Independent Auditor's Report

Board of Trustees
Iron Bow Technologies, LLC 401(k) Plan
Herndon, Virginia

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Iron Bow Technologies, LLC 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C), which comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP); and
- the certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by qualified institutions that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the Financial Statements* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audits.

Other Matter - Supplemental Schedule Required by ERISA

The ERISA-required supplemental schedule (Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the ERISA-required supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the ERISA-required supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the ERISA-required supplemental schedule, we evaluated whether the ERISA-required supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the ERISA-required supplemental schedule, other than the information in the ERISA-required supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the certified investment information in the ERISA-required supplemental schedule agrees to, or is derived from, in all material respects, the information prepared and certified by the qualified institutions that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Notes to the Financial Statements

1. Description of the Plan

The following description of the Iron Bow Technologies, LLC 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan administered by Iron Bow Technologies, LLC (the Company) that covers substantially all employees of the Company who are age 21 or older. The Plan was established May 1, 2009 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Company's management is responsible for the oversight of the Plan, monitors investment performance, and reports to the Trustee. The Company retains an independent investment advisor to ascertain the appropriateness of the investment options offered by the Plan, and to recommend changes to the investment options as considered necessary. The independent investment advisor reports to both Company management and the Plan's Trustee.

Trustee (Custodian) and administration of the Plan

The Company is responsible for the overall administration of the Plan. T. Rowe Price Trust Company (TRP Trust) serves as trustee and custodian of the Plan, and T. Rowe Price Retirement Plan Services, Inc. provides investment management and recordkeeping services. TRP Trust holds all assets of the Plan in accordance with the service provider contract with the Company.

Contributions

Each year, participants may contribute an amount of pre-tax annual compensation not to exceed the maximum amount allowed by law. Each participant may also make after-tax Roth contributions to the Plan not to exceed an amount set annually by the Plan Administrator. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Rollover contributions to the Plan totaled \$928,297 for the year ended December 31, 2022 and are included in participant contributions in the accompanying statement of changes in net assets available for benefits.

The Plan includes an auto-enrollment provision whereby all newly eligible employees after the amendment date are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their pre-tax deferral rate set at 3% of eligible compensation and their contributions are invested in a designated balanced fund until changed by the participant.

Participants direct the investment of their contributions into various investment options offered by the Plan. The Company makes safe harbor matching contributions equal to 100% of the first 3% and 50% of the next 2% of a participant's annualized compensation amount each pay period, subject to statutory limits. While the Company may elect to make an additional discretionary contribution, there was no such discretionary contribution made during 2022. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Iron Bow Technologies, LLC 401(k) Plan

Notes to the Financial Statements

Participant accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's matching contributions, the Company's discretionary contributions, if any, and Plan earnings or losses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested balance in his or her account.

Vesting

Each participant is immediately and fully vested in his or her contributions and safe harbor matching contributions, plus actual earnings thereon. Non-elective discretionary and minimum contributions, if any, vest ratably at 20% per year over five years on each anniversary of the participant's date of hire.

Notes receivable from participants

Each participant may borrow a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000, or 50% of his or her vested account balance reduced by outstanding balances from any previous borrowings. Notes receivable from participants are secured by the balance in the participant's account and bear interest at the prime rate at the time the note was approved plus 2%. Repayment terms for the notes range from one to five years or up to fifteen years for the purchase of a primary residence. Principal and interest is repaid ratably through semi-monthly payroll deductions.

Payment of benefits

Upon termination of employment due to death, disability, retirement, or termination of service, a participant or beneficiary may elect to receive a lump-sum distribution or delay the receipt of benefits. However, if the employee's vested balance is less than \$1,000, he or she must receive a lump sum distribution. In certain hardship situations, as described in the Plan, participants may withdraw all or part of their account balance while actively employed. Participants may also receive non-hardship in-service withdrawals if the age of 59.5 is attained.

Forfeited accounts

The Plan holds \$103 and \$0 in forfeited, nonvested accounts at December 31, 2022 and 2021, respectively. Forfeited accounts are utilized first to reduce Plan expenses and second to reduce employer contributions.

2. Summary of Significant Accounting Policies

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes

Iron Bow Technologies, LLC 401(k) Plan

Notes to the Financial Statements

therein, and disclosures of contingent assets and liabilities. Actual results could differ from estimated amounts.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisors, custodians and other service providers. See Note 4 for additional information related to fair value measurements.

The Plan's shares of mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The Plan's investments in collective trusts are valued at the NAV of units of the collective trust fund. The NAV, as provided by the trustee of the collective trust, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. The collective trusts are direct filing entities and there are no unfunded commitments.

One of the Plan's investment options includes a participant-directed brokerage account which allows participants to select various investments. These accounts are comprised of common stock, mutual funds, and a money market fund. Common stock is valued at the published market price on an active market. The mutual funds are valued at the NAV that is quoted on an active market and is determined based on the fair value of the underlying assets at the end of each day. Participant-directed brokerage accounts are administered by Charles Schwab & Co., Inc., a sub-service organization to T. Rowe Price Retirement Plan Services, Inc.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of securities are recorded principally on a trade-date basis. Interest income is recorded on the accrual basis, and dividends are recorded on the ex-dividend date. Net depreciation in fair value of investments includes the Plan's realized gains and losses on investments sold during the year, unrealized gains and losses on investments held during the year, and certain investment related expenses.

Iron Bow Technologies, LLC 401(k) Plan

Notes to the Financial Statements

Notes receivable from participants

Notes receivable from participants are measured at the unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2022 and 2021. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payments of benefits

Benefits are recorded when paid.

Administrative expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the respective participant's account and are included in administrative expenses. Investment advisory fees for services provided by an independent advisor are also included as administrative expenses. Fees related to investment management and recordkeeping services are included as a component of the net depreciation in fair value of investments.

Recently issued accounting pronouncement not yet adopted

In June 2022, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2022-03, *Fair Value Measurement of Equity Securities Subject to Contractual Sale Restrictions*, to clarify that a contractual restriction on the sale of an equity security is not considered part of the unit of account of the equity security and is not considered in measuring the fair value of the equity security in accordance with ASC 820, *Fair Value Measurements*. ASU No. 2022-03 also adds certain disclosures for equity securities subject to contractual sales restrictions. ASU No 2022-03 is effective and applied prospectively for public business entities for fiscal years beginning after December 15, 2023, and for all other entities is effective and applied prospectively for fiscal years beginning after December 15, 2024. Plan management is in the process of evaluating the effect of this ASU on the Plan's financial statements.

3. Certified Investment Information

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the following data included in the accompanying financial statements and ERISA-required supplemental schedule (Schedule H, Line 4i - Schedule of Assets (Held at End of Year)) has been certified as complete and accurate by T. Rowe Price Trust Company (TRP Trust).

- Investments and notes receivable from participants as shown in the statements of net assets available for benefits as of December 31, 2022 and 2021.
- Investment income and interest income on notes receivable from participants as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2022.

Iron Bow Technologies, LLC 401(k) Plan

Notes to the Financial Statements

- Investment information included in the supplemental schedule (Schedule H, Line 4i, Schedule of Assets (Held at End of Year)) as of December 31, 2022, as shown on the ERISA-required supplemental schedule.

At the request of the Plan Administrator, the Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing such information to the related information included in the financial statements and ERISA-required supplemental schedule (Schedule H, Line 4i - Schedule of Assets (Held at End of Year)).

4. Fair Value Measurements

The framework for measuring fair value establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB Accounting Standards Codification (ASC) 820 are described as follows:

Level 1 - Observable inputs based on unadjusted quoted prices in active markets for identical assets and liabilities (highest priority)

Level 2 - Inputs, other than quoted prices in active markets, that are observable for the asset or liability, either directly or indirectly

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Unobservable inputs for which there is little or no market data, which require the reporting entity to develop its own assumptions (lowest priority).

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

5. Related Party Transactions and Party-in-Interest Transactions

Party-in-interest transactions include those transactions with fiduciaries or employees of the Plan, any person who provided services to the Plan, an employer whose employees were covered by the Plan, employee organizations whose members were covered by the Plan, a person who owned 50% or more of such an employer or employee organization, or relatives of such persons.

As of December 31, 2022 and 2021, and during the year ended December 31, 2022, the Plan held investments and traded in mutual funds, collective trust funds, and money market funds held by TRP Trust, which is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions and are exempt from the prohibited transaction rules of ERISA. Notes receivable from participants are also exempt party-in-interest transactions.

6. Income Tax Status

Effective August 19, 2020, the Plan adopted the T. Rowe Price Non-Standardized Pre-Approved Profit-Sharing Plan (Pre-Approved Plan). The IRS ruled on June 30, 2020, that the Pre-Approved Plan, including related amendments, as designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since the adoption of the Pre-Approved Plan. The Plan Administrator believes the Plan is currently designed and is being operated in accordance with the IRC.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Notes to the Financial Statements

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks such as interest rate, credit risk and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. Plan Termination

Although the Company has not expressed any intent to do so, the Company has the right under the Plan to reduce or discontinue its matching contributions on behalf of the employees at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of Plan termination, participants would become 100% vested in any of their unvested non-elective discretionary contributions.

9. Subsequent Events

The Plan Administrator and the Company's management evaluated events through October 11, 2023, the date the financial statements were available for issuance. The Plan Administrator and the Company's management is not aware of any subsequent event that would require recognition or disclosure in the financial statements.
