.
- c) The accrued benefit, if any, on December 31, 1993, from The Pullman Company Retirement Plan.

Retirement benefits are paid to pensioners or beneficiaries in various forms of single life and joint and survivor annuities. If the present value of the participant's vested accrued benefit does not exceed \$5,000, such amounts may be distributed in a lump-sum.

**BRIDGESTONE APM COMPANY RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022 (IN LIQUIDATION) AND 2021 (ONGOING)**

NOTE 1 DESCRIPTION OF THE PLAN (CONTINUED)

Benefit Payments (Continued)

Participants employed by the Company that have attained the age of 55 and have five years of vesting service can elect early retirement and obtain a reduced retirement benefit based on the number of years the early retirement date precedes the normal retirement date. Participants who attain age 62 with 30 years of vesting service are entitled to unreduced benefits upon early retirement.

Death and disability benefits

Participants with ten or more years of vesting service who become totally disabled are eligible to receive an unreduced benefit upon reaching the normal retirement age. In the event of a participant's death, a death benefit is paid in an amount equal to the amount that would have been paid had the participant terminated employment on the date of death, survived to his or her earliest retirement age and retired with a qualified joint and survivor annuity in effect. Death benefits are paid to the participant's spouse or beneficiary as an annuity.

Funding

All contributions to the Plan are made by the Company at their discretion. It is the Company's policy to make contributions of an amount at least equal to the minimum contributions required by ERISA. There were no minimum contributions required to avoid a funding deficiency for 2022 or 2021. During 2022, the Company made contributions to fully fund the plan to satisfy all benefit obligations.

Administrative Expenses

Administrative expenses may be paid by the Plan at the discretion of the Company. Custodial fees charged by Principal Life Insurance Company (Principal) were paid by the Plan. All other administrative expense of the Plan were paid by the Company and qualify as party-in-interest transactions, which are exempt from prohibited transaction rules. Expenses paid by the Company are excluded from these financial statements.

Purchase of Annuity Contract

Effective December 16, 2022, the Plan entered into an agreement with Principal Life Insurance Company (Principal) to purchase a single-premium group annuity contract to pay the accrued benefits for participants of Bridgestone APM Company Retirement Plan. Principal assumed an irrevocable commitment to pay the outstanding benefits for these participants commencing from and after December 16, 2022. A total of \$24,321,662 was paid from the Plan to purchase this contract.

NOTE 2 SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

As a result of the Plan termination effective April 1, 2022, Plan management determined liquidation of the Plan is imminent. In accordance with accounting principles generally accepted in the United States of America, the Plan has changed its basis of accounting from the going concern basis used in presenting the 2021 financial statement to the liquidation basis used in presenting the 2022 financial statements.

DECEMBER 31, 2022 (IN LIQUIDATION) AND 2021 (ONGOING)**

NOTE 2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Basis of Accounting (Continued)

Under the liquidation basis of accounting, assets are stated at their estimated net realized cash value expected to be collected in settling or disposing of assets during the liquidation process and liabilities are stated at their anticipated settlement amounts. As the Plan's assets were previously reported at fair value, the application of liquidation basis did not have a material impact on the Plan's financial statements.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's Administrative Committee to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and on the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from these estimates.

Investment Valuation and Investment Income

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the investment advisers. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation (depreciation) in fair value of investments includes both realized and unrealized investment gains and losses. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Management fees and operating expenses charged to the Plan for investments in pooled separate accounts are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as an addition to net depreciation or a reduction in net appreciation in fair value of pooled separate accounts.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company as provided by the Plan document. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation (depreciation) of fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

NOTE 2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Subsequent Events

The Plan has evaluated subsequent events through October 11, 2023, the date the financial statements were available to be issued.

NOTE 3 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable to service rendered by employees, under the Plan's provisions, as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died, and (3) present employees or their beneficiaries. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of December 31, 2021 were:

Actuarial Cost Method	Unit Credit
Retirement Age	65 for Inactive Participants 10% at Age 62, 10% at Age 63, 10% at Age 64, 100% at Age 65 for Active Participants
Mortality	Pri-2012 Blue collar base rate mortality table projected generationally using the Principal Mortality Improvement Scale (Principal 2017-10)
Valuation Interest Rate	3.00%

The valuation interest rate above was changed from 5.25% as of December 31, 2021. This was due to changes Plan's invested funds in preparation of the pending plan liquidation.

The foregoing actuarial assumptions for the valuation described above were based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. Subsequent to the benefit information date, the Board of Directors approved to amend and terminate the Plan effective April 1, 2022. The Plan satisfied all obligations by distribution of benefits to participants or transfer to an insurance carrier during the Plan year ended December 31, 2022 (as disclosed in Note 1).

The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2022. Had the valuation been performed as of December 31, 2021, there would be no material differences.

NOTE 4 CERTIFICATION OF INVESTMENT INFORMATION

Principal Life Insurance Company, the qualified institution of the Plan, has supplied the Plan administrator with a certification as to the completeness and accuracy of all investment information reflected on the accompanying statements of net assets available for benefits as of December 31, 2022 and 2021, and the statements of changes in net assets available for benefits for the years then ended.

NOTE 5 FAIR VALUE OF INVESTMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2022 and 2021. There have been no changes in the valuation methodologies utilized at December 31, 2022 and 2021.

Pooled Separate Accounts – Valued based on the net asset value at which underlying mutual fund per share (unit) is determined and published and is the basis for current transaction.

NOTE 6 PLAN TERMINATION

The Company signed a formal resolution dated March 10, 2022 to terminate the Plan effective April 1, 2022. As of the effective date of termination, all participants became fully vested and the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits former employees, or their beneficiaries have been receiving for at least three years, or, that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. governmental agency) up to the applicable limitations.
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC as of the effective date of Plan termination. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits at some future time after the effective date of Plan termination will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

NOTE 6 PLAN TERMINATION (CONTINUED)

In 2022, the Board of Directors resolved to terminate the Plan. The Plan then proceeded with the termination by distributing each participant's beneficial interest in the Plan pursuant to participant elections as soon as administratively feasible.

Plan management has completed the standard requirements prescribed by ERISA to begin liquidation of assets during 2022, by distributing benefits to plan participants and transferring to an annuity carrier. Management has deemed liquidation to be imminent as of December 31, 2022, as the necessary steps were complete.

NOTE 7 PLAN TAX STATUS

The IRS has determined and informed the Company by a letter dated October 15, 2015, that the Plan was designed in accordance with applicable Internal Revenue Code (IRC) requirements. The Plan has been amended since receiving the determination letter. However, the Company and Administrative Committee believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and the Plan continues to be tax-exempt. On June 30, 2022, the Plan received a favorable determination that Plan termination does not affect its tax qualification status.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 8 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near-term, and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would-be material to the financial statements.

**BRIDGESTONE APM COMPANY RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022 (IN LIQUIDATION) AND 2021 (ONGOING)**

NOTE 9 EXEMPT PARTY-IN-INTEREST TRANSACTIONS

The Plan's investments consist entirely of pooled separate accounts issued by Principal. Principal is the Plan's trustee and, therefore, these transactions qualify as exempt party-in-interest transactions. As described in Note 2, the Plan paid certain expenses related to Plan operations and investment activity to various service providers. These transactions are party-in-interest transactions under ERISA.

NOTE 10 RECONCILIATION TO FORM 5500

The Plan invests in an annuity contract that has a benefit index for retired participants. The benefit index represents amounts needed to purchase an annuity for each retired participant. Principal issues a certificate to each retiree, which is an irrevocable commitment to pay all the participants' earned benefits at a future date with no impact from fluctuations in fair value of the Plan's investments. These benefit payments are made directly from Plan assets to the retirees as long as there are assets in the Plan's annuity contract to support the projected future payments. In the event that these assets are equal to or less than the benefit index, individual annuity contracts would be purchased from Principal and these contracts would not be included in Plan assets.

As a result of the benefit index, assets designated to pay benefits due to retired participants are excluded from the Plan's Form 5500. The present value of these benefits included in assets designated to pay benefits to retired participants as of December 31, 2022 and 2021, was \$-0- and \$16,554,771, respectively.

The following is a reconciliation of net assets available for benefits and change in net assets available for reporting on the Form 5500 to the financial statements at December 31, and for the years ended December 31, respectively:

Assumptions prescribed by law

Mortality	<u>During benefit payment period</u> IRS Prescribed Mortality - Generational Annuitant, male and female.
	<u>Before benefit payment period</u> IRS Prescribed Mortality - Generational Non-annuitant, male and female.

Assumptions selected by actuary

Inflation	2.25% increase per year. See Long-Term Capital Market Assumptions link.
------------------	--

Asset return	3.50% for the current plan year. The asset return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. For details, see the Long-Term Capital Market Assumptions link.
---------------------	---

Expected expense	The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets. This is the best estimate available of upcoming year's expenses.
-------------------------	---

Retirement	Active participants										
	<table><thead><tr><th>Age</th><th>Probability of retirement</th></tr></thead><tbody><tr><td>62</td><td>10%</td></tr><tr><td>63</td><td>10%</td></tr><tr><td>64</td><td>10%</td></tr><tr><td>65</td><td>100%</td></tr></tbody></table>	Age	Probability of retirement	62	10%	63	10%	64	10%	65	100%
Age	Probability of retirement										
62	10%										
63	10%										
64	10%										
65	100%										

Inactive participants are assumed to retire at age 65.

This assumption is based on the results of recent experience analysis and anticipated future experience. Some participants retire early since the plan provides an early retirement subsidy beginning at age 62 with 30 years of service.

Upcoming year salary increase The preceding year’s salary is increased using the S-5 Table from The Actuary’s Pension Handbook, increased by 3.00% at each age. This table provides a rate of increase that declines as participants age.

Note: not used for Plan accounting calculations.

Age	Upcoming increase
25	7.18%
40	5.72%
55	4.88%

Expected salary increase is composed of salary inflation, a real wage growth and a merit increase. This reflects company salary increase philosophies along with more recent experience of the plan participants.

Disability 1987 Commissioner’s Group Disability Table, six month elimination period, male and female.

We rely on a publicly published table due to the limited size of the plan. The 1987 CGDT was recommended by the Society of Actuaries for pension valuation purposes.

Marriage 75% married; husbands are 3 years older than wives.

This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.

Withdrawal 2003 Society of Actuaries Small Plan Age Table, multiplied by 1.00.

We rely on a publicly published table due to the limited size of the plan. The SOA Small Plan Age Table is the most recent withdrawal experience table published by the Society of Actuaries. A multiplier of 1.00 is applied to this table to reflect the results of the most recent experience analysis and anticipated future experience.

Wage base increase 3.25% per year.

Real wage growth combined with inflation assumption indicates an economic assumption of social security national wage growth in pension plan valuations. Based on historic real growth in National Average Wages (from 1951) and Social Security estimate of around 1%, our best estimate places this assumption in the range of 0.75% to 1.25% above inflation.

Compensation limit increase 2.25% increase per year used in the calculation of the IRC 404 maximum deduction cushion. See Calculated deduction in Rules and regulations.

Compensation limit increase is consistent with the inflation assumption.

Form of benefit Participants are assumed to receive their benefits on the normal form at the assumed retirement age.

Methods prescribed by law

Liability measure Funding target is the present value of the benefits accrued on the valuation date.

Target normal cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.

HCE benefit payment restrictions A ratio of the plan assets and accrued liability is used to determine if restrictions apply. Assets and accrued liability are as of the valuation date and are reduced by:

- any retiree benefit index or floor
- amounts for HCEs who were previously restricted
- an amount for the retiring HCE

The estimated HCE ratio illustrated in this report is based on the market value of plan assets (excluding late deposits) and funding target as of the valuation date. The funding target uses the non-stabilized interest rates as defined in IRC §430(h)(2)(C)(iv). Other assumptions or methods could be used.

Methods selected by plan sponsor

Asset method The asset valuation method is prescribed by law for plans that elect to use a value other than market value.

For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years.

The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value.

When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.

Segment rates 24-month average with no weighting to prior law basis. Use rates where August is the last month included in the average.

PBGC premium basis Variable rate premiums are calculated using census, market value of assets and the one-month average of corporate bond rates in effect on the valuation date. You elected this Standard interest method for the 01/01/2014 plan year and the method must be used for five years before a change can be made.

Segment 1	Segment 2	Segment 3
years 0-5	years 5-20	years 20+
1.16%	2.72%	3.10%

Methods elected by actuary

Retirees Assets and liabilities for current and future retirees are included.

Vested benefits A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date.

The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.

Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

Mortality Based on Pri-2012 Blue collar base rate mortality table projected generationally using the using the Principal Mortality Improvement Scale (Principal 2017-10).

Base rates

Before benefit payment period

Employee amount-weighted, male and female

During benefit payment period

Retiree amount-weighted, male and female

The Society of Actuaries (SOA) is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The Blue collar base rate table was selected based on information provided by the plan sponsor.

Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe "Approach 1" is reasonable for this plan.

Mortality improvement (MI)

Principal 2017-10 MI scale: this scale is based on MP-2021 study and model issued by SOA with the exception of the following user-selected assumptions:

- 10-year convergence period on age and cohort
- Long-term rates (LTR) assumptions using sex-distinct and age-based rates developed from Social Security Trustees Reports.

See [Mortality Documentation](#) for rationale and additional information.

Interest rate used to value liabilities

3.00%

The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.

Treatment of administrative expenses

No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses.

Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer.

Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.

Schedule SB, Line 6, 18, 31, 32 - Explanation of short plan year
Bridgestone APM Company Retirement Plan
EIN 34-1559919 Plan No. 001

The plan year beginning 01/01/2022 reflects a short plan year ending on the termination date of 04/01/2022. The asset distribution date is 12/22/2022.

The annual cost is prorated for the period from 01/01/2022 to 04/01/2022. This short period is based on the plan termination date of 04/01/2022 and reflects the final IRS minimum contribution regulations. Quarterly contribution requirements have been adjusted to reflect the short period.

Schedule SB, Line 2a - Explanation of Assets
Bridgestone APM Company Retirement Plan
EIN 34-1559919 Plan No. 001

Line 2a includes assets allocated for retirees' guaranteed benefits of \$16,554,770.

Schedule SB, Line 22 - Description Of Weighted Average Retirement Age
 Bridgestone APM Company Retirement Plan
 EIN 34-1559919 Plan No. 001

The weighted average retirement age is weighted by the expected percentage of active participants retiring at each age. The retirement rate reflects only those participants who meet retirement eligibility. An active participant working past assumed retirement age is expected to retire at current age.

(1) Age	(2) Expected Active Headcount	(3) Retirement Rate	(4) Expected Retirements (2)*(3)	(5) Weighted Age (1)*(4)

Schedule SB, Part V - Summary of Plan Provisions
Bridgestone APM Company Retirement Plan
EIN 34-1559919 Plan No. 001

This report reflects the maximum benefit limits under Internal Revenue Code (IRC) Section 415 and maximum compensation limits under IRC Section 401 in effect on the first day of each plan year.

The following is a summary of plan provisions and does not alter the intent or meanings of the provisions contained in the contract or plan document. This report reflects the provisions of the plan restatement signed 7/15/2020, including through the plan termination amendment signed 3/10/2022. The plan is frozen and terminated effective 4/1/2022.

Plan eligibility

Age	Attained age 18.
Service	One year. 1,000 hours of service
Class	Any employee of Bridgestone APM Company excluding Japanese Nationals. On and after 05/01/2009, no employee who is hired on and after such date shall become an active participant and no inactive participant or former participant shall again become an active participant.

Normal retirement benefit

Age	Attained age 65.
Form	Monthly annuity payable for life (optional forms may be elected in advance of retirement).
Amount (accrued benefit)	An active participant's monthly accrued benefit as of any date, subject to modifications, will be equal to the product of (a) and (b) reduced by (c) below: (a) An amount equal to (1) 1.00% of his average compensation not in excess of his integration level, plus (2) 1.35% of such average compensation in excess of his integration level. (b) Accrual service (not to exceed 40 years) on such date. (c) Any accrued benefit on December 31, 1993, from the Pullman Company Retirement Plan. Effective April 1, 2022, no additional benefits will be earned in the plan.

Amount	Accrued benefit on date of termination multiplied by the vesting percentage.

Disability benefit

Eligibility	Ten years of vesting service.
Form	A deferred annuity payable at normal retirement date.
Amount	Expected benefit deferred to normal retirement date.

Survivor annuity death benefit

Eligibility	Qualified married participant fully or partially vested in an accrued benefit.
Form	Monthly annuity payable to spouse, deferred to participant's earliest retirement date if later than the date of death.
Amount	If death occurs, the amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his/her earliest retirement age, retired with a qualified joint and 50% survivor annuity in effect, then died the next day.

Definitions

Accrual service	Service from employment commencement date to date of termination (counting a partial month as a complete month).
Average compensation	The monthly average of total pay received for the five consecutive years out of the ten latest years before retirement date which gives the highest average.
Integration level	The monthly average of the Social Security Taxable Wage Bases (in effect under Section 230 of the Social Security Act) for each year in the 35-year period ending with the year the employee attains social security retirement age.
Optional forms of benefit payments	<p>The optional forms of benefit payments are:</p> <p>Monthly annuity payable for life, a straight life annuity with Social Security adjustment option, or 5, 10, or 15 years certain and life</p> <p>Monthly annuity payable as a survivorship life annuity with survivorship percentages of 50, 66 2/3, 75, or 100.</p> <p>The optional form conversion basis is 7.5% interest and the mortality table in Revenue Ruling 95-6 for payments other than lump sums. The optional form conversion basis uses the applicable interest rate and applicable mortality table as set forth in Code Section 417 for lump sum payments. The applicable interest rate uses the second calendar month preceding the first day of the stability period of the month that contains the annuity starting date.</p>

Changes in Principal Eligibility or Benefit Provisions

The report reflects a short plan year due to the plan termination date of 04/01/2022.

Significant Event

The following significant event occurred during the plan year:

The plan terminated effective April 1, 2022. The asset distribution date is 12/22/2022.

Schedule SB, Line 24 – Change in Actuarial Assumptions
Bridgestone APM Company Retirement Plan
EIN 34-1559919 Plan No. 001

Certain non-prescribed assumptions have been changed since last year. These assumptions were changed to better reflect the anticipated experience of your plan. See the attachment, Part V – Statement of Actuarial Assumptions/Methods, for the rationale for each assumption.

The assumed asset return for the current year has decreased from 5.50% to 3.50%. This rate is used in the calculation of the actuarial value of plan assets.
