SAVINGS PLAN**

FINANCIAL STATEMENTS AND INDEPENDENT AUDITOR'S REPORT

December 31, 2022

Independent Auditor's Report

Retirement Committee and Participants
Boise Cascade Company Savings Plan
Boise, Idaho

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Boise Cascade Company Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Boise Cascade Company Savings Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 9 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental Schedule H, line 4i-schedule of assets held at end of year as of December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance

with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

BOISE CASCADE COMPANY SAVINGS PLAN

Notes to Financial Statements

1. *Description of Plan*

The following description of the Boise Cascade Company Savings Plan (Plan) provides only general information. Participants should refer to the Summary Plan Description and to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan containing a "cash or deferred arrangement" as described in Section 401(k) of the Internal Revenue Code of 1986 (IRC or Code) which, subject to eligibility requirements, covers all U.S. salaried employees of Boise Cascade Company and its subsidiaries (the Company or we). The Plan is subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is intended to be an "individual account plan" in accordance with Section 404(c) of ERISA, and is intended to satisfy the requirements of Department of Labor Regulation § 2550.404c-1.

The Retirement Committee, made up of officers and employees of the Company, is responsible for oversight of the Plan. The Retirement Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Company's Board of Directors.

Contributions

During 2022 new employees, who work at least 20 hours per week, are automatically enrolled in the Plan at a pretax contribution rate of 5% with contributions automatically invested in an appropriate Target Retirement Date Fund with annual automatic 1% contribution rate increases, occurring in the month of September, up to a maximum of 10%. In 2022 the Retirement Committee approved an amendment to the plan to remove the minimum work hours per week from the definition of eligible employee and instead provide immediate eligibility for part-time associates to participate in the plan effective January 1, 2023. They may opt out of participation, adjust their contribution rate or change their investment selections at any time. Participants may contribute up to 50% of annual compensation on a pretax basis, a Roth (after-tax) basis, or a combination of the two, as defined in the Plan and subject to limitations set forth in the Code. Participants may also contribute amounts representing distributions from other defined contribution plans (rollover). The Company contributes an amount equal to 4% of each salaried participant's eligible compensation to the Plan as a nondiscretionary company contribution. Contributions are subject to certain IRC limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions.

Each year the Company may choose to make an additional discretionary non-matching contribution as a percentage of eligible compensation (the percentage contributed is determined by the participant's years of service). All participants, regardless of hire date, are eligible for any additional discretionary contribution made by the Company. The discretionary contribution for the 2022 and 2021 plan years are shown as a contribution receivable on the accompanying Statements of Net Assets Available for Benefits.

Investment Options

Upon enrollment in the Plan, participants may direct their contributions to a variety of investment options. Investments include common and collective trust funds that are index funds, balanced funds, and fixed income funds. The Plan also offers a Self-Managed Brokerage Account option which affords more

flexibility in choosing retirement savings investments. Participants are allowed to invest, at their discretion, in most New York Stock Exchange, American Stock Exchange, and NASDAQ listed stocks, most corporate and government bonds, and mutual funds. Investments are made in accordance with investment policies established by the Company and incorporated into investment management agreements with each investment manager, the Plan document, and agreements between the Principal Financial Group (Principal), as recordkeeper and trustee, and the Company. The Company remits participant contributions to the trustee as soon as reasonably practicable and the trustee invests participants' contributions, and earnings thereon, among the investment funds as directed by each participant.

Participants have the right to change the amount of their contributions, change the investment funds in which contributions are invested, and transfer existing account balances among the Plan's investment funds on a daily basis, with some restrictions.

Participant Accounts

Each participant's account is credited with the participant's contributions, Company contributions, and an allocation of Plan earnings and expenses based upon the relative account balances and investment funds in which the participant's account is invested. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting and Forfeitures

Participants are immediately vested in their contributions and earnings thereon. Company contributions and earnings thereon vest after two years of credited service. However, regardless of a participant's years of service or contribution, a participant is 100% vested upon his or her 65th birthday, death or disability while employed, or termination of employment as a result of the sale or permanent closure of the participant's location or division. At December 31, 2022, forfeited non-vested account balances totaled \$119,404 and \$62,241, respectively. The 2022 account balance will be used to reduce future employer contributions. In 2022, employer contributions were reduced by \$418,379 using forfeited non-vested accounts.

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 (reduced by the highest outstanding note receivable balance during the previous 12 months less any outstanding note receivable balance on the date of the new note), 50% of their vested account balance, or 100% of their account balance not including employer contributions and earnings thereon. The notes are secured by the balance in the participant's account. Unless otherwise approved, the interest rate on new notes is the greater of prime plus 2% or 6% determined as of the beginning of the plan year, compared with an interest rate of prime plus 2% on notes issued prior to January 1, 2017. Interest rates on notes outstanding at December 31, 2022, ranged from 4.25% to 7.75%. Notes receivable are repayable ratably through payroll deductions generally over a maximum of five years. Notes receivable from participants are assets of the Plan. Participants may only have a maximum of two notes outstanding at any one time.

Payment of Benefits

On termination of employment, where an account balance is \$1,000 or less, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. On termination of employment, where an account balance is greater than \$1,000, a participant may elect the manner in which their account balance is received. Upon termination of service prior to retirement, a participant may receive a lump sum or may defer payment until early or normal retirement age. Upon

termination of service due to disability or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account; quarterly, semi-annual, or annual installments; or a combination of lump sum and installment payments. If termination occurs due to death, the vested balance would be paid to the beneficiary. Spousal beneficiaries have the same payment options as beneficiaries, and nonspousal beneficiaries will receive payment in a lump sum. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution or may defer distribution to his or her retirement date and then choose from the retirement distribution options. Participants may also choose partial withdrawals at any time after termination of employment. Participants are subject to the required minimum distribution provisions of the Plan.

Distributions of a participant's before-tax and Roth contributions and/or a participant's rollover contributions may be made at the participant's election prior to termination upon the attainment of age 59 ½. Distributions of a participant's before-tax contributions may also be made prior to termination if the participant requests a hardship withdrawal and satisfies the requirements stated in the plan document. Distributions of a participant's employer contributions may be made at the participant's election prior to termination upon the attainment of age 70 ½.

CARES Act

The Plan was formally amended on November 30, 2022 as required to include the provisions of the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) related to distributions and loans.

2. Summary of Accounting Policies

The Plan follows the significant accounting policies listed below:

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investments Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Retirement Committee determines the Plan's valuation policies utilizing information provided by investment advisors and the Plan's Trustee. See Note 3, Fair Value Measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The classification of investment earnings reported in the statement of changes in net assets available for benefits may differ from the classification of earnings on Form 5500 due to different reporting requirements on Form 5500.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed as they are incurred. If a participant ceases to make loan repayments, and the participant loan is deemed to be in default based on the provisions of the Plan, the participant's loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefit payments are recorded when paid.

Administrative Expenses

All administrative expenses are funded by participant service fees and are subsequently paid by the Plan. Investment related expenses are included in net appreciation or depreciation of fair value of investments presented on the accompanying Statements of Changes in Net Assets Available for Benefits.

Subsequent Events

The Plan has evaluated subsequent events through October 6, 2023, the date the financial statements were available to be issued. The Plan did not identify any events that would require recognition or disclosure in the financial statements and notes to the financial statements.

New and Recently Adopted Accounting Pronouncements

There were no accounting standards recently issued that had or are expected to have a material impact on the Plan's financial statements and associated disclosures.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Fair Value Measurements

The following is a description of the valuation methodologies used for plan assets, measured at fair value as of December 31, 2022 and 2021:

Common and Collective Trust Funds:

Valued at the daily net asset value (NAV) of units of a common and collective trust. The NAV, as provided by the trustee, is used as fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. Participant transactions (purchases and sales) may occur daily. The NAV for the underlying assets of the fund is a readily determinable measure of their fair value and is the basis used by the fund for current transactions. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Self-Managed Brokerage Account:

Account primarily consists of mutual funds and common stock. Mutual funds are valued at the daily closing price as reported by the fund. These funds are required to publish their daily NAV and to transact at that price and are deemed to be actively traded. Common stock is valued at the closing price reported on the active market on which the individual securities are traded.

Investments listed above that use NAV to determine value all use a standard redemption frequency and notice period of 1 day with no unfunded commitments.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2022 and 2021:

Plan assets, at fair value	\$ 21,254,884	\$ 582,061,877	\$ —	\$ 603,316,761

4. Party-in-Interest Transactions

Principal is the Plan recordkeeper and trustee; therefore, transactions with Principal qualify as party-in-interest transactions. Certain Plan investments are managed by Principal. Fees paid by the Plan for services provided by Principal amounted to \$459,319 for the year ended December 31, 2022. As described in Note 2, the Plan paid certain expenses related to Plan operations and investment activity to various service providers. These transactions are exempt party-in-interest transactions under the ERISA.

5. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, credit, and market risk. Market risks include global events which could impact the value of investment securities, such as a pandemic or global conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

The Plan provides seventeen participant-directed fund choices as well as the option to have an individual brokerage account. These alternatives provide participants with a broad range of investment options. The seventeen fund choices, when combined, tend to minimize overall risk through diversification.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

7. Income Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a favorable determination letter dated April 30, 2018 that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since requesting the determination letter, the Retirement Committee believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes the Plan is qualified and the related trust is tax exempt.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. *Reconciliation to Form 5500*

As of December 31, 2022, and for the year ended December 31, 2022, the following tables reconcile payment of benefits, net increase, notes receivable from participants, and net assets available for benefits, per the financial statements to the Form 5500:

9. *Information Certified by the Plan's Trustee*

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA required supplementary information, including investments and notes receivable from participants held at December 31, 2022, and net depreciation in

fair value of investments, interest and dividends, and interest income on notes receivable from participants for the year ended December 31, 2022, was obtained by management and agreed to or derived from information certified as complete and accurate by Principal Trust Company (the trustee of the Plan).
