Report of Independent Auditors

To the Plan Administrator of Nestle Pension Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Nestle Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits and accumulated plan benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits and changes in accumulated plan benefits for the year ended December 31, 2022, and the related notes (collectively referred to as the “financial statements”).

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor’s Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

NESTLÉ PENSION PLAN

Notes to Financial Statements

December 31, 2022 and 2021

(1) Description of the Plan

The following description of the Nestlé Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined benefit pension plan covering salaried and certain hourly employees of Nestlé USA, Inc. and participating affiliated companies (Company or Plan Sponsor) as defined under the Plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan is administered by Nestlé USA, Inc. The Plan Administrator is responsible for the general administration of the Plan. The Plan trustee is The Northern Trust Company.

In August 2022, the Plan transferred \$672,600,084 of assets to an insurance company through the purchase of a group annuity contract to irrevocably settle the corresponding benefit obligations.

In March 2023, the Plan Sponsor reached a settlement with a retirement services company, Athene, regarding the buy-out annuity agreement completed in 2022. The Sponsor received a total of \$17,321,882 as a premium refund specifically related to this Plan. The refunded premium was a result of adjustments related to date changes, death of members, non-responsive members, and members paid out.

(b) Pension Benefits

With the exception of Nestlé Purina hourly employees subject to a career average pay formula, effective January 1, 2016, the Plan is closed to new entrants. Participating employees are eligible to receive benefits under the Plan document as follows:

(i) Traditional Benefit

Participants hired prior to May 1, 2003, who chose to remain on the Traditional formula during the pension choice period, with three or more years of vesting service are entitled to pension benefits beginning at normal retirement age of 65. The normal retirement benefit is determined based upon years of credited service, as defined, and the average of the participant's highest three consecutive years of pensionable earnings during the ten-year period prior to retirement (average annual compensation). The Plan permits retirement as early as age 55, but with a reduced benefit. The normal form of benefit payment is the Life Annuity Form for participants who are not married on the benefit commencement date and the Spouse's Annuity Form for participants who are married on the benefit commencement date. Subject to certain restrictions of the Plan, participants may elect to receive the value of their benefits as a life annuity, a lump-sum distribution, a ten-year certain annuity, or a joint-and-survivor annuity. Additionally, certain Nestlé Purina employees may be covered under an alternative final average pay formula or a career average pay formula subject to different normal and optional forms of payment. The Nestlé Purina career average pay formula remains open to new participants hired into covered employment.

NESTLÉ PENSION PLAN

Notes to Financial Statements

December 31, 2022 and 2021

Effective April 1, 2015, the Plan was amended to universally offer commencement of benefits and a lump-sum option at any age once employment ends.

(ii) Account Benefit

All participants hired after May 1, 2003, and prior to January 1, 2016, and participants hired prior to May 1, 2003, who chose the Account formula during the pension choice period with three or more years of vesting service are entitled to pension benefits upon termination of employment. Participants earn an annual percentage based on the sum of the participant's age and years of vesting service (or points) for each year of credited service in the Plan. Upon termination, the annual percentages are added together to determine the final pension percentage. The final pension percentage is multiplied by the average of the participant's highest five consecutive years of pensionable earnings during the most recent ten-year period. The formula is expressed as a lump sum; however, the normal form of payment is the Life Annuity Form for participants who are not married on the benefit commencement date and the Spouse's Annuity Form for participants who are married on the benefit commencement date. Subject to certain restrictions of the Plan, participants may elect to receive the value of their benefit as a lump-sum distribution, a life annuity, or a joint-and-survivor annuity. Additionally, certain Nestlé Purina employees may be covered under an alternative account benefit formula subject to different normal and optional forms of payment.

(iii) Other Benefits

Other plan provisions with limited applicability may also apply to former employees of acquired businesses such as Carnation, Continental Baking Company, and Gerber Life.

(c) Death and Disability Benefits

(i) Traditional Benefit

If an active participant dies after completing three years of vesting service, a death benefit may be paid to the participant's qualified surviving spouse. The amount of the benefit paid to the surviving spouse is computed with reference to the early retirement and vested immediate commencement factors of the Plan. Effective April 1, 2021 a lump sum option is generally available. Participants who meet the Plan's disability eligibility requirements may continue accruals under the Plan.

(ii) Account Benefit

If an active participant dies, the participant's designated beneficiary will receive the value of the benefit. If the beneficiary is a spouse, the spouse may elect to receive the account benefit as either a lump sum or a life annuity. If the beneficiary is not a spouse, the account benefit is paid as a lump sum. Participants who meet the Plan's disability eligibility requirements may continue accruals under the Plan.

NESTLÉ PENSION PLAN
Notes to Financial Statements
December 31, 2022 and 2021

(2) Summary of Significant Accounting Policies

The following are the significant accounting policies followed by the Plan:

(a) Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

(b) Investment Valuation

Plan assets are held in the Nestlé in the USA Pension Trust (Pension Trust), which was established by the Company for the pooled investment of assets for various qualified pension plans sponsored by the Company. The Pension Trust is maintained by The Northern Trust Company, as trustee.

The Pension Trust investments are stated at fair value, in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurement*.

Purchases and sales of securities are recorded on a trade-date basis. Interest and other income are recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Pension Trust's gains and losses on investments bought and sold as well as held during the year.

(c) Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

The accumulated plan benefits for active employees are based on credited service and the average of either the highest three or five years of pensionable earnings, as defined (i.e., total compensation, including bonuses and overtime), during the last ten calendar years ending on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included to the extent they are deemed attributable to employee service rendered to the valuation date.

NESTLÉ PENSION PLAN

Notes to Financial Statements

December 31, 2022 and 2021

The actuarial present value of accumulated plan benefits is determined by an independent actuary, Willis Towers Watson, and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements due to death, disability, termination, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations were as follows:

	2022	2021
Life expectancy of participants	Pri-2012, including separate assumptions for contingent survivors with unmodified MP-2021 projection	Pri-2012, including separate assumptions for contingent survivors with Modified MP-2021 projection
Retirement age	Varying by age	Varying by age
ASC 960 discount rate and expected return on plan assets	6.40 %	4.60 %

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

(d) Administrative Expenses

Expenses of administering the Plan are paid by the Company or from Plan assets, subject to limitations under ERISA. The Plan allows for administrative expenses such as trustee fees, investment management fees, actuarial valuation fees, and accounting fees.

(e) Payment of Benefits

Benefit payments to participants are recorded upon distribution.

A small portion of Plan benefits are payable by Metropolitan Life Insurance Company (MetLife) as a result of the Company's purchase of annuity contracts for certain former participants in the contributory Carnation Employees Retirement Plan Number Two. The remaining portion of Plan benefits are payable by the Plan and are included in the present value of accumulated plan benefits. For some of the former Carnation employees, the Plan benefits have commenced, and continue to be paid, by the trustee, with MetLife reimbursing the Plan for any portion of said benefits that were previously purchased by the employee contributions.

(f) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

NESTLÉ PENSION PLAN

Notes to Financial Statements

December 31, 2022 and 2021

(g) Risks and Uncertainties

The Pension Trust invests in various investment securities. Investment securities are exposed to various risks, such as interest rate risk, market risk, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

(h) Derivative Financial Instruments

The Pension Trust accounts for derivatives and hedging activities in accordance with ASC 815, *Derivatives and Hedging*, which requires that all derivative instruments not qualifying for hedge accounting be recorded on the statements of net assets available for benefits at their respective fair values.

The Pension Trust uses derivatives for the benefit of the plans in the Pension Trust as a tool to reduce risk and as an investment strategy. The Pension Trust will enter into the following types of derivative instruments: interest rate swaps, credit default swaps (CDSs), equity swaps, commodity swaps, financial futures, commodities futures, foreign exchange forward contracts and options, and swaptions and options. The derivative instruments outstanding as of period-end and the amounts of realized and unrealized gains and losses, as well as other income on derivative instruments during the period (as disclosed in the derivatives tables in note 7), serve as indicators of the volume of derivative activity for the Pension Trust. Derivative strategies involve risk and, like other investments, can lose value. The impact on Pension Trust performance can be positive or negative, and will vary depending on market movements.

The Pension Trust manages interest rate risk using interest rate swaps and/or U.S. Treasury futures (interest rate hedge). The objective of the interest rate hedge is to manage the effective duration of the Pension Trust's assets to better match its defined benefit obligations, thereby protecting the funded ratio of the Pension Trust as interest rates fluctuate. Interest rate swaps and futures used in this manner adjust interest rate and yield curve exposures and substitute for physical securities.

The Pension Trust also uses derivatives as a substitute for physical securities in order to gain exposure to certain asset classes. Using derivatives instead of physical securities may be a more efficient means to gain exposure to an index or a market sector due to its characteristics of increased liquidity and reduced transaction costs. Using derivatives may also reduce the need to sell assets when there is a difficult trading environment. These derivatives are used to create credit, equity, and foreign exchange exposures.

NESTLÉ PENSION PLAN

Notes to Financial Statements

December 31, 2022 and 2021

The Pension Trust manages credit risk through use of CDSs. These derivatives are used to manage credit exposure without buying or selling securities outright. Written CDSs increase credit exposure (selling protection), obligating the Pension Trust to buy bonds from counterparties in the event of a default. Purchased CDSs decrease exposure (buying protection) providing the right to “put” (sell) bonds to the counterparty in the event of a default.

Counterparty risk for swaps and forwards that are not cleared through a central exchange is mitigated through the use of International Swaps and Derivatives Association (ISDA) standardized agreements that require gains and losses owed to and from the counterparty to be agreed daily, and gains or losses to be collateralized with cash. For futures, the gain (loss) is calculated and funds are transferred to and from the Pension Trust on a daily basis, based on the prior day’s market valuation. The types of counterparties are large banks and brokers, and the investment managers each have netting arrangements within their accounts to reduce the exposure to any single counterparty.

Holding derivatives has a significant impact on cash flow. Daily mark to markets and accumulated gains and losses can be large, depending on the volatility of the markets. The Pension Trust has maintained the liquidity necessary to settle any losses under a variety of market conditions, including the most severe.

(i) Foreign Currency

The Pension Trust’s investment securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts at the date of valuation. Purchases and sales of investment securities and income and expense items denominated in foreign currencies are translated into U.S. dollar amounts on the respective dates of such transactions.

The Pension Trust does not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net appreciation and depreciation from investments.

(3) Funding Policy

The funding policy of the Plan Sponsor is to make contributions for each plan year in an amount not less than the minimum required contribution under the law and not more than the maximum tax-deductible contribution. The Company may vary its contribution level, if appropriate to its tax and cash position and the Plan’s funded status. There was a contribution of \$63,500,000 made during the plan year 2022, which met the Company’s policy and ERISA minimum funding requirements.

(4) Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions set forth in ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations. The assets allocated to each participant would be distributed through either (a) continuance of the trust fund that is attributable to the current Plan or establishment of a new trust fund, and/or (b) purchase of annuity contracts. In addition, certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees, which is adjusted periodically.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

(5) Trustee Certifications

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, certain information related to investments disclosed in the accompanying financial statements, including the Plan's interest in the Pension Trust at December 31, 2022 and 2021, and Plan interest in Pension Trust investment loss for the year ended December 31, 2022, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by The Northern Trust Company, the trustee of the Plan.

(6) Parties in Interest

During the years ended December 31, 2022 and 2021, Nestlé in the USA Pension Trust had parties in interest that included Plan Sponsor, trustee, investment advisory, legal, actuarial, and administrative service providers. The fees paid by the Pension Trust to these parties in interest were \$6,685,120 for the year ended December 31, 2022. The Plan's share of these expenses was \$5,833,831 for the Plan year ended December 31, 2022. These transactions qualify as party-in-interest transactions; however, they are exempt from prohibited transaction rules under ERISA.

(7) Interest in Nestlé in the USA Pension Trust

The assets of the Plan are invested in the Pension Trust, in which the assets of the Plan are combined with the assets of other affiliated Company plans for investment purposes.

Notes to Financial Statements

December 31, 2022 and 2021

Pursuant to the trustee's method of allocating the investment holdings between the plans, contributions into the Pension Trust are treated as additions in the Pension Trust, withdrawals are treated as deductions in the Pension Trust, and investment income (loss) is allocated proportionately. Accordingly, the value of the Plan's investment in the Pension Trust is equal to the Plan's interest in each applicable investment increased or decreased by the Plan's allocated share in income, gains, and losses attributable to each applicable investment, which share is generally based upon the Plan's respective share of the Pension Trust's combined net assets available for benefits each month before investment income (loss) and net appreciation (depreciation) in the fair value of investments. Those investment expenses of the Pension Trust, which can be specifically identified as being applicable to the Plan, are charged to the Plan. The remaining investment expenses are allocated to the Plan based on the Plan's respective share of the Pension Trust's combined net assets available for benefits on a monthly basis.

The Plan's investments consist of an undivided interest in investments held by the Pension Trust. The Plan's equitable share of the Pension Trust's net assets was approximately 88.3% and 86.3% for the years ended December 31, 2022 and 2021, respectively. The net assets of the Pension Trust and the Plan's interest in the Pension Trust balances as of December 31, 2022 and 2021, are as follows:

Notes to Financial Statements

December 31, 2022 and 2021

As discussed in note 2(h), the Pension Trust uses derivative financial instruments as part of its investment strategy. Refer to note 8 for a description of valuation methodologies. Gains and losses on derivative financial instruments are included in investment income (loss). As of December 31, 2022 and 2021, the Pension Trust held the following derivatives:

	2022		2021	
	Asset Derivatives Fair Value	Liability Derivatives Fair Value	Asset Derivatives Fair Value	Liability Derivatives Fair Value
Derivatives not accounted for as hedging instruments:				
Interest rate	\$ 16,780,950	(30,962,449)	8,955,671	(3,793,122)

The Pension Trust has in place legally enforceable master netting arrangements or similar agreements with all counterparties with which it enters into derivative financial instruments. Master netting arrangements or similar agreements permit the closeout and netting of transactions with the same counterparty upon the occurrence of certain events. The Pension Trust has chosen not to offset the fair values of derivative contracts and related cash collateral with the same counterparty under its master netting arrangements or similar agreements. All of the Pension Trust's derivative and cash collateral positions are reflected at the gross values in the statements of net assets available for benefits. The table below shows the impact of netting financial instruments and collateral if the Plan had elected to offset the derivatives.

(8) Fair Value Measurements

The Plan has adopted the guidance in ASC 820, which defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. The fair value framework requires the categorization of assets and liabilities into three levels based upon the assumptions (inputs) used to price the assets or liabilities. Level 1 provides the most reliable measure of fair value, whereas Level 3 generally requires significant judgment. The three levels are defined as follows:

- Level 1: Assets or liabilities that are valued based on unadjusted quoted prices in active markets that are accessible at measurement date.
- Level 2: Assets or liabilities that are valued based on observable inputs, other than those included in Level 1, based on quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in inactive markets, or financial instruments for which all significant inputs are observable, either directly or indirectly.
- Level 3: Assets or liabilities that are valued based on unobservable inputs, including the reporting entity's own analysis of the underlying economic data that market participants would factor into the pricing of the asset or liability.

Due to the Company's policy to diversify the holdings of the Pension Trust portfolio, there is no significant concentration of investments within any particular class of investments included above. The valuation methodologies utilized by the Plan and Pension Trust for the above investments as of December 31, 2022 and 2021, are as follows:

- (a) Based on quoted market prices in active markets.
- (b) Based on investment manager or industry pricing services of investments. Certain fixed income pricing is on a bid-evaluation basis. Institutional bid evaluations are estimated prices. Pricing vendors use models, which are generally proprietary, to arrive at the estimated prices. These prices represent the price a dealer would pay for a security. Model inputs vary depending on the type of security, but typically include trade data, institutional bids, comparable trades, dealer quotes, and news media. Market data is provided by multiple independent sources, including primary and secondary dealers, portfolio managers, and research analysts.
- (c) Collateralized mortgage valuations are based on trade and quote activity of bonds with similar features, including issuer, vintage, prepayment speeds, and purpose of the underlying loan (first or second lien).
- (d) Cash equivalents include short term fixed income instruments whose valuations are determined based upon maturity date, issue date, and credit ratings.

Notes to Financial Statements

December 31, 2022 and 2021

- (e) Commingled funds are valued based on the daily pricing of the underlying assets to estimate the fair value of the fund as determined by the investment manager. The liquidity of these investments is determined by the redemption period and settlement period for each fund. The Pension Trust considered these and other characteristics and concluded these commingled funds have a readily determinable fair value.
- (f) Government and municipal bonds are priced by obtaining feeds from various live data sources, including market makers and interdealer brokers.
- (g) Over-the-counter options are valued using bid, ask/offer quotes that are binding and corroborated. Swaps are valued using the discounted cash flow method. The two legs (fixed and floating) are priced independently as the present value of their expected cash flows.
- (h) Certain fixed income securities (primarily certain collateralized obligations) are valued based upon evaluated prices using unobservable inputs (i.e., extrapolated data, proprietary models, and indicative quotes).
- (i) Investments measured at net asset value include alternative fixed income investments, real estate funds, and hedge funds. The net asset values are reported to the Company and trustee by the fund managers or the general partners of the fund. These net asset values are based on the fair value of the underlying portfolio investments held by the investment fund.

These fair values are determined by a variety of methods: real estate investments are valued at appraised values plus undistributed rental and interest income; hedge funds are valued by the investment manager using quoted market prices of underlying investments and evaluations supplied by industry pricing vendors.

A summary of the nature and risks of the investments and unfunded commitments that are valued using a net asset value (NAV) for the years ended December 31, 2022 and 2021 is as follows:

	2022		2021		Redemption Frequency	Redemption Notice Period

The Pension Trust's investments measured at net asset value are in real estate, hedge funds, and fixed income partnerships for the years ended December 31, 2022 and 2021. These investments are primarily limited partnership investments and the fair value is determined using an audited net asset value (NAV). The fair value of investments is estimated using techniques that may rely heavily on the investment managers' assumptions and qualitative observations. The Pension Trust uses the fair valuations from the investment managers and reviews and validates their valuation methods and processes throughout the year. The

NESTLÉ PENSION PLAN

Notes to Financial Statements

December 31, 2022 and 2021

Pension Trust establishes and follows valuation policies and procedures. The Pension Trust employs specialized investment consultants who perform due diligence on the valuation policies and procedures of the general partners before making the investments and periodically thereafter. Using their own procedures and systems, they evaluate the reasonableness of the partnerships' NAVs on a monthly and quarterly basis using industry comparisons, operating performance metrics and they conduct frequent reviews with the general partners. The Pension Trust periodically evaluates the fair valuation policies and procedures of these specialized investment consultants and requests and reviews the valuation policies of the investment managers and general partners annually. The Pension Trust retains discretion to sell any of these investments at an amount other than the net asset value, should there be an investment case to sell these investments in the secondary market.

A summary of changes in the fair value of Level 3 assets and liabilities for the year ended December 31, 2022 is as follows:

		<u>Purchases</u>	<u>Issuances</u>	<u>Transfers In</u>	<u>Transfers Out</u>
Fixed income	\$	112,250	–	2,357,621	(2,465,074)
	\$	<u>112,250</u>	<u>–</u>	<u>2,357,621</u>	<u>(2,465,074)</u>

The significance of transfers between levels is evaluated based upon the nature of the financial instrument and size of the transfer relative to the total net assets available for benefits. There were no significant transfers between levels for the year ended December 31, 2022.

(9) Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated April 12, 2021, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator has indicated that it will take the necessary steps, if any, to bring the Plan's operations into compliance with the Code.

Accounting principles generally accepted in the United States require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan and has concluded that there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions.

(11) Subsequent Events

A specific subpopulation of the Plan will be transferred into the Nestlé Hourly Retirement Plan (NHRP). The population will be finalized as of December 31, 2023 and all assets and benefit obligations associated with the final population will be transferred into NHRP on January 1, 2024. This spin off transaction will also fully close the Plan to new participants, as any newly eligible participants who would have been eligible for the Plan will become participants in the NHRP beginning January 1, 2024.

The Plan has evaluated subsequent events through October 10, 2023, the date these financial statements were available for issuance.

Percent Married	75% for Gerber Life participants in Nestlé Pension Plan, 80% all other plans
Spouse age	Wife three years younger than husband.
Covered pay	Weighted average of prior three years' pensionable earnings (each adjusted with salary increase assumption), with the most recent pay receiving the highest weight e.g. 50%/35%/15%.
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.
Administrative expenses	Nestlé no longer pays administrative expenses from the pension trust.
At-risk assumptions	For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year. In addition, these participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit.

Methods

Valuation date	First day of plan year.
Funding target and PVAB	Present value of accrued benefits.
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during the year.
Decrement timing	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. Market value of assets, including contributions receivable.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued. WTW has reviewed the plan provisions with Nestlé and is not aware of any significant benefits required to be valued that were not.

Small benefits with present values up to \$5,000 may be paid in a single lump sum payment. Such lump sums are not explicitly valued as such; rather, such participants' benefits are valued using the benefit choice assumptions described above.

Sources of Data and Other Information

The plan sponsor through its administrator, WTW, furnished participant data as of January 1, 2022. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale – Significant Economic Assumptions

Discount rate (Funding valuation)

The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

Rates of increase in compensation and statutory limits

Assumed increases were chosen by the plan sponsor and represent an estimate of future experience.

Administrative and investment expenses

Administrative and investment expenses are determined by Nestlé at year end.

Assumptions Rationale – Significant Demographic Assumptions

Termination

Termination rates were based on an experience study conducted in 2020 for the period 2016-2019, with annual consideration of

SCHEDULE SB ATTACHMENTS

whether any conditions have changed that would be expected to produce different results in the future.

Assumed termination rates differ by age, service and plan because of observed differences in termination rates by age, service and plan.

Disability

Disability rates are reviewed with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Assumed disability rates differ by gender and plan because of observed differences in disability rates by gender and plan.

Retirement

Retirement rates were based on an experience study conducted in 2020 for the period 2016-2019, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Assumed retirement rates differ by plan because of observed differences in retirement rates by plan.

Benefit commencement date:

- Pre-retirement death benefit Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value, and experience indicates that most spouses do take the benefit as soon as it is available.
- Deferred vested benefit Commencement ages were based on an experience study conducted in 2020 for the period 2016-2019. Deferred vested early commencement factors are generally not subsidized so that the difference between this approach and using assumed commencement rates at different ages is not expected to be significant.

Form of payment

The optional form of payment assumptions are based on an experience study performed in 2020 for the period 2016-2019.

Prescribed Methods

Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions and methods since prior valuation

The segment interest rates used to calculate the funding target was updated to the current valuation date as required by IRC §430.

The mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvement, as required by IRC §430. .

Change in methods since prior valuation

There have been no changes in methods since the prior valuation.

Change in estimation techniques since prior valuation

There have been no changes in estimation techniques since the prior valuation.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Percent Married	75% for Gerber Life participants in Nestlé Pension Plan, 80% all other plans
Spouse age	Wife three years younger than husband.
Covered pay	Weighted average of prior three years' pensionable earnings (each adjusted with salary increase assumption), with the most recent pay receiving the highest weight e.g. 50%/35%/15%.
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.
Administrative expenses	Nestlé no longer pays administrative expenses from the pension trust.
At-risk assumptions	For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year. In addition, these participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit.

Methods

Valuation date	First day of plan year.
Funding target and PVAB	Present value of accrued benefits.
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during the year.
Decrement timing	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.

Actuarial value of assets

Market value of assets, including contributions receivable.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued. WTW has reviewed the plan provisions with Nestlé and is not aware of any significant benefits required to be valued that were not.

Small benefits with present values up to \$5,000 may be paid in a single lump sum payment. Such lump sums are not explicitly valued as such; rather, such participants' benefits are valued using the benefit choice assumptions described above.

Sources of Data and Other Information

The plan sponsor through its administrator, WTW, furnished participant data as of January 1, 2022. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale – Significant Economic Assumptions

Discount rate (Funding valuation)

The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

Rates of increase in compensation and statutory limits

Assumed increases were chosen by the plan sponsor and represent an estimate of future experience.

Administrative and investment expenses

Administrative and investment expenses are determined by Nestlé at year end.

Assumptions Rationale – Significant Demographic Assumptions

Termination

Termination rates were based on an experience study conducted in 2020 for the period 2016-2019, with annual consideration of

SCHEDULE SB ATTACHMENTS

whether any conditions have changed that would be expected to produce different results in the future.

Assumed termination rates differ by age, service and plan because of observed differences in termination rates by age, service and plan.

Disability

Disability rates are reviewed with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Assumed disability rates differ by gender and plan because of observed differences in disability rates by gender and plan.

Retirement

Retirement rates were based on an experience study conducted in 2020 for the period 2016-2019, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Assumed retirement rates differ by plan because of observed differences in retirement rates by plan.

Benefit commencement date:

- Pre-retirement death benefit Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value, and experience indicates that most spouses do take the benefit as soon as it is available.
- Deferred vested benefit Commencement ages were based on an experience study conducted in 2020 for the period 2016-2019. Deferred vested early commencement factors are generally not subsidized so that the difference between this approach and using assumed commencement rates at different ages is not expected to be significant.

Form of payment

The optional form of payment assumptions are based on an experience study performed in 2020 for the period 2016-2019.

Prescribed Methods

Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions and methods since prior valuation

The segment interest rates used to calculate the funding target was updated to the current valuation date as required by IRC §430.

The mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvement, as required by IRC §430. .

Change in methods since prior valuation

There have been no changes in methods since the prior valuation.

Change in estimation techniques since prior valuation

The Nestle Pension Plan was Amended and Restated effective 1/1/2020; Amendments to the Plan are dated 4/23/2021, 12/21/2021, and 12/16/2022.

Covered employees Salaried employees hired prior to 2003 and hourly employees of Nestlé Purina PetCare.

Participation date January 1 following date of hire.

Type of plan Five-year average earnings or pension equity for salaried employees; career average earnings for hourly employees.

Definitions

Vesting service From date of hire.

Credited service From date of hire.

Pensionable earnings Total compensation, including bonuses and overtime.

Covered compensation Average of Social Security wage bases over the 35 years prior to the year of termination.

Accumulated benefit Salaried employees have the pension equity formula, unless they chose the final average earnings formula as of 1/1/99. Hourly employees have the career average earnings formula. Some participants have the supplemental cash balance benefit.

Final average earnings (FAE): $1.545\% \text{ of FAE} \times \text{credited service limited to 40 years} - 51.5\% \text{ of Social Security benefit} \times \text{credited service} \div \text{the greater of projected credited service at NRD or 30 years}$.

Pension equity: Sum of basic percentages, the greater of the two percentages shown below, for each year of credited service $\times$ FAE + 3.5% of FAE in excess of covered compensation $\times$ credited service, converted to a five-year certain and life annuity.

Accumulated benefit

Covered employees have the pension equity formula, unless they chose to retain the final average earnings formula as of 5/1/2003. Frozen minimum FAE benefit as of 5/1/2003 applies to pension equity participants.

Pension equity: Lump sum equal to the sum of basic percentages, as shown below, for each year of credited service x FAE + 3.5% of FAE in excess of covered compensation x credited service.

Age + Points Service	Basic %
<40	4.00%
40-49	5.00%
50-59	6.00%
60-69	8.00%
70-79	10.0%
80-89	12.0%
>89	15.0%

Final average earnings (FAE): .9% of FAE x credited service limited to 35 years + .5% of FAE in excess of covered compensation x credited service limited to 35 years; for employees who were participants on 1/1/89, an additional .3% of FAE x credited service on 1/1/89 limited to 35 years; for former Carnation employees, add the final average pay accrued benefit as of 12/31/91 x the ratio of FAE at termination to FAE on 12/31/91.
