Report of Independent Auditors
To the Plan Administrator
Stone Bank 401(k) Plan
Little Rock, Arkansas

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Stone Bank 401(k) Plan (Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Stone Bank 401(k) Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

The accompanying supplemental schedules, Schedule H, Line 4i-Schedule of Assets (Held at End of Year), and Schedule H, Line 4a-Schedule of Delinquent Participant Contributions, as of December 31, 2022, are presented for purposes of additional analysis and are not a required part of the financial statements but are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

STONE BANK 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND 2021

Note 1) Description of plan:

A general description of the Stone Bank 401(k) Plan (Plan) is provided in the following paragraphs. Participants should refer to the plan agreement and summary plan description for a more complete description of the Plan's provisions.

General -

The Plan is a defined contribution plan covering all employees of Stone Bank (Employer). Employees who have attained the age of 18 are immediately eligible to participate in the Plan for all contribution types. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and subsequent amendments.

Contributions -

Participants may contribute through payroll deductions and eligible rollover contributions. Subject to certain limitations under the Internal Revenue Code (IRC), participants may contribute an amount not in excess of 100% of the participant's eligible compensation, as defined by the plan document. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions.

The Employer makes a discretionary matching contribution equal to 100% of a participant's contribution up to 3% of plan year compensation, plus 50% of additional contributions up to an additional 2% of plan year compensation. At the discretion of the Employer's Board of Directors, the Employer may choose to make a safe harbor non-elective contribution. A safe harbor non-elective contribution was not made for 2022.

Participants direct the investment of their contributions and employer matching contributions into various investment options offered by the Plan. The Plan currently offers several mutual funds as investment options for participants. Participants may change their elected investment options daily and salary deferral contributions effective as of any payroll date.

Participant accounts -

Each participant's account is credited with his or her salary deferral contribution plus an allocation of (a) the Employer's matching and discretionary contributions and (b) plan earnings less administrative expenses. Allocations of plan earnings are based on each participant's account balance. Allocations of contributions are based on each participant's compensation. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Administrative expenses -

The Plan is responsible for paying all Plan expenses unless the Employer determines to pay them. Administrative expenses consist primarily of fees charged by third-party service providers as well as loan processing fees. Investment related expenses are included in net change in fair value of investments.

Vesting -

Participants are immediately vested in their salary deferral contributions and rollover contributions plus actual earnings thereon. Vesting in any Employer discretionary matching and non-elective contributions, and any earnings thereon is based on years of credited service. Under the Plan's vesting schedule, a participant is 100% vested after three years of credited service, or upon termination of employment due to death, disability, or retirement.

STONE BANK 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND 2021

Note 1) Description of plan: (continued)

Payment of benefits -

On termination of service due to death, disability, or other reasons, a participant may elect to receive an amount equal to the value of the participant's vested interest in the participant's account in a lump sum payment, or a partial lump sum payment. If a terminated participant's account balance is equal to or less than \$5,000, the account will be automatically distributed in a lump sum payment. In-service withdrawals are available to participants who have met certain hardship requirements, consistent with the provisions of the IRC. Benefits shall be paid as soon as administratively feasible following the date on which a distribution is requested or is otherwise payable.

Forfeited accounts -

Forfeitures can be used to reduce either the Employer's matching contributions or pay administrative expenses of the Plan. There were \$4,052 in forfeitures utilized for the year ended December 31, 2022. Forfeited non-vested accounts available for future use amounted to \$6,852 and \$4,317 as of December 31, 2022 and 2021, respectively.

Notes receivable from participants -

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. A participant may not have more than two loans outstanding at any time. Loan terms do not exceed five years unless the loan is for the purchase of a principal residence. Loans are secured by the vested balance in the participant's account and bear interest rates from 5.25% to 8.25% at December 31, 2022. Principal and interest are paid ratably through payroll deductions.

Deemed distributions -

The Plan treats participant loans that are in default due to a missed payment and outstanding loan balances when a terminated employee takes a distribution, as deemed distributions. In accordance with Internal Revenue Service (IRS) regulations, a participant who repays a loan after a deemed distribution will receive credits pursuant to IRS requirements.

Plan termination -

Although it has not expressed any intent to do so, the Employer has the right under the provisions of the plan document to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 2) Summary of significant accounting policies:

Basis of accounting -

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States.

Estimates and assumptions -

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

STONE BANK 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND 2021

Note 2) Summary of significant accounting policies: (continued)

Valuation of investments and income recognition -

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income from notes receivable from participants is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net change in fair value of investments includes gains and losses on investments bought and sold, as well as held, during the year.

Notes receivable from participants -

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are recorded when they are incurred. No allowance for credit losses has been recorded as of December 31, 2022 and 2021. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution under the terms of the plan document, the participant loan balance is reduced, and a benefit payment is recorded.

Payment of benefits -

Benefit payments to participants are recorded upon distribution.

Risks and uncertainties -

The Plan provides for various investment options. Such investments, in general, are exposed to various risks such as interest rate, market volatility, and credit risks. During 2022, net change in fair value of investments occurred due, in part, to investment performance. Due to the level of risk associated with these investments, it is at least reasonably possible that changes in fair value will occur in the near term and that such changes could materially affect the value of participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Note 3) Tax status:

The Plan, and trust established under the Plan to hold the Plan's assets, obtained its latest determination letter on March 31, 2014, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC.

Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan and trust are designed and being operated in compliance with the applicable requirements of the IRC, and, therefore believes that the Plan is qualified, and the related trust is tax exempt.

Accounting principles generally accepted in the United States require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that, more-likely-than-not, would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2022 and 2021, there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by the IRS; however, there are currently no audits in process for any open tax periods. The plan administrator believes the Plan's annual return is no longer subject to income tax examinations for plan years prior to 2019.

STONE BANK 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND 2021

Note 4) Party-in-interest transactions:

Party-in-interest transactions include relationships with fiduciaries, third-party service providers and the Employer, whose employees are covered by the Plan. Newport Trust Company (Newport) serves as the record keeper and custodian of the Plan and is by definition a party-in-interest. The Plan also holds notes receivable from participants. As a result, these notes receivable and all related transactions were with parties-in-interest. These transactions are exempt from being prohibited transactions under ERISA.

Note 5) Investments:

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the investment information certified by Newport, except for comparing such information to information included in the Plan's financial statements and the applicable supplemental schedule.

All investment information disclosed in the accompanying financial statements and supplemental schedule of assets (held at end of year) was obtained or derived from investment information provided to the plan administrator and certified as complete and accurate by Newport.

There are no redemption restrictions or future commitments on the instruments that use net asset value as the practical expedient.

Note 6) Fair value measurements:

The Plan's investments are reported at fair value in the statement of net assets available for benefits. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (an exit) price in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date.

Accounting Standards Codification 820, *Fair Value Measurement*, establishes a fair value hierarchy that requires the use of observable inputs and minimizes the use of unobservable inputs when measuring fair value.

The standard describes three levels of inputs that may be used to measure fair value, as follows:

- Level 1 Inputs - Valuations based on quoted prices for identical assets or liabilities in active markets.
- Level 2 Inputs - Valuations based on observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets or liabilities in active markets; quoted prices for similar assets or liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
- Level 3 Inputs - Valuations based on unobservable inputs reflecting the plan administrator's own assumptions, consistent with reasonably available assumptions made by other market participants.

Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The inputs used for valuing assets are not an indication of the risk associated with investing in those assets.

STONE BANK 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND 2021

Note 6) Fair value measurements: (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Mutual funds -

The fair value of mutual funds, other than the money market mutual fund, is based on quoted prices of identical assets in active markets, which is categorized within Level 1 of the fair value hierarchy.

The fair value of the money market mutual fund is based on the fair value of the underlying investments. The underlying investments are valued based on quoted prices in active markets which are also categorized within Level 1 of the fair value hierarchy. The money market mutual fund's objective is to achieve a \$1 per share value, based on the underlying investments fair value.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2022 and 2021:

		Fair Value Measurements Using				
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)		
		Balance				
<u>2022</u>						
Mutual funds		\$ 5,526,514	\$ 5,526,514	\$ -	\$ -	
<u>2021</u>						
Mutual funds		\$ 6,068,915	\$ 6,068,915	\$ -	\$ -	

The following methods and assumptions were used to estimate the fair value of financial instruments that are not disclosed above:

Cash and cash equivalents -

The carrying amounts of cash and cash equivalents reported in the statements of net assets available for benefits approximate estimated fair value.

Notes receivable from participants -

The notes receivable from participants are not actively traded and significant other observable inputs are not available. Thus, the fair value of the notes receivable from participants is equal to the unpaid principal balance plus any accrued but unpaid interest because the loans are secured by each respective participant's vested account balance.

DECEMBER 31, 2022 AND 2021

Note 7) Reconciliation of financial statements to IRS Form 5500:

Net assets available for benefits at December 31, 2022 and 2021, as disclosed in IRS Form 5500 were \$5,601,637 and \$6,179,128, respectively, which is identical to that reported in the statements of net assets available for benefits.

Decrease in net assets available for benefits at December 31, 2022, as disclosed in IRS Form 5500 was (\$577,491). The amount is identical to that reported in the statement of changes in net assets available for benefits.

Contributions for the year ended December 31, 2022, as disclosed in IRS Form 5500 totaled \$972,328. The amount is identical to that reported in the statement of changes in net assets available for benefits.

Benefits paid to participants for the year ended December 31, 2022, as disclosed in IRS Form 5500 totaled \$428,741. The amount is identical to that reported in the statement of changes in net assets available for benefits.

Note 8) Subsequent events:

The plan administrator has evaluated subsequent events through October 11, 2023, the date which the financial statements were available for release. The plan administrator is not aware of any subsequent events that would require recognition or disclosure in the financial statements.
