Independent Auditors' Report

To the Trustees of
SCOR U.S. Group Retirement and Saving Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of SCOR U.S. Group Retirement and Saving Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements ("Financial Statements").

Management, having determined it is permissible in the circumstances, has elected to have the audits of Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021 and for the years then ended, stating that the certified investment information and notes receivable from participants, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the financial statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

mazars

Basis for Opinion
We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements
Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the SCOR U.S. Group Retirement and Saving Plan's ability to continue as a going concern.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements
Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

mazars

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the SCOR U.S. Group Retirement and Savings Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the SCOR U.S. Group Retirement and Savings Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA
The supplemental schedule of Schedule H, Line 4(i) – Schedule of Assets (Held at End of the Year) as of December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is a supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

mazars

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. Description of the Plan

The SCOR US Group Retirement and Savings Plan (the "Plan") was established on January 1, 1975 and subsequently amended and restated effective April 20, 2022. The following brief description of the Plan is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

The Plan consists of the following two components:

1. The Defined Contribution Retirement Program ("DCRP")
2. The 401(k) Savings Program

The IRS required document restatement for all 401K plans is every 6 years.

General
The Plan is a defined contribution plan covering employees of SCOR US Corporation and its subsidiaries, as well as SCOR Reinsurance Company, SCOR Global Life Americas Reinsurance Company, SCOR Global Life USA Reinsurance Company, and SCOR Life Ireland dac ("SCOR US" or the "Employer"). Employees are immediately eligible to participate in the 401(k) Savings Program upon hire. For the DCRP, an employee must be active at the end of the calendar year and must have completed at least 1,000 hours of service during the Plan Year, for which the contribution is made. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Every six years, the IRS mandates that plan documents be updated or restated to incorporate all the regulatory changes. Restatement is a required process by the IRS through which a new pre-approved plan document (formerly known as a volume submitter plan) that has been updated with required amendments, regulatory changes and other enhancements is adopted. The plan has been restated as of April 20, 2022. An Opinion letter was obtained as part of this process.

Eligibility
Employees who are employed in one of the SCOR companies that has adopted the Retirement and Savings Plan, are eligible to participate in the Plan as of the first full payroll period following their date of employment.

Contributions
Participants in the Plan may elect to have a portion of their eligible compensation deferred and contributed to the Plan through payroll deductions up to a maximum of 50% of total eligible compensation, subject to Internal Revenue Service ("IRS") limitations. Total eligible compensation includes salary and overtime, but excluding bonuses and extraordinary remuneration, as defined in the plan document. Additionally, SCOR US makes matching contribution based on participant deferral elections, up to a maximum of 4% of each participant's total eligible annual compensation, which is funded on a payroll period basis. SCOR US provides a True-up matching contribution feature which allows employees to receive Company matching contributions they may have otherwise missed, either because they reached the maximum statutory deferral limit prior to the end of the year or did not contribute enough for part of the year to receive the full match for which they were eligible.

1. Description of the Plan (continued)

Employer matching contributions of $3,852,453 and $3,679,016 net of forfeitures were made during 2022 and 2021, respectively. The Plan also required SCOR US to make a discretionary contribution ("DC") to all participants in the Plan that have worked at least 1,000 hours during the year and are active as of the last day of Plan year end. The DC is based on age and length of service of an eligible employee regardless of whether or not the employee participates in the 401(k) Savings Program. Employer discretionary contributions of $7,562,399 and $7,385,337 were made during 2022 and 2021, respectively.

Participant Accounts
Each participant's account is credited with their contribution, Employer contributions and the earnings thereon. Contribution to the Plan are invested by the trustee as directed by the participants. Each participant may elect from one or more of the investment vehicles offered pursuant to the provisions of the plan.

Vesting

- Participants are immediately vested in their deferred compensation contributions, Employer matching contributions plus actual investment earnings.

- Participants that were actively employed on October 1, 2006, are 100% vested in all contributions.

- New participants hired on or after January 1, 2007 have a three-year cliff vesting period in the DCRP.

Forfeitures
The plan document provides for forfeitures to be applied to reduce the Employer contributions and to be applied against plan expenses, if available. During the years ended December 31, 2022 and 2021, the Employer used forfeitures of $8,303 to offset Employer contributions and contributed $8,593 to the forfeiture account, respectively, and used forfeitures of $117,810 and $40,353, respectively, to offset administrative expenses. Forfeitures from employees for the years ended December 31, 2022 and 2021 were $186,861 and $128,996, respectively. At December 31, 2022 and 2021, forfeiture amounts of $293,250 and $228,053, respectively, were included in the Plan's net assets available for benefits.

Investments
Participants may direct the investment of their contributions and/or account balances into various fund options offered by the Plan and may change investments and transfer amounts between funds daily. As of December 31, 2022, the plan offers various fund options: Money Market, Stable Value, Fixed Income, Life Cycle, Domestic Equity, and International Equity, self-directed brokerage covering a wide spectrum of investment categories are included.

1. Description of the Plan (continued)

Payment of Benefits

On termination of service, death, disability or retirement, a participant may elect to receive either a lump-sum amount or periodic cash installments equal to the full value of his or her vested account balance.

Notes Receivable from Participants

Participants are permitted to borrow a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The maximum term of a loan is five years or ten years if the loan is for the purchase of a principal residence. The loans are secured by the balance in the participant's account and bear interest at a rate of prime plus one percent (1%). Notes receivable from participants are repaid through payroll deductions and monitored by the plan administrator. As of December 31, 2022, the interest rates on the outstanding notes receivable from participants ranged from 4.25% to 8.0% with loans maturing from 2023 to 2031.

Administrative Expenses

Employer pays all of the Plan's administrative expenses for actively employed participants, except for short-term trading fees. The expenses to the extent not paid by the Employer are paid by forfeitures, if any. Terminated employees pay an administrative fee directly to Fidelity Management Trust Company ("Fidelity") on a quarterly basis.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles ("GAAP") in the United States of America requires management to make estimates and assumptions that affect the reporting amounts of net assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Benefit Payments

Benefit payments are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

2. Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation (depreciation) consists of realized gains or losses and the unrealized appreciation or depreciation on those investments bought and sold, as well as held during the year.

Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

Other items
In March 2020, the COVID-19 outbreak was declared a pandemic by the World Health Organization. The COVID-19 pandemic has led to increased volatility in financial markets. The extent to which such increased volatility will impact the value of Plan assets will depend on future developments that are highly uncertain and cannot be predicted.

Subsequent Events
The Plan has evaluated subsequent events through October 10, 2023, the date the financial statements were available for issuance.

3. Information certified by the Trustee

Information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule held at December 31, 2022 and 2021, and net (depreciation) appreciation in fair value of investments, interest and dividend for the years then ended was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity, the trustee of the Plan.

4. Fair Value Measurements

The Plan's investments are stated at fair value. The fair value hierarchy gives the highest ranking to fair values determined using unadjusted quoted prices in active markets for identical assets and liabilities (level 1) and the lowest ranking to fair values determined using methodologies and models with unobservable inputs (level 3). An asset's or a liability's classification is based on the lowest level input that is significant to its measurement. For example, a level 3 fair value measurement may include inputs that are both observable (levels 1 and 2) and unobservable (level 3). The levels of the fair value hierarchy are as follows:

4. Fair Value Measurements (continued)

- Level 1 – Values are unadjusted quoted prices for identical assets and liabilities in active markets accessible at the measurement date.

- Level 2 – Inputs include quoted prices for similar assets or liabilities in active markets, quoted prices from those willing to trade in markets that are not active, or other inputs that are observable or can be corroborated by market data for the term of the instrument. Such inputs include market interest rates and volatilities, spreads and yield curves.

- Level 3 – Certain inputs are unobservable (supported by little or no market activity) and significant to the fair value measurement. Unobservable inputs reflect the Company's best estimate of what hypothetical market participants would use to determine a transaction price for the asset or liability at the reporting date.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology during 2022:

Mutual funds	*Valued at the market price reported of shares at year end*
Common stocks *Preferred stock* *Certificate of deposits* *Government bonds* *Rights/Warrants*	*Valued at the quoted price reported on the active market at year end.*
Stable value pooled funds	*Valued by aggregating the market values of all of the fund's underlying investments*

The methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4 Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2022:

	Level 1	Level 2	Level 3	Total
Assets at fair value				
Mutual funds	**$ 215,056,168**	**$ -**	**$ -**	**$ 215,056,168**

Total assets at fair value	**$ 224,411,717**	**$ -**	**$ -**	**$ 229,363,029**

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2021:

	Level 1	Level 2	Level 3	Total
Assets at fair value				
Mutual funds	$ 273,774,664	$ -	$ -	$ 273,774,664
Common stocks	5,726,777	-	-	5,726,777

Total assets at fair value	$ 282,935,093	$ -	$ -	$ 287,021,263

(a) Certain investments that were measured at net asset value per share (or its equivalent) as a practical expedient to fair value have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

5 Income Tax Status

The Plan has received a determination letter from the IRS dated June 30, 2020, stating that the Plan satisfies the qualification requirements under Section 401(a) of the Internal Revenue Code, as amended (the "Code"); therefore, the related trust is exempt from taxation. Subsequent to the date the determination letter application was submitted to the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Company believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for the tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations with respect to the Plan's Form 5500 filings for Plan years prior to 2019.

6 Party-In-Interest Transactions

Certain Plan investments are managed by Fidelity and, therefore, these transactions qualify as party-in-interest transactions. Fees paid to Fidelity by the Plan for management services amounted to $256,125 and $187,805 for the years ended December 31, 2022 and 2021, respectively. These payments were offset by forfeitures of $117,810 and $40,353, respectively.

In 2022 and 2021, Fidelity deposited $214,384 and $330,146, respectively as a result of plan services exceeding the agreed-upon compensation. The revenue credit is an indication that all investment options are in their lowest cost share class and Fidelity is projected to receive more revenue than is required to administer the plan; therefore, a quarterly credit of excess revenue is given to plan participants. Fidelity allocated amounts equal to such excess revenue into the accounts of eligible participants.

7 Plan Termination

Although SCOR US has not expressed any intent to terminate the Plan, it has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated, all participants become fully vested in the entire value of their accounts.

8 Risks and Uncertainties

The Plan's investments are concentrated in mutual funds and self-directed brokerage accounts that invest in marketable securities. Such securities are subject to various risks, such as interest rates, market and credit risks that determine the value of the funds. Due to the level of risk associated with certain securities and the level of uncertainty related to changes in the value of these securities, it is at least reasonably possible that changes in market conditions in the near term could materially affect participants' account balances and the value of investments reported in the financial statements.

Independent Auditors' Report

To the Trustees of
SCOR U.S. Group Retirement and Saving Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of SCOR U.S. Group Retirement and Saving Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements ("Financial Statements").

Management, having determined it is permissible in the circumstances, has elected to have the audits of Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021 and for the years then ended, stating that the certified investment information and notes receivable from participants, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the financial statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion
We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements
Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the SCOR U.S. Group Retirement and Saving Plan's ability to continue as a going concern.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements
Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

mazars

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the SCOR U.S. Group Retirement and Savings Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the SCOR U.S. Group Retirement and Savings Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA
The supplemental schedule of Schedule H, Line 4(i) – Schedule of Assets (Held at End of the Year) as of December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is a supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

mazars

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. Description of the Plan

The SCOR US Group Retirement and Savings Plan (the "Plan") was established on January 1, 1975 and subsequently amended and restated effective April 20, 2022. The following brief description of the Plan is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

The Plan consists of the following two components:

1. The Defined Contribution Retirement Program ("DCRP")
2. The 401(k) Savings Program

The IRS required document restatement for all 401K plans is every 6 years.

General
The Plan is a defined contribution plan covering employees of SCOR US Corporation and its subsidiaries, as well as SCOR Reinsurance Company, SCOR Global Life Americas Reinsurance Company, SCOR Global Life USA Reinsurance Company, and SCOR Life Ireland dac ("SCOR US" or the "Employer"). Employees are immediately eligible to participate in the 401(k) Savings Program upon hire. For the DCRP, an employee must be active at the end of the calendar year and must have completed at least 1,000 hours of service during the Plan Year, for which the contribution is made. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Every six years, the IRS mandates that plan documents be updated or restated to incorporate all the regulatory changes. Restatement is a required process by the IRS through which a new pre-approved plan document (formerly known as a volume submitter plan) that has been updated with required amendments, regulatory changes and other enhancements is adopted. The plan has been restated as of April 20, 2022. An Opinion letter was obtained as part of this process.

Eligibility
Employees who are employed in one of the SCOR companies that has adopted the Retirement and Savings Plan, are eligible to participate in the Plan as of the first full payroll period following their date of employment.

Contributions
Participants in the Plan may elect to have a portion of their eligible compensation deferred and contributed to the Plan through payroll deductions up to a maximum of 50% of total eligible compensation, subject to Internal Revenue Service ("IRS") limitations. Total eligible compensation includes salary and overtime, but excluding bonuses and extraordinary remuneration, as defined in the plan document. Additionally, SCOR US makes matching contribution based on participant deferral elections, up to a maximum of 4% of each participant's total eligible annual compensation, which is funded on a payroll period basis. SCOR US provides a True-up matching contribution feature which allows employees to receive Company matching contributions they may have otherwise missed, either because they reached the maximum statutory deferral limit prior to the end of the year or did not contribute enough for part of the year to receive the full match for which they were eligible.

1. Description of the Plan (continued)

Employer matching contributions of $3,852,453 and $3,679,016 net of forfeitures were made during 2022 and 2021, respectively. The Plan also required SCOR US to make a discretionary contribution ("DC") to all participants in the Plan that have worked at least 1,000 hours during the year and are active as of the last day of Plan year end. The DC is based on age and length of service of an eligible employee regardless of whether or not the employee participates in the 401(k) Savings Program. Employer discretionary contributions of $7,562,399 and $7,385,337 were made during 2022 and 2021, respectively.

Participant Accounts
Each participant's account is credited with their contribution, Employer contributions and the earnings thereon. Contribution to the Plan are invested by the trustee as directed by the participants. Each participant may elect from one or more of the investment vehicles offered pursuant to the provisions of the plan.

Vesting

- Participants are immediately vested in their deferred compensation contributions, Employer matching contributions plus actual investment earnings.

- Participants that were actively employed on October 1, 2006, are 100% vested in all contributions.

- New participants hired on or after January 1, 2007 have a three-year cliff vesting period in the DCRP.

Forfeitures
The plan document provides for forfeitures to be applied to reduce the Employer contributions and to be applied against plan expenses, if available. During the years ended December 31, 2022 and 2021, the Employer used forfeitures of $8,303 to offset Employer contributions and contributed $8,593 to the forfeiture account, respectively, and used forfeitures of $117,810 and $40,353, respectively, to offset administrative expenses. Forfeitures from employees for the years ended December 31, 2022 and 2021 were $186,861 and $128,996, respectively. At December 31, 2022 and 2021, forfeiture amounts of $293,250 and $228,053, respectively, were included in the Plan's net assets available for benefits.

Investments
Participants may direct the investment of their contributions and/or account balances into various fund options offered by the Plan and may change investments and transfer amounts between funds daily. As of December 31, 2022, the plan offers various fund options: Money Market, Stable Value, Fixed Income, Life Cycle, Domestic Equity, and International Equity, self-directed brokerage covering a wide spectrum of investment categories are included.

1. Description of the Plan (continued)

Payment of Benefits

On termination of service, death, disability or retirement, a participant may elect to receive either a lump-sum amount or periodic cash installments equal to the full value of his or her vested account balance.

Notes Receivable from Participants

Participants are permitted to borrow a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The maximum term of a loan is five years or ten years if the loan is for the purchase of a principal residence. The loans are secured by the balance in the participant's account and bear interest at a rate of prime plus one percent (1%). Notes receivable from participants are repaid through payroll deductions and monitored by the plan administrator. As of December 31, 2022, the interest rates on the outstanding notes receivable from participants ranged from 4.25% to 8.0% with loans maturing from 2023 to 2031.

Administrative Expenses

Employer pays all of the Plan's administrative expenses for actively employed participants, except for short-term trading fees. The expenses to the extent not paid by the Employer are paid by forfeitures, if any. Terminated employees pay an administrative fee directly to Fidelity Management Trust Company ("Fidelity") on a quarterly basis.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles ("GAAP") in the United States of America requires management to make estimates and assumptions that affect the reporting amounts of net assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Benefit Payments

Benefit payments are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

2. Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation (depreciation) consists of realized gains or losses and the unrealized appreciation or depreciation on those investments bought and sold, as well as held during the year.

Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

Other items
In March 2020, the COVID-19 outbreak was declared a pandemic by the World Health Organization. The COVID-19 pandemic has led to increased volatility in financial markets. The extent to which such increased volatility will impact the value of Plan assets will depend on future developments that are highly uncertain and cannot be predicted.

Subsequent Events
The Plan has evaluated subsequent events through October 10, 2023, the date the financial statements were available for issuance.

3. Information certified by the Trustee

Information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule held at December 31, 2022 and 2021, and net (depreciation) appreciation in fair value of investments, interest and dividend for the years then ended was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity, the trustee of the Plan.

4. Fair Value Measurements

The Plan's investments are stated at fair value. The fair value hierarchy gives the highest ranking to fair values determined using unadjusted quoted prices in active markets for identical assets and liabilities (level 1) and the lowest ranking to fair values determined using methodologies and models with unobservable inputs (level 3). An asset's or a liability's classification is based on the lowest level input that is significant to its measurement. For example, a level 3 fair value measurement may include inputs that are both observable (levels 1 and 2) and unobservable (level 3). The levels of the fair value hierarchy are as follows:

4. Fair Value Measurements (continued)

- Level 1 – Values are unadjusted quoted prices for identical assets and liabilities in active markets accessible at the measurement date.

- Level 2 – Inputs include quoted prices for similar assets or liabilities in active markets, quoted prices from those willing to trade in markets that are not active, or other inputs that are observable or can be corroborated by market data for the term of the instrument. Such inputs include market interest rates and volatilities, spreads and yield curves.

- Level 3 – Certain inputs are unobservable (supported by little or no market activity) and significant to the fair value measurement. Unobservable inputs reflect the Company's best estimate of what hypothetical market participants would use to determine a transaction price for the asset or liability at the reporting date.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology during 2022:

Mutual funds	*Valued at the market price reported of shares at year end*
Common stocks *Preferred stock* *Certificate of deposits* *Government bonds* *Rights/Warrants*	*Valued at the quoted price reported on the active market at year end.*
Stable value pooled funds	*Valued by aggregating the market values of all of the fund's underlying investments*

The methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4 Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2022:

	Level 1	Level 2	Level 3	Total
Assets at fair value				
Mutual funds	**$ 215,056,168**	**$ -**	**$ -**	**$ 215,056,168**

Total assets at fair value	**$ 224,411,717**	**$ -**	**$ -**	**$ 229,363,029**

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2021:

	Level 1	Level 2	Level 3	Total
Assets at fair value				
Mutual funds	$ 273,774,664	$ -	$ -	$ 273,774,664
Common stocks	5,726,777	-	-	5,726,777

Total assets at fair value	$ 282,935,093	$ -	$ -	$ 287,021,263

(a) Certain investments that were measured at net asset value per share (or its equivalent) as a practical expedient to fair value have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

5 Income Tax Status

The Plan has received a determination letter from the IRS dated June 30, 2020, stating that the Plan satisfies the qualification requirements under Section 401(a) of the Internal Revenue Code, as amended (the "Code"); therefore, the related trust is exempt from taxation. Subsequent to the date the determination letter application was submitted to the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Company believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for the tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations with respect to the Plan's Form 5500 filings for Plan years prior to 2019.

6 Party-In-Interest Transactions

Certain Plan investments are managed by Fidelity and, therefore, these transactions qualify as party-in-interest transactions. Fees paid to Fidelity by the Plan for management services amounted to $256,125 and $187,805 for the years ended December 31, 2022 and 2021, respectively. These payments were offset by forfeitures of $117,810 and $40,353, respectively.

In 2022 and 2021, Fidelity deposited $214,384 and $330,146, respectively as a result of plan services exceeding the agreed-upon compensation. The revenue credit is an indication that all investment options are in their lowest cost share class and Fidelity is projected to receive more revenue than is required to administer the plan; therefore, a quarterly credit of excess revenue is given to plan participants. Fidelity allocated amounts equal to such excess revenue into the accounts of eligible participants.

7 Plan Termination

Although SCOR US has not expressed any intent to terminate the Plan, it has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated, all participants become fully vested in the entire value of their accounts.

8 Risks and Uncertainties

The Plan's investments are concentrated in mutual funds and self-directed brokerage accounts that invest in marketable securities. Such securities are subject to various risks, such as interest rates, market and credit risks that determine the value of the funds. Due to the level of risk associated with certain securities and the level of uncertainty related to changes in the value of these securities, it is at least reasonably possible that changes in market conditions in the near term could materially affect participants' account balances and the value of investments reported in the financial statements.
