Report of Independent Auditors

The Retirement Investments Committee and Participants
XL America, Inc. Employee Savings Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2022 Financial Statements

We have performed an audit of the financial statements of XL America, Inc. Employee Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2022, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes (collectively referred to as the “financial statements”).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2022, and for the year then ended, stating that the certified investment information, as described in Note 8 to the financial statements, is complete and accurate.

Opinion on the 2022 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor’s Responsibilities for the Audit of the 2022 Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2022 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2022 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2022 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2022 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2022 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matters

Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2022, (referred to as the “supplemental schedule”), is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Report of Other Auditors on 2021 Financial Statements

Another auditor performed an audit on the financial statements of the Plan as of and for the year ended December 31, 2021. In accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, their audit did not extend to any statements or information related to assets held for investment of the Plan that were certified by a qualified institution. In their report dated October 7, 2022, they indicated that in their opinion (a) the amounts and disclosures in the financial statements, other than those agreed to or derived from the certified investment information, were presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America, and (b) the information in the financial statements related to assets held by and certified to by a qualified institution agreed to, or was derived from, in all material respects, the information prepared and certified by an institution that management determined met the requirements of ERISA Section 103(a)(3)(C).

**XL AMERICA, INC. EMPLOYEE SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS**

1. Description of Plan

The following description of the XL America, Inc. Employee Savings Plan (the “Plan”) provides general information. Employees participating in the Plan (“Participants”) should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan covering all employees of X.L. America, Inc., its subsidiaries and affiliates (collectively referred to as the “Employer” or “Company”) as described in the Plan document. The Company is a wholly owned subsidiary of AXA SA. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 as amended (“ERISA”).

X.L. America, Inc. is both the Plan administrator and Plan sponsor.

Bank of America, N.A. acts as the trustee of the Plan and Merrill Lynch, Pierce, Fenner & Smith Incorporated Retirement Services, a subsidiary of Bank of America, N.A., acts as the record keeper.

Eligibility

All employees, as defined in the Plan Document, are eligible to participate in the Plan on the first day of employment. Upon hire, the employees are automatically enrolled in the Plan at a contribution level of 5% pre-tax unless they affirmatively elect not to participate in the Plan or to increase or decrease their Pre-Tax Contribution percentage. If a participant is auto enrolled, they will be enrolled in an auto escalation, of 1%, which stops when the participant's contribution level reaches 10% of his or compensation. If they are auto enrolled, they are invested using the Advice Access Personal Fund Manager which is the default investment option. The Participant has the option to opt out of all of this and pick their own investments or change their contribution rate at monthly intervals throughout the plan year.

Contributions

Participants may select investment choices on the basis of their individual goals and objectives. Participants may invest in one or more investments, each offering different opportunities and elements of risk. Contributions are deposited directly into the investment funds as designated by the Participants. Contributions to the Plan consist of participant contributions, employer contributions and rollover contributions as described below.

Participant Contributions

Each year, participants may contribute up to 50% of pre-tax eligible compensation, as defined in the Plan Document. Eligible compensation consists of salary plus annual bonus up to Internal Revenue Service (“IRS”) limitations. Per ERISA, the maximum pre-tax contribution per participant is \$20,500 for the year 2022. Participants age 50 or older may also elect to make supplemental contributions of up to \$6,500.

The combination of pre-tax and after-tax participant contributions may not exceed 50% of the Participant’s total eligible compensation.

Employer Contributions

The Company contributes 200% of the first 5% of Participant Plan compensation contributed as pre-tax contributions to the Plan. After-tax contributions (other than with respect to Roth 401K contributions) are not eligible for Employer matching contributions. Employer matching contributions are funded to the Plan semi-monthly. The Company also is authorized to make additional discretionary matching contributions and discretionary non elective contributions.

**XL AMERICA, INC. EMPLOYEE SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS**

"Description of Plan Continued"

Rollover Contributions

Participants are eligible to rollover eligible distributions from another employer's qualified plan into the Plan, as defined in Internal Revenue Code Section 402(c). Distributions from conduit ("rollover") individual retirement accounts may be eligible for rollover status, provided the original distribution was from a qualified plan. Such rollover transfers do not qualify for Employer matching contributions.

Participant Accounts

Each Participant's account is credited with the Participant's contribution and allocations of the Employer contributions and earnings thereon. Investment options chosen by each Participant govern the allocation and distribution of investment income. Any dividends and investment gains or losses are deposited to the Plan and reinvested in the appropriate Participant accounts. The benefit to which a Participant is entitled is the benefit that can be provided from the Participant's vested account.

Vesting

Participants are fully vested immediately in their contributions plus actual earnings thereon. Vesting in the Employer contribution portion of their accounts is based on years of service with the Company. Participants are vested 34% after one year of service, 67% after two years of service and are 100% vested after three years of service. Participants become 100% vested in the Employer contributions upon disability, death, retirement or on termination of the Plan (See Note 6).

Notes Receivable from Participants

Notes receivable from participants are valued at their unpaid principal balance plus any accrued but unpaid interest. Participants may borrow from their vested account a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The \$50,000 maximum will be reduced, however, by the highest outstanding loan balance in the preceding twelve months. General-purpose loans must be repaid within five years. Loans used to acquire a primary residence must be repaid within fifteen years. Participants may have only one loan outstanding at a time. Interest rates for participant loans range from 4.25% to 8.0%.

Loan balances outstanding are recorded as an asset in a separate loan account. Payments of principal and interest are made by payroll deductions of an amount sufficient to amortize the loan over the repayment period. Assets in the loan account are evidenced by promissory notes secured by a security interest in the Participant's account. Loan interest rates are established based on the prime rate plus one percentage point on the first day of the month in which the loan is made. Principal and interest received on Participants' loans are reinvested in accordance with Participant investment instructions.

Upon termination of employment, the Participant has three months to pay off the unpaid balance on the loan; otherwise it is offset from the distribution to the Participant, as required by ERISA, and is taxable to the Participant. The default is a taxable event at the time it occurs. The loan balance stays on the records to prevent the participant from taking another loan until the participant has a distributable event or pays off the balance on an after-tax basis.

Payment of Benefits

Withdrawals

Participants may withdraw supplemental after-tax contributions and related investment earnings prior to the age of 59 1/2. Participants are limited to two withdrawals in a calendar year. After the age of 59 1/2, all vested accounts may be withdrawn at any time upon request. Participants are able to withdraw after-tax, pre-tax and rollover contributions for financial hardship reasons. Participants' pre-tax contributions will be suspended for six months following a financial hardship withdrawal. Any amounts withdrawn will be provided in cash. Participants under the Plan who have reached the age 55 and who have completed three years of service (four years of service for a participant with no hours of

service on or after January 1, 2016) shall have a right to elect to receive a distribution of all or part of the vested portion of their matching contribution account and profit sharing contribution account. Participants may withdraw from their after-tax contribution account and/or their rollover contribution account for any reason. Under certain circumstances, active participants may request a withdrawal during military service, for a qualified reservist distribution or if they incur a disability.

Terminations

A Participant whose employment has terminated with a vested account balance that does not exceed \$1,000 receives a lump sum distribution of their vested balance. If the vested account balance exceeds \$1,000 the terminated Participant may elect to either remain in the Plan or receive a lump sum distribution.

Forfeitures

A Participant whose employment terminates (other than upon disability, death or retirement) forfeits the amount of his or her unvested account balance. Forfeitures, if any, shall be used to pay Plan expenses, reduce employer contributions, or as otherwise directed in accordance with the plan. Forfeited non-vested accounts totaled \$714,154 and \$923,055 as of December 31, 2022 and 2021, respectively. During the year ended December 31, 2022, forfeitures of \$804,133 were used to offset employer contributions to the Plan.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates

The preparation of the financial statements in conformity with U.S. GAAP requires Company management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes, therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value for mutual funds equals the quoted market price in an active market on the last business day of the Plan year. Shares of mutual funds are valued at the net asset value of shares held by the Plan on the last business day of the Plan year.

The Plan's common/collective trust investments, including INVESCO Stable Value Fund (the "Trust"), are valued at their net asset value per unit practical expedient as reported by the fund manager of the collective trust. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisor and trustee. See Note 4 for a discussion of fair value measurements.

The net appreciation/depreciation in the fair value of investments consists of the net realized gains and losses on the disposal of investments and the change in unrealized appreciation/depreciation of the market value for the investments held in the Plan. Realized gains and losses are calculated using the historical cost of the asset.

Historical cost is the original cost of an asset. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

Contributions

Participant and related employer contributions are recorded in the period in which the payroll deductions are made from Plan Participants. Any employer true-up contributions are recorded by the Plan in the year in which they are earned by the Participant. The December 31, 2022 Statement of Net Assets Available for Benefits includes an accrual of \$4,584,804 related to the December 31, 2022 true-up contributions which were approved post December 31, 2022 and remitted to Bank of America, N.A. by March 2, 2023.

Payment of Benefits

Benefit payments are comprised of termination or hardship distributions, in-service distributions, loan distributions and retirement benefit payments. Benefits are recorded when paid.

Fees and Expenses

Generally, administrative fees and expenses are paid by the Company except for fund-level operating expenses, which are paid by the Plan.

XL AMERICA, INC. EMPLOYEE SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS

3. Risk and Uncertainties

The Plan provides for various investment options, including the option to invest in any combination of offered mutual funds and common collective trusts. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, changes in risks in the near term could materially affect Participants' account balances and the amounts reported in both the Statement of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict.

4. Fair Value Measurements

Fair Value Measurements on a Recurring Basis

The Plan measures financial instruments included in its investment portfolio at fair value on a recurring basis. The fair value of a financial instrument is the amount that would be received to sell an asset in an orderly transaction between willing, able and knowledgeable market participants at the measurement date. The degree of judgment used in measuring the fair value of financial instruments generally correlates with the level of pricing observability. Financial instruments with quoted prices in active markets generally have more pricing observability and less judgment is used in measuring fair value. Shares of registered investment companies (mutual funds and money market funds) are valued at published net asset value ("NAV") in an active market. Conversely, financial instruments traded in other-than-active markets or that do not have quoted prices have less observability and are measured at fair value using valuation models or other pricing techniques that require more judgment.

An active market is one in which transactions for the asset being valued occur with sufficient frequency and volume to provide pricing information on an ongoing basis. An other-than-active market is one in which there are few transactions, the prices are not current, price quotations vary substantially either over time or among market makers, or in which little information is released publicly for the asset being valued. Pricing observability is affected by a number of factors, including the type of financial instrument, whether the financial instrument is new to the market and not yet established, the characteristics specific to the transaction and general market conditions.

Fair Value Hierarchy

Assets recorded at fair value in the statement of net assets available for benefits are measured and classified in a hierarchy for disclosure purposes. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). An asset or liability's classification within the fair value hierarchy is based on the lowest level of significant input to its valuation. A review of the fair value hierarchy classifications is conducted on an annual basis. Changes in the observability of valuation inputs may result in a reclassification of levels for certain assets within the fair value hierarchy. In such instances, the transfer between levels is reported at the beginning of the reporting period. The three levels of the fair value hierarchy are described further below:

- Level 1 – Quoted prices in active markets for identical assets or liabilities (unadjusted); no blockage factors.
- Level 2 – Other observable inputs (quoted prices in markets that are not active or inputs that are observable either directly or indirectly) – include quoted prices for similar assets/liabilities (adjusted) other than quoted prices in Level 1; quoted prices in markets that are not active; or other inputs that are observable or can be derived principally from or corroborated by observable market data for substantially the full term of the assets or liabilities.

XL AMERICA, INC. EMPLOYEE SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS

"Fair Value Measurements Continued"

- Level 3 – Unobservable inputs that are supported by little or no market activity and are significant to the fair value of the assets or liabilities. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions that market participants would use in pricing the asset or liability. Level 3 assets and liabilities include financial instruments whose values are determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The following is a description of the valuation methodology used for common/collective funds.

Common/collective funds

Common/collective trust funds: The investments underlying the common/collective trust fund investments generally include shares of common stock and fixed income investments whose values are determined on the basis of quoted prices in an active market. The Plan's common/collective trust fund investments are valued based on the net asset value ("NAV") per share or unit as a practical expedient as reported by the fund manager, multiplied by the number of shares or units held as of the measurement date. Accordingly, these NAV-based investments have been excluded from the fair value hierarchy.

Units of common collective trust funds are valued based on the information reported by the investment advisor using the audited financial statements of the collective trust at year-end. These non-public investment vehicles are valued at the end of day price per share provided by the administrator of the fund and do not trade on an exchange. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. Therefore, the investment is valued at its year-end net asset value as a practical expedient to fair value.

The following tables present information about assets measured at fair value on a recurring basis at December 31, 2022 and 2021 and indicates the level of the fair value measurement based on the levels of the inputs used:

Assets at Fair Value as of December 31, 2022

a) In accordance with ASC subtopic 820-10, certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. For the years ended 2022 and 2021 the common collective trusts held by the Plan that met this criteria were valued at \$309,020,339 and \$259,313,391, respectively. The fair value amounts presented in the above tables are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

(b) NAV-based assets are redeemable on a daily basis with a one day notice with no restrictions and there are no unfunded commitments.

5. Related-Party and Party-in-Interest Transactions

The Plan investments are in funds which are not managed or influenced by Bank of America, N.A. The Plan has entered into a service based pricing agreement with the custodian. Transactions with the custodian qualify as party-in-interest transactions. For providing the agreed upon services, Bank of America, N.A. will receive an annual revenue requirement for every participant with an account balance from the Company. The agreement provides for additional services on a per quote basis and float income as outlined.

Effective 2014, the Plan's Investment Committee approved working with a third party independent investment advisor. The advisor assists the Committee with the Plan's quarterly performance evaluations and the development and monitoring of the investment policy statements. Fees paid to the custodian deducted from the Plan for administrative services amounted to \$(7,875) for the year ended 2022. Custodian expenses in 2022 included charges for the independent benefit advisor. In addition, there are certain administrative expenses that are paid by the Company on behalf of the Plan that would also qualify as party-in-interest transactions.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of such Plan termination, Participants would become 100% vested in their Employer contributions.

XL AMERICA, INC. EMPLOYEE SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS

7. Tax Status

The Plan received a favorable determination letter from the IRS dated September 30, 2021, stating the Plan is qualified under applicable sections of the Internal Revenue Code (the "Code"). The determination letter considered Plan amendments as of December 31, 2019. The plan has been amended since receiving this determination letter. However, the Plan administrator believes the Plan is designed and being operated in compliance with the applicable requirements of the Code. There are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Certified Financial Data

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA, the information included in this note, as well as any information related to investments and investment activity were prepared by or derived from information certified by Bank of America, N.A., the Plan trustee, and furnished to the Plan administrator. The Plan administrator has obtained certification from the trustee that such information is complete and accurate. The investment holdings and valuation information included in the accompanying financial statements and in Notes 2, 4 and 8 has been prepared from the data certified by the trustee. The fair value level classifications, as more fully described in Note 4, are not obtained from data certified by the trustee, but are recommended by the trustee and approved by the Plan administrator.

The following is a summary of the Plan's financial information and data included in the Plan's financial statements and supplemental schedule:

	As of December 31,	
	2022	2021
Investments:		
Investments at fair value	\$1,036,754,208	\$ 1,263,494,586

Net depreciation in fair value of investments	\$ (232,824,114)	
Interest income on notes receivable from participants	\$ 292,826	

The certification mentioned above includes all investment information discussed in the supplement schedule.

9. Subsequent Events

The Plan has evaluated subsequent events through October 11, 2023, the date the financial statements were available to be issued and has determined that there were no subsequent events requiring adjustment to or disclosure in the financial statements.
