Independent Auditor's Report

Board of Trustees and Plan Administrator
Farouk Systems, Inc. 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Farouk Systems, Inc. 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2022 and 2021, the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by a qualified institution and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedule Required by ERISA

The supplemental schedule, Schedule H, line 4i—Schedule of assets (held at end of year), is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements, or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Farouk Systems, Inc. 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of Farouk Systems, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan and adopted by Farouk Systems, Inc. (the Company or Employer), on April 1, 1997, to provide benefits to eligible employees, as defined in the Plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan's Investment Committee determines the appropriateness of the Plan's investment offering, monitors investment performance and reports to the Plan's Board of Directors. Fidelity Management Trust Company (Fidelity or the trustee) serves as the trustee and record keeper of the Plan's assets.

Eligibility: The Plan covers substantially all employees who have been employed by the Company for three consecutive months and are age 21 years or older and who are not nonresident aliens, independent contractors or employees of an independent contractor or members of a collective bargaining agreement.

Contributions: Participants may make salary deferral contributions of up to 90% of their annual compensation, in whole percentage increments, up to the maximum amount allowed by the Internal Revenue Code (IRC). Participant salary deferral contributions can be made either on a pre-tax basis or as Roth elective deferrals on an after-tax basis. Participants who have attained age 50 before the end of the plan year are allowed to make a catch-up contribution for that year, subject to limits imposed by the IRC. Additionally, the Plan allows employees to make rollover contributions for eligible amounts from other plans.

The Company makes a safe harbor matching contribution equal to 100% of each participant's elective contributions up to 3% of the participant's eligible compensation, and 50% of the participant's elective contributions of the next 2% of the participant's eligible compensation calculated each pay period. The Company may also make discretionary matching contributions, qualified matching contributions, and discretionary nonelective contributions to eligible participants. There were no discretionary or qualified employer contributions made during 2022.

Participant accounts: Each participant's account is credited with the participant's contributions, the Employer's safe harbor, discretionary and qualified contributions, and allocations of Plan earnings. In addition, participant accounts may also be charged with an allocation of certain administrative expenses. Allocations are based on participant contributions, earnings or account balances, or specific transactions, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants have the right to direct the investment of Plan assets held under the Plan on their behalf into various investment options offered by the Plan and can change the allocation of future contributions and current account balances at their discretion.

Vesting: Participants are immediately vested in their contributions, rollover contributions, safe harbor matching contributions, plus actual earnings or losses thereon. Participants' interests in discretionary or qualified matching, plus actual earnings or losses thereon begins vesting at 20% after two years of service, increasing 20% each year thereafter, with the participants being 100% vested after six years.

Farouk Systems, Inc. 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Notes receivable from participants: Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested balance. Outstanding loans are limited to no more than one loan at a time. The notes are secured by the balance in the participant's account. Interest is charged at the prevailing rate, as defined by the Plan, at the time the note is made, with scheduled repayments to be made through salary deferrals. Note terms range from one to five years unless they are for the purchase of the participant's primary residence whereby the repayment period is not to exceed 10 years. The notes outstanding at December 31, 2022, bear interest rates at 7.5% and mature at various dates through March 2028.

Payment of benefits: Upon death, disability, retirement or other termination of employment, the participant's vested account shall be used to provide benefits in the form of a single lump-sum distribution or annual installments at the employee's election, equal to the value of the participant's vested interest in his or her account, as defined by the Plan. Any balance under \$1,000 is automatically paid out as soon as administratively possible and is paid directly to the participant in the form of a cash, lump-sum distribution. In the absence of an election by the participant within the time period specified by the Plan Administrator, any balance that exceeds \$1,000, but does not exceed \$5,000, is paid as a direct rollover to an individual retirement account designated by the Plan Administrator. The Plan also allows for in-service distributions upon reaching the age of 59½. Hardship withdrawals are also available subject to certain limitations, as defined by the Plan.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Investment Committee determines the Plan's valuation policies utilizing information provided by the Plan's investment advisors and trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date basis. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held, during the year. Capital gains from mutual funds that are reinvested are included with dividends and investment income on the statement of changes in net assets available for benefits.

Farouk Systems, Inc. 401(k) Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2022 or 2021. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded. Notes from participants have been classified as an investment asset for Form 5500, Annual Return/Report of Employee Benefit Plan, reporting purposes and, accordingly, have been included as an investment in the supplemental schedule, Schedule H, line 4i—schedule of assets (held at end of year). No allowance for credit losses has been recorded as of December 31, 2022 and 2021.

Benefits paid to participants: Benefit payments are recorded when paid.

Administrative expenses: Expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expense. Investment-related expenses are included in net depreciation of fair value of investments. Certain administrative functions are performed by officers or employees of the Company. However, such employees and officers receive no compensation from the Plan.

Subsequent events: The Plan has evaluated all subsequent events through October 12, 2023, the date which the financial statements were available to be issued.

Note 3. Information Certified and Provided by Fidelity Management Trust Company

The following is a summary of the Plan's asset information as of December 31, 2022 and 2021, and for the year ended December 31, 2022, included throughout the Plan's financial statements and ERISA-required supplemental schedule, obtained by management and agreed or derived from information provided by Fidelity), the trustee The Plan Administrator has obtained certifications from Fidelity that the information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information that appears throughout the financial statements and ERISA-required supplemental schedule related to the following assets:

	2022	2021
Investments, at fair value:		
Mutual funds	\$ 9,808,187	\$ 11,724,593
Collective trust fund	983,445	1,240,913
Total investments at fair value	<u>\$ 10,791,632</u>	<u>\$ 12,965,506</u>
Notes receivable from participants	<u>\$ 580,258</u>	<u>\$ 456,233</u>

The trustee also certified to the completeness and accuracy of \$2,667,534 of net depreciation in fair value of investments, \$631,996 of dividend and interest income related to the aforementioned investments, and \$37,699 of interest income on notes receivable from participants for the year ended December 31, 2022.

Note 4. Fair Value Measurements

The Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted, quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or the liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Mutual funds: Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective trust fund: The Fidelity Advisors Stable Value Fund is valued at the NAV of the shares held by the Plan at year-end. The NAV is not a publicly quoted price in an active market. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value.

Note 4. Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2022 and 2021:

Description	Assets at Fair Value as of December 31, 2022			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 9,808,187	\$ -	\$ -	\$ 9,808,187
Investments at fair value				9,808,187
Collective trust fund measured at NAV (a)				983,445
Total investments				<u>\$ 10,791,632</u>

Description	Assets at Fair Value as of December 31, 2021			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 11,724,593	\$ -	\$ -	\$ 11,724,593
Investments at fair value				11,724,593
Collective trust fund measured at NAV (a)				1,240,913
Total investments				<u>\$ 12,965,506</u>

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using NAV per share (or its equivalent) as of December 31, 2022 and 2021:

Investment	Fair Value		Unfunded Commitment	Redemption Frequency	Redemption Notice Period
	December 31 2022	December 31 2021			
Collective trust fund*	<u>\$ 983,445</u>	<u>\$ 1,240,913</u>	None	Immediate	None

*This common collective trust fund, Fidelity Advisors Stable Value Fund, is filing as a direct filing entity (DFE).

Note 5. Related-Party and Party-in-Interest Transactions

Certain Plan investments are in mutual funds managed by Fidelity. Fidelity is the trustee as defined by the Plan; therefore, these investments qualify as party-in-interest transactions. Notes receivable from participants also qualify as party-in-interest transactions. These transactions are covered by an exemption from the prohibited transaction provisions.

Farouk Systems, Inc. 401(k) Plan

Notes to Financial Statements

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan Agreement to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts and the net assets of the Plan will be distributed to the participants of the Plan in accordance with the provisions of ERISA.

Note 7. Tax Status

The Company has adopted a volume submitter plan sponsored by Fidelity Management & Research Company, which obtained its latest opinion letter dated June 30, 2020, in which the Internal Revenue Service (IRS) stated that the form of the volume submitter plan is acceptable under Section 401 of the IRC for use by employers for the benefit of their employees. The Plan has not been amended since the volume submitter plan received the opinion letter. The Company will do whatever is necessary to maintain the tax qualified status of the Plan.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by taxing authorities. Management has evaluated the Plan's tax positions and concluded that the Plan has maintained its tax exempt status and has taken no uncertain tax positions that require adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Risks and Uncertainties

The Plan provides for various investment options in a variety of investment securities. Investment securities, in general, are exposed to various risks, such as interest rate risk, financial market risk and credit risk. Due to the level of risk associated with certain investment securities it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Plan's financial statements.

Independent Auditor's Report

Board of Trustees and Plan Administrator
Farouk Systems, Inc. 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Farouk Systems, Inc. 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2022 and 2021, the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by a qualified institution and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedule Required by ERISA

The supplemental schedule, Schedule H, line 4i—Schedule of assets (held at end of year), is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements, or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Farouk Systems, Inc. 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of Farouk Systems, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan and adopted by Farouk Systems, Inc. (the Company or Employer), on April 1, 1997, to provide benefits to eligible employees, as defined in the Plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan's Investment Committee determines the appropriateness of the Plan's investment offering, monitors investment performance and reports to the Plan's Board of Directors. Fidelity Management Trust Company (Fidelity or the trustee) serves as the trustee and record keeper of the Plan's assets.

Eligibility: The Plan covers substantially all employees who have been employed by the Company for three consecutive months and are age 21 years or older and who are not nonresident aliens, independent contractors or employees of an independent contractor or members of a collective bargaining agreement.

Contributions: Participants may make salary deferral contributions of up to 90% of their annual compensation, in whole percentage increments, up to the maximum amount allowed by the Internal Revenue Code (IRC). Participant salary deferral contributions can be made either on a pre-tax basis or as Roth elective deferrals on an after-tax basis. Participants who have attained age 50 before the end of the plan year are allowed to make a catch-up contribution for that year, subject to limits imposed by the IRC. Additionally, the Plan allows employees to make rollover contributions for eligible amounts from other plans.

The Company makes a safe harbor matching contribution equal to 100% of each participant's elective contributions up to 3% of the participant's eligible compensation, and 50% of the participant's elective contributions of the next 2% of the participant's eligible compensation calculated each pay period. The Company may also make discretionary matching contributions, qualified matching contributions, and discretionary nonelective contributions to eligible participants. There were no discretionary or qualified employer contributions made during 2022.

Participant accounts: Each participant's account is credited with the participant's contributions, the Employer's safe harbor, discretionary and qualified contributions, and allocations of Plan earnings. In addition, participant accounts may also be charged with an allocation of certain administrative expenses. Allocations are based on participant contributions, earnings or account balances, or specific transactions, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants have the right to direct the investment of Plan assets held under the Plan on their behalf into various investment options offered by the Plan and can change the allocation of future contributions and current account balances at their discretion.

Vesting: Participants are immediately vested in their contributions, rollover contributions, safe harbor matching contributions, plus actual earnings or losses thereon. Participants' interests in discretionary or qualified matching, plus actual earnings or losses thereon begins vesting at 20% after two years of service, increasing 20% each year thereafter, with the participants being 100% vested after six years.

Farouk Systems, Inc. 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Notes receivable from participants: Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested balance. Outstanding loans are limited to no more than one loan at a time. The notes are secured by the balance in the participant's account. Interest is charged at the prevailing rate, as defined by the Plan, at the time the note is made, with scheduled repayments to be made through salary deferrals. Note terms range from one to five years unless they are for the purchase of the participant's primary residence whereby the repayment period is not to exceed 10 years. The notes outstanding at December 31, 2022, bear interest rates at 7.5% and mature at various dates through March 2028.

Payment of benefits: Upon death, disability, retirement or other termination of employment, the participant's vested account shall be used to provide benefits in the form of a single lump-sum distribution or annual installments at the employee's election, equal to the value of the participant's vested interest in his or her account, as defined by the Plan. Any balance under \$1,000 is automatically paid out as soon as administratively possible and is paid directly to the participant in the form of a cash, lump-sum distribution. In the absence of an election by the participant within the time period specified by the Plan Administrator, any balance that exceeds \$1,000, but does not exceed \$5,000, is paid as a direct rollover to an individual retirement account designated by the Plan Administrator. The Plan also allows for in-service distributions upon reaching the age of 59½. Hardship withdrawals are also available subject to certain limitations, as defined by the Plan.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Investment Committee determines the Plan's valuation policies utilizing information provided by the Plan's investment advisors and trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date basis. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held, during the year. Capital gains from mutual funds that are reinvested are included with dividends and investment income on the statement of changes in net assets available for benefits.

Farouk Systems, Inc. 401(k) Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2022 or 2021. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded. Notes from participants have been classified as an investment asset for Form 5500, Annual Return/Report of Employee Benefit Plan, reporting purposes and, accordingly, have been included as an investment in the supplemental schedule, Schedule H, line 4i—schedule of assets (held at end of year). No allowance for credit losses has been recorded as of December 31, 2022 and 2021.

Benefits paid to participants: Benefit payments are recorded when paid.

Administrative expenses: Expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expense. Investment-related expenses are included in net depreciation of fair value of investments. Certain administrative functions are performed by officers or employees of the Company. However, such employees and officers receive no compensation from the Plan.

Subsequent events: The Plan has evaluated all subsequent events through October 12, 2023, the date which the financial statements were available to be issued.

Note 3. Information Certified and Provided by Fidelity Management Trust Company

The following is a summary of the Plan's asset information as of December 31, 2022 and 2021, and for the year ended December 31, 2022, included throughout the Plan's financial statements and ERISA-required supplemental schedule, obtained by management and agreed or derived from information provided by Fidelity), the trustee The Plan Administrator has obtained certifications from Fidelity that the information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information that appears throughout the financial statements and ERISA-required supplemental schedule related to the following assets:

	2022	2021
Investments, at fair value:		
Mutual funds	\$ 9,808,187	\$ 11,724,593
Collective trust fund	983,445	1,240,913
Total investments at fair value	<u>\$ 10,791,632</u>	<u>\$ 12,965,506</u>
Notes receivable from participants	<u>\$ 580,258</u>	<u>\$ 456,233</u>

The trustee also certified to the completeness and accuracy of \$2,667,534 of net depreciation in fair value of investments, \$631,996 of dividend and interest income related to the aforementioned investments, and \$37,699 of interest income on notes receivable from participants for the year ended December 31, 2022.

Note 4. Fair Value Measurements

The Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted, quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or the liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Mutual funds: Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective trust fund: The Fidelity Advisors Stable Value Fund is valued at the NAV of the shares held by the Plan at year-end. The NAV is not a publicly quoted price in an active market. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value.

Note 4. Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2022 and 2021:

Description	Assets at Fair Value as of December 31, 2022			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 9,808,187	\$ -	\$ -	\$ 9,808,187
Investments at fair value				9,808,187
Collective trust fund measured at NAV (a)				983,445
Total investments				\$ 10,791,632

Description	Assets at Fair Value as of December 31, 2021			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 11,724,593	\$ -	\$ -	\$ 11,724,593
Investments at fair value				11,724,593
Collective trust fund measured at NAV (a)				1,240,913
Total investments				\$ 12,965,506

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using NAV per share (or its equivalent) as of December 31, 2022 and 2021:

Investment	Fair Value		Unfunded Commitment	Redemption Frequency	Redemption Notice Period
	December 31 2022	December 31 2021			
Collective trust fund*	\$ 983,445	\$ 1,240,913	None	Immediate	None

*This common collective trust fund, Fidelity Advisors Stable Value Fund, is filing as a direct filing entity (DFE).

Note 5. Related-Party and Party-in-Interest Transactions

Certain Plan investments are in mutual funds managed by Fidelity. Fidelity is the trustee as defined by the Plan; therefore, these investments qualify as party-in-interest transactions. Notes receivable from participants also qualify as party-in-interest transactions. These transactions are covered by an exemption from the prohibited transaction provisions.

Farouk Systems, Inc. 401(k) Plan

Notes to Financial Statements

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan Agreement to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts and the net assets of the Plan will be distributed to the participants of the Plan in accordance with the provisions of ERISA.

Note 7. Tax Status

The Company has adopted a volume submitter plan sponsored by Fidelity Management & Research Company, which obtained its latest opinion letter dated June 30, 2020, in which the Internal Revenue Service (IRS) stated that the form of the volume submitter plan is acceptable under Section 401 of the IRC for use by employers for the benefit of their employees. The Plan has not been amended since the volume submitter plan received the opinion letter. The Company will do whatever is necessary to maintain the tax qualified status of the Plan.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by taxing authorities. Management has evaluated the Plan's tax positions and concluded that the Plan has maintained its tax exempt status and has taken no uncertain tax positions that require adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Risks and Uncertainties

The Plan provides for various investment options in a variety of investment securities. Investment securities, in general, are exposed to various risks, such as interest rate risk, financial market risk and credit risk. Due to the level of risk associated with certain investment securities it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Plan's financial statements.
