Independent Auditors' Report

To the Participants and Plan Administrator of
Ross Industries, Inc. Employee Stock Ownership Plan and Trust

Opinion

We have audited the financial statements of Ross Industries, Inc. Employee Stock Ownership Plan and Trust (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2022 and 2021, and the changes in its net assets available for benefits for the year ended December 31, 2022, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings and certain internal control-related matters that we identified during the audits.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule, Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year), as of December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

1. Plan Description and Basis of Presentation

The following description of the Ross Industries, Inc. Employee Stock Ownership Plan and Trust (the Plan or ESOP) provides only general information. Participants should refer to the plan agreement for more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined contribution plan sponsored by Ross Industries, Inc. (the Company) and was established in February 1999. The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended, (ERISA). The Plan's ESOP Committee is responsible for oversight of the Plan. The Plan has designated two individuals as directed trustees (the Trustees).

The Plan originally purchased 100,000 shares of the Company's Class A Common Stock (Company Stock) using the proceeds of a loan from the Company guaranteed by the Company, and held the Class A Common Stock in a trust established under the Plan. The borrowing was to be repaid over a period of 10 years by fully deductible Company contributions to the trust fund. As the Plan made each payment of principal, an appropriate percentage of stock was allocated to eligible employees' accounts in accordance with applicable regulations under the IRC. The loan was fully paid in 2019 and all unallocated shares were allocated.

The Plan covers all eligible classes of employees of the Company who have completed one year of service and are age 21 or older. An employee will have completed one year of service if, at the end of 12 consecutive months of employment with the Company, they have been credited with 1,000 hours of service.

Voting Rights

The Trustees of the Plan will vote all Company Class A Common Stock held by the Plan as a part of the plan assets. Participants, or their respective beneficiary, direct the Trustees as to the manner in which voting rights on shares of Company Class A Common Stock, which are allocated to participants account, are to be exercised (i) with respect to any corporate matter which involves the voting of such shares with respect to the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all assets of a trade or business, or such similar transaction, and (ii) with respect to all corporate matters if, at the time of the vote thereon, the Company Class A Common Stock is a "registration-type" class of securities, as defined by the IRC.

On November 4, 2022 the Company amended the Plan so that the voting discretion currently held by the Trustees of the ESOP be delegated instead to an ESOP Committee of the Company, acting as a named fiduciary in accordance with Sections 403(a)(1), 402(c)(2) and 405(c)(1) of ERISA. The Trustees shall vote all Company Stock held by it as part of the Plan assets in the manner directed by the ESOP Committee as named fiduciary solely for the purpose of providing such voting directions to the Trustees.

Put Option

If the Company Class A Common Stock distributed to a participant, or their respective beneficiary, cannot be readily sold, then the participant or beneficiary will have two put options to the Company. The participant or beneficiary may require the Company to purchase the stock at a price equal to its most recent fair value, and to pay the participant or beneficiary for the stock in cash or in installments over a period of time (not in excess of five years). The first 60 day put option period will begin on the day following the date the participant's or beneficiary's Company Class A Common Stock is distributed, and if not exercised, the second 60 day option period will begin as of the first day of the fifth month of the plan year next following the date the participant's or beneficiary's Company Class A Common Stock was distributed.

Contributions

The Company was obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. The term loan was paid in full in the year ending December 31, 2019. The Company was not required to contribute to the Plan during the year ended December 31, 2022.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's Class A Common Stock released by the Trustees from the unallocated account, when applicable and forfeitures of terminated participants' non vested accounts. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participants' beginning of the year account balances.

Vesting

Vesting is based on years of service and occurs over a two to six year period on a graded schedule, at which time, the participant becomes 100% vested. For purposes of vesting, service is measured from the later of the date of hire or the effective date of the Plan. The Plan provides for 100% vesting upon death or disability and normal retirement (provided the participant has completed five years of plan participation upon retirement).

Payment of Benefits

Distributions on account of death, disability or retirement are made in equal installments not extending beyond the earlier of the participant's assumed life expectancy or a single lump-sum payment in the plan year following the event. Distributions for other separations from service commence in the fifth plan year following the separation from service and are made in five annual installments. Distributions are made in cash or, if a participant elects, in the form of Company's Class A Common Stock plus cash for any fractional share of Company Class A Common Stock.

Put Option

Under the provisions of the Plan, the Company may repurchase participant shares which have been distributed under the terms of the Plan as long as the shares are not publicly traded or if the shares are subject to trading limitations. The value of the reacquired shares was determined based on the prior year share price of the Company's Class A Common Stock. During the year ended December 31, 2022, the Company repurchased 48.0535 of shares and then redistributed them to the remaining active participants.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in the Company's Class A Common Stock into investments which are more diversified. Participants who are at least age 55 with at least ten years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of their shares, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution. Participants eligible to diversify make their election after year-end based on the number of shares of the Company's Class A Common Stock held in their account at year-end.

Forfeited Accounts

The nonvested portion of a participant's account balance in the Plan shall be forfeited upon the employee's separation from service and shall be allocated to all eligible participants at year end as a percentage of their eligible compensation. Forfeited amounts allocated to eligible employees amounted to approximately $217 and $43 of cash and 114.8974 and 114.8974 of shares for the years ended December 31, 2022 and 2021 respectively.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Company's Class A Common Stock shares are reported at fair value. Since the Company is closely held, and thus has no public market for its ownership interests, an appraisal is performed by an independent consulting firm according to guidelines established by the Department of Labor in Regulation 29 CFR Part 2510, and in conformity with appraisal practices promulgated by the American Society of Appraisers in the Principles of Appraisal Practice and Code of Ethics, and the Uniform Standards of Professional Appraisal Practice. This independent consulting firm has determined the fair value of the Company's Class A Common Stock to be $41,024,063 and $33,666,136 at December 31, 2022 and 2021, respectively. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

In accordance with the policy of stating investments at fair value, the Plan presents in the statement of changes in net assets available for benefits the net appreciation in the fair value of its investments, which consists of the unrealized gains and losses on the investments bought and sold, as well as held during the year.

Purchases and sales of the Company's Class A Common Stock are recorded at the most recent fair value determined by an independent consulting firm. Dividends are recorded on the ex-dividend date. Interest Income is recorded on the accrual basis.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements.

Benefit Payments

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events for recognition or disclosure through October 11, 2023, the date the financial statements were available to be issued. Management is not aware of any events which would require disclosure in the Plan's financial statements.

3. Ross Industries, Inc. Class A Common Stock

The Plan's investment in the Ross Industries, Inc. Class A Common Stock is comprised of the following:

	December 31, 2022			
	Number of Shares	1999 Original Cost	2010 Original Cost	Fair Value
Ross Industries, Inc. Class A Common Stock:				
Allocated	129,868	$ 4,017,918	$ 5,286,315	$ 41,024,063
Unallocated	-	-	-	-
Total	129,868	$ 4,017,918	$ 5,286,315	$ 41,024,063

	December 31, 2021			
	Number of Shares	1999 Original Cost	2010 Original Cost	Fair Value
Ross Industries, Inc. Class A Common Stock:				
Allocated	141,639	$ 4,421,844	$ 5,735,531	$ 33,666,136
Unallocated	-	-	-	-
Total	141,639	$ 4,421,844	$ 5,735,531	$ 33,666,136

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observables and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There has been no changes in the methodology used at December 31, 2022 and 2021:

Ross Industries, Inc. Class A Common Stock - The fair value of Ross Industries, Inc. Company's Class A Common Stock was $315.89 and $237.69 per share at December 31, 2022 and 2021, respectively, as determined by an independent appraiser and therefore the value of the Company's Class A Common Stock is considered a Level 3 value due to the significant unobservable inputs inherent in a single independent appraisal. This appraisal was based upon an income valuation technique. The appraiser took into account historical and projected cash flow, net income, return on assets, return on equity and estimated fair value of the Company's assets and liabilities.

The valuation process involves the selection of an appraiser under contract for a term of one year with the right to cancel such contract at any time. Plan management accumulates the data for the appraiser from historical and projected financial information of the Company. The appraiser prepares a report of estimated per share value that a participant will receive upon distribution. The Trustees of the Plan review and approve this valuation, on an annual basis.

The preceding method may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2022 and 2021:

	Assets at Fair Value as of December 31, 2022			
	Level 1	**Level 2**	**Level 3**	**Total**
Ross Industries, Inc. Class A Common Stock	$ -	$ -	$ 41,024,063	$ 41,024,063

	Assets at Fair Value as of December 31, 2021			
	Level 1	**Level 2**	**Level 3**	**Total**
Ross Industries, Inc. Class A Common Stock	$ -	$ -	$ 33,666,136	$ 33,666,136

5. Related-Party Transactions and Party in Interest Transactions

The Plan invests in the Company's Class A Common Stock. The Company is the plan sponsor as defined by the plan document and, therefore, these transactions qualify as party in interest transactions. Purchases and sales of the investment are transacted at fair value. Such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party in interest transactions under ERISA and applicable exemptions promulgated thereunder.

Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. The Company may direct that either (a) benefits be distributed to participants in any manner permitted by the Plan as soon as practicable; or (b) the trust created by the Plan be continued and benefits be distributed to the participants or their beneficiaries as if the Plan had not terminated. A complete discontinuance of contributions by the Company shall constitute a termination.

7. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated July 26, 2017, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC, and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Risks and Uncertainties

The Plan invests in the Company's Class A Common Stock, which is exposed to various risks, such as interest rates, market and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with investments and the level of uncertainty related to changes in the value of the investment it is at least reasonably possible that changes in the near term would materially affect participant's account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

As of December 31, 2022, and 2021 all investments are invested in Company Stock.
