Hudsonville, Michigan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2022 Financial Statements

We have performed an audit of the financial statements of Emergency Technology, Inc. 401(k) and Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2022, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2022 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2022, and for the year then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion on the 2022 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the 2022 Financial Statements* section:

- The amounts and disclosures in the accompanying 2022 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying 2022 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2022 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the 2022 Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion on the 2022 financial statements.

Responsibilities of Management for the 2022 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2022 Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2022 Financial Statements* section of our report, our objectives are to obtain reasonable assurance about whether the 2022 financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the 2022 financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2022 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the 2022 financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to

auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2021 Financial Statements

We have audited the 2021 financial statements, and in our report dated October 13, 2022, we expressed an unmodified opinion on those 2021 financial statements.

Emergency Technology, Inc. 401(k) and Employee Stock Ownership Plan

Notes to Financial Statements

1. Plan Description

The following description of the Emergency Technology, Inc. 401(k) and Employee Stock Ownership Plan (ESOP, Trust, or Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Emergency Technology, Inc. (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Employees who complete six consecutive months of service and are age 21 or older are eligible to participate on the next quarterly entry date.

Contributions

Participants may elect to contribute a portion of their annual compensation through a pre-tax or Roth contribution to the Plan through a salary reduction program. The contribution is limited to those amounts allowable as a deduction under the Internal Revenue Code (IRC).

The Company provides a safe harbor matching contribution of 100% of the participant's contribution up to 4% of compensation and 50% of the participant's contribution up to 6% of compensation. The safe harbor matching contribution may be paid in cash or in shares of Company stock as determined by the Company's Board of Directors. The Board of Directors may also elect to provide a discretionary contribution. Company discretionary contributions are allocated to participants based on each participant's eligible compensation. No discretionary contributions were provided for the Plan years ended December 31, 2022 and 2021.

A covered employee who becomes eligible to participate in the Plan will be deemed to have elected to make an automatic deferral of 6% of compensation. The automatic deferral percentage will increase by 1% each October 1 up to a maximum of 10% of compensation. Employees may elect an alternative deferral amount or elect not to participate.

Participants also may contribute amounts representing rollovers from other qualified defined benefit or defined contribution plans.

For the years ended December 31, 2022 and 2021, shareholders governed by the buy-sell agreement owned 67.05% of the Company. ESOP participants are governed by a separate agreement, namely the Emergency Technology, Inc. 401(k) and Employee Stock Ownership Plan.

Participant Accounts

Each participant's account is credited with the participant's elective salary reductions, employer matching contributions, and allocations of the Company's discretionary contributions, Plan earnings and administrative expenses. Allocations are based on participant earnings or account balances, as defined by the Plan.

Notes to Financial Statements

Investment Options

Participants are allowed to direct contributions to various investment options, as well as Company common stock. In 2022 and 2021, no additional common stock was made available to participants from the Company.

Vesting

Participants' elective contributions, Company contributions, and the earnings thereon, are immediately 100% vested.

Notes Receivable from Participants

Participants may borrow from their fund accounts in any amount greater than \$1,000 but less than 50% of the participant's vested account balance. In no event can a participant borrow more than \$50,000. The notes are secured by the balance in the participant's account and bear interest based on a reasonable borrowing rate ranging from 4.25% to 8.00% on notes outstanding at December 31, 2022. The notes are repaid ratably through payroll deductions over a period of five years or less, unless the note is used to purchase a principal residence.

Payment of Benefits

Upon normal retirement age (62), termination of employment, death, or disability, participants or their beneficiaries may elect to receive the value of vested interest in their account (excluding Company stock) in the form of a lump-sum distribution. Withdrawals may also be made upon attainment of age 59½ and circumstances of financial hardship, as defined by the Plan.

To the extent a participant is invested in Company stock, the distribution is paid in either a lump-sum amount or up to five annual installments with interest, depending on the participant's account balance as of year-end. If the participant's account balance is greater than \$1,150,000, installments may be extended over ten years. Distributions are generally made in cash.

Voting Rights

All Company common stock held by the Trust shall be voted by the ESOP Committee, as the ESOP Committee determines. In certain situations, a participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the ESOP Committee prior to the time that such rights are to be exercised. The ESOP Committee shall vote any unallocated shares held by the Trust, as well as any allocated shares for which a participant has failed to give timely voting direction.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least ten years of participation in the Plan may elect to diversify a portion of their account. Participants who invested initially in Company stock as of July 1, 2006 or rolled over amounts to the ESOP thereafter, may diversify up to 25% of those shares after a five-year waiting period. In addition, upon reaching age 65, a participant may diversify 100% of the value of the shares in his or her account.

Emergency Technology, Inc. 401(k) and Employee Stock Ownership Plan

Notes to Financial Statements

Segregation of Company Stock Accounts

The Company stock account of a terminated participant may be liquidated to the extent of cash available in the ESOP. All segregation proceeds will be transferred to a separate account in the 401(k) portion of the Plan and will be subject to participant investment direction.

Company Common Stock Offering

In 2022 and 2021, Plan participants were offered the opportunity to transfer up to 50% of their 401(k) component accounts to their ESOP component accounts. The 401(k) component accounts hold funds attributable to salary deferrals, matching contributions, and profit-sharing contributions. The ESOP component account is invested in Company common stock. Due to this offering, amounts of approximately \$1,699,000 and \$1,120,000 were transferred from the 401(k) component to the ESOP component in 2022 and 2021, respectively.

Administrative Expenses

Certain administrative expenses are paid by the Company. Administrative expenses not paid directly by the Company may be paid from the Plan, in accordance with Plan provisions. In 2022 and 2021, expenses paid by the Plan included attorney, recordkeeping, and ESOP valuation fees.

2. Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared under the accrual method of accounting.

Subsequent Events

Subsequent events have been evaluated by management through October 11, 2023, the date these financial statements were available to be issued.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of net assets and changes therein. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Emergency Technology, Inc.
401(k) and Employee Stock Ownership Plan

Notes to Financial Statements

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset (an exit price) in the principal or most advantageous market for the asset in an orderly transaction between market participants on the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Participant loans are classified as notes receivable from participants and are measured at the unpaid principal balance plus unpaid accrued interest. Defaulted loans, if any, are reclassified as distributions based on the terms of the Plan agreement.

Payment of Benefits

Benefits are recorded when paid.

3. Certified Investment Information

The Plan administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Newport Trust Company, a qualified institution, has certified that the following investment information included in the accompanying financial statements and ERISA-required supplemental schedule is complete and accurate:

- Investments and notes receivable from participants, as shown in the statement of net assets available for benefits as of December 31, 2022, except for Company common stock.
- Investment income (loss) and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2022, except for net appreciation and dividends from Company common stock.
- Investment information included in the supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2022, as shown on the ERISA-required supplemental schedule, except for Company common stock.

At the request of the Plan administrator, the Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing such certified investment information to the related investment information in the financial statements, including reading the disclosures related to the investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP, and in the ERISA-required supplemental schedule, including assessing whether the ERISA-required supplemental schedule is in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

4. Fair Value Measurements

In accordance with Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, the Plan utilizes a fair value hierarchy for valuation inputs that gives the highest priority to quoted prices in active markets for identical assets (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets in active markets.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in inactive markets, and other inputs that are observable or can be corroborated by observable market data.

Level 3 - Inputs to the valuation methodology are both significant to the fair value measurement and unobservable.

The following valuation methodologies were used to measure the fair value of the Plan's investments:

Mutual Funds - These are valued at quoted market prices in an exchange and active market, which represent the net asset value (NAV) of shares held by the Plan.

Collective Trust Fund - This fund is valued at the NAV of the units held by the fund at year-end. The NAV, as provided by the trustee, is used as a practical expedient to estimate the fair value and is based on the value of the underlying investment assets owned by the fund, minus its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may generally occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidation will be carried out in an orderly business manner. There are no unfunded commitments.

Company Common Stock - The fair value of the Company's common stock held by the Plan is valued at fair value based upon an independent appraisal. This appraisal was based on a combination of the discounted cash flow and guideline public comparable methods. The appraiser took into account historical and projected cash flows, EBITDA and market comparables. Risks were considered and discount levels adjusted appropriately; a discount for lack of marketability was also included due to the minority status of the ESOP.

The valuation process involves Plan management's selection of an independent appraiser. Company management accumulates the data for the appraiser from the financial statements of the Company and other related business information relevant to the valuation process. The appraiser prepares a preliminary report which Company management, along with the ESOP Committee, reviews in detail, discusses, and approves. The results of this process are documented in minutes of the Plan fiduciary.

Emergency Technology, Inc. 401(k) and Employee Stock Ownership Plan

Notes to Financial Statements

The Plan's valuation methods may result in a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Although Plan management believes the valuation methods are appropriate and consistent with the market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The tables below set forth the Plan's investments by level within the fair value hierarchy:

December 31, 2022

	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 13,021,922	\$ -	\$ -	\$ 13,021,922

Investments, at NAV				370,087
Total Investments				\$ 44,117,766

There were no purchases, sales, or transfers in the fair value of the Plan's Level 3 investment in Company common stock for the years ended December 31, 2022 and 2021.

5. Related Party Transactions

The Plan invests in Company common stock. As described in Note 1, the Company pays certain expenses of the Plan and, therefore, these transactions are qualified as party-in-interest transactions. Notes receivable from participants also qualify as party-in-interest transactions.

6. Non-Participant Directed Investments

The Company's common stock includes both participant and non-participant directed investments, which are commingled. Substantially all discretionary Company contributions and related appreciation are non-participant-directed until amounts are available for transfer, as described in the Plan agreement.

Emergency Technology, Inc. 401(k) and Employee Stock Ownership Plan

Notes to Financial Statements

Information about the net assets and the significant components of the changes in net assets relating to the non-participant-directed investments is as follows:

<i>December 31,</i>	2022	2021
Net assets:		
Company common stock	\$ 16,289,287	\$ 14,921,804
Cash	328,204	2,397,191
Employer contribution receivable	1,456,234	1,193,014
	\$ 18,073,725	\$ 18,512,009
<i>Year ended December 31,</i>	2022	2021
Changes in net assets:		
Net appreciation from Company common stock	\$ 1,348,885	\$ 1,209,068
Dividends on Company common stock	1,758,263	900,969
Transfers in (out)	(2,119,361)	325,247
Benefits paid to participants	(1,426,071)	(741,383)
	\$ (438,284)	\$ 1,693,901

7. Concentration of Market Risk

The Plan's investments were approximately 69% and 65% invested in Company common stock at December 31, 2022 and 2021, respectively. Such concentration poses a risk that Plan assets and participant accounts are exposed to risk in the event of a significant decline in the fair value of such stock. A significant decline in the fair value of the Company common stock would significantly affect the net assets available for benefits.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will automatically become 100% vested in their accounts.

9. Tax Status

The Internal Revenue Service (IRS) has ruled in a determination letter dated April 23, 2012, that the Plan qualifies under applicable sections of the IRC and is, therefore, exempt from federal income taxes under present income tax laws. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there currently are no audits for any tax periods in progress.

Notes to Financial Statements

10. Dividends on Company Common Stock

During 2022 and 2021, the Company made distributions to the shareholders of its stock. In 2022, the Company made total distributions in the amount of \$5,400,445, of which the Plan received \$1,779,446 for its percentage of ownership. In 2021, the Company made total distributions in the amount of \$2,808,039, of which the Plan received \$922,539 for its percentage of ownership. At December 31, 2022 and 2021, the Plan owned 32.95% of the stock.
