Independent Auditor's Report

To the Plan Administrator
Edison Energy Group 401(k) Savings Plan
Irvine, California

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the accompanying financial statements of Edison Energy Group 401(k) Savings Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statement of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Edison Energy Group 401(k) Savings Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2022 and 2021 and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Edison Energy Group 401(k) Savings Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Edison Energy Group 401(k) Savings Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Edison Energy Group 401(k) Savings Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Edison Energy Group 401(k) Savings Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

The supplemental schedule of Investments held at End of Year is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of

management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Notes to Financial Statements
December 31, 2022 and 2021

Note 1 – Description of the Plan

The following description of Edison Energy Group 401(k) Savings Plan (“the Plan”) provides only general information. Participants should refer to the “Summary Plan Description” and the Plan document for a more complete description of the Plan’s provisions. Copies are available from the Plan Administrator.

General

The Plan is a defined contribution plan covering all eligible employees of Edison Energy Group, Inc. (the Plan Sponsor”) and its subsidiaries, including Edison Energy, LLC and Altenex, LLC (the “Participating Employers”). The amended Plan was established to provide a systematic savings plan for eligible employees (the “Participants”). The Plan was established on January 1, 2017, was restated effective September 7, 2021, to comply with IRS regulations. The Plan is subject to the provisions of Employee Retirement Income Security Act of 1974 (“ERISA”).

The Plan Sponsor has appointed an investment trustee, Fidelity Management Trust Company, to execute investment transactions, hold certain the Plan’s assets and administer the Participants accounts.

Eligibility

All full-time U.S. employees who have reached the age of 21 and are not part of any collective bargaining agreement become immediately eligible to participate in the Plan. Part-time, temporary, seasonal and intern employees become eligible to participate in the Plan upon both reaching the age of 21 and completing 1,000 hours of service during an eligibility computation period.

Contributions

The Plan provides for employee pre-tax and Roth deferral contributions. Participants may contribute up to 80% of their pre-tax eligible adjusted W-2 compensation, which includes pre-tax elective deferral contributions and does not include overtime, bonuses, commissions, severance pay, stock-based compensation and other wage adjustments.

Pre-tax contributions are subject to limitations of the lesser of 80% of eligible compensation or \$20,500 and \$19,500 under Federal law for plan years ending December 31, 2022 and 2021, respectively. The Plan also accepts certain eligible rollover contributions from other qualified after-tax plans.

The Plan also provides that participants who are projected to be age 50 or older by the end of the calendar year and who are making deferral contributions to the Plan may also make a catch-up contribution of the lesser of 80% of eligible compensation or \$6,500 for the plan years ending December 31, 2022 and 2021.

Note 1 – Description of the Plan (continued)

Contributions (continued)

The Company provides a non-discretionary employer matching contribution. The non-discretionary employer matching contribution equals 100% of each participant's elective deferrals up to 4% of the participant's eligible compensation. All non-discretionary matching contributions apply to both regular and catch-up contributions and is based on annual eligible compensation. A true-up is performed annually for any missed non-discretionary matching contributions.

Vesting

Participants are immediately vested 100% in their deferral and employer matching and other discretionary contributions plus actual earnings thereon.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of Plan earnings and losses and charged with an allocation of administrative expenses, if any. Allocations are based on participant earnings or account balances as defined. The benefit to which a participant is entitled is that which can be provided from the participant's vested account.

Notes Receivable from Participants

Eligible participants may borrow from their Plan accounts in amounts attributable to the participant's vested balance, for a maximum term of five years. If the loan is for the purchase of a principal residence, the term of the loan may be extended to ten years. A participant may borrow a maximum of 50% of their eligible balance up to \$50,000, reduced by the excess of the highest outstanding loan amount during the immediate preceding twelve month period over the total outstanding loan balance on the date of the new loan. The minimum loan is \$1,000 and only two loans can be outstanding at any time. The loan balance is secured by the participant's account and the interest rate is fixed at the inception of the loan in an amount equal to the prevailing interest rates charged by persons in the business of lending money for loans under similar circumstance. The interest rate charged on loans outstanding as of December 31, 2022 ranged between 4.25% and 8.00% per annum, and the loans mature on various dates through December 2027.

Plan Investments

The Plan's investments are held by Fidelity Management Trust Company, the trustee, in various mutual funds and a stable value contract. Participants have the option to allocate their individual accounts among various investment alternatives and to make transfers as specified in the Plan document.

Note 1 – Description of the Plan (continued)

Benefits and Withdrawals

On termination of services due to death, retirement at age 59½, or disability, the participants or their beneficiaries may elect distribution in an amount equal to the value of his or her vested account, either in a lump-sum distribution or in equal installments. If the participant's account balance is less than \$1,000 the distribution will automatically be paid in a lump sum. In-service withdrawals are only allowed when the participant reaches the age of 59½. Hardship withdrawals are allowed, with a minimum of \$500, under the provisions of the Plan, and cannot exceed the amount required to meet the immediate financial need created by the hardship.

Note 2 - Summary of Significant Accounting Policies

Basis of Presentation

The financial statements are prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Fair Value Measurements

FASB ASC 820-10, "*Fair Value Measurements*," applies to reported balances that are required or permitted to be measured at fair value under an existing accounting pronouncement. ASC 820-10 emphasizes that fair value is a market based measurement, not an entity-specific measurement. Therefore, a fair value measurement should be determined based on the assumptions that market participants would use in pricing the asset or liability and establishes a fair value hierarchy. The fair value hierarchy consists of three levels of inputs that may be used to measure fair value as follows:

Level 1 – Inputs that utilize quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access.

Level 2 – Inputs that include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument. Fair values for these instruments are estimated using pricing models, quoted prices of securities with similar characteristics, or discounted cash flows.

Level 3 – Inputs that are unobservable for the asset or liability, which are typically based on an entity's own assumptions, as there is little, if any, related market activity.

Notes to Financial Statements
December 31, 2022 and 2021

Note 2 - Summary of Significant Accounting Policies (continued)

Fair Value Measurements (continued)

In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

Mutual Funds are valued at the quoted net asset value for shares held by the Plan at year end. The stable value fund contract, backed by a diversified portfolio of fixed-income assets, held in the general account of the issuer, is stated at contract value and is based on the current interest rates credited to the contract, less any contingent deferred sales charges.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investment Valuation and Income Recognition

The stable value fund contract is stated at contract value. All other Plan investments are stated at fair value based on quoted redemption values on the last day of the Plan year. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2022 and 2021. If a participant ceases to make repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Note 2 - Summary of Significant Accounting Policies (continued)

Contributions

Contributions from the Plan Sponsor accrued, if applicable, is based upon the contribution formula. Participants' contributions are recorded in the period in which their payroll deductions are withheld.

Benefits Paid Directly to Participants

Benefits payments are recorded when paid.

Expenses

Certain administrative expenses of the Plan are paid by the Plan Sponsor. All participant related administrative expenses and fees for maintenance of individual loans and distributions are deducted from the participants' respective accounts.

Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect reported amounts and disclosures. Actual results may differ from those estimates.

Note 3 – Information Certified by the Plan's Trustees

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, in addition to the information contained in Note 4 – Fair Value of Investments, and in the Supplemental Schedule – Schedule of Assets Held at End of Year, Fidelity Management Trust Company, the trustee, has certified that the following data included in the accompanying financial statements and supplemental schedule as of December 31, 2022 and 2021, and for the year ended December 31, 2022, is complete and accurate:

	<u>2022</u>	<u>2021</u>
Investments, at fair value	\$20,029,519	\$21,123,751
Investments, at contract value	433,803	537,897
Notes receivable from participants	202,923	236,534
Investment loss	(3,672,912)	
Administrative expenses	12,595	
Interest income on notes receivable	11,046	

The Plan's independent auditors did not perform auditing procedures with respect to this information other than comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4 – Fair Value of Investments

The Plan uses fair value measurements to record fair value adjustments to certain assets and to determine fair value disclosures. The following table presents the Plan's fair value hierarchy for those assets measured at fair value on a recurring basis as of December 31, 2022 and 2021.

		Quoted Prices in Active Markets for Identical Assets Level 1	Significant Other Observable Inputs Level 2	Significant Unobservable Inputs Level 3
December 31, 2022	Total			
Mutual Funds	\$20,029,519	\$20,029,519	\$ -	\$ -
Total	<u>\$20,029,519</u>	<u>\$20,029,519</u>	<u>\$ -</u>	<u>\$ -</u>
		Quoted Prices in Active Markets for Identical Assets Level 1	Significant Other Observable Inputs Level 2	Significant Unobservable Inputs Level 3
December 31, 2021	Total			
Mutual Funds	\$21,123,751	\$21,123,751	\$ -	\$ -
Total	<u>\$21,123,751</u>	<u>\$21,123,751</u>	<u>\$ -</u>	<u>\$ -</u>

During 2022, the Plan's investments (including gains and losses on investments bought and sold during the year) depreciated in value by \$4,646,934.

Note 5 – Stable Value Fund Contract with Insurance Company

The Plan entered into a fully benefit-responsive stable value fund contract with Lincoln National Life Insurance Company ("Lincoln"). Lincoln maintains all investment contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The stable value fund contract issuer is contractually obligated to repay the principal and a specified rate that is guaranteed to the Plan.

Because the contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the contract. Contract value, as reported by Lincoln, represents contributions made under the contract, plus earnings, less participant withdrawals, administrative expenses and contingent deferred sales charges. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Edison Energy Group 401(k) Savings Plan
Notes to Financial Statements
December 31, 2022 and 2021

Note 5 – Stable Value Fund Contract with Insurance Company (continued)

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the investment contract at December 31, 2022 and 2021 was \$433,803 and \$537,897, respectively.

Certain events may limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) removal of a group of participants from Plan coverage as a result of temporary absence, change in position or other occurrence qualifying as a temporary break in service under the Plan, (2) transfer or other change of position resulting in employment by an entity controlling, controlled by, or under common control with the employer, (3) cessation of an employment relationship resulting from a reorganization, merger, layoff or the sale or discontinuance of all or any part of the Plan Sponsor's business, (4) removal from the Plan of one or more groups or classifications of participants, (5) partial or complete Plan and contract termination of the contract; or (6) Plan disqualification.

The Plan Administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are not probable of occurring.

Note 6 – Exempt Party-in-Interest Transactions

Certain Plan investments include shares of funds managed by Fidelity Management Trust Company (Fidelity). Fidelity was the investment trustee during the Plan year, as defined by the Plan, and, therefore, transactions executed by the trustee qualifies as party-in-interest transactions. Fees are also paid by the Plan and its Sponsor for investment management fees and services.

Note 7 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Further, due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect participants' account balances and the amounts reported in the accompanying financial statements.

Edison Energy Group 401(k) Savings Plan
Notes to Financial Statements
December 31, 2022 and 2021

Note 8 – Tax Status

The Plan has obtained an opinion letter, issued to FMR, LLC (the Plan's trustee) from the IRS dated June 30, 2020, stating that the Non-Standardized Pre-Approved Profit Sharing Plan With CODA is acceptable under section 401 of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the opinion letter. However, the Plan Administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2019.

Note 9 – Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

Note 10 – Subsequent Events

FASB ASC 855-10, "*Subsequent Events*," defines further disclosure requirements for events that occur after the balance sheet date but before financial statements are issued. In accordance with ASC 855-10, the Plan's Sponsor has evaluated events subsequent to December 31, 2022 through September 22, 2023, which is the issuance date of this report. There has been no material event noted during this period that would either impact the results reflected in this report or the Plan's results going forward.
