Administrative Committee
OFD Foods, LLC 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audits

We have performed audits of the accompanying financial statements of OFD Foods, LLC 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audits of the Financial Statements section-

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).

- The information in the accompanying financial statements related to assets held by and certified by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audits of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audits does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audits of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audits section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplemental information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion-

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

OFD FOODS, LLC 401(k) PLAN

Notes to Financial Statements

1. Description of the Plan

The following description of the OFD Foods, LLC 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General. Established by OFD Foods, LLC (the Company) on June 19, 1967, the Plan is a tax qualified defined-contribution plan formed for the benefit of all eligible employees of the Company. The Plan includes a salary deferral arrangement commonly called a 401(k) plan. Under such provisions, employees are able to make tax deferred contributions to the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Generally, all non-union employees of the Company who have attained the age of 18 are eligible to participate in the Plan on the first entry date after fulfilling the service requirement of thirty days of service (not necessarily consecutively). Any employee classified as a Limited Duration Employee as defined by the Plan must work one year with 1,000 hours and be at least 21 years of age to enter the Plan.

Contributions. Eligible employees may make elective deferral contributions in either a Traditional (pre-tax) or Roth (after-tax) form to the Plan. Traditional participant elective deferral contributions represent amounts by which an eligible employee has elected a reduction in taxable compensation in consideration of the Company contributing such amounts to the Plan. Such elective deferral contributions are excluded from the participant's taxable income until received as a distribution from the Plan.

Participants making Roth elective deferral contributions will pay taxes when they make Roth contributions. Roth elective deferral contributions and earnings on those contributions can be withdrawn tax-free as long as the participant has maintained the Roth account for at least five years and is at least age 59½ at the time of withdrawal. Roth contributions are designated irrevocably by the participant at the time of the cash or deferral election. Roth contributions are treated by the plan sponsor as includible in the participant's income at the time the participant would have received that amount in cash if the participant had not made the election.

Total participant contributions are limited by various Internal Revenue Code (IRC) Provisions. Participants over 50 years of age may make additional annual "catch-up" contributions as allowed by the IRC. The Plan also provides that refunds may be made to certain participants in order to comply with those statutory limits.

Entry dates are the first day of each month. After initial participation, a participant may commence, recommence, or change the amount of the deferral on the first day of each month. A participant can also elect to cease the deferral at any time.

See independent auditors' report.

OFD FOODS, LLC 401(k) PLAN

Notes to Financial Statements

1. Description of the Plan (Continued)

The Plan provides for matching contributions at the rate of 50% of each dollar of deferrals made by the plan participant. The match applies to deferrals that do not exceed 6% of compensation. Matching contributions are allocated on a payroll-by-payroll basis. There is no service requirement in order to be eligible for the matching contribution. Matching contributions of \$460,488 and \$437,887 were allocated for the years ending December 31, 2022 and 2021, respectively. Matching contributions were funded by \$460,113 in employer contributions and \$375 of forfeitures for the year ended December 31, 2022. Matching contributions were funded by employer contributions totaling \$437,887 for the year ended December 31, 2021.

The Plan also provides for discretionary profit-sharing contributions which are made at the option of the board of directors. A participant must be employed on the last day of the plan year to receive a profit sharing contribution allocation. The discretionary profit sharing contribution is allocated based on the ratio of each participant's eligible salary to the total eligible salary of all participants. During 2022 and 2021, the board of directors did not authorize a discretionary profit sharing contribution.

Participant Accounts. Individual accounts are maintained for each plan participant to reflect the participant's elective deferral, rollover, and employer contributions. These individual accounts are self-directed by the participants, allowing the participants to choose the investment combination they wish from numerous available funds. Income and loss is allocated to the participants' accounts based on the investment performance of the investments the participants have chosen. The benefit to which a participant or beneficiary is entitled is the benefit that can be provided from the participant's vested account.

Investment Options. Plan management has selected a menu of registered investment companies from which the participants can choose. Plan participants invest the amounts in their accounts in those various investment funds. Each participant instructs the trustee as to how the assets are to be invested. The Plan maintains no investments which are not directed by participants.

Participant Notes Receivable. Participants may borrow from their account a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 (reduced by certain participants' notes receivable outstanding at the time the new note is taken or anytime within the 12 months prior to the date of the new note) or 50% of their vested account balance. Note transactions are treated as a transfer between the investment fund and the participant note fund. Note terms are up to five years, or up to ten years in the case of a note used for the purchase of a primary residence. The notes are secured by the balance in the participant's account and bear interest at the prime rate plus 2%. Interest rates range from 4.25% to 9.50%. Principal and interest are paid ratably through payroll deductions.

OFD FOODS, LLC 401(k) PLAN

Notes to Financial Statements

1. Description of the Plan (Continued)

Vesting. Participants are always fully vested in their elective deferral and rollover accounts. Vesting in employer contribution accounts is based upon credited years of service as defined in the Plan. A participant is 20% vested after two years of service and vesting increases by 20% for each year of service earned thereafter until a participant is 100% vested after six years of service. If termination is due to death, disability, or retirement at or beyond age 65, a participant is considered to be 100% vested even if the participant has not been credited with six years of vesting services.

Forfeitures. When certain terminations of a participant in the Plan occur, the nonvested portion of the participant's account represents a forfeiture. However, if the participant is re-employed and fulfills certain requirements, as defined in the Plan, the participant's account may be reinstated. Forfeitures may be held in suspense and can be used to pay administrative expenses of the Plan or reduce any company contribution. In addition to the forfeitures used to fund contributions, forfeitures totaling \$27,843 and \$28,556 were used to pay plan expenses for the years ended December 31, 2022 and 2021, respectively. At December 31, 2022, and 2021, unallocated forfeitures in the Plan totaled \$7,943 and \$7,325 , respectively.

Payment of Benefits. On termination of service, a participant or beneficiary may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum amount. The Plan allows in-service distributions upon attaining age 59 ½. An in-service distribution may be made as a partial distribution or a lump-sum distribution. Distributions are also allowed in the case of certain hardships as defined in the Plan.

Administrative Expenses. In 2022 and 2021, the plan sponsor absorbed some costs of administering the Plan, excluding management fees charged by the various fund managers, third-party administration fees, and some participant fees such as distribution processing and loan fees.

Investment consulting fees are included as a reduction in net investment income. Investment management fees charged by fund managers are reflected in the return of the various investment funds. Participants have access to fund prospectuses which include this expense information.

2. Summary of Significant Accounting Policies

Basis of Reporting. The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP). These principles require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts in the statements of changes in assets available for benefits during the reporting period. Actual results could differ from those estimates.

Investment Valuation. Investments are valued at fair value. GAAP defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP also establishes a framework for measuring fair value. The fair value framework requires the categorization of assets and liabilities into three levels based upon the ability to observe the inputs used to value the assets and liabilities. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Level One provides the most reliable and observable measure of fair value, whereas Level Three generally requires significant judgment.

The three levels of the fair value hierarchy are defined as follows:

- Level One - Unadjusted, quoted prices in active markets for identical assets and liabilities.
- Level Two - Observable inputs, other than those included in Level One. For example, quoted prices for similar assets or liabilities in active markets or quoted prices for identical assets or liabilities in inactive markets.
- Level Three - Unobservable inputs reflecting assumptions about the inputs used in pricing the asset or liability.

Purchase and sales of securities are recorded on a trade-date basis. The cost of investments sold for the purpose of computing gains and losses is based on average cost. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan presents in the statements of changes in net assets available for benefits, the net appreciation or depreciation in the fair value of the Plan's investments, which consists of the realized gains or losses and the unrealized appreciation or depreciation of those investments.

Participant Notes Receivable Valuation. Participant notes are carried at unpaid principal balance plus accrued interest. Interest on participant notes is reported as other income on the statements of changes in net assets available for benefits.

2. Summary of Significant Accounting Policies (Continued)

Risks and Uncertainties. The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participant's account balances and the amounts reported in the financial statements.

Payment of Benefits. Benefits are recorded when paid. There were no amounts allocated to persons who have elected to withdraw from the Plan but have not yet been paid as of December 31, 2022 and 2021.

Subsequent Events. The Plan evaluates subsequent events and the evidence they provide about conditions existing at the date of the statements of net assets available for benefits as well as conditions that arose after the statements of net assets available for benefits date but before the financial statements are issued. The effects of conditions that existed at the statements of net assets available for benefits date are recognized in the financial statements. Events and conditions arising after the statements of net assets available for benefits date but before the financial statements are issued are evaluated to determine if disclosure is required to keep the financial statements from being misleading. To the extent such events and conditions exist, disclosures are made regarding the nature of events and the estimated financial effects for those events and conditions. For purposes of preparing the accompanying financial statements and the notes to these financial statements, the Plan evaluated subsequent events through October 10, 2023, the date the financial statements were available for issue.

3. Information Certified by the Qualified Institution

The plan administrator has elected the method of compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Charles Schwab Trust Bank (trustee of the Plan), a qualified institution, has certified that the following investment information included in the accompanying financial statements is complete and accurate:

Total investments, participant notes receivable, and cash and cash equivalents as shown in the accompanying statements of net assets available for benefits of \$19,986,140 and \$24,045,859 as of December 31, 2022 and 2021, respectively.

Total investment (loss) income and other income as shown in the accompanying statements of changes in net assets available for benefits of \$(3,835,198) and \$2,538,432 for the years ended December 31, 2022 and 2021, respectively.

All investment and participant loan related information in the accompanying supplemental Form 5500 Schedule H, part IV, line 4i - schedule of assets (held at end of year) as of December 31, 2022.

At the request of the plan administrator, the Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing such certified investment information to the related investment information included in the financial statements.

4. Fair Value Measurement

The Plan's investments in registered investment companies are recorded at fair value as determined by reference to quoted market prices in active markets and accordingly, are classified as Level One in the fair value hierarchy.

The fair valuation methodology used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Income Tax Status

The Plan utilizes a pre-approved plan document and relies on the opinion letter issued to the pre-approved document sponsor. The pre-approved document sponsor received an opinion letter dated June 30, 2020, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since the pre-approved document sponsor received the opinion letter. Additionally, the Plan is operating under provisions, required by new laws, but has not yet been amended to reflect these changes. The Plan will be formally amended to incorporate these provisions prior to the deadline required by law for adopting such amendments. The plan administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the IRC and that, therefore, the Plan qualifies under Section 401(a) and the related trust is tax-exempt as of December 31, 2022 and 2021. Therefore, no provision for income taxes has been included in the Plan's financial statements.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

7. Voluntary Correction Program

The Company had discovered an operational error in plan administration with respect to the timely disposition of forfeitures that occurred during the plan years ending December 31, 2013 through December 31, 2015 and has corrected this error in accordance with principles outlined in the IRS's Employee Plans Compliance Resolution System (EPCRS). The Company filed a Voluntary Correction Program (VCP) submission under EPCRS with respect to this error and received a signed compliance statement from the IRS on August 11, 2022. The error did not have a material effect on the Plan's net assets available for benefits, and the VCP submission did not affect the Plan's tax status.
