Report on the Audit of the Financial Statements

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of The Amended and Restated Alaska Power & Telephone Company Employee Stock Ownership and Savings Plan and Trust, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of The Amended and Restated Alaska Power & Telephone Company Employee Stock Ownership and Savings Plan and Trust's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022, and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of The Amended and Restated Alaska Power & Telephone Company Employee Stock Ownership and Savings Plan and Trust and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about The Amended and Restated Alaska Power & Telephone Company Employee Stock Ownership and Savings Plan and Trust's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of The Amended and Restated Alaska Power & Telephone Company Employee Stock Ownership and Savings Plan and Trust's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about The Amended and Restated Alaska Power & Telephone Company Employee Stock Ownership and Savings Plan and Trust's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter

Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, Line 4(i) – schedule of assets (held at end of year) as of December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. The Amended and Restated Alaska Power & Telephone Company Employee Stock Ownership and Savings Plan and Trust

Notes to Financial Statements

Note 1 – Description of Plan

The following description of the The Amended and Restated Alaska Power & Telephone Company Employee Stock Ownership and Savings Plan and Trust (Plan) provides only general information. Participants should refer to the Plan agreement, as amended, for a more complete description of the Plan's provisions.

General – The Plan was established on January 1, 1990, by The Amended and Restated Alaska Power & Telephone Company (Company). The Company is the Plan's sponsor and serves as Plan administrator. The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Eligibility – Employees whose benefits are covered under a collective bargaining agreement, leased employees, employees hired with the title "flagger" and "watchman," or nonsupervisory construction workers are excluded from participating in the Plan. All other employees of the Company are eligible to participate in the Plan upon reaching age 18 and after completing three months of service as long as such employee's regular terms of employment would result in 1,000 hours of service within a 12-month period. Participants must complete at least 1,000 hours of service during the Plan year and be employed as of the last day of the Plan year, to be eligible to receive any employer discretionary contributions.

Contributions

Participant contributions – Each year, participants may contribute from 1–80% of pretax annual compensation, as defined in the Plan. Participants may also elect to make Roth contributions utilizing after-tax contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Employer match and discretionary contributions – The Plan allows for employer matching contributions and a discretionary contribution. The Company matches 100% of employee contributions, up to 5% of eligible compensation deferred to the Plan. The matching contribution is made in the form of cash or Company stock as decided by the Company. During 2022, the matching contribution was made in the form of sponsor company common stock. Discretionary contributions are allocated to participants in the same proportion as a participant's compensation bears to the total of all participants' compensation. The Company also made a discretionary contribution of 2.43% of the Company's December 31, 2022, year-end earnings before interest, taxes, depreciation, amortization, and extraordinary events was contributed in the form of Company stock to the Plan for the year ended December 31, 2022.

Contributions are subject to regulatory limitations.

The Amended and Restated Alaska Power & Telephone Company Employee Stock Ownership and Savings Plan and Trust

Notes to Financial Statements

Participant accounts – Each participant's account is credited with the participant's contributions and Company matching contributions as well as allocations of the Company's discretionary contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of their contributions into various investment options offered by the Plan. Employer matching contributions and discretionary contributions are invested in shares of sponsor company common stock and participants are unable to diversify their investment in sponsor company common stock until certain criteria are met; see discussion of diversification below.

Diversification – Qualified participants who have reached age 55 are allowed to diversify a portion of their sponsor company common stock. In each of the first five years, a qualified participant may diversify up to 25% of the number of shares allocated to his or her account, less all amounts previously diversified. In the sixth year, the percentage increases to 50%. Each diversification event may take up to five years to complete; see discussion of put option.

Vesting – Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. Participants vest in the Company's contributions based on the following schedule:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than three	0%
Three or more	100%

Notes receivable from participants – Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are issued by the Plan and secured by the balance in the participant's account. All loans must be repaid within a period of five years, unless the loan is used to purchase a principal residence, in which case, the loan must be repaid within a reasonable period of time not to exceed 10 years. Under the terms of the Plan agreement, Plan loans will bear a reasonable rate of interest determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions. As of December 31, 2022, the rate of interest on all outstanding loans ranged from 4.25% to 8.00% with various maturities through August 2029.

Payment of benefits – On termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Participants may take a hardship withdrawal from the portion of their account balance that represents their salary deferral contributions if they can show an immediate heavy financial hardship as defined in the Plan. If a participant terminates employment and their vested benefit is \$1,000 or less, a single lump-sum distribution will be made as soon as administratively feasible following the end of the Plan year in which the participant's terminated.

The Amended and Restated Alaska Power & Telephone Company Employee Stock Ownership and Savings Plan and Trust

Notes to Financial Statements

Distributions of Company stock with account balances less than \$15,000 will be distributed in a single lump sum payment. Distributions of Company stock with account balances greater than \$15,000 will be distributed, at the election of the participant, in one of the three following ways: (1) in cash in up to five annual installments, with each installment paid at the current valued price of the Company stock in effect at the time of the installment; (2) in shares in a single distribution, with the availability of the put option; or (3) in shares in five substantially equal annual installments with separate put options for each installment. Benefits in participants' other investment accounts will be distributed in cash, in the form of a lump sum payment.

Put option – Under federal income tax regulations, the sponsor company common stock held by the Plan and its participants is not readily tradable on an established market, is subject to trading limitations, and includes a put option. The put option is a right to demand the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase, with interest, over a period of up to five years. The purpose of the put option is to ensure the participant has the ability to ultimately obtain cash.

Forfeitures – Forfeitures are the nonvested portion of a participant's account that is lost upon termination of employment. Forfeitures are retained in the Plan, must be used before year end, and may be used to pay Plan administrative expenses or to reduce future Company matching contributions. Forfeitures are immaterial to the Plan as of December 31, 2022 and 2021, and for the year ended December 31, 2022.

Voting rights – A participant is entitled to direct the trustees as to the manner in which voting rights will be exercised with respect to any corporate matter that involves a vote to approve or disapprove certain major corporate events, such as a merger or consolidation, recapitalization, liquidation, dissolution, sale of substantially all of the Company's assets, confirmation of a plan of reorganization under Chapter 11 of the United States Bankruptcy Code, or such similar transactions. If no direction is provided by the participant, the trustees have the power to vote, at their discretion, the stock held by the Plan. All other votes are made at the discretion of the trustees on behalf of the Plan.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting.

Use of estimates – The preparation of financial statements in accordance with generally accepted accounting principles requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment valuation – The investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability (the exit price) in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. The Plan's custodian, Charles Schwab Trust Bank, certifies the fair market value of all investments, except for sponsor company common stock. If available, quoted market prices are used to value investments.

The Amended and Restated Alaska Power & Telephone Company

Employee Stock Ownership and Savings Plan and Trust

Notes to Financial Statements

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net depreciation in fair value of investments consists of both the realized gains and losses and unrealized appreciation and depreciation of those investments.

Notes receivable from participants – Notes receivable from participants are measured at amortized cost, which represents unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are recorded as distributions upon the occurrence of a distributable event, based on the terms of the Plan agreement. No allowance for credit losses has been recorded as of December 31, 2022 and 2021.

Payments of benefits – Benefits are recorded when paid.

Expenses – General Plan administrative expenses may be paid out of the forfeiture account or paid by the Company. Investment management and distribution and loan transaction fees are paid by the Plan participants.

Subsequent events – Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before the financial statements are available to be issued.

The Plan has evaluated subsequent events through October 11, 2023, which is the date the financial statements are available to be issued.

Note 3 – Investments

Employer contributions are generally made in the form of sponsor company common stock and cannot be diversified until certain criteria are met. As the participant lacks the ability to exercise independent control over these funds, they are defined as nonparticipant-directed. Although a portion of the sponsor company common stock is participant directed (those who have met diversification criteria as defined in Note 1), the Plan sponsor is unable to calculate the amount. Accordingly, all of the sponsor company common stock held by the Plan has been presented as nonparticipant-directed.

Nonparticipant-directed investments as of December 31 are as follows:

	<u>2022</u>	<u>2021</u>
Sponsor company common stock	<u>\$ 43,565,838</u>	<u>\$ 46,170,539</u>

The Amended and Restated Alaska Power & Telephone Company Employee Stock Ownership and Savings Plan and Trust

Notes to Financial Statements

Changes in nonparticipant-directed investments for the year ended December 31, 2022, are as follows:

Net depreciation	\$ (1,764,332)
Purchases	731,535
Sales	(2,023,643)
Dividends	451,739
	<hr/>
	\$ (2,604,701)
	<hr/>

Note 4 – Fair Value Measurements

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy under the Financial Accounting Standards Board Accounting Standards Codification 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Registered investment companies (mutual funds) – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The Amended and Restated Alaska Power & Telephone Company Employee Stock Ownership and Savings Plan and Trust

Notes to Financial Statements

Money market funds – Public investment vehicle valued using \$1 for the NAV. The money market fund is classified within Level 2 of the valuation hierarchy.

Collective investment trust – Units held in collective investment trusts (CT) are valued using the NAV practical expedient of the CT as reported by the CT managers. The NAV practical expedient is based on the fair value of the underlying assets owned by the CT, minus its liabilities, and then divided by the number of units outstanding. The NAV practical expedient of a CT is calculated based on a compilation of primarily observable market information.

Withdrawals from the CT for benefit payments and participant transfers to noncompeting options to be paid to Plan participants shall be made within 30 days after written notification has been received and are considered made immediately after the next valuation date subsequent to the Trustees' approval. Withdrawals from the CT, other than for benefit payments and participant transfers to noncompeting options, are made one year after notification is received from the participating Plan. The Trustees, however, reserve the right to grant a withdrawal earlier than that mentioned above if there are sufficient cash assets to satisfy the withdrawal and it is not detrimental to the best interest of the CT.

Sponsor company common stock – Not readily tradable on an established securities market, the sponsor company common stock is recorded at estimated fair value, which is determined by an annual independent appraisal and is classified within Level 3 of the valuation hierarchy. No transactions (employer matching contributions, purchases, or sales) are permitted until the prior year's December 31 valuation is completed (typically the first four to five months of each year). All sponsor company common stock transactions during the year are based upon the per share value determined in the prior year's independent appraisal.

The valuation methods used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Amended and Restated Alaska Power & Telephone Company Employee Stock Ownership and Savings Plan and Trust

Notes to Financial Statements

The Employee Stock Ownership Program Committee, under the supervision of the Company's board of directors and the Plan trustees, determines the fair value measurement policies and procedures in consultation with the Company's chief financial officer. Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

The following table sets forth the basic valuation techniques and inputs used in arriving at fair value:

Instrument	Valuation Techniques	Unobservable Input
Company common stock	Discounted cash flow	Weighted-average cost of capital, long-term revenue growth rate, projected gross profit, projected earnings before interest, taxes, depreciation and amortization (EBITDA) margin
	Guideline public companies	EBITDA and equity multiples; discount for lack of marketability

Note 5 – Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated November 7, 2014, the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, the Plan administrator has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit. It is reasonably possible, given the level of risk associated with investment securities, changes in the values of the investments in the near term could materially affect a participant's account balance and the amounts reported in the financial statements.

Notes to Financial Statements

Note 7 – Information Certified by the Custodian

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified as complete and accurate by the custodian, Charles Schwab Trust Bank:

	2022	2021
Investments		
Mutual funds	\$ 17,174,393	\$ 20,692,892
Collective investment trust	2,296,501	2,502,567

Net (depreciation) in fair value of mutual funds and CT	(4,326,526)	*
Dividends	395,946	*

* Not required to be disclosed

Note 8 – Party-in-Interest Transactions

The Plan invests in shares of the sponsor company's common stock. Under certain provisions of the Plan, participants may liquidate their holdings in the sponsor company's common stock and reinvest their Plan assets in the remaining investment options managed by Charles Schwab & Co., Inc. In order to affect these transactions, the Plan may sell shares of sponsor company stock to the Company, at the fair value of the stock, based on the most recent annual independent appraisal.

Certain Plan investments are managed by Charles Schwab & Co., Inc. Charles Schwab Trust Bank is the custodian of the Plan and an affiliate of Charles Schwab & Co., Inc., and, therefore, transactions with these entities qualify as exempt party-in-interest transactions. Additionally, participants are permitted to take loans from the Plan included as notes receivable from participants on the statements of net assets. These loans also qualify as party-in-interest transactions.

Note 9 – Plan Termination

Although it has not expressed any intention to do so, the Company has the right to terminate the Plan and discontinue its contributions at any time. If the Plan is terminated, amounts allocated to a participant's account become fully vested.

Employee Stock Ownership and Savings Plan and Trust

Notes to Financial Statements

Note 10 – Concentration of Market Risk

Included in investments at December 31, 2022 and 2021, are shares of the sponsor company's common stock amounting to \$43,565,838 and \$46,170,539, respectively. This investment represents 69% and 66% of total investments at December 31, 2022 and 2021, respectively. Any significant declines in market value of the sponsor's stock would affect the net assets available for benefits.

Note 11 – Administration of Plan Assets

The Plan's assets that consist principally of sponsor company common stock are held by the Plan sponsor. Certain administrative functions are performed by officers or employees of the Company or its subsidiaries. No such officer or employee receives compensation from the Plan. Administrative expenses for the custodian's fees are paid directly by the Company.

Note 12 – Form 5500

The following is a reconciliation of the net assets available for benefits reported in the financial statements and the net assets reported on the Form 5500 as of December 31, 2022 and 2021:

	2022	2021
Net assets available for benefits per the financial statements	\$ 64,342,315	\$ 70,621,370
