Independent Auditor's Report

ESOP Administrative Committee
Triple T Transport Employee Stock Ownership Plan

Opinion

We have audited the financial statements of Triple T Transport Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2022 and 2021, and the changes in its net assets available for benefits for the year ended December 31, 2022, in accordance with accounting principles generally accepted in the United States of America

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter—Investments

As disclosed in Note 7, the financial statements include an investment representing 99% of total assets as of December 31, 2022 and 2021, whose fair value has been estimated by an independent appraisal, in the absence of a readily ascertainable fair value, with the assistance of management and approved by the trustee. Because of the inherent uncertainty of the valuation, the estimated value may differ significantly from the value that would have been used had a market for the investment existed, and the difference could be material. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2022, and schedule of reportable transactions for the year ended December 31, 2022, are presented for purposes of additional analysis and are not a required part of the financial statements but is supplementary information required by the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Triple T Transport Employee Stock Ownership Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of Triple T Transport Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for more information.

General: The Plan was established, effective January 1, 2010, for substantially all employees of Triple T Transport, Inc. (Triple T Transport, the Company or Plan Sponsor).

The Plan operates as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986 (IRC), as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by the Administrative Committee of the Plan comprising members of the Company's management as appointed by the Board of Directors of the Company. The trust department of an independent third party bank, GreatBanc Trust Company, is the Plan's trustee.

During 2011, the Plan purchased 120,000 shares of Triple T Transport common stock from the Company's stockholders for \$17,640,000 and holds the stock in a trust established under the Plan. The purchase price was based on an appraisal of the shares by a third-party appraiser. In connection with the purchase, the Plan issued a note payable to the Company amounting to \$17,640,000.

During 2022, the Plan Sponsor redeemed 7,492 shares of common stock from ESOP participants, reducing the total shares outstanding from 120,000 to 112,508. Effective December 20, 2022, the Plan purchased 7,492 shares of common stock from the Company for \$4,809,601. The purchase price was based on an appraisal of the shares by a third-party appraiser. In connection with the purchase, the Plan issued a second note payable to the Company amounting to \$4,809,601.

The borrowings are collateralized by the unallocated shares of common stock. The Company has no rights against the shares once they are allocated to eligible participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2022 and 2021, and for the year ended December 31, 2022, present separately the assets and liabilities and changes therein pertaining to the accounts of employees with vested rights in allocated stock (allocated) and stock not yet allocated to employees (unallocated).

Eligibility: Employees of the Company become eligible to participate in the Plan upon reaching 21 years of age and completion of 1,000 hours of service. Employees become participants as of the earlier of the first day of the plan year or the first day of the seventh month of such plan year next following the date the employee meets the eligibility requirements.

Vesting of benefits: A participant's balance vests 100% after three years of service, if a participant's employment with the Company ends due to retirement, permanent disability or death, his or her account balance will become fully vested and nonforfeitable.

Voting rights: Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the trustee prior to the time that such rights are to be exercised. The trustee shall vote, as directed by the Plan Administrator, subject to the trustee's fiduciary duties under ERISA: (i) any unallocated shares; (ii) any allocated shares as to which no voting instructions have been received; and (iii) all shares held in the trust on any issue not subject to participant voting rights.

Triple T Transport Employee Stock Ownership Plan

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Put option: Under federal income tax regulations, Company stock that is held by the Plan and its participants, and is not readily tradable on an established market or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market, at its fair value as of the last day of the preceding plan year, as determined by an independent appraiser. The Company can pay for the purchase with a promissory note not to exceed five years, with interest payable at a reasonable rate.

Diversification: Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into cash. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect during each of the Participant's Qualified Election Periods to diversify up to 25% (50% in the case of the Participant's last Qualified Election Period) of the Participant's ESOP Stock Account balance eligible for diversification. Any distributions of Company stock to participants for diversification distributions are required to be immediately repurchased (redeemed) by the Plan at fair market value as of the last valuation date prior to distributions, if the Company maintains its S corporation tax status. However, the Plan can choose to make distributions in cash, in lieu of Company stock. During 2022, \$611,707 of distributions related to diversification were transferred to Triple T Transport Employees 401(k) Profit Sharing Plan (the 401(k) Plan).

Contributions: The Company makes contributions to the Plan as determined by the Company's Board of Directors. The Company shall make contributions at least in the amount which, when combined with dividends that may lawfully be used to make payments on the acquisition loan, are sufficient to meet the Plan's obligations on all outstanding acquisition loans. The contributions are payable in cash, in shares of the Company's stock, or a combination thereof. Participants receive allocated contributions if they have met the 1,000 hours of service requirement during the year and if they are employed by the Company on the last day of the Plan year. However, employment with the Company is not required on the last day of the Plan year if termination is due to retirement, disability or death. Employee contributions are not permitted.

Department of Labor Consent Order and Judgment: On November 19, 2018, the Department of Labor (DOL) issued a Consent Order and Judgment to the Plan Sponsor and the Plan's former trustee, which resulted in the Plan being awarded \$415,000 of restorative payments from the former trustee. The restorative payments are due in variable annual installments beginning in November 2018 and ending when the awarded amount has been satisfied. The restorative payments are allocated to participants that previously received an allocation of shares between January 28, 2011, and the date of the Consent Order and Judgment. The Plan was amended effective February 22, 2019, to specify how the restorative payments would be made available to participants. Restorative payments, once allocated to participants, are transferred from the ESOP to the Triple T Transport Employees 401(k) Profit Sharing Plan (the 401(k) Plan) as soon as administratively feasible. During 2022, there were no restorative payments received from the former trustee due to his financial insolvency. During 2022, no restorative payments were transferred to the 401(k) Plan. As of December 31, 2022, \$126,513 of cumulative restorative payments have been received by the Plan and transferred to the 401(k) Plan.

In addition, the Plan Sponsor is required to make dividend payments to the Plan of \$750,000 in equal payments over a 10-year period starting with the 2018 plan year. The allocation of the consent order dividends is made to participants in accordance with provisions of the Plan. The dividend payments are used to service the Plan's acquisition note payable as a repayment on the note payable. The shares of stock released from the suspense account as a result of such repayment, will be allocated in accordance with the provisions of the Plan.

Triple T Transport Employee Stock Ownership Plan

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Participant accounts: Each participant's account is credited as of the last day of each plan year with an allocation of the Company's contribution, plan earnings and forfeitures of terminated participants' nonvested accounts. Allocations are based on participant earnings or account balances, as defined.

Distributions to participants: Upon a participant's retirement, death, permanent disability or termination of employment with the Company, the Administrative Committee will direct the trustee to distribute the value of the vested interest in the participant's account, subject to the participant consent requirements as stated in the Plan. Normal retirement is deemed to occur on the later of the participant's 65th birthday or the date on which he or she has been a participant for five years.

Termination of a participant for any reason other than death, disability or retirement, will result in the benefit payout commencing not later than one year after the end of the fifth plan year following the Plan year in which the employee terminated.

Forfeitures: Forfeitures are allocated in the same manner as Company contributions are allocated. Forfeitures of terminated participants' nonvested account balances allocated to remaining participants during the year ended December 31, 2022, totaled \$39,522 (39.11 shares). There were no unallocated forfeitures at December 31, 2022 and 2021.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements have been prepared under the accrual basis of accounting.

Use of estimates: The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make significant estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosures of contingent assets and liabilities at the date of the financial statements, and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Allocations: The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts to employees with rights in allocated stock (allocated) and (b) stock not yet allocated to employees (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which the debt service is actually paid.

Investment valuation and income recognition: The Plan's investments are stated at fair value (see Note 4). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Restorative payments: Restorative payments pursuant to the DOL's consent order and judgement are recorded when received.

Triple T Transport Employee Stock Ownership Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Distributions to participants: Distributions are recorded when paid.

Subsequent events: The Plan has evaluated subsequent events through October 10, 2023, the date the financial statements were available to be issued.

Note 3. Investments

The Plan's investments are as follows at December 31:

	2022		2021	
	Allocated	Unallocated	Allocated	Unallocated
Employer stock:				
Number of shares	61,970.3	58,029.7	64,041.1	55,958.9
Cost	\$ 9,109,630	\$ 12,238,622	\$ 9,414,042	\$ 8,225,958
Fair value	62,623,437	58,641,363	41,111,202	35,922,798

Note 4. Fair Value Measurements

U.S. GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2022 or 2021.

Triple T Transport Employee Stock Ownership Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

Employer stock: Valued at fair value based on an annual independent appraisal. This appraisal was based on a weighted average blending of two fair value methodologies, applying 70% weight to the Discounted Cash Flow approach and 30% weight to the Guideline Public Comparable approach, consistent with prior years. In addition, a discount of lack of marketability was applied. The appraiser took into account historical and projected cash flow and net income, market-comparable valuations, and the estimated fair value of certain nonoperating company assets and excess working capital.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2022 and 2021:

		2022			
		Level 1	Level 2	Level 3	Total
Employer stock		\$ -	\$ -	\$ 121,264,800	\$ 121,264,800
Total assets at fair value		\$ -	\$ -	\$ 121,264,800	\$ 121,264,800

		2021			
		Level 1	Level 2	Level 3	Total
Employer stock		\$ -	\$ -	\$ 77,034,000	\$ 77,034,000
Total assets at fair value		\$ -	\$ -	\$ 77,034,000	\$ 77,034,000

Changes in fair value levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2022, there were no significant transfers in or out of Level 3.

Note 4. Fair Value Measurements (Continued)

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value

Measurements: The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

Description	Fair Value		Valuation Techniques	Unobservable Inputs
	2022	2021		
Employer common stock (Triple T Transport, Inc. Common Stock)	\$ 121,264,800	\$ 77,034,000	Discounted Cash Flow	5-year model that discounts projected annual debt-free cash flows of the Company.
				Discount for lack of marketability
			Guideline Company Comparables	Identification of nine public companies sharing similar characteristics to Triple T Transport, Inc. such as products, services, growth, and geography.
				Discount for lack of marketability
				Comparable company multiples have been discounted for advantages over Triple T Transport, Inc. such as access to debt and equity markets, size and product diversification.

Note 5. Note Payable

In January 2011, the Plan entered into a \$17,640,000 loan agreement with the Company. The proceeds of the loan were used to purchase the Company's common stock. Unallocated shares are collateral for the loan. The agreement provides for the loan to be repaid through annual required principal payments of \$705,600, plus interest at 3.88%, with the balance payable in full on February 15, 2034. As of December 31, 2022, the balance of the loan was \$8,483,832.

In December 2022, the Plan entered into an additional \$4,809,601 loan agreement with the Company. The proceeds of the loan were used to purchase 7,492 shares of the Company's common stock. Unallocated shares are collateral for the loan. The agreement provides for the loan to be repaid through annual required principal payments of \$192,384 plus interest of 4.34%, with the balance payable in full on February 15, 2047. As of December 31, 2022, the balance of the loan was \$4,809,601.

Note 6. Related Party and Party-in-Interest Transactions

The Plan invests in Company common stock and has indebtedness to the Company. These are related party and party-in-interest transactions. As described in Note 1, the Plan has a number of service providers. Such providers are parties-in-interest under ERISA.

Note 7. Risks and Uncertainties

The Plan's investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market and credit risks, as well as valuation assumptions based on earnings, cash flows and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits. As of December 31, 2022 and 2021, 99% of the Plan's assets are invested in Triple T Transport, Inc. common stock.

Note 8. Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to plan provisions. Upon termination of the Plan, a participant's account becomes fully vested and the Employee Benefits Administration Committee directs the trustee to pay all liabilities and expenses of the ESOP and to sell shares of financed common stock held as collateral to the extent it determines such sale to be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.

Note 9. Administration of Plan Assets

The Plan's assets, which consist principally of employer stock, are held by the trustee of the Plan.

The Company's contributions are held and managed by the trustee, which invests cash received and interest and dividend income. The trustee also administers the payment of interest and principal on the loan.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Administrative expenses for the trustee's fees are paid directly by the Company.

Notes to Financial Statements

Note 10. Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated June 23, 2014, stating that the Plan is qualified under the IRC and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, it believes that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken a significant uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
