Supplemental schedules required by 29 CFR 2520.103-10 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, other than the schedules listed above, are omitted because of the absence of the conditions under which they are required.

INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator and Participants of the
Vistra Retirement Plan

Opinion

We have audited the financial statements of Vistra Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the Statements of Net Assets Available for Benefits as of December 31, 2022 and 2021, and the related Statements of Changes in Net Assets Available for Benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2022 and 2021, and the changes in net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America (US GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Plan Management for the Financial Statements

Plan management (Management) is responsible for the preparation and fair presentation of the financial statements in accordance with US GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by Management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of assets (held at end of year), assets (acquired and disposed of within the year) and reportable transactions as of and for the year ended December 31, 2022, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor (DOL)'s Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of Management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the supplemental schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

VISTRA RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 1: THE PLAN

General

The Vistra Retirement Plan (the "Plan") is a qualified noncontributory defined benefit pension plan that covers eligible active collective bargaining unit employees of a subsidiary of Vistra Corp. ("Vistra") and its U.S. subsidiaries (collectively the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). Prior to July 2, 2020, Vistra was named Vistra Energy Corp., and the Plan was named the Vistra Energy Retirement Plan.

The Northern Trust Company (the "Trustee") is the Plan's trustee. Aon is the Plan's administrative service provider. The Plan provisions are included in the Plan document, effective July 2, 2020, and a description of the Plan is included in a summary plan description, which has been made available to all participants in the Plan. Reference should be made to such documents for a more complete understanding of Plan benefits and operations.

Eligible employees generally become participants in the Plan upon attainment of age 21 and completion of one Year of Service (as defined in the Plan document). Under the Traditional Retirement Formula, Plan participants with five or more years of Vesting Service (as defined in the Plan document) after age 18 or who retire on or after attainment of age 65 are fully vested in the Plan and are eligible to receive monthly retirement benefits based on participant pay and Accredited Service (as defined in the Plan document). Under the Cash Balance Formula, Plan participants with three or more years of Vesting Service after the age of 18 or who retire on or after attainment of age 65 are fully vested in the Plan and are eligible to receive a lump sum payment or monthly retirement benefits based on contribution credits as determined by age, Accredited Service and participant earnings (as defined in the Plan document), plus interest credits under the Cash Balance Formula (as described below). The Plan permits early retirement beginning at age 55 with at least 15 years of Accredited Service. Some reductions in normal monthly retirement benefits occur under the Traditional Retirement Formula if participants elect to begin receiving benefits prior to reaching age 62. Certain death benefits are also provided under the Plan.

The Plan closed to new hires as of October 1, 2007. Eligible employees hired prior to October 1, 2007 generally became participants in the Plan after attainment of age 21 and completion of one Year of Service (as defined in the Plan document). All eligible employees who were hired on or after January 1, 2001, and who therefore became eligible to participate in the Plan on or after January 1, 2002, are covered under the Cash Balance Formula of the Plan. Under the Cash Balance Formula, the Company makes a monthly contribution to a hypothetical account established for each Cash Balance Formula participant. The amount of the Company contribution is equal to a percentage of the participant's eligible compensation determined on the basis of the participant's combined age and years of Accredited Service according to the following table:

Age + Years of Accredited	Contribution Credit
<35	3.5%
35-49	4.5%
50-64	5.5%
65+	6.5%

Participants can receive their Cash Balance Formula benefit upon retirement or when they otherwise terminate employment with the Company, provided that, if the termination of employment is for a reason other than retirement and the participant has less than ten years of Accredited Service under the Plan, the participant may not receive their benefit until the participant would have ten years of Accredited Service had they not terminated from employment or the participant attains age 65 (whichever comes first), except as explained in the paragraph immediately below. Participants may, at their election, receive their benefit earned under the Cash Balance Formula in the form of a single lump sum payment or one of the monthly annuities available under the Plan. The amount of the Cash Balance Formula benefit is based on the value of the participant's Cash Balance Formula account.

VISTRA RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

For all Plan participants who terminate employment before retirement with a benefit in the Plan that is less than or equal to \$1,000, their benefit is distributed to them in a lump sum payment upon termination of employment. If a participant's benefit is greater than \$1,000 but less than or equal to \$5,000 upon termination of employment before retirement, the participant may elect to receive their benefit in the form of a lump sum payment upon termination of employment. Otherwise, upon direction of the Vistra Retirement Plan Committee, the benefit may be transferred to an individual retirement account.

For certain military personnel who do not return to active employment due to death or disability while on active duty, the Company will make contributions to the Plan for the period during which the employee was on active duty, and in the event of death, will apply the provisions of the Plan relating to survivor benefits as if the participant were an active employee on the date of death.

Plan Termination

The Plan is subject to termination at any time by the Board of Directors of Vistra, in which event all Plan assets will be used for the benefit of participants and their beneficiaries under the Plan. In the event of liquidation, the distribution of assets shall conform to the law and shall recognize the priority of claims and interests in the payment of benefits in accordance with applicable provisions of the law. Whether a particular participant's accumulated benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed at the time by the Pension Benefit Guaranty Corporation ("PBGC"). Some benefits may be fully or partially provided for by the then-existing assets or the PBGC, while other benefits may not be provided for at all.

Contributions

The Company's contributions to the Plan to fund the benefits are based on an independent actuarial study and satisfies the minimum funding requirements of ERISA for the years 2022 and 2021. The Company made no contributions to the Plan for the 2022 and 2021 plan years. The assets of the Plan attributable to the contributions made by the Company are to be used solely to provide benefits to participants of the Plan.

Party-in-Interest

The Trustee invests certain assets in NTGI Collective U.S. Government Short-Term Investment Fund, which is managed by The Northern Trust Company. Aon is the Plan's administrative service provider, and the Plan invests in certain assets managed by Aon Investments USA (see Note 4). These transactions qualify as party-in-interest transactions allowable under ERISA regulations.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States (GAAP). Benefit payments are recorded when paid. Subsequent events have been evaluated through October 6, 2023, the date these financial statements were available to be issued.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein and the actuarial present value of accumulated plan benefits as of the valuation date. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan holds various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

VISTRA RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

Benefit costs are impacted by actual and actuarial estimates of employee demographics, the level of contributions made to the Plan, expected and actual earnings on Plan assets and the discount/inflation rates used in determining the projected benefit obligation. Changes made to the provisions of the Plan may also impact on current and future benefit costs. Changes in general interest rates may result in increased or decreased benefit cost obligations reported in future periods. It is reasonably possible that such changes could have a material effect on the amount of accumulated plan benefits reported in the financial statements.

Investments

The investments of the Plan are presented at fair value. See Note 4 for additional information on fair value measurements.

Contributions

Contributions to the Plan are recorded in the period that the Plan's actuary determines they relate to, except that a contribution receivable is recorded to the extent that amounts due are pursuant to formal commitments as well as legal or contractual requirements in existence at the end of the Plan year.

Administrative Expenses

During the year ended December 31, 2022, the Plan paid the costs and expenses of investment transactions and the fees of investment managers engaged by the Vistra Retirement Plan Committee, which consists of certain management-level employees of the Company. The Plan also incurred trustee fees, PBGC insurance fees and relevant actuarial, audit and legal fees.

Actuarial Assumptions

The actuarial present value of accumulated plan benefits is determined by the consulting actuary by applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and the probability of payment between the valuation date and the expected payment date. The more significant actuarial assumptions used in the actuarial valuations at January 1, 2022 include:

- use of an annual rate of interest of 4.50% for January 1, 2022;
- use of the amounts-weighted aggregate rates of the Pri-2012 mortality study projected generationally from 2012 with Scale MP-2021 and the Pri-2012 contingent survivor mortality study projected generationally from 2012 with Scale MP-2021 for January 1, 2022; and
- the assumed rates of retirement at various ages at January 1, 2022 for all Company participants are the following:
-

Ages	Rates Assumed
55-59	8%
60-61	10%
62-64	15-20%
65-69	25%
70 and older	100%

NOTE 3: INVESTMENTS

The investment managers during the 2021-2022 plan years were as follows:

- Aon Investments USA (Equity, Fixed Income and Real Estate); and
- State Street Global Advisors ("SSGA") (Equity and Fixed Income).

Managers invest the assets under guidelines established by the Vistra Retirement Plan Committee.

VISTRA RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

Plan Investment Strategy and Asset Allocations

The investment objective for the Plan is to invest in a suitable mix of assets to meet the future benefit obligations at an acceptable level of risk, while minimizing the volatility of contributions. Fixed income securities held primarily consist of corporate bonds from a diversified range of companies, U.S. Treasuries and agency securities and money market instruments. Equity securities are held to enhance returns by participating in a wide range of investment opportunities. International equity securities are used to further diversify the equity portfolio and may include investments in both developed and emerging markets. Real estate, hedge funds and credit strategies (primarily high yield bonds and emerging market debt) provide additional portfolio diversification and return potential.

The target asset allocation ranges of the Plan's investments by asset category are as follows:

Asset Category	Target Allocation
Fixed income securities	50%-70%
Global equity securities	20%-28%
Real estate	6%-10%
Credit strategies	2%-6%
Hedge funds	2%-6%

Expected Long-Term Rate of Return on Assets Assumption

The Plan's strategic asset allocation is determined in conjunction with the Plan's advisors and utilizes a comprehensive Asset-Liability modeling approach to evaluate potential long-term outcomes of various investment strategies. The study incorporates long-term rate of return assumptions for each asset class based on historical and future expected asset class returns, current market conditions, rate of inflation, current prospects for economic growth, and taking into account the diversification benefits of investing in multiple asset classes and potential benefits of employing active investment management.

Asset Class	Expected Long-Term Rate of Returns
Fixed income securities	5.2 %
Global equity securities	7.9 %
Real estate	4.8 %
Credit strategies	7.0 %
Hedge funds	7.5 %
Weighted average	5.8 %

Significant Concentrations of Risk

The Plans' investments are exposed to risks such as interest rate, capital market and credit risks. The Plan seeks to optimize return on investment consistent with levels of liquidity and investment risk which are prudent and reasonable, given prevailing capital market conditions and other factors specific to the Plan. While the Plan recognizes the importance of return, investments will be diversified in order to minimize the risk of large losses unless, under the circumstances, it is clearly prudent not to do so. There are also various restrictions and guidelines in place including limitations on types of investments allowed and portfolio weightings for certain investment securities to assist in the mitigation of the risk of large losses.

NOTE 4: FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") Accounting Standards Codification 820 ("ASC 820") defines fair value as the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between willing market participants at the measurement date. ASC 820 provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The three levels of the fair value hierarchy are described below. At December 31, 2022 and 2021, none of the Plan's assets were classified as Level 1, 2 or 3.

- Level 1 valuations use quoted prices in active markets for identical assets that are accessible at the measurement date. An active market is a market in which transactions for the asset occur with sufficient frequency and volume to provide

VISTRA RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

pricing information on an ongoing basis.

- Level 2 valuations use inputs that, in the absence of actively quoted market prices, are observable for the asset, either directly or indirectly. Level 2 inputs include: (a) quoted prices for similar assets in active markets, (b) quoted prices for identical or similar assets in markets that are not active, (c) inputs other than quoted prices that are observable for the asset such as interest rates and yield curves observable at commonly quoted intervals and (d) inputs that are derived principally from, or corroborated by, observable market data by correlation or other mathematical means.
- Level 3 valuations use unobservable inputs for the asset. Unobservable inputs are used to the extent observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset at the measurement date.

The fair value measurement of an asset (e.g., an investment) is required to fall in its entirety in one level, based on the lowest level input that is significant to the fair value measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgment, considering factors specific to the asset being measured.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

At December 31, 2022 and 2021, all Plan investments measured at fair value on a recurring basis are set forth in the following table:

	December 31,	
	2022	2021
Common funds whose fair value is estimated using net asset value per share:		
Commingled trusts	\$ 219,611,907	\$ 309,356,160

Hedge funds	11,107,834	—
Common funds whose fair value is estimated using net asset value per share	<u>\$ 251,125,563</u>	<u>\$ 332,936,859</u>

Net Asset Value (NAV) Per Share

In accordance with FASB Accounting Standards Update No. 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, the Plan's fair value disclosure includes the category, fair value, redemption frequency, and redemption notice period for those assets whose fair value is estimated using the NAV per share, or its equivalent, for which the fair value is not readily determinable at December 31, 2022 and 2021. For the Plan, such assets include investments in common collective trust funds and registered investment companies.

NOTES TO FINANCIAL STATEMENTS

NOTE 5: ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

The actuarial present value of accumulated Plan benefits at January 1, 2022 is as follows:

	January 1, 2022
Vested benefits:	
Participants currently receiving payment	\$ 223,343,981
Participants with deferred benefits	11,688,947
Active participants	66,958,803
Total	301,991,731
Non-vested benefits	637,350
Total actuarial present value of accumulated benefits	<u>\$ 302,629,081</u>

Changes in the actuarial present value of accumulated Plan benefits for the year ended January 1, 2022, are as follows:

	Year Ended January 1, 2022
Actuarial present value of accumulated benefits at beginning of year	\$ 322,584,544
Increase (decrease) during the year attributable to:	
Increase for interest due to increase in the discount period	12,702,661
Benefits paid to participants	(16,487,752)
Assumption changes	(14,588,886)
Benefits accumulated	(1,581,486)
Net decrease	(19,955,463)
Actuarial present value of accumulated benefits at end of year	<u>\$ 302,629,081</u>

The annual rate of interest used to discount estimated future benefit payments increased from 4.04% to 4.50% in 2022.

The foregoing actuarially determined amounts were calculated using assumptions based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated benefits.

NOTE 6: TAX STATUS

The Plan obtained its latest determination letter dated March 3, 2021, in which the Internal Revenue Service stated that the Plan, as designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). Accordingly, the Plan is exempt from federal income taxes under Section 501(a) of the Code. The Plan has been amended since receiving the determination letter. However, the Plan's administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code. Therefore, no provisions for income taxes have been included in the Plan's financial statements.

The Plan is subject to examinations by taxing jurisdictions; currently, the Plan is not under examination. The Plan has recorded no uncertain tax positions.

Schedule SB, line 24—Change in Actuarial Assumptions

The funding valuation reflects the following assumption changes:

- The inflation rate assumption changed from 2.50% to 2.20%.
- The retirement rates, disability rates, and pay increase rates assumptions were updated to reflect recent plan experience and future expectations, based on the completion of an assumptions study.

These changes were made to better reflect the anticipated plan experience. These assumption changes did not reduce the funding shortfall more than the threshold stated in the Internal Revenue Code Section 430(h)(5), so approval of the Commissioner is not required.

Schedule SB, line 24—Change in Actuarial Assumptions

The funding valuation reflects the following assumption changes:

- The inflation rate assumption changed from 2.50% to 2.20%.
- The retirement rates, disability rates, and pay increase rates assumptions were updated to reflect recent plan experience and future expectations, based on the completion of an assumptions study.

These changes were made to better reflect the anticipated plan experience. These assumption changes did not reduce the funding shortfall more than the threshold stated in the Internal Revenue Code Section 430(h)(5), so approval of the Commissioner is not required.
