Methods

Valuation Date	January 1, 2022 (first day of the plan year)
Asset Valuation Method	The value of plan assets is equal to the fair value plus discounted receivable contributions.
Unit Credit Actuarial Cost Method	The <u>Unit Credit Actuarial Cost Method</u> is used to determine the Funding Target (FT) for PPA funding purposes. The normal cost for each employee is the present value of the benefit which accrues during that current year. The total normal cost is the sum of the normal costs for all active participants. The Target Normal Cost includes an estimate of the annual administrative expenses expected to be paid from the Trust. The FT measures are the present value of the benefits accrued as of the valuation date for all active participants, plus the present value of all benefits for inactive participants.
Change in Methods	Not applicable.
