Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is nit absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatements when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with general accepted auditing standards, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures, responsive to those risks. Such procedures including examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
-Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of ATLAS HEALTHCARE LLC 401 (K) PLAN internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
-Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about ATLAS HEALTHCARE LLC 401 (K) PLAN ability to continue as a going concern for a reasonable period.

Our Audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

The assets were transferred to Atlas Healthcare LLC 401 (K) Plan from AFMV 401 (K) Plan.

General

The Plan, is a contributory defined contribution plan covering all eligible employees of **ATLAS HEALTHCARE LLC 401 (K) PLAN** (the "Sponsor"). Employees must be 21 and and either be full-time employees or part-time regular employees working the allotted hours in the plan year and have completed one year of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Once an employee is a participant, they can begin making elective deferrals. These deferrals are done through payroll withholding. They are made on a pre-tax basis.

Contributions

The Sponsor makes contributions to the Plan on behalf of each participant on a discretionary basis. During the Year ended December 31, 2022, the Sponsor made a $ 83,441.00 profit sharing and matching contribution to the Plan. The participant will not be entitled to this contribution if the Sponsor does not employ him or her on the last day of the plan year. The computation utilized for benefit calculation is limited per the plan document of the participant's compensation for 2021. Upon enrollment in the Plan, a participant may direct contributions in a variety of investment options offered by the Plan. Participants may change their investment options at any time. Rollover contributions are permitted.

All of the Plan's investments are held and administered by **FIDELITY INVESTMENTS** ("Trustee")

Participants accounts

Each participant's account is credited with the Sponsor's contributions and plan earnings, and charged with an allocation of investment advisory fees. Allocations are based on the participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 – DESCRIPTION OF PLAN (continued)

Vesting

If the participant terminates employment prior to normal (65) for any reason other than death or permanent disability, the portion of the employer contribution that is vested is as follows:

Years of Service	Vesting Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Forfeited accounts

Participants who terminate employment before they vest will forfeit their interest in their employer contribution accounts. These accounts will be held in the Plan for use by the Sponsor to meet any obligations with respect to employer contributions. As of December 31, 2022, the balance in the forfeiture account was $0.00 , therefore, employer contributions were not reduced in 2022.

Payment of benefits

On termination of service due to death, disability or retirement, a participant (or designated beneficiary) may elect to receive the vested interest in his or her account in either a lump-sum amount or annual installments (including interest) for life. If the participant dies before distribution begins, the entire interest earned in the Plan will be distributed to the spouse or the named beneficiary by December 31 or the calendar year immediately following the calendar year of the participant's death. For termination of service resulting from other reasons, a participant may elect to receive the value of the vested interest in his or her account as lump-sum distribution or maintain his or her vested interest within the Plan.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting – The accompanying financial statements are prepared on the accrual basis of accounting.

Use of estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Notes receivable from participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued interest. Delinquent participant loans are deemed as distributions based upon the terms of the plan document. Participants can borrow up to $10,000.

ATLAS HEALTHCARE LLC 401 (K) PLAN
PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
YEARS DECEMBER 31, 2022 AND DECEMBER 31, 2021

Investment valuation and income recognition – Investments are recorded at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See below for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The income or loss of each investment option, including the change in market value of investments, is allocated to participant accounts based on each participant's proportionate interest in the investment option. Net depreciation includes the on each participant's proportionate interest in the investment option. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative expenses – Certain administrative expenses are paid by the Plan. Expenses that are paid directly by the Plan's sponsor are excluded from these financial statements. Certain investment-related expenses are included as a reduction of the net appreciation of the fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

Payment of benefits – Benefits are recorded when paid.

Fair Value Measurements
Fair Value Measurements establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. hierarchy gives the highest priority to unadjusted quoted prices in active markets from identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below. Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. Level 2 inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability. Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement. The asset or liability's' fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTES TO FINANCIAL STATEMENTS
YEARS DECEMBER 31, 2022 AND DECEMBER 31, 2021

NOTE 1 – DESCRIPTION OF PLAN

The following brief description of the plan named as follows: ATLAS HEALTHCARE LLC 401 (K) PLAN (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

The assets were transferred to Atlas Healthcare LLC 401 (K) Plan from AFMV 401 (K) Plan.

General

The Plan, is a contributory defined contribution plan covering all eligible employees of **ATLAS HEALTHCARE LLC 401 (K) PLAN** (the "Sponsor"). Employees must be 21 and and either be full-time employees or part-time regular employees working the allotted hours in the plan year and have completed one year of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Once an employee is a participant, they can begin making elective deferrals. These deferrals are done through payroll withholding. They are made on a pre-tax basis.

Contributions

The Sponsor makes contributions to the Plan on behalf of each participant on a discretionary basis. During the Year ended December 31, 2022, the Sponsor made a $ 83,441.00 profit sharing and matching contribution to the Plan. The participant will not be entitled to this contribution if the Sponsor does not employ him or her on the last day of the plan year. The computation utilized for benefit calculation is limited per the plan document of the participant's compensation for 2021. Upon enrollment in the Plan, a participant may direct contributions in a variety of investment options offered by the Plan. Participants may change their investment options at any time. Rollover contributions are permitted.

All of the Plan's investments are held and administered by **FIDELITY INVESTMENTS** ("Trustee")

Participants accounts

Each participant's account is credited with the Sponsor's contributions and plan earnings, and charged with an allocation of investment advisory fees. Allocations are based on the participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 – DESCRIPTION OF PLAN (continued)

Vesting

If the participant terminates employment prior to normal (65) for any reason other than death or permanent disability, the portion of the employer contribution that is vested is as follows:

Years of Service	Vesting Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Forfeited accounts

Participants who terminate employment before they vest will forfeit their interest in their employer contribution accounts. These accounts will be held in the Plan for use by the Sponsor to meet any obligations with respect to employer contributions. As of December 31, 2022, the balance in the forfeiture account was $0.00 , therefore, employer contributions were not reduced in 2022.

Payment of benefits

On termination of service due to death, disability or retirement, a participant (or designated beneficiary) may elect to receive the vested interest in his or her account in either a lump-sum amount or annual installments (including interest) for life. If the participant dies before distribution begins, the entire interest earned in the Plan will be distributed to the spouse or the named beneficiary by December 31 or the calendar year immediately following the calendar year of the participant's death. For termination of service resulting from other reasons, a participant may elect to receive the value of the vested interest in his or her account as lump-sum distribution or maintain his or her vested interest within the Plan.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting – The accompanying financial statements are prepared on the accrual basis of accounting.

Use of estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Notes receivable from participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued interest. Delinquent participant loans are deemed as distributions based upon the terms of the plan document. Participants can borrow up to $10,000.

YEARS DECEMBER 31, 2022 AND DECEMBER 31, 2021

Investment valuation and income recognition – Investments are recorded at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See below for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The income or loss of each investment option, including the change in market value of investments, is allocated to participant accounts based on each participant's proportionate interest in the investment option. Net depreciation includes the on each participant's proportionate interest in the investment option. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative expenses – Certain administrative expenses are paid by the Plan. Expenses that are paid directly by the Plan's sponsor are excluded from these financial statements. Certain investment-related expenses are included as a reduction of the net appreciation of the fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

Payment of benefits – Benefits are recorded when paid.

Fair Value Measurements
Fair Value Measurements establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. hierarchy gives the highest priority to unadjusted quoted prices in active markets from identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below. Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. Level 2 inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability. Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement. The asset or liability's' fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value as of May 3, 2022.

Money market funds and mutual funds – Valued at the net asset value (NAV) of shares held by the Plan at year end.

The method described above may produce a fair value calculation that may not be indicative of net realizable or reflective value of future fair values. Furthermore, while the plan believes its valuation methods are appropriate and consistent with the other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurements at the reporting date.
