INDEPENDENT AUDITOR'S REPORT

The Board, Plan Trustees, and Management
Saint Francis University
Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the financial statements of Saint Francis University Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of Saint Francis University Retirement Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the years ended December 31, 2022 and 2021, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section -

- the amounts and disclosures in the financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

Opinion (Continued)

- the information in the financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Saint Francis University Retirement Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Saint Francis University Retirement Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

Auditor's Responsibilities for the Audit of the Financial Statements (Continued)

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Saint Francis University Retirement Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Saint Francis University Retirement Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental Schedule H - Line 4i, Schedule of Assets (Held at End of Year) as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

Other Matter - Supplemental Schedule Required by ERISA (Continued)

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion -

- the form and content of the supplemental schedule, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

SAINT FRANCIS UNIVERSITY RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND 2021

Note 1: Description of Plan

The following description of Saint Francis University (the "University") Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a Section 403(b) defined-contribution plan covering all eligible employees of the University. Participation in the Plan is voluntary. The DiSepio Institute for Rural Health and Wellness is affiliated with the University and has also adopted the Plan for their employees. For employee deferrals, the Plan allows any employee to make voluntary pre-tax deferrals (except for students to the extent that they receive wages that are not subject to FICA taxation). For the employer matching contribution, all full-time faculty and staff are eligible for the employer matching contribution immediately. All other employees will receive an employer matching contribution once they are credited with 1 year of service consisting of a minimum of 1,000 hours if they are not excluded by the Plan. The Plan shall exclude (a) adjunct faculty members; (b) graduate assistants; (c) assistant coaches in all sports whose contracts are not for a twelve-month term; (d) campus ministers whose contracts are not for a twelve-month term; (e) all students whether or not performing services described in Code Section 3121(b)(10); (f) nonresident aliens with no U.S. source income; (g) resident physical therapists employed by the DiSepio Institute for Rural Health and Wellness. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Effective January 1, 2009, the University amended and restated the Plan, which was originally adopted on September 1, 1979. Effective August 1, 2012, the Plan was amended to adjust the excluded classes of employees. Effective October 6, 2016, the Plan was amended to add auto enrollment feature, Roth contributions, and to adjust the vesting schedule. The Board of Trustees is responsible for oversight of the Plan. The Retirement Oversight Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Board of Trustees. The Plan has been restated and amended as of January 1, 2019 to allow for participant loans.

Plan Custodian

Teachers Insurance and Annuity Association – College Retirement Equities Fund ("TIAA-CREF") is the record keeper for the Plan. TIAA-CREF is also the custodian of the annuity contracts of the Plan. JPMorgan Chase Bank, N.A. is custodian for the portion of the Plan's assets invested in mutual fund shares made available to Plan participants.

Contributions

Each year, participants may make elective contributions to the Plan in any amount up to the maximum percentage of compensation and dollar amounts permissible under Code Section 402(g), including the option for catch up contributions for participants who have attained age 50 before the end of the Plan year. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans ("rollover"). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds, variable annuity contracts, and guaranteed annuity contracts as investment options for participants. If a participant is employed as full-time faculty or full-time staff, the participant is immediately eligible for employer matching contributions. All other employees who are

eligible for the Plan will be eligible for the employer match the first day of the month following completion of a year of service. An employer matching contribution of 7% will be made for an employee contribution greater than or equal to 5% but less than 6%. Employee contributions greater than or equal to 6% will receive an employer matching contribution of 8%. The contributions are invested in accordance with the investment policy of the Plan. Contributions are subject to certain IRS limitations.

Participant contributions are credited to participant accounts within the time period prescribed in Department of Labor Regulation Section 2510.3-102(b). Participants direct the investments of all contributions into various investment options offered by the Plan.

If the participant has at least 15 years of service, the limit on elective deferrals to the 403(b) account is increased by the lesser of \$3,000, \$15,000 reduced by the additional pre-tax elective deferrals made in prior years because of this rule, or \$5,000 times the number of years of service for the organization, minus the total elective deferrals made by the employer on the participant's behalf for earlier years. If a participant is eligible for the age 50 catch up and the special 403(b) catch up contribution, contributions are first allocated to the special 403(b) catch up contribution.

Participant Accounts

Each participant's account is credited with the participant's contributions and employer matching contributions, as well as allocations of Plan earnings, and charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined by the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

All contributions, earnings on investments, and charges are recorded in separate accounts maintained for each participant. Participants generally can change their investment options.

Vesting

Participants are vested immediately in their contributions plus the employer matching contributions and actual earnings thereon. If a participant dies before the start of retirement benefit payments, the full current value of the participant's account is payable to the beneficiary(ies) under the options offered by the Plan. Effective in 2017, if an employee first becomes eligible for the Plan on or after January 1, 2017, they will not become fully vested in the employer contributions until after 3 years of service.

Plan Loans

Participants may borrow from TIAA-CREF an amount up to a maximum of \$50,000 or 50% of their account balance, whichever is less. If the participant has another loan outstanding, the \$50,000 maximum will be reduced by the highest outstanding loan balance in the

twelve-month period prior to the new loan. If the loan is taken from a TIAA-CREF annuity, the maximum loan amount is further limited as described in the Plan document. The Plan loans are disbursed to the participant from TIAA-CREF general fund monies and 110% of the loan principal balance the participant obtained is held as collateral for the loan. The loans bear interest at various rates (4.00% to 5.78% as of December 31, 2022). Interest rates vary based on how the participant's retirement balance is invested. If invested in the Group Supplemental Retirement Annuity (GSRA) Contract, the interest is variable and increases or decreases every three months. If invested in a Retirement Loan Contract (RL), the rate is variable and will increase or decrease annually. Principal and interest are paid quarterly or monthly through direct withdrawal from a bank account of the participant. Loans must be repaid in level installments and, except in limited circumstances, such as the purchase of a principal residence, within 5 years. Plan loans amounted to \$189,833 and \$246,976, respectively, at December 31, 2022 and 2021. The value of the participant's accounts held as collateral for the loans amounted to \$208,816 and \$271,674, respectively, at December 31, 2022 and 2021. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded.

Note Receivable from Participants

Participants may borrow from their fund accounts up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Borrowings bear interest at rates ranging from 4.25% to 8.50% at December 31, 2022, with the floor rate based off the Wall Street Journal prime plus 1%. Principal and interest are paid directly between the participant and TIAA-CREF. Terms range from one to five years or greater, for the purchase of a primary residence. Notes receivable are stated at their unpaid principal balance. Interest received on participants notes for the year ended December 31, 2022 and 2021, respectively, totaled \$10,587 and \$11,568.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant or beneficiary may elect to receive a lump-sum, an annuity contract, or convert to an income option in an amount equal to the value of the participant's vested interest in his or her account or choose to leave their balance in the account for withdrawal at a later point in time. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Distributions are subject to any individual agreements governing the annuity contract or custodial account used as a funding vehicle.

A participant can request a hardship distribution under the terms of the Plan, dependent upon an immediate and heavy financial need and the distribution is necessary to satisfy the need. The Plan defines an immediate and heavy financial need to include medical expenses, purchase of a principal residence, payment of educational related expenses, payments necessary to prevent eviction from a principal residence, funeral expenses, and other defined circumstances.

Rollovers

The Plan will accept amounts rolled over from another plan if the plan was a qualified retirement plan, 403(b) tax sheltered annuity plan, government 457(b) plan, or a traditional IRA. The amount rolled over can only be the pre-tax portion of the other plans or IRA value. Rollover contributions are immediately vested and nonforfeitable.

Investment Options

Upon enrollment in the Plan, a participant may direct employee contributions as well as the University's contributions in any investment options offered through TIAA-CREF. The Plan's default investment fund is the TIAA-CREF Target Date Fund with the target date closest to the year in which the Participant attains age 65.

Forfeited Accounts

As of December 31, 2022 and 2021, forfeited nonvested accounts totaled \$6,656 and \$14,669, respectively. These accounts will be used to reduce any employer contributions. During 2022 and 2021, employer contributions were reduced by the forfeited nonvested accounts in the amount of \$83,139 and \$173,892, respectively.

Secure Act and Secure Act 2.0

The Plan is currently working with their third party administrator to ensure compliance and any required plan changes are made to comply with the Secure Act and the Secure Act 2.0.

Note 2: Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting and are in conformity with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be reported at fair value (except for fully benefit - responsive investment contracts, which are reported at contract value). Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit - responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between

market participants at the measurement date. The Plan's valuation policies are determined utilizing information provided by the investment advisers and custodian. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Delinquent loans are treated as distributions based upon the terms of the Plan document. No allowance for credit losses has been recorded as of December 31, 2022 and 2021.

Payment of Benefits

Benefits are recorded when paid. At December 31, 2022 and 2021, there were no benefits processed and approved for payment but not paid.

Administrative Expenses

All reasonable Plan administrative expenses may be paid from the assets of the Plan to the extent permitted by the individual agreements. These expenses may be allocated among the Plan participants or, for expenses directly related to a participant such as recordkeeping fees, fees for processing distributions or loans, charged against their account balance. The investment funds pay management fees and other expenses that reduce the investments rate of return. Certain expenses of maintaining the Plan are paid directly by the University and are excluded from these financial statements.

Subsequent Events

Management has evaluated subsequent events through September 13, 2023, the date the financial statements were available to be issued. The financial statements include all events or transactions, including estimates, required to be recognized in accordance with accounting principles generally accepted in the United States of America. Management has determined that there are no non-recognized subsequent events that require additional disclosure.

Note 3: Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

SAINT FRANCIS UNIVERSITY RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND 2021
(CONTINUED)

Note 3: Fair Value Measurements

Level 2

Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end-mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Variable Annuity Contracts: Each account determines and publishes its unit rate daily. The accounts invest principally in equity securities, fixed-income instruments, short-term investments, real estate properties, and related real estate investments. Account investments are primarily valued using market quotations or prices obtained from independent pricing sources who may employ various pricing methods to value the investments. Real estate account values are principally derived from the market value of the underlying real estate holdings, which rely on external appraisals. Real estate accounts sometimes hold securities, which are generally priced using values from independent sources.

Guaranteed Annuity Contracts: The guaranteed annuity contracts are reported at values equal to the accumulated cash contributions, interest credited to the Plan's contracts, and transfers, if any, less any withdrawals and transfers, if any. Guaranteed annuity contracts

are not available for sale or transfer on any securities exchange. Accordingly, transactions in similar investment instruments are not observable. While transactions involving the purchases/sales of individual guaranteed annuity contracts are not observable in a public marketplace, they provide a good approximation of fair value.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2022 and 2021, there were no significant transfers in or out of Levels 1, 2, or 3.

Note 4: Investments at Contract Value

The Plan allows participants to invest in the TIAA Traditional Annuity. A portion of the TIAA Traditional Annuity is a guaranteed annuity account that has been determined to be fully benefit-responsive. TIAA-CREF maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statements of net assets available for benefits at fair value; however, an adjustment to contract value in arriving at net assets available for benefits is not required as the fair value for the contracts have been estimated to approximate the contract value. Contract value, as reported to the Plan, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value.

Note 4: Investments at Contract Value (Continued)

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the investment contract at December 31, 2022 and 2021 was \$2,189,120 and \$2,515,913, respectively.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

(CONTINUED)

Note 6: Related Party and Party-In-Interest Transactions

Certain Plan investments consist of investments in funds administered by the asset custodian, TIAA-CREF and, therefore, these transactions qualify as party-in-interest transactions. The administrative expenses listed on the Statements of Changes in Net Assets Available for Benefits were paid to TIAA-CREF.

Certain administrative functions of the Plan are performed by an officer or employees of the University. No such officer or employee receives compensation from the Plan.

Note 7: Plan Termination

The University has the right under the Plan to discontinue its contributions at any time (see Note 1, Contributions) and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 8: Tax Status

The Plan terms have been drafted in reliance on the sample language provided by the Internal Revenue Service in Revenue Procedure 2007-71. The Plan administrator intends to apply for a determination letter on the Plan when the government opens such a program. The Plan is required to operate in conformity with the Internal Revenue Code ("IRC") to maintain its tax exemption. The Plan's administrator and management believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirement of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2019.

Note 9: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statements of net assets available for benefits.
