Report of Independent Auditor

To the Compensation & Fiduciary Committee
Virginia Green 401(k) Plan
Richmond, Virginia

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Virginia Green 401(k) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of DOL's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section:

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- The information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control related matters that we identified during the audits.

Supplemental Schedule Required by ERISA

The supplemental schedule, Schedule of Assets (Held at End of Year) – Form 5500, Schedule H, Part IV, Line 4i as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1—Plan description

The following description of Virginia Green 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan established by G. Grattan, LLC dba Virginia Green (the "Employer" or "Company") on January 1, 2006, and most recently amended and restated effective January 1, 2021. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan, unless they affirmatively elect not to participate, with a deferral rate set at 3% of eligible compensation. The Plan also includes an automatic deferral increase of 0.5% each year, up to a maximum of 6% of compensation.

The Plan covers all eligible employees of the Company. An eligible employee is an individual employed by the Company or any affiliate who has adopted the Plan and excludes union employees governed by the terms of a collective bargaining agreement, certain nonresident aliens, and leased employees. To be eligible for participant deferrals, an employee must complete six months of service and be at least 21 years of age. To be eligible for Company contributions, an employee must complete one year of service. Highly compensated employees are not eligible to receive the Company safe harbor nonelective contribution. Highly compensated employees are defined in the Plan document as generally more than a 5% owner of the Company or individuals receiving wages in excess of certain amounts. Highly compensated employees may receive a discretionary profit-sharing contribution. The Plan is subject to the provisions of Employee Retirement Income Security Act of 1974 ("ERISA").

Plan Administration – The Employer is the Plan sponsor and Plan administrator. Assets of the Plan are held by Charles Schwab Trust Bank, the "Custodian", or "qualified institution", of the Plan. Certain administrative functions are performed by employees of the Company, who receive no compensation from the Plan.

Contributions – The Plan provides for participant contributions of after-tax and pre-tax annual compensation, up to 100% of their annual compensation, as defined by the Plan. Participants who have attained the age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Contributions are subject to certain limitations allowed under Section 402(g) of the Internal Revenue Code ("IRC").

For the year ended December 31, 2022, the Company elected to contribute 100% of the first 3% of the eligible employees' compensation contributed to the Plan as a safe harbor nonelective contribution. Additional discretionary matching and profit-sharing contributions may be contributed at the option of the Company to all eligible employees under the terms of the Plan. The Company made a discretionary profit-sharing contribution of $551,904 for the year ended December 31, 2022.

Participant Accounts – Each participant's account is credited with the participant's contributions and an allocation of: (a) the Company's contribution, (b) Plan earnings or losses, and (c) any administrative expenses and participant withdrawals. Allocations are based on participant earnings or account balances, as defined. In order to share in the discretionary profit-sharing contribution, an employee must be employed as of the last day of the Plan year and have completed 1,000 hours of service during the Plan year.

Vesting – Participants are immediately vested in their contributions and the Company's safe harbor contributions plus actual earnings thereon. Vesting in the Company's discretionary matching and profit-sharing contribution portions of their accounts plus actual earnings thereon is based on years of service.

Note 1—Plan description (continued)

Participants are vested as follows:

Years of Service	Percentage
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years or more	100%

Investments Options – Participants direct the Custodian as to the investment of their account balances in accordance with guidelines established by the Plan. Participants may change their investment elections at any time.

Payment of Benefits – Distribution of the vested portion of a participant's account may occur upon the participant's termination of service, retirement, death, disability. In-service distributions due to certain hardship situations or attainment of age 59½ is permitted. If a participant becomes entitled to receive their benefit for any reason other than death the account will be distributed in a lump-sum payment in an amount equal to the vested value of his or her account as defined by the Plan. At December 31, 2022, there were no benefit payments that had been requested but not yet paid.

Forfeitures – Forfeitures of nonvested accounts may be used to pay the administrative costs of the Plan or reduce employer contributions. Forfeitures outstanding as of December 31, 2022 and 2021, were $16,386 and $13,830, respectively. During the year ended December 31, 2022, the Plan used $14,809 to reduce employer contributions.

Note 2—Summary of significant accounting policies

Basis of Accounting – The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”).

Use of Estimates – The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could vary from the estimates that were used.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Unrealized gains and losses are recognized in the period in which they occur. Interest and dividends are recognized in the period earned and realized gains or losses on securities are recorded in the period of sale. Net depreciation includes the Plan’s gains and losses on investments bought and sold as well as held during the year.

Note 2—Summary of significant accounting policies (continued)

U.S. GAAP defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability and in an orderly transaction value hierarchy which requires an entity to maximize the use of observable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;

Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used to measure the Plan's investments at fair value, including the general classification of such instruments pursuant to the valuation hierarchy. There were no transfers between levels during the year ended December 31, 2022. There have been no changes in the methodologies used at December 31, 2022 or 2021.

The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual Funds – Mutual Funds are public investment vehicles valued using the net asset value ("NAV") provided by the administrator of the fund. NAV is a quoted price in an active market and classified within Level 1 of the valuation hierarchy.

Money Market Fund – This investment is a public investment vehicle valued using NAV provided by the administrator of the fund. The underlying assets are generally comprised of short-term securities representing high quality, liquid debt, and monetary assets. The Custodian establishes the market and quotes the price, on a daily basis, that is available to market participants, which is a market approach to valuation. The money market account is classified within Level 2 of the valuation hierarchy.

The Plan believes its valuation methods are appropriate and consistent with other market participants; however, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Payment of Benefits – Benefit payments are recorded when paid.

Administrative Expenses – The Plan permits the payment of Plan expenses to be made from the Plan's assets. If expenses are paid using the Plan's assets, then the expenses will generally be allocated among the accounts of all participants in the Plan.

Note 3—Information certified by the qualified institution (unaudited)

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Charles Schwab Trust Bank, the Custodian of the Plan has certified to the completeness and accuracy of the following data included in the financial statements and supplemental schedule as of December 31, 2022 and 2021, and for the year ended December 31, 2022:

- Investments, at fair value as shown in the statements of net assets available for benefits as of December 31, 2022 and 2021.
- Net depreciation in fair value of investments and interest and dividends as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2022.
- Schedule of Assets (Held at End of Year) – Form 5500, Schedule H, Part IV, Line 4i as of December 31, 2022.

The Plan's independent auditor did not perform auditing procedures with respect to the certified information, except for comparing such information to the related information included in the financial statements and supplemental schedule of assets (held at end of year).

Note 4—Fair value measurements

The Plan's financial instruments carried at fair value are classified by the following fair value hierarchy levels as of December 31:

	2022			
	Level 1	**Level 2**	**Level 3**	**Total**
Investments, at fair value:				
Mutual Funds	$ 6,645,655	$ -	$ -	$ 6,645,655
Money Market Fund	-	92,830	-	92,830
Total investments, at fair value	$ 6,645,655	$ 92,830	$ -	$ 6,738,485

	2021			
	Level 1	**Level 2**	**Level 3**	**Total**
Investments, at fair value:				
Mutual Funds	$ 6,852,597	$ -	$ -	$ 6,852,597
Money Market Fund	-	73,546	-	73,546
Total investments, at fair value	$ 6,852,597	$ 73,546	$ -	$ 6,926,143

Note 5—Party-in-interest transactions

Certain Plan investments at December 31, 2022, are managed by the Custodian; therefore, these investments qualify as party-in-interest transactions. Certain expenses are paid to the Custodian of the Plan for investment management services. Therefore, these transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules. During 2022, the Plan paid $4,816 of administrative expenses to the Custodian.

Note 6—Plan termination

Although the Company intends to maintain the Plan indefinitely, the Company may amend or terminate the Plan at any time in its sole discretion, subject to the provisions of ERISA. If the Plan is terminated, all amounts credited to participants' accounts will become 100% vested.

Note 7—Income tax status

On June 30, 2020, the Internal Revenue Service ("IRS") stated that the prototype plan adopted by the Plan, as then designed, qualifies under Section 401 of the IRC. The Plan has not received a determination letter specific to the Plan itself and the Plan has been amended since receiving the determination letter. However, the Plan administrator believes the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt as of the financial statement date.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2022 and 2021, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8—Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9—Subsequent events

In accordance with U.S. GAAP related to subsequent events, the Plan has evaluated all events subsequent through October 10, 2023, the date these financial statements were available to be issued.
