Independent Auditors' Report

The Participants and Plan Administrator
Smithfield Foods Salaried Pension Plan
Smithfield, Virginia

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Smithfield Foods, Inc. Salaried Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users made on the basis of these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

SMITHFIELD FOODS SALARIED PENSION PLAN

Notes to Financial Statements December 31, 2022 and 2021

(1) Description of Plan

The following description of the Smithfield Foods Salaried Pension Plan (the Plan) provides general information only. Participants should refer to the Plan agreement for a more complete description of the Plan provisions.

General

The Plan was created effective January 1, 1994, as a result of a merger of the Smithfield Foods, Inc. Pension Plan, Smithfield Packing Company Pension Plan, Gwaltney of Smithfield Ltd. Pension Plan, Patrick Cudahy Incorporated Pension Plan and the Schluderberg Kurdle Company, Inc. Pension Plan. The Plan is a defined benefit plan covering substantially all salaried employees of Smithfield Foods, Inc. (Smithfield) and all affiliated employers who have adopted the Plan (collectively, the Company). Employees must have completed 1,000 hours of service and attained age 21 to participate in the Plan. The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

During 2007, Premium Standard Farms, LLC (PSF) was acquired by Smithfield. Effective January 1, 2008, PSF adopted the Plan and certain employees are now covered by the Plan and were granted past vesting service. Effective December 31, 2009, John Morrell & Co. Salaried Employees Pension Plan merged with the Plan.

Effective January 1, 2021, the lump sum benefit payment option is for any participant whose termination date is on or after January 1, 2000.

Effective June 30, 2021, Plan was amended to cease all benefit accruals for non-union employees.

Effective December 31, 2021, the net assets of the Farmland Foods, Inc. Employee Retirement Plan (Farmland Plan) totaling \$999,703,486 were merged into the Plan. The Plan assumed the related pension liability for participants of the Farmland Plan and each employee who was a participant in the Farmland Plan became a participant the Plan as of December 31, 2021.

The Plan's investments are in the Smithfield Foods Master Trust (the Master Trust). The Master Trust was created to hold investment assets of the Plan as well as investment assets of several other Plans sponsored by Smithfield or its subsidiaries (collectively, the Participating Plans).

(1) Description of Plan, Continued

Plan Administration

Overall responsibility for administering the Plan rests with Smithfield. The Smithfield Foods, Inc. Administrative Committee and Investment Committee (the Committees) are responsible for oversight of the Plan, determine the appropriateness of the Plan's investment holdings, monitor investment performance, and control and manage the operation and administration of the Plan. The Committees report directly to the audit committee of the Board of Directors.

Funding Policy

Contributions to provide benefits under the Plan are made solely by the Company. The Company's funding policy is to make cash contributions to the Plan in the amount required under government regulations, plus amounts necessary to maintain at least an 80% funded status in order to avoid benefit restrictions under the Pension Protection Act. The Company met the minimum funding requirements of ERISA for the years ended December 31, 2022 and 2021.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Pension Benefits

Generally, employees with five or more years of service are entitled to monthly pension benefits beginning at normal retirement age (65) based on the number of full years of service, except as otherwise provided, times the sum of (a) 0.8% of final average earnings and (b) 0.9% of final average earnings in excess of Social Security covered compensation. Refer to the Plan documents for minimum and maximum benefit provisions. The Plan permits early retirement at ages 55 to 64 with reduced benefits.

Former participants of John Morrell & Co. Salaried Employees Pension Plan with five or more years of service are entitled to monthly pension benefits beginning at normal retirement age (65) equal to the greater of (a) 1.8% of final average earnings times years of credited service (up to 25 years), adjusted for Social Security benefits, or (b) \$180 times years of credited service. The Plan permits early retirement at ages 55 to 64 with reduced benefits.

(1) Description of Plan, Continued

Death and Disability Benefits

The spouse of an active participant who dies with at least five years of service is eligible for a death benefit. The benefit is payable at early retirement as if the participant had survived to retirement and elected the joint and 50% survivor benefit.

A participant with ten years of service who has reached the age of forty-five and is totally and permanently disabled is eligible for a benefit equal to the normal retirement benefit based on service to termination.

(2) Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated Plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Committees determine the Plan's valuation policies utilizing information provided by its investment advisors and trustee. See Notes 4 and 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

SMITHFIELD FOODS SALARIED PENSION PLAN

Notes to Financial Statements December 31, 2022 and 2021

(2) Summary of Significant Accounting Policies, Continued

Smithfield Foods Master Trust

The fair value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses.

Net investment income (loss) from the Master Trust includes the Plan's share of interest, dividends, and net realized and unrealized appreciation (depreciation) of the fair value of the Master Trust's investments. Although the investment assets of the Participating Plans are commingled in the Master Trust, the trustee maintains supporting records for the purpose of allocating the net investment income (loss) of the Master Trust to the Participating Plans. All interest, dividends, and net appreciation (depreciation) of the Master Trust are allocated in accordance with the Master Trust's investment asset pools.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Expenses

The Plan's administrative expenses are paid by either the Master Trust or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan. Certain expenses of maintaining the Plan were paid by the Company during 2022 and 2021.

The Plan has evaluated subsequent events through October 4, 2023, the date the financial statements were available to be issued.

(3) Financial Information Certified by the Trustee

Certain information related to investments disclosed in the accompanying financial statements, including investments at fair value at December 31, 2022 and 2021 and net investment income (loss) from the Master Trust for the years then ended, was obtained by management and agreed to or derived from information certified as complete and accurate by The Bank of New York Mellon/BNY Mellon, N.A. (BNY Mellon), a qualified institution.

(4) Fair Value Measurements

FASB *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Plan's interest in the Master Trust: See Note 5 for valuation methodology.

As of December 31, 2022 and 2021, the Plan did not hold investments outside the Master Trust.

(5) Interest in Master Trust (Unaudited)

The Plan invests its plan assets in the Master Trust. The Master Trust was created to hold the investment assets of the Participating Plans. The assets of the Master Trust are held by BNY Mellon as of and for the years ended December 31, 2022 and 2021. The Plan's interest in the net assets of the Master Trust was approximately 88% at December 31, 2022 and 2021.

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by BNY Mellon, the trustee of the Master Trust, as complete and accurate, except for comparing such information certified by the trustee to information included in the Plan's financial statements.

The trustee has certified to the accuracy and completeness of the investment in the net assets of the Master Trust at fair value as of December 31, 2022 and 2021, and the net investment income (loss) of the Master Trust for the years then ended, as summarized below.

The following table presents the investments of the Master Trust as of December 31:

(5) Interest in Master Trust (Unaudited), Continued

Investment income (loss) for the Master Trust was as follows for the years ended December 31:

	2022	2021
Investment income (loss):		
Net appreciation (depreciation) in fair value of investments	\$ (598,475,598)	\$ 117,086,959
Interest	18,631,486	8,143,996
Dividends	6,537,736	16,415,838
Other	11,815,484	27,338,312
	<u>\$ (561,490,892)</u>	<u>\$ 168,985,105</u>

Following is a description of the valuation methodologies used for assets measured at fair value held by the Master Trust.

Common collective trusts: Valued at the net asset value (NAV) of units of a bank collective trust. The NAV as provided by the trustee is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Were the Master Trust to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Common stock: Valued at the closing price reported on the active market on which the individual securities are traded.

Limited partnerships: The fair values of the investments in limited partnerships are estimated using the NAV of the Master Trust's ownership interest in partners' capital. For the majority of the limited partnerships, redemptions are not permitted, except those received through distributions, at such time as determined by the partnerships, which are expected through various fund terminations through December 31, 2031.

Registered investment companies: Valued at the daily closing price as reported by the registered investment company. Registered investment companies held by the Master Trust are open end mutual funds that are registered with the Securities and Exchange Commission. These investments are required to publish their daily NAV and to transact at that price. The mutual funds held by the Master Trust are deemed to be actively traded.

Corporate debt and U.S. government and agency securities: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings, recently executed transactions, market price quotations (where observable), bond spreads or credit default swap spreads.

- (cc) The fund invests in multi-family real estate sector in the United States.
- (dd) The fund invests in the real estate sector in the United States and Europe.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Master Trust believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(6) Actuarial Present Value of Accumulated Plan Benefits

Accumulated Plan benefits are those future periodic payments, including lump sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Participant benefits are based on a set dollar amount multiplied by years of benefit service, as defined in the Plan document.

(6) Actuarial Present Value of Accumulated Plan Benefits, Continued

The actuarial present value of accumulated Plan benefits is determined by the Plan's independent actuary, Mercer Human Resource Consulting, and is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions underlying the valuations as of January 1, 2022 and 2021 were as follows:

Rate of return	6% for 2022; 6.25% for 2021
Discount rate	3.06% for 2022; 2.76% for 2021
Mortality:	
Healthy Participants:	
Non-annuitants	For 2022, the PRI-2012 sex distinct employee tables with no contingent survivor adjustment and no collar adjustments, projected generationally using the mortality improvement scale COVID-adjusted MMP 2021. For 2021, the PRI-2012 sex distinct employee tables with no contingent survivor adjustment and no collar adjustments, projected generationally using the mortality improvement scale MMP-2019.
Annuitants	For 2022, based on Club Vita's 2021 US VitaCurves model. For 2021, based on Club Vita's 2019 US VitaCurves model.
Disabled Participants	Revenue Ruling 96-7 tables for disabled participants
Retirement age	Attained age 65
Funding method	Unit Credit Actuarial Cost Method

The actuarial present value of accumulated Plan benefits is as follows as of January 1:

	2022	2021
Actuarial present value of accumulated plan benefits:		
Vested benefits:		
Active participants	\$ 464,279,095	\$ 289,551,144
Inactive participants with deferred benefits	156,234,387	59,370,767
Inactive participants receiving benefits	698,401,610	258,508,364
	1,318,915,092	607,430,275
Nonvested benefits	24,870,244	18,259,566
Total actuarial present value of accumulated plan benefits	\$ 1,343,785,336	\$ 625,689,841

SMITHFIELD FOODS SALARIED PENSION PLAN

Notes to Financial Statements December 31, 2022 and 2021

(6) Actuarial Present Value of Accumulated Plan Benefits, Continued

The change in the actuarial present value of accumulated Plan benefits is as follows for the years ended January 1:

	2022	2021
Actuarial present value of accumulated plan benefits at beginning of year	\$ 625,689,841	\$ 572,944,431
Increase during the year attributable to:		
Benefits accumulated and losses	26,520,170	45,242,594
Increase for interest due to decrease in discount period	37,989,381	34,353,259
Benefits paid	(32,971,826)	(36,348,936)
Change in actuarial assumptions	20,860,256	9,498,493
Other changes - mergers	665,697,514	-
Net increase	718,095,495	52,745,410
Actuarial present value of accumulated plan benefits at end of year	\$ 1,343,785,336	\$ 625,689,841

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits. The computations of the actuarial present value of accumulated Plan benefits were made as of January 1, 2022 and 2021.

On March 1, 1987, the Plan purchased annuity contracts in the amounts of \$87,381,311 and \$80,998,263 through Prudential Insurance Company of America (Prudential) and Transamerica Occidental Life Insurance Company (Transamerica), respectively, to provide monthly benefits to substantially all employees participating in the Plan as of December 31, 1986. In accordance with the annuity contracts, monthly benefit payments made to beneficiaries are paid out of the Plan and reimbursed by Prudential and Transamerica. The Plan is liable for such monthly benefits should Prudential or Transamerica default on payments for any reason. The liability for these benefits and the related annuity contracts have been excluded from these financial statements.

The merger of the Farmland Plan would have resulted in an approximate \$671,000,000 increase in the actuarial present value of accumulated plan benefits had the determination been made as of December 31, 2021.

SMITHFIELD FOODS SALARIED PENSION PLAN

Notes to Financial Statements December 31, 2022 and 2021

(7) Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations.
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits, should the Plan be terminated at some future time, will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

(8) Tax Status

The Internal Revenue Service has determined and informed Smithfield by a letter dated December 5, 2017, that the Plan and related trust are designed in accordance with applicable requirements of the Internal Revenue Code (IRC). The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Notes to Financial Statements December 31, 2022 and 2021

(9) Related Party and Party-In-Interest Transactions

The Plan invests in the Master Trust, which is managed by Smithfield. The Master Trust invests in a money market fund managed by the trustee and common stock of the trustee.

The Master Trust pays fees to various parties-in-interest on behalf of the Participating Plans. Fees paid to parties-in-interest for 2022 and 2021 were as follows:

	2022	2021
Investment management	\$ 3,629,149	\$ 5,214,927
Consulting	106,242	32,542
	<u>\$ 3,735,391</u>	<u>\$ 5,247,469</u>

(10) Risks and Uncertainties

The Plan, through its interest in the Master Trust, invests in various investment securities. Investment securities, in general, are exposed to various risks such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Rationale for Economic Assumptions

- Discount Rate – Funding discount rates are prescribed by the IRS with the specific methodology selected by Smithfield Foods, Inc.
- Mortality – Funding mortality tables are prescribed by the IRS with the specific methodology selected by Smithfield Foods, Inc.
- Salary increases – This assumption is based on experience studies performed in 2012 and 2016.
- Social Security taxable wage base increases – This assumption is based on inflation plus estimated real wage increases in the U.S. economy (75 bps).
- Inflation – This assumption is based on the long-term expectations for inflation published in Mercer Investment Consulting's Capital Market Outlook (2.20%) rounded up to the nearest 25 basis points.
- Expected investment return – The expected rate of return on plan assets is based on a blend of the hypothetical past performance of the plan's target asset mix and the median simulated investment

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

return using capital market assumptions published in Mercer Investment Consulting's Capital Market Outlook for the plan's target asset mix. The expected investment return assumption is net of an adjustment for investment expenses assumed to be paid from the plan assets.

- Expenses – Plan administrative expenses are not paid from the trust and have no impact on the minimum funding valuation.

Rationale for Demographic Assumptions

- The withdrawal and retirement rates were updated as a result of experience studies performed in 2016 and 2020.
- The benefit commencement age and form of payment assumptions are based on experience studies performed in 2016 and 2020.
- Disability incidence – The disability incidence table is based on the Conference of Consulting Actuaries 1985 Pension Disability Study Class 1 rates because the plan's disability requirements are the same as that for Social Security Disability, which was the basis of the 1985 study.

Actuarial methods for funding**Asset method**

The asset valuation method is an average of the adjusted market value for each year during the last 2 years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.

¹ Disability terminations are taken into account in the retirement rates after age 64.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- **Insurance contracts:** Historically, the plan had insurance products through John Hancock for certain John Morrell Salaried Plan participants; however, these contracts were terminated on February 9, 2018.

Minimum funding method

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual are the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Total sponsor contribution allocation method

The total contribution made by Smithfield Foods, Inc. to its qualified defined benefit pension plans is allocated among the individual plans to first eliminate any existing unfunded PBGC premium funding target. Then the remaining amount of the planned contribution is allocated in accordance with each plan's portion of the total unfunded benefit obligation (combined for the two qualified plans) calculated for financial accounting purposes.

Schedule SB, Part V — Summary of Plan Provisions

- **Normal Retirement Benefit** A lifetime monthly benefit payable at the later of age 65 or 5 years of participation.

For Union Old Benefit employees:

1.75% of Final Average Wage Base times Creditable Service, where creditable service is years and months of participating service.

For Non-Union and Union New Benefit participants, equal to the greater of (a), (b), and (c):

- 1) The sum of (i) 0.8% of Final Average Earnings and (ii) 0.9% of Final Average Earnings in excess of Social Security Covered Compensation. The sum is multiplied by the sum of Creditable Service as of the Applicable Effective Date, and Years of Benefit Service after the Applicable Effective Date.
- 2) The sum of the amount determined under (a) above, but based on Years of Benefit Service beginning after the Applicable Effective Date and (b) Participant's accrued benefit as of the Applicable Effective Date. The accrued benefit for non-union and union new benefit employees as of the Applicable Effective Date is defined as 1.75% of Final Average Wage Base as of the Applicable Effective Date times Creditable Service at the Applicable Effective Date. For grandfathered, Non-Union or Union New Benefit participants (defined as being age 50 with 10 years of Creditable Service as of the Applicable Effective Date) the Final Average Wage used to determine the accrued benefit is to be determined at the date of termination from employment.
- 3) \$75. The \$75 minimum benefit is phased in over 5 years for Non-Union employees hired on or after the Applicable Effective Date.

- **Late Retirement Benefit** A lifetime monthly benefit equal to the Accrued Benefit, based on Creditable Service or Years of Benefit Service, payable to a participant whose separation from service date follows his normal retirement date.

- **Early Retirement Benefit** A participant is eligible to receive an early retirement annuity after separation from service following age 55 with 5 years of vesting service. For Union Old Benefit participants, the early retirement annuity is equal to the accrued benefit times the percentage based on age below:

- **Disability Retirement Benefit** An active Union Old Benefit participant is eligible upon total and permanent disability after completion of 3 years of participating service. The monthly benefit is equal to the greater of i) the accrued benefit (unreduced for age) at the date of disability and ii) 25% of final wage base as of the date of disability.

An active Non-Union or Union New Benefit participant is eligible upon total and permanent disability after age 45 and 10 Years of Benefit Service. The monthly benefit shall be computed in the same manner as normal retirement benefits based on service at disability. There is no reduction for early payment.

- **Deferred Vested Benefit** Option A
A participant not eligible for Normal, Early, or Deferred retirement is eligible to receive a termination annuity at age 65 equal to the sum of (a) and (b), or the actuarial equivalent as early as age 55:

- 1) Employee contributions with interest in the form of an annuity deferred to age 65
- 2) Accrued Benefit at 65 times 100% for 5 years of Vesting Service (0% otherwise) minus the amount described in (a) above.

Option B

A participant not eligible for Normal, Early, or Deferred retirement is eligible to receive an immediate refund of employee contributions with interest (lump sum or life annuity) plus a termination annuity at age 65 equal to the amount described in (b) above, or the actuarial equivalent as early as age 55.

- **Pre-Retirement Death Benefit** The spouse of an active or terminated vested participant who dies with at least five years of Vesting Service after age 55 is eligible for a death benefit. The benefit is payable immediately as if the participant had retired on the date of death and elected a 100% Joint Annuity payment option. If death occurs before age 55, the spouse may choose Option A or Option B, with the annuity commencing on the date the participant would have attained age 55.

Schedule SB, Part V — Summary of Plan Provisions

If the participant dies with less than five years of Vesting Service, employee contributions with interest will be refunded.

- **Post-Retirement Death Benefit** Upon the death of a Union Old Benefit participant who retired on or after age 62, the spouse is eligible to receive a supplemental lump sum benefit equal to 24% of the final Wage Base times Credible Service (up to 10 years). The lump sum shall not be less than \$1,000 and no more than \$10,000.

A Non-Union or a Union New Benefit participant who was not eligible for early retirement on the Applicable Effective Date shall not be eligible to receive the above supplemental lump sum.

• Maximum compensation	Compensation for any 12-month period used to determine accrued benefits may not exceed the limits in IRC Section 401(a)(17) for the calendar year in which the 12-month period begins. This limit is indexed annually. For 2022, the limit is \$305,000.
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415(b). This limit is indexed annually. For 2022, the limit is \$245,000.

Schedule SB, Part V — Summary of Plan Provisions**Benefits included or excluded**

Unless noted below, all benefits provided by the plan are included in this valuation:

- **Most recent plan amendments included:** All amendments through December 31, 2021 have been reflected in this valuation.
- **Plan amendments excluded:** None
- **Late retirement increases:**
 - *Active participants:* The plan applies late retirement actuarial increases for all participants who defer retirement beyond their normal retirement date and this valuation includes those increases.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Plan provisions specific to funding**Additional benefits included or excluded**

- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits for events that occurred before the valuation date but includes contingent event benefits for events that are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Schedule SB, Part V — Summary of Plan Provisions

Plan provision changes since prior valuation

- Maximum compensation amounts and maximum benefit amounts under IRS rules were updated from 2021 to 2022.
- Effective June 30, 2021, the plan is closed to new non-union participants and all benefit accruals for non-union participants under the plan are frozen. The Union participants will continue to accrue benefits. This plan change is reflected for the minimum funding purposes as of January 1, 2022.
- Effective December 31, 2021, Farmland Foods, Inc. Employee Retirement Plan was merged into Smithfield Foods Salaried Pension Plan.

Schedule SB, line 24 — Change in Actuarial Assumptions

Actuarial assumption changes since prior valuation

- The expected investment return for funding was changed from 6.11% for 2021 to 5.92% for 2022. The rate each year is the lessor of the long-term rate of return on assets (6.25% for 2021 and 6.00% for 2022) and the 3rd stabilized segment rate for the applicable plan year (6.11% for 2021 and 5.92% for 2022).
- The withdrawal and retirement rates were updated as a result of the experience study performed in 2020.
