Independent Auditor's Report

Trustees of the Pueblo of Pojoaque Commercial 401(k) Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Pueblo of Pojoaque Commercial 401(k) Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [(ERISA Section 103(a)(3)(C) audit)]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America. We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedules Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) is presented for purposes of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with general accepted auditing standards.

For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including it's form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Other Matter – Required Supplementary Information

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the financial statements. Such missing information, although not a part of the financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic or historical context. Our opinion on the financial statements is not affected by the missing information.

Pueblo of Pojoaque Commercial 401(k) Retirement Plan

Notes to Financial Statements
December 31, 2022 and 2021

1) Description of the Plan

The following brief description of the Pueblo of Pojoaque Commercial 401(k) Retirement Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan Agreement (the "Agreement") for more complete information.

General
The Plan is a single employer defined contribution pension plan. The Plan utilizes the services of a third-party custodian and record keeper.

Eligibility
The Plan document stipulates that participants must be age 21 or older and are eligible to participate in the Plan after 2 months of service, with the entry date on the first of the month. At December 31, 2022, the Plan has a total of 1,273 participants. Of those, there are 623 retired or separated members entitled to receive future benefits, and there are 347 active participants with account balances at year end. At December 31, 2021, the Plan has a total of 891 participants. Of those, there are 203 retired or separated members entitled to receive future benefits, and there are 455 active participants with account balances at year end.

Elective Contributions
Each eligible employee may elect to have the employer contribute on his behalf a percentage or dollar amount of his compensation that would otherwise be immediately payable. Participants may contribute up to 100% of their compensation subject to Internal Revenue Service (IRS) limitations.

Matching Contributions
Each year, the employer will contribute a graded matching contribution based upon the years of service credited to the employees and the amount of compensation deferred into the plan. The following table describes the matching formula:

50% or
100% if the Participant has at least 9 Years of Credited Service, or
150% if the Participant has at least 14 Years of Credited Service, or
200% if the Participant has at least 19 Years of Credited Service.

The employer will match employee's salary deferrals that do not exceed 5% of compensation, per plan year.

Forfeitures
Forfeitures are used to reduce future employer contributions or pay Plan expenses. The forfeiture account was $99,121 and $60,188 as of December 31, 2022 and 2021, respectively.

1) Description of the Plan — continued

Payment of benefits

On termination of service due to death, disability, retirement or other reasons, a participant may elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account.

Vesting

Employees are always 100% vested in their employee pretax account, rollover account, and earnings thereon. Employer contributions and related earnings will be vested in accordance with the following schedule:

Years of Service	Percent Vested
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Termination of the Plan

In the event that this Plan terminates (including a termination due to a complete discontinuance of contributions by the employer), each participant shall be one hundred (100%) percent vested and have a non-forfeitable interest in all of his/her accounts.

Investment Options

Upon enrollment in the Plan, participants may direct their accounts among the investment options offered in the Plan. See the attached Schedule of Assets (Held at End of Year) for a complete list of investments that were available as of year-end.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $25,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 3.25 percent to 7.25 percent, which are commensurate with the interest rates that a commercial lender would charge for loans made under similar circumstances. Principal and interest are paid ratably through each payroll period deduction. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded at December 31, 2022 and 2021.

2) Summary of Significant Accounting Policies

Basis of Accounting
These financial statements have been prepared on the accrual basis of accounting. Investments held by a defined contribution plan are required to be reported at fair value.

Investment Valuation and Income Recognition
Investments are recorded at fair value. The fair value of investments is determined daily by the asset manager using the Net Asset Value for each investment option selected for use by participants.

The change between current value and the adjusted cost of investments is reflected in the statements of changes in net assets available for benefits as the net appreciation or depreciation in fair value of plan net assets. Realized gains and losses on sales of securities are included with the net appreciation or depreciation in the statements of changes in net assets available for benefits.

Contributions made to the Plan are recognized as additions to Plan assets when remitted.

Payment of Benefits
Benefits paid are recognized as deductions from Plan assets when incurred.

Expenses
Administrative expenses and third-party advisory fees are paid by the Plan sponsor. Costs and expenses incurred in the purchase, sale, or transfer of investments are paid by the Plan.

Use of Estimates
The preparation of financial statements in conformity with generally accepted accounting principals requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Subsequent Events
Management has evaluated subsequent events through the date that the financial statements were available to be issued, October 10, 2023, and determined there were no events that occurred that require disclosure. No subsequent events occurring after this date have been evaluated for inclusion in these financial statements.

3) Tax Status

The Plan determination letter is a non-standardized prototype on a Datair document which has a June 30, 2020 favorable opinion letter. The prototype plan, as then designed, was in compliance with the applicable sections of the Internal Revenue Code. The Plan is relying on the opinion letter of the prototype sponsor. The Plan has been amended since receiving the opinion letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the accompanying financial statements. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to December 31, 2019. Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

4) Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1
Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level 2
Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly, such as:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

4) Fair Value Measurements — continued

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3
Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Mutual Funds
Valued at the net asset value (NAV), of shares held by the Plan at year end.

Collective Trust
Value based on the Plan's interest, represented by investment units, in the underlying investments held within the trust that are traded in an active market.

		Fair Value Measurements Using:	
As of December 31, 2022	Fair Value	Quoted Prices In Active Markets for Indentical Assets (Level 1)	Significant Other Observable Inputs (Level 2)
Mutual funds	$ 11,250,593	$ 11,250,593	$ -
Collective trust	537,571	-	537,571
Total assets at fair value	$ 11,788,164	$ 11,250,593	$ 537,571

		Fair Value Measurements Using:	
As of December 31, 2021	Fair Value	Quoted Prices In Active Markets for Indentical Assets (Level 1)	Significant Other Observable Inputs (Level 2)
Mutual funds	$ 14,173,013	$ 14,173,013	$ -
Collective trust	495,431	-	495,431
Total assets at fair value	$ 14,668,444	$ 14,173,013	$ 495,431

4) Fair Value Measurements — continued

Gains and losses (realized and unrealized) for the period above are reported in net appreciation (depreciation) in fair value of investments in the Statements of Changes in Net Assets Available for Benefits.

5) Investment Information Prepared and Certified by the Custodian

The Plan Administrator has elected the method of compliance, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. The following financial information included in the Plan's financial statements has been derived from information certified to be complete and accurate by Fidelity, under such regulation:

a) Total investments, at fair value, included in the statements of net assets available for benefits at December 31, 2022 or 2021.

b) Notes receivable from participants, included in the statements of net assets available for benefits at December 31, 2022 or 2021.

c) Investment income and interest income from notes receivable, information included in the statement of changes in net assets available for benefits for the year ended December 31, 2022.

d) All amounts included in Note 4, Fair Value Measurements.

e) All information included in the supplemental schedule of assets (held at end of year) as of December 31, 2022.

6) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

7) Related Party Transactions

Certain Plan investments are managed by Fidelity. This entity was the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

To Management of the Pueblo of Pojoaque Commercial 401(k) Retirement Plan

Except as discussed in the following paragraph, in planning and performing our audit of the financial statements of the Pueblo of Pojoaque Commercial 401(k) Retirement Plan (the "Plan") as of and for the year ended December 31, 2022, in accordance with auditing standards generally accepted in the United States of America, we considered the Plan's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstance for the purpose of issuing our report on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we do not express an opinion on the effectiveness of the Plan's internal control.

We were engaged to perform a DOL limited-scope audit of those financial statements as permitted by ERISA Section 103(a)(3)(C). Our audit did not include all of the procedures required by auditing standards generally accepted in the United States of America and did not include a consideration of internal control relating to the information summarized in Note 5 to those financial statements. Because of the significance of the information that we did not audit, we were unable to, and did not, express an opinion on those financial statements.

Our consideration of internal control was for the limited purpose described in the preceding paragraphs and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified certain deficiencies in internal control that we consider to be significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the Plan's financial statements will not be prevented, or detected and corrected, on a timely basis. We did not identify any deficiencies in internal control that we consider to be material weaknesses.

A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiencies of the Plan's internal control to be significant deficiencies:

Vesting (Repeat)

Observation: During our testwork on benefit distributions, we noted two out of twenty-one transactions tested, where the employee's forfeiture amount was incorrectly calculated.

Recommendation: Management should ensure that all participant information is accurately recorded so that vesting percentages can be appropriately calculated.

Calculation of Employer Matching Contribution (Repeat)

Observation: During our participant data testwork, we noted one out of twenty-eight individuals, where the employee's matching contribution was not appropriately calculated.

Recommendation: Ensure that all participant information is accurately recorded to management can properly calculate matching allocations.

Census Data (Repeat)

Observation: During our participant data testwork, we noted one out of twenty-eight individuals tested, where the date of hire on the census did not match the employee action notice.

Recommendation: Management should ensure that all employee information is accurately reported in the census.

Investment Allocation

Observation: During our participant data testwork, we noted one out of twenty-eight individuals tested, where the employee's investment allocation did not agree to the investment funds the deferral and employer contributions remitted.

Recommendation: Management should ensure that all employee deferrals and employer matching contributions are remitted to the correct investment.

Plan Documentation

Observation: During our participant data testwork, we noted one out of twenty-eight individuals tested, where timesheets for hours worked were not documented. Additionally, management represented that employees working at this specific enterprise were not eligible to participate in the plan, however no plan amendment was filed to specifically state that these individuals are not eligible for the plan.

Recommendation: Management should ensure that the Plan document is appropriately updated regarding ineligible entities and that all employees have timesheets for hours worked.

The communication is intended solely for the information and use of management of the Pueblo of Pojoaque Commercial 401(k) Retirement Plan, and others within the Plan, and is not intended to be and should not be, used by anyone other than these specified parties.
