Independent Auditor's Report**

INDEPENDENT AUDITOR'S REPORT

October 11, 2023

To the Participants and Administrator of the
Avangrid Non-Union 401(k) Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Avangrid Non-Union 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of and for the for the years ended December 31, 2022 and 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

INDEPENDENT AUDITOR'S REPORT

(Continued)

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Avangrid Non-Union 401(k) Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

(Continued)

INDEPENDENT AUDITOR'S REPORT

(Continued)

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Avangrid Non-Union 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Avangrid Non-Union 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

AVANGRID NON-UNION 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2022 AND 2021

1. DESCRIPTION OF PLAN

The following is a brief description of the Avangrid Non-Union 401(k) Plan (the Plan) provided for general information purposes only. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan was established effective January 1, 2005 and is a defined contribution plan as permitted under Section 401(k) of the Internal Revenue Code, covering eligible employees of Avangrid Management Company (the Company) and any of its subsidiaries or affiliates which have adopted the Plan as "Participating Employers" under the Plan provisions. The assets of the Plan were maintained in investment funds held by Fidelity Management Trust Company (Fidelity), the Trustee of the Plan for the period from August 2, 2021, through December 31, 2021 and the year ended December 31, 2022, and T. Rowe Price Trust Company, the Trustee of the Plan for the period from January 1, 2021, through August 1, 2021. The Plan is intended to conform to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and subsequent legislation, where applicable.

The Plan Administrator is the Avangrid & Subsidiaries Joint Plan Administration and Fiduciary Committee (the Plan Administrator). Avangrid, Inc. (Avangrid), the parent corporation of the Company, through its subsidiaries, delivers electricity and natural gas to retail customers and provides electricity, natural gas, energy management and other services to retail and wholesale customers in the Northeast. Avangrid was formed effective December 16, 2015 via a merger between Iberdrola USA and UIL Holdings Corporation.

Effective January 1, 2023 the Plan merged into the Avangrid Union 401(k) Plan and the name of the Plan changed to the Avangrid 401(k) Plan. The assets transferred into the new plan on December 30, 2022.

Eligibility

Eligible employees shall become a Participant as soon as administratively feasible.

Contributions

Participants may authorize a pre-tax or Roth elective deferral contribution up to 75% of eligible compensation. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The maximum additional contribution was \$6,500 in both 2022 and 2021. The Plan provides that participants may deposit payments that they receive from other qualified retirement plans. Such contributions are referred to as employee rollover contributions. Employees who became eligible to make 401(k) contributions on or after January 1, 2021, along with others as defined, will be automatically enrolled in the Plan at 6% of eligible compensation with an auto-escalation of 1% annually. Effective January 1, 2023, auto enrollment increased to 8% and an after-tax option was added to the Plan.

The Company contributes to the Plan an amount equal to 150% of the first 8% of eligible compensation. Prior to July 1, 2022, the Company contributed an amount equal to 50% of the first 8% of eligible compensation for employees accruing benefits from a pension plan.

1. DESCRIPTION OF PLAN (Continued)

Contributions (Continued)

Participants direct the investment of employee and employer contributions into various investment options offered by the Plan. Effective August 2, 2021 all participants have access to additional mutual funds and ETF's through Fidelity's brokerage platform. Participants may change their investment allocation on a daily basis. Participants who transfer employment among the affiliated employers of the Plan sponsor may also transfer their account balances to and from other plans sponsored by affiliated employers of the Plan sponsor.

Forfeited Accounts

Forfeitures of non-vested separated participants are available to be applied toward future employer contributions. At December 31, 2022 and 2021, forfeited non-vested accounts totaled \$815,452 and \$927,807 respectively. Forfeitures for the Plan years ended December 31, 2022 and 2021 were used to reduce employer contributions by \$32,531 and \$311,977, respectively. At December 31, 2022 the balance of the forfeiture account was transferred to the Avangrid 401(k) Plan.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocation of (a) the Company's contributions (b) Plan earnings and losses, and (c) administrative expenses. Allocations are based on participant earnings/losses or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable from Participants

Participants may borrow a minimum of \$1,000 from their funds up to a maximum amount, which is the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from one to five years but may exceed five years for the purchase of a primary residence. The notes are collateralized by the balance in the participant's account and bear interest at a rate equal to the prime rate plus 2%. The prime rate is adjusted in an overnight cycle when there are changes driven by the Federal Reserve. Principal and interest are paid ratably through payroll deductions.

Withdrawals and Distributions

Unless a participant elects otherwise, distributions are made as soon as practical after the participant's normal retirement date or actual retirement date occurs. Participants may also receive hardship withdrawals and in-service distributions under certain circumstances, as defined in the Plan Document.

Participants may receive their accumulated vested benefits held by the Plan's trustee upon termination, death or disability.

Administrative Expenses

Participants pay a quarterly fee to cover the cost to administer the Plan as well as investment management fees based on their investment allocation.

Vesting

Participants are immediately 100% vested in their elective deferral contributions and employer contributions. For participants with assets transferred to the Avangrid 401(k) Plan, employer contributions made prior to the transfer continue to follow the same vesting schedule they had in place when contributed.

1. DESCRIPTION OF PLAN (Continued)

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, participants would become fully vested in their account balances.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Plan prepares its financial statements on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Valuation of Investments

Investments in the Avangrid 401(k) Master Trust (the Master Trust) are reported at fair value, other than fully benefit-responsive investment contracts, which are stated at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

The Master Trust invested in a stable value fund at December 31, 2021 that is a fully benefit-responsive investment contract. Contract value is the relevant measurement for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts. Contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The Master Trust investment income is reported on the accrual basis and includes interest and dividends and the net appreciation (depreciation) in the fair value of the Master Trust's investments. In addition, included in the net appreciation (depreciation) in the fair value of the Master Trust's investments are the realized and unrealized gains or losses on transactions in, and translation of, foreign currency investments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold or held during the year.

Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. As of December 31, 2022 and 2021, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the Plan Administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

2. SUMMARY OF SIGNIFICANT ACCOUNT POLICIES (Continued)

Transfers To/From Other Avangrid Qualified Plans

Transfers are routinely made between Avangrid qualified plans as employees move between departments and union status.

Income Taxes

The Plan has received a volume submitter profit sharing plan with CODA letter response from the Internal Revenue Service (the "IRS") dated June 30, 2020, stating that the IRS does not have a ruling or determination on whether the Company's Plan qualifies under Code Section 401(a) but an employer who adopts the Plan qualifies under Section 401(a) of the Internal Revenue Code (the "IRC"), and therefore, the related trust is exempt from taxation. Subsequent to this determination by the Internal Revenue Service, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax-exempt.

Risks and Uncertainties

The Plan's assets include various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to the value of such investments, changes in the values of investments will occur and such changes could materially affect the amounts reported in the accompanying financial statements.

3. FINANCIAL CERTIFICATION

The following financial information relating to the Plan's assets at December 31, 2022 and 2021, as well as investment income and investment transactions for the years then ended, has been derived from information provided by Fidelity, the Trustee of the Plan from August 2, 2021 through December 31, 2022 and T. Rowe Price Trust Company, the Trustee of the Plan from January 1, 2021 through August 1, 2021, and has been certified by them as complete and accurate.

4. INVESTMENT IN MASTER TRUST

The Plan is part of the Avangrid 401(k) Master Trust, which is maintained by Fidelity. The Master Trust was established on August 2, 2021 for the investments of the Plan as well as the Avangrid Union 401(k) Plan.

Each participating benefit plan has an undivided interest in the fund or funds in which it participates, except that each fund or asset identified by the Company as allocable to a particular plan (an identified fund or an identified asset) shall be allocated to that plan account. All transfers to, withdrawals from, or other transactions regarding the Master Trust shall be conducted in such a way that the proportionate interest in the Master Trust for each plan and the fair market value of that interest may be determined at any time. Whenever the assets of more than one plan are commingled in the Master Trust or in any investment option, the undivided interest therein of each such plan shall be debited or credited (as the case may be) (i) for the entire amount of every contribution received on behalf of such plan, every benefit payment, or other expense attributable solely to such plan, and every other transaction relating only to such plan; and (ii) for its proportionate share of every item of collected or accrued income, gain or loss, and general expense, and of any other transactions attributable to the Master Trust or that investment option as a whole.

The Plan's interest in the net assets of the Master Trust was 0% at December 31, 2022 and approximately 57% at December 31, 2021. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based on average monthly balances invested by each plan.

The following table presents the net assets of the Master Trust at December 31:

5. FAIR VALUE MEASUREMENTS

The Plan uses various valuation techniques in determining fair value. ASC Section 820 established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There were no changes to the valuation methodologies for 2022 or 2021.

The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds: Valued at net asset value (NAV) of shares held by the Plan at year end. The shares of the funds trade in active markets.

Company stock: Valued at quoted market prices.

Brokerage account: Brokerage account consists of mutual funds, the values of which are determined based on quoted market prices in active markets.

5. FAIR VALUE MEASUREMENTS (Continued)

Common trust funds: Valued at the NAV of units of the collective fund. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the funds will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily. There are no other restrictions or unfunded commitments, other than notice to the trustee prior to redemption of trust units; the notice period may be shortened or waived by the trustee in its sole discretion.

The following funds held by the Master Trust and classified as common trust funds do not file a 5500 as a direct filing entity (DFE), therefore, the fund's investment strategies are disclosed. The FIAM Select Emerging Markets Equity Fund seeks to provide excess returns relative to the MSCI Emerging Markets Index while maintaining similar fundamental characteristics. The Select Emerging Markets Equity strategy utilizes a disciplined investment approach that seeks to capitalize on Fidelity's fundamental research by combining qualitative stock selection with quantitative risk control. The available investment universe is comprised of emerging markets stocks rated highly by Fidelity's analysts. The discipline uses a quantitative model to constrain the magnitude of portfolio weights at a country, sector, and stock level. This approach is designed to diversify specific risk, reduce tracking error and factor risk, and control transaction costs. The FIAM Small/Mid Cap Core strategy seeks to provide 4.0% annualized excess return relative to the Russell 2500 over a full market cycle. The portfolio is constructed to ensure that active return is primarily generated through stock selection.

The FIAM Select Emerging Markets Equity Fund and the FIAM Small/Mid Cap Core Fund are comprised primarily of common stock. Equity securities for which market quotations are readily available, are valued at the last reported sale price or official closing price as reported by a third-party pricing vendor on the primary market or exchange on which they are traded. In the event there were no sales during the day or closing prices are not available, securities are valued at the last quoted bid price or may be valued using the last available price. For foreign equity securities, when market or security specific events arise, comparisons to the valuation of American Depositary Receipts (ADRs), futures contracts, Exchange-Traded Funds (ETFs) and certain indexes as well as quoted prices for similar securities are used.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables sets forth by level, within the fair value hierarchy, the Master Trust assets at fair value as of December 31, 2022 and 2021:

	<u>Assets at Fair Value as of December 31, 2022</u>

- (a) In accordance with the FASB authoritative guidance regarding fair value measurement, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

6. AVANGRID STABLE VALUE FUND

The Master Trust held a Separate Account Guaranteed Investment Contract (SAGIC), which maintained the contributions in a general account. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract was included in the financial statements at contract value at December 31, 2021, as reported to the Plan by the SAGIC. The Master Trust does not hold any assets in the SAGIC at December 31, 2022. Contract value represents contributions made under the contract, plus earnings credited to participants, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the SAGIC is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is reviewed on a quarterly basis for resetting. The separate account guaranteed interest contract does not allow the crediting interest rate below zero percent.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Examples of such events include, but are not limited to, partial or complete legal termination of the Plan, tax disqualification, certain plan amendments if issuers' consent is not obtained, improper communications to participants, group terminations, group layoffs, early retirement programs, mergers, sales, spin-offs, and bankruptcy. More recently, contract issuers have included provisions that allow for contract termination at market value in the event an act of law or amendment has a material effect on the issuer of the contract. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The SAGIC does not permit the insurance company to terminate the agreement unless the Plan is not in compliance with the investment agreement.

7. PARTY-IN-INTEREST TRANSACTIONS

For the period from August 2, 2021 through December 31, 2021 and the year ended December 31, 2022, certain plan investments were managed by Fidelity, the Trustee, and therefore these transactions qualify as party-in-interest. For the period from January 1, 2021 through August 1, 2021, certain plan investments were managed by T. Rowe Price Trust Company, the Trustee, and therefore these transactions qualify as party-in-interest. Certain other investments are in the Iberdrola sponsored ADRs and Avangrid Stable Value Fund. Transactions with these parties qualify as party-in-interest transactions and are exempt from the prohibited transaction rules.

Notes receivable from participants of \$13,783,462 as of December 31, 2021, with interest rates ranging from 3.25% to 10.50% qualify as party-in-interest. There were no notes receivable from participants as of December 31, 2022.

8. SUBSEQUENT EVENTS

Subsequent events have been evaluated through October 11, 2023, which is the date the financial statements were available to be issued.
