INDEPENDENT AUDITOR'S REPORT

To the Administrative Committee of
the UPS Retirement Plan:

Opinion

We have audited the financial statements of the UPS Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2022 and 2021, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

UPS RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2022 AND 2021

1. DESCRIPTION OF THE PLAN

The following description of the UPS Retirement Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General—The Plan was established on September 1, 1961 and has been amended periodically. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended, and is a noncontributory defined benefit pension plan for substantially all employees of United Parcel Service, Inc. (UPS or the "Company"), who are not members of a collective bargaining unit, or, if they are, whose bargaining unit agreement specifically provides for their participation in the Plan.

On April 30, 2021, the Plan Sponsor divested its UPS Freight business to TFI International Inc. Participants in the Plan whose employer company was UPS Ground Freight, Inc. as of April 30, 2021 ceased accruing benefits under the Plan as of April 30, 2021.

Contributions—Contributions to the Plan are made by UPS. UPS' funding policy is to contribute amounts that will at least satisfy the minimum funding requirements of ERISA, but do not exceed the maximum tax-deductible requirements of the Internal Revenue Code (IRC) as provided by the Plan's independent actuary. In accordance with this funding policy, UPS contributed \$190 million and \$650 million to the Plan for the years ended December 31, 2022 and 2021, respectively. \$190 million of the 2022 amount was remitted on March 15, 2023 and is shown as contributions receivable in the statements of net assets available for benefits. UPS met the minimum funding requirements of ERISA for the years ended December 31, 2022 and 2021.

Closed Plan—The Plan was closed to new non-union participants effective July 1, 2016. The Company amended the UPS 401(k) Savings Plan so that employees who previously would have been eligible for participation in the Plan will, in addition to current benefits under the UPS 401(k) Savings Plan, began receiving a UPS Retirement Contribution. For employees eligible to receive the Retirement Contribution, UPS generally contributes 3% to 8% of eligible pay to the UPS 401(k) Savings Plan based on years of vesting service and business unit. Contributions are made annually in cash to the accounts of participants.

On June 23, 2017, the Plan was amended to reflect the freeze in benefit accruals under the Plan effective January 1, 2023. The Company amended the UPS 401(k) Savings Plan so that non-union employees who currently participate in the UPS Retirement Plan will, in addition to current benefits under the UPS 401(k) Savings Plan, earn a UPS Retirement Contribution beginning January 1, 2023. UPS contributes 5% to 8% of eligible compensation to the UPS 401(k) Savings Plan based on years of vesting service. The amendment also provides for transition contributions for certain participants.

Pilots— There are approximately 3,500 pilots covered by the Plan (not impacted by

the freeze in benefit accruals above) who are employed under a collective bargaining agreement with the Independent Pilots Association (IPA).

On August 12, 2022, the IPA ratified a two-year contract extension, resulting in the collective bargaining agreement becoming amendable September 1, 2025. This new agreement provided improvements in compensation and retirement benefits. Refer to note 4 to the audited financial statements for information on the impact to the present value of accumulated benefits.

Participation— Participants in the Plan fall into three broad categories: Final average compensation formula, pilots, and Portable Account Formula (PAF) participants. Each of these categories is described below:

	Final Average Compensation Formula	Pilots	Portable Account Formula
Eligibility for Participation	<ul style="list-style-type: none"> • Hired before January 1, 2008 • At least 21 years old • Completed at least 750 paid hours of service during the first 12 months of hire or during any calendar year thereafter 	<ul style="list-style-type: none"> • January 1 or July 1 following attainment of age 21 • Completion of one vesting year 	<ul style="list-style-type: none"> • All eligible employees, except pilots, hired, rehired, or newly eligible on or after January 1, 2008, but before July 1, 2016.

All benefits and compensation for any calendar year may not exceed the maximum limitation for that year as defined in the IRC. The Plan provides for increasing the dollar limits automatically as such changes become effective.

Lump Sum Distribution—There were no options to receive a one-time payment of vested benefit in 2022 or 2021.

401(h) Account—The Plan was amended on January 1, 1976, to include a medical benefit component in addition to the normal retirement benefits to fund a portion of the postretirement obligation for retirees and their beneficiaries in accordance with Section 401(h) of the Internal Revenue Code ("IRC"). A separate account has been established and maintained in the Plan for the net assets related to the medical benefit component ("401(h) account"). The related obligations for health and welfare benefits are not included in this Plan's obligations but are reflected as obligations in the financial statements of the UPS Retired Employees Health Care Plan. Plan participants reimburse the 401(h) account for certain health and welfare benefits received, which are not covered under the Plan. Participant reimbursements to the 401(h) account were \$31 million and \$20 million in 2022 and 2021, respectively. Certain of the Plan's net assets are restricted to fund a portion of postretirement health benefits for retirees and their beneficiaries in accordance with IRC Section 401(h).

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting—The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates—The preparation of financial statements in conformity with GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Master Trust— See Note 5.

Risks and Uncertainties—The Plan and the Master Trust utilize various investment securities, including common and preferred stocks, corporate debt instruments, U.S. government securities, money market funds, collective trust funds, registered investment companies, 103-12 investment entities, derivative instruments, repurchase agreements, reverse repurchase agreements, partnerships, joint ventures, and real estate. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

Investment Valuation and Income Recognition—Investments are stated at fair value. If available, quoted market prices are used to value investments. Certain investments' estimated fair values are based on unobservable inputs that are not corroborated by observable market data and are thus classified as Level 3. Investments that do not have a readily determinable fair value, but which provide a net asset value ("NAV") (or its equivalent) developed consistent with Financial Accounting Standards Board ("FASB") measurement principles as of December 31 are valued using NAV as a practical expedient. These investments are not classified in Levels 1, 2, or 3 of the fair value hierarchy, but are included in the totals in the tables shown in Note 7. Purchases and sales are recorded on a trade-date basis. Interest is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits—Benefit payments to participants are recorded upon distribution.

Expenses—Administrative expenses of the Plan are paid by the Plan, as provided in the Plan document.

Subsequent Events—For the year ended December 31, 2022, subsequent events were evaluated through October 11, 2023, the date the financial statements were available to be issued.

3. PLAN TERMINATION

Although it has not expressed any intention to do so, UPS has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and, subject to collective bargaining for represented employees, to terminate the Plan.

In the event of termination of the Plan, the Plan assets shall be allocated in accordance with priorities specified in Section 4044 of ERISA. Generally, Section 4044 provides the following priorities:

- a. The lowest benefit in pay status for at least three years (or which would have been if the participant had retired that long ago)
- b. Other insured benefits
- c. Other noninsured, nonforfeitable benefits
- d. All other benefits

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

Whether all participants receive their benefits, should the Plan terminate at some future time, will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and may also depend on the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the existing assets and the PBGC guaranty while other benefits may not be provided at all.

4. ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances—retirement, death, disability, and termination of employment—are included to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from Plan assets are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits is determined by an independent actuary. The amount results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts of interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuations as of December 31, 2022 and 2021, are as follows:

	2022	2021
Pilots mortality	Pri-2012 healthy white collar mortality table, separate tables for retirees and contingent survivors, with MP-2021 morality improvements after 2012 assuming the long-term rate of mortality improvement phases down to 0.5% by 2027.	Pri-2012 healthy white collar mortality table, separate tables for retirees and contingent survivors, with MP-2021 morality improvements after 2012 assuming the long-term rate of mortality improvement phases down to 0.5% by 2026.
Non-pilots mortality	Pri-2012 healthy no collar mortality table, separate tables for retirees and contingent survivors, with MP-2021 morality improvements after 2012 assuming the long-term rate of mortality improvement phases down to 0.5% by 2027.	Pri-2012 healthy no collar mortality table, separate tables for retirees and contingent survivors, with MP-2021 morality improvements after 2012 assuming the long-term rate of mortality improvement phases down to 0.5% by 2026.
Discount rate	6.75%	5.75%
Average retirement age	62.2	62.2

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present values of the Plan's accumulated plan benefits as of December 31, 2022 and 2021, are as follows (in millions):

	2022	2021
Vested benefits:		
Other participants	\$ 8,070	\$ 8,858
Participants and/or beneficiaries currently receiving benefits	<u>12,511</u>	<u>13,037</u>

The changes in the actuarial present value of the Plan's accumulated plan benefits for the years ended December 31, 2022 and 2021, are as follows (in millions):

Actuarial present value of accumulated plan benefits— December 31, 2020	\$	21,988

Actuarial present value of accumulated plan benefits— December 31, 2022	\$	<u>21,500</u>

1. The assumption changes include a \$154 million increase due to the recent experience study, and a \$34 million increase due to updates to the mortality tables.
2. The assumption changes include a \$1 million decrease due to updates to the mortality tables, and a \$2.413 billion decrease due to change in the discount rate from 5.75% to 6.75%.
3. The plan amendment includes a \$133 million increase in the present value of accumulated plan benefits due to the Pilots contract extension, which was ratified on August 12, 2022.

5. INTEREST IN MASTER TRUST

As of December 31, 2022 and 2021, the majority of the Plan's investment assets are maintained in trust accounts at Bank of New York Mellon (the "Trustee"). These accounts consist of undivided interests in multiple investment accounts of the UPS Group Trust (the "Master Trust"), a master trust established by the Plan Sponsor and administered by the Trustee.

The Master Trust is structured with multiple investment funds ("sleeves") each representing a particular asset class. Each sleeve consists of master trust units representing shares of ownership of the sleeve and its underlying investments. The undivided interests owned by each of the participating plans are held in these master trust units.

Each participating plan owns master trust units of individual investment sleeves in accordance with its investment policy statement.

As of December 31, 2022, the following plans participate in the Master Trust:

- (1) the UPS Retirement Plan (the "Plan"),
- (2) the UPS Pension Plan and
- (3) the UPS/IBT Full-Time Employee Pension Plan.

Each participating plan has an undivided interest in the Master Trust's various investment sleeves. At December 31, 2022 and 2021, the Plan's interest in the net assets of The Master Trust was 51% and 53%, respectively.

The following table presents each investment sleeve and the percentage of ownership by participating plans within the sleeve as of December 31, 2022 and 2021:

	UPS Retirement Plan		UPS Pension Plan		UPS/IBT Full-Time Employee Pension Plan

Although assets of multiple plans are commingled in the Master Trust, the Trustee maintains supporting records for the purpose of allocating the net gain or loss of the investment account to the participating plans. The net investment income and administrative expenses are allocated by the Trustee to each participating plan based on the relationship of the interest of each plan in each asset class sleeve to the total of the interests of the participating plans in the respective asset class sleeves.

The net investment earnings of the Master Trust for the years ended December 31, 2022 and 2021, are summarized below (in millions):

	2022	2021
Dividend and interest income	\$ 671	\$ 603
Net appreciation (depreciation) in fair value of investments	(14,239)	4,102

6. INVESTMENTS

As of December 31, 2022 and 2021, the Plan's investments are presented at fair value, which has been determined based on the fair value of the underlying investments of the Master Trust.

Plan assets utilizing Level 1 inputs include fair values of equity investments and U.S. government securities that were determined by closing prices for those securities traded on national stock exchanges, while securities traded in the over-the-counter market and listed securities for which no sale was reported on the valuation date are valued at the mean between the last reported bid and ask prices.

Level 2 assets include certain bonds that are valued based on yields currently available on comparable securities of other issues with similar credit ratings, mortgage-backed securities that are valued based on cash flow and yield models using acceptable modeling and pricing conventions, certain equity instruments and certain investments that are pooled with other investments held by the trustee in a commingled employee benefit trust fund. The investments in the commingled funds, including collective trust funds, are valued by taking the percentage owned by the respective plan in the fair value of the underlying investments of the trust fund, which was determined in accordance with the paragraph above.

Certain investments' estimated fair values are based on unobservable inputs that are not corroborated by observable market data and are thus classified as Level 3.

Investments that do not have a readily determinable fair value, and which provide a NAV (or its equivalent) developed consistent with FASB measurement principles, are valued using NAV as a practical expedient. These investments are not classified in Levels 1, 2, or 3 of the fair value hierarchy, but are included in the totals in tables shown in Note 7. These investments include fixed income, hedge funds, private equity, credit and real estate. Investments in hedge funds are valued using reported NAVs as of December 31. Investments in fixed income, private equity, credit and real estate are valued using fair values per the most recent audited financial statements, adjusted, as appropriate, for any activity between the date of the financial reports and December 31. The fair values may, due to the inherent uncertainty of valuation for those alternative investments, differ significantly from the values that would have been used had a ready market for the alternative investments existed, and any differences could be material.

Approximately \$5.855 billion and \$7.191 billion of the Master Trust assets are held in commingled funds that each hold U.S. and international public market securities for the years ended December 31, 2022 and 2021, respectively. The Master Trust held

the right to liquidate its positions in these commingled funds at any time, subject only to a brief notification period. No unfunded commitment existed with respect to these commingled stock funds at December 31, 2022 and 2021.

The Master Trust held approximately \$8.202 billion and \$7.786 billion of its investments in interests in various private equity, global equity, credit and real estate funds as of December 31, 2022 and 2021, respectively. Limited provision exists for the redemption of these interests by the general partners that invest these funds until the end of the term of the interests, typically ranging between 10 and 15 years from the date of inception. An active secondary market exists for similar interests, although no particular value (discount or premium) can be guaranteed. At December 31, 2022 and 2021, unfunded commitments to such interests totaling approximately \$3.266 billion and \$3.042 billion, respectively, are expected to be contributed over the remaining investment period, typically ranging between 3 and 6 years.

The Master Trust held certain investments in interests in various fixed income funds as of December 31, 2021. As of December 31, 2022, the Master Trust no longer held any investments in interest in fixed income funds. No unfunded commitments existed with respect to fixed income funds as of December 31, 2022 and 2021.

As of December 31, 2022 and 2021, approximately \$4.044 billion and \$3.230 billion of the Master Trust investments are held in hedge funds that pursue multiple strategies to diversify risk and reduce volatility. Most of the funds require between 2 and 3 months' notice and allow redemptions either quarterly or semiannually while some allow for redemption after only a brief notification period with no restriction on redemption frequency. No unfunded commitments existed with respect to hedge funds as of December 31, 2022 and 2021.

7. FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value as follows: Level 1, which refers to securities valued using unadjusted quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been classified as Levels 1, 2, or 3 in the below fair value hierarchy, but are included in the total.

Investments made by the plan outside of the Master Trust include cash and cash equivalents. Level 1 inputs are used to determine the fair value of these investments.

The following table sets forth by level, within the fair value hierarchy, a summary of the Master Trust investment assets at fair value (in millions) at December 31, 2022.

- 1 Certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy but are included in the category totals.
- 2 The Investment Committee of the Master Trust has established and instituted the Investment Policy Statement (IPS) to implement and monitor investment strategies and/or guidelines across asset classes. The Master Trust's IPS addresses the below items such as establishing appropriate governance provisions; defining investment objectives; determining strategic asset allocation; monitoring and reporting the investments on a regular basis; appointing/dismissing investment managers, custodians, consultants, advisors; risk management (including various measures used to evaluate risk tolerance); determining/defining the mandates for investment managers; rebalancing of assets; and determining investment restrictions/prohibited investments.

Plan assets are invested in accordance with applicable laws and regulations. The primary long-term investment objectives for plan assets are to provide for a reasonable amount of long-term growth of capital to meet future obligations while minimizing risk exposures and reducing funded status volatility. The Master Trust meets these objectives by employing investment managers who are engaged to actively manage assets within the guidelines and strategies set forth by the Investment Committee of the Master Trust. Active managers are monitored regularly and their performance is compared to applicable benchmarks.

The following table presents a roll-forward from the beginning to ending balances of the fair value measurements using significant unobservable inputs (Level 3) (in millions) for the years ended December 31, 2022 and 2021:

The valuation methods as described in Note 6 may produce a fair value estimate that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

8. DERIVATIVE FINANCIAL INSTRUMENTS

ASC 815, *Derivatives and Hedging*, requires disclosures on how and why derivative instruments are used, accounted for, and affect the results of operations and financial position. The Master Trust does not designate derivatives as hedging instruments under ASC 815. The Master Trust investments are exposed to interest rate risk, foreign currency risk, credit risk, equity risk, and commodity risk.

Interest rate risk is the risk of change in the market value of the assets due to a change in interest rates. Futures contracts, interest rate swaps, total return swaps, repurchase agreements, and option contracts on interest rate swaps are generally used to manage interest rate risk, adjust portfolio duration, or enhance performance.

Foreign currency risk is the risk of a change in market value due to the change in foreign currency exchange rates. Foreign exchange forwards, options, and futures contracts on foreign currencies are generally used to manage foreign currency risks. Forwards, options and futures are used to achieve the desired currency exposure or enhance performance.

Equity risk is the risk of a change in market value in a specific equity security. Diversification of an equity portfolio, futures contracts and total return swaps are generally used to manage equity risk.

As of December 31, 2022 and 2021, the Master Trust has invested in derivative contracts, which are reflected in the Master Trust's statements of net assets as follows (in millions):

The Master Trust is subject to master netting agreements with certain counterparties. These agreements govern the terms of certain transactions and reduce the counterparty risk associated with relevant transactions by specifying offsetting mechanisms and collateral posting arrangements at prearranged exposure levels. Since different types of transactions have different mechanics and are sometimes traded out of different legal entities of a particular counterparty organization, each type of transaction may be covered by a different master netting arrangement possibly resulting in the need for multiple agreements with a single counterparty. Master netting agreements are specific to each different asset type; therefore, they allow the Master Trust to close out and net its total exposure to a specified counterparty in the event of a default with respect to all transactions governed under a single agreement with the counterparty.

The following is a summary by financial instrument type of the Master Trust's net exposure to derivative assets and liabilities available for offset, and net of collateral under master agreements at December 31, 2022 (in millions):

At December 31, 2021, the Master Trust held \$34 million in collateral under derivative instruments and \$224 million in collateral under securities lending agreements. The Master Trust pledged \$103 million of collateral under derivative contracts at December 31, 2021.

9. FEDERAL INCOME TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated October 15, 2015, that the Plan and related trust were designed in accordance with the applicable regulations of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter; however, the Company and the Plan management believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC, and the Plan and related trust continue to be tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2019.

10. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan and Master Trust investments are managed by Bank of New York Mellon. Bank of New York Mellon is the trustee as defined by the Plan, and therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for the investment management and associated trustee/custodian services were \$1.1 million for both of the years ended December 31, 2022 and 2021.

11. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

A reconciliation of amounts reported in the Plan's financial statements to amounts reported in the Form 5500 is required by ERISA. The following is a reconciliation of net assets available for pension benefits per the financial statements to the Form 5500 for the years ended December 31, 2022 and 2021.

	2022	2021

Net assets available for pension benefits per the Form 5500	<u>\$ 22,022</u>	<u>\$ 30,131</u>

The net assets of the 401(h) account included in the Form 5500 are not available to pay pension benefits, but can be used only to pay retiree health benefits.

Benefit commencement date for deferred vested and actives

Non-PAF Benefits

The later of age 63 and current age. For participants who terminated prior to 1992 and for pilots, the later of age 60 or current age.

90% of Pilots are assumed to retire as Captains, with the remaining 10% of the Pilot population assumed to retire as First Officers.

PAF Benefits

60% immediate commencement and 40% deferred commencement to age 63.

Retroactive payments for deferred vested participants beyond age 65 are assumed to be offset by payments applicable to missing participants who will not be located.

Assumptions Rationale - Significant Economic Assumptions

PAF Interest Credit Rate	<p>The plan credits interest to cash balance accounts using the 30-year Treasury rate for the month of August preceding the applicable plan year, with a minimum interest credit rate of 2.50%. Our long-term estimate of the 30-year Treasury rate is 2.50%, based on guidance from UPS to reflect linkage to the year-end discount rate used for company financial reporting. The rate was determined as the maximum of the 2.50% minimum interest crediting rate and the UPS Retirement Plan discount rate as of December 31, 2022 less 150bps. The 150bps spread is a long-term assumption and was chosen based the Willis Towers Watson capital market assumed normative spread between 30-year corporate Aa bonds and the 30-year Treasury rate and the additional spread between the Retirement Plan discount rate chosen and a comparable corporate bond index rate. This assumption will remain consistent from year-to-year unless financial indicators are significantly different.</p>
Rates of increase in:	
<ul style="list-style-type: none"> Compensation 	<p>Assumed compensation increases are based on a combination of assumed future (i) cost-of-living increases (CPI), (ii) productivity increases and (iii) promotional increases. real increases in NAW described below (i.e., increases in assumed NAW less increases in assumed CPI).

A flat rate of 4.50% is assumed. This assumption is comprised of three components: assumed inflation (CPI) of 2.75%, real wage growth of 1.00% to 1.25% and merit/promotion increases of 0.50% to 0.75%. Assumed compensation increases are reviewed annually by Willis Towers Watson and UPS.

Actual compensation increases are reviewed annually and compared to the assumed increase of 4.50% (total compensation for non-MIP participants and base compensation for MIP participants). Generally, increases for the total population have been in line with the assumption. However, there are years where losses or gains result from increases different than expected. Some of these losses or gains are driven by economic factors such as changes in hours worked for the hourly non-union population. Despite these losses or gains, UPS's long-term expectation of merit/promotional and overall compensation increases remains at 0.50% to 0.75% and 4.50% annually, respectively.

Non-union participants may be eligible for the Management Incentive Plan (MIP/IMIP) in addition to base compensation. For those eligible for these payments, future payouts are assumed to be made as a percentage of target payout based on past experience and an expectation from the company about future payments.

For union participants with pay-related benefits (pilots), annual compensation increase assumptions are linked to increases negotiated in the current collective bargaining agreements. This is an annual increase of 3.00%.

In addition, for pilots, a 40% increase in compensation is assumed upon reaching 16 years of service. This is the assumed duration for a pilot to be promoted from First Officer to Captain. Both the 16 year service period and the 40% increase have been determined based upon a review of experience for pilots from 2016 through 2020 and plan sponsor expectations.

The resulting compensation increase assumptions are composite rates that reflect both current conditions and future expectations.

- National average wages (NAW) (e.g., Social Security wage bases)

The National Average Wage (NAW) increase assumption is used to project the Social Security Wage Base (SSWB) and Social Security Primary Insurance Amounts (SSPIA) to future dates. For certain UPS Retirement Plan participants, their benefits are integrated with Social Security via either the SSWB or the SSPIA.

The assumed NAW of 3.75% is based on assumed CPI as shown above, plus assumed increases in real wages (the portion of GDP increases that becomes part of wages). Such assumed future increases in real wages are based on forecasts by economists, a combination of historical averages and a combination of recent rates and an expectation that future rates will be higher than current rates.

The NAW assumed increases are consistent with those reflected in the non-union compensation increase assumption.

■ CPI

The assumed CPI increase of 2.75% is reviewed annually and set based on Willis Towers Watson's annual capital market assumptions. The October 1, 2022 Willis Towers Watson capital market assumptions (neutral model) indicate that the normative, nominal price inflation is expected to be 2.50%. In addition, the 20- year average annual rate of projected price inflation is 2.89%. As these indicators change, UPS and Willis Towers Watson assess the need to potentially change the inflation assumption. The practice has been to leave this assumption consistent from year- to-year unless financial indicators are significantly different.

In addition, the inflation (CPI) assumption is used implicitly in the determination of the NAW increase assumption, non-union compensation increase assumption, and PAF interest crediting rate assumption.

Plan-related expenses

As required by regulations, plan-related expenses are by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust).calculated

Assumptions Rationale – Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Diabeled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were based on an experience study conducted in 2021, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year
Actuarial value of assets	Market value of assets
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued. Willis Towers Watson has reviewed the plan provisions with UPS and is not aware of any significant benefits that should have been valued and were not.

Change in Methods and Assumptions Since Prior Year

The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430.

The mortality table used to calculate the funding target and target normal cost was updated to include on year of additional year of projected mortality improvement, as required by IRC §430.

The assumed administrative expenses were changed from \$90,000,000 in 2021 to \$119,000,000 in 2022.

Data Sources

Willis Towers Watson used asset data supplied by UPS. UPS furnished participant data as of January 1, 2022. Data were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the company, the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. Assumptions and estimates were made by Willis Towers Watson actuaries when data were not available, and UPS confirmed the appropriateness of these assumptions and estimates in 2022 Retirement Plan Questions Responses received on June 1, 2022. Willis Towers Watson is not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Schedule SB, Part V Summary of Plan Provisions

1. Applicable to UPS Grandfathered and RPA Participants

Plan Provisions

Covered Employees Employees of adopting employers who were hired, rehired or transferred into the Retirement Plan prior to January 1, 2008, provided they are not currently accruing benefits under any other non-governmental pension or profit sharing plan (except the UPS Savings Plan) to which UPS makes contributions; and further provided they are not covered by a collective bargaining agreement unless the agreement provides for coverage under the UPS Retirement Plan.

As amended in June 2017, beginning December 31, 2022 no future accruals will be earned in the UPS Retirement Plan.

Participation Date All Predecessor Plan participants on December 31, 1975 who are employees on January 1, 1976 become plan participants on January 1, 1976. All other employees become eligible to participate immediately following attainment of age 21 and completion of a 12-month period of employment during which 750 hours of service are completed.

Definitions

Vesting service One year for each calendar year in which an employee completes 750 hours of service.

Benefit service One year for each calendar year in which an employee completes at least 1,500 hours of service. Partial credit is given if at least 125 hours of service are completed.

Alternative points For Grandfathered Participants, 20 points per year of benefit service. For non-Grandfathered Participants, benefit service prior to January 1, 2001, 20 points per year of benefit service. For benefit service on or after January 1, 2001, see the attached schedule.

Alternative-Plus points For Grandfathered Participants, 5 points per year of benefit service. For non-Grandfathered Participants, benefit service prior to January 1, 2001, 5 points per year of benefit service. For benefit service on or after January 1, 2001, see the attached schedule.

Integrated points For Grandfathered Participants, 12 points per year of benefit service. For non-Grandfathered Participants, benefit service prior to January 1, 2001, 12 points per year of benefit service. For benefit service on or after January 1, 2001, see the attached schedule.

Integrated-Plus points For Grandfathered Participants, 4 points per year of benefit service. For non-Grandfathered Participants, benefit service prior to January 1, 2001, 4 points per year of benefit service. For benefit service on or after January 1, 2001, see the attached schedule.

Compensation Basic salary or wages plus overtime pay, certain incentive and bonus pay, and deferrals to the UPS Deferred Compensation Plan, Section 401(k) and Section 125 deferrals, and eligible MIP compensation, limited as required by Section 401(a)(17) of the Internal Revenue Code.

	Eligible MIP compensation is equal to MIP/IMIP ownership incentive awards plus MIP/IMIP performance incentive awards times the legacy MIP percentage. Legacy MIP percentage is defined for each job group as the current MIP/IMIP target over the legacy MIP/IMIP target (prior to inclusion of long-term incentives). MIP/IMIP awards considered include value of the restricted stock unit portion of the award even if not vested.
Final average earnings	The average of the highest five consecutive calendar years of compensation during the ten-year period ending on the earlier of the participant's termination date or date of death or plan termination date.
Grandfathered Participant	A participant who performed an hour of service as an employee on or before December 31, 2000 and was employed by an employer who adopted the plan on or before December 31, 2000.
Social Security benefit	The estimated Primary Insurance Amount payable at the age at which unreduced Primary Insurance Amounts are available under the Social Security Act in effect on the earlier of his normal retirement date or the date of termination, assuming in the case of early retirement or termination before normal retirement date that compensation continued unchanged until normal retirement date.
Normal retirement date (NRD)	First of month coinciding with or next following the attainment of age 65 with five years of vesting service or participation. If a participant prior to January 1, 1989, first of the month coinciding with or next following the attainment of age 65.
Actuarial Equivalence	6% and 1983 Group Annuity Mortality (GAM): male table for participants; female table for beneficiaries. Grandfathered participants receive a protected minimum conversion factor based on form of payment.
Pension benefit	<p>For Grandfathered Participants, larger of (1), (2), (3) and (4). Otherwise, the larger of (3) and (4).</p> <p>(1) 58.33% of final average earnings (FAE) less 58.33% of the Social Security benefit (SSB), reduced proportionately for years of benefit service less than 35.</p> <p>(2) 2% of final average earnings up to:</p> <p>(a) \$48,000 if year of birth is 1957 or later</p> <p>(b) \$54,000 if year of birth is 1951 to 1956</p> <p>(c) \$60,000 if year of birth is 1950 or earlier</p> <p>Plus 0.5% of final average earnings in excess of the above breakpoints; multiplied by benefit service up to 35 years.</p> <p>(3) Alternative Points multiplied by 1% of final average earnings up to \$48,000 plus</p> <p>Alternative-Plus Points multiplied by 1% of final average earnings in excess of \$48,000, with the result divided by 10</p>

(4) Integrated Points multiplied by 1% of final average earnings plus Integrated-Plus Points multiplied by 1% of final average earnings in excess of the Social Security wage base, with the result divided by 10

Preretirement spouse benefit 50% of the benefit that would have been payable to the participant, assuming early retirement on the date of death or earliest retirement date if later and election of a 50% joint and survivor benefit.

Disability benefit For participants who become disabled before eligibility for early or normal retirement and are not eligible for Long Term Disability (LTD), \$9.60 per month times benefit service up to 30 years, payable until the participant's early retirement date at which time the participant receives an early retirement benefit.

For participants who became disabled before eligibility for early or normal retirement and are eligible for LTD, they will continue to accrue benefit service to the earlier of their normal retirement date and the date at which they recover from disability. All other employees receive an early retirement benefit accrued on the date of disability.

For disabilities occurring after eligibility for early or normal retirement, the benefit payable is the early or normal retirement benefit as applicable.
