INDEPENDENT AUDITORS' REPORT

To the Participants and the Pension and Profit Sharing Committee
Broadway Stores, Inc. Pension Plan for Participating Concessionaires

Opinion

We have audited the financial statements of the Broadway Stores, Inc. Pension Plan for Participating Concessionaires, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits the year ended December 31, 2022, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Broadway Stores, Inc. Pension Plan for Participating Concessionaires as of December 31, 2022 and 2021, and the changes in its net assets available for benefits for the year ended December 31 2022, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Broadway Stores, Inc. Pension Plan for Participating Concessionaires and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Broadway Stores, Inc. Pension Plan for Participating Concessionaires' ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements
Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Broadway Stores, Inc. Pension Plan for Participating Concessionaires' internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Broadway Stores, Inc. Pension Plan for Participating Concessionaires' ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Schedule SB, Part V—Statement of Actuarial Assumptions/Methods

Interest Rates for Minimum Funding Purposes	Based on segment rates with a four-month lookback (as of September 2021), each adjusted as needed to fall within the 25-year average interest rate stabilization corridor under ARPA
1st Segment Rate	4.75%
2nd Segment Rate	5.18%
3rd Segment Rate	5.92%
Interest Rates for Maximum Tax Purposes	Based on segment rates with a four-month lookback (as of September 2021), without regard to interest rate stabilization
1st Segment Rate	1.07%
2nd Segment Rate	2.68%
3rd Segment Rate	3.36%
Retirement Age	
Active Participants	None
Terminated Vested Participants	Age 65
Mortality Rates	
Healthy and Disabled	2022 static mortality table for annuitants and non-annuitants per §1.430(h)(3)-1(a)(3) and IRS Notice 2020-85
Withdrawal Rates	None
Disability Rates	None
Decrement Timing	Middle of year decrements (except that retirement is assumed to occur at the beginning of the year for ages where the assumed retirement rate is 100%)
Form of Annuity	100% elect a life annuity
Surviving Spouse Benefit	It is assumed that 100% of males and 100% of females have an eligible spouse, and that males are three years older than their spouses.
Benefit Limits	Projected benefits are limited by the current IRC section 415 maximum benefit of $245,000.

Valuation of Plan Assets	Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value. A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).
Expected Return on Assets	
2020 Plan Year	Lesser of 5.75% and the 3rd segment rate. Actual rate of 5.75%.

Schedule SB, Part V—Summary of Plan Provisions

History of Plan

On June 1, 1976, the Broadway Stores Inc. maintained Emporium Capwell Company Pension Plan was amended and became The Emporium Capwell Company Pension Plan for Employees of Participating Concessionaires. The plan covers all employees of participating concessionaires with at least 1,000 hours of service and at least 21 years of age.

Effective July 1, 1984, the plan was amended to comply with the Tax Equity and Fiscal Responsibility Act of 1982, the Tax Reform Act of 1984, and the Retirement Equity Act of 1984, and renamed the Carter Hawley Hale Pension Plan for Participating Concessionaires.

Effective July 1, 1987, the plan was amended to comply with the Tax Reform Act of 1986.

Effective June 17, 1994, the name of the company was changed to the Broadway Stores Inc. and the name of the plan was changed to Broadway Stores Inc. Pension Plan for Participating Concessionaires.

Effective July 1, 1995, the benefit formula was updated.

Effective July 1, 1998, the plan year was changed to the calendar year. Therefore, the period July 1, 1998 to December 31, 1998 was a short plan year.

Status of the Plan	Closed plan with no active participants.
Eligibility Date	The first day of the month following the attainment of age 21 and one year of eligibility service.
Plan Entry Date	January 1 or July 1 following the eligibility date.

Normal Retirement

Eligibility: Age 65.

Benefit: The normal retirement benefit is based on the projected years of credited service at age 65 or at actual retirement, if later.

The monthly benefit per year of credited service payable at actual retirement cannot be less than the monthly benefit payable based on years of credited service at age 65.

Projected Total Credited Service at Age 65	Monthly Benefit Per Year of Credited Service
0–14	$ 4.84
15–19	$ 5.68
20–24	$ 7.18
25–29	$ 10.24
30 and over	$ 11.80

The maximum monthly benefit is $413.00.

Early Retirement

Eligibility: Age 55 and 15 years of continuous service.

Benefit: Accrued normal retirement benefit at termination reduced by 1/180 for each of the first 60 months, and by 1/360 for each of the next 60 months by which the date benefit payments commence precedes the participant's normal retirement date.

Vested Termination

Eligibility: Five years of vesting service.

Benefit: Normal retirement benefit accrued to date of termination payable at age 65 unless participant elects to receive early retirement benefit after age 55.

Preretirement Death	
Employees Eligible for Early Retirement	
Eligibility	Age 55 and 15 years of continuous service.
Benefit	Actuarial equivalent of 50% of the early retirement benefit the participant would have received had he or she retired the day before death.
Employees Not Eligible for Early Retirement	
Eligibility	Five years of vesting service.
Benefit	Actuarial equivalent of 50% of the retirement benefit the participant would have received had he or she terminated on the day before death. Benefit payments to the spouse commence on the date the participant would have been eligible to retire.
Administrative Expenses	The following expenses are paid out of the plan assets: PBGC premiums, administrative services, and investment services.
Normal Form of Payment	Single life annuity for unmarried participants; 50% joint and survivor annuity for married participants.
Optional Form of Payment	100%, 75%, 66⅔%, or 50% joint and survivor annuity, five-year or 10-year certain and life annuity, or single life annuity. Benefits are reduced for the form of payment in accordance with formulas found in Appendix A of the plan document.
Definitions	
Continuous Service	Completed years and months of service without a break in employment.
Credited Service	A fraction, no greater than one for any plan year, equal to the participant's hours of service in the plan year divided by 1,800.
Vesting Service	One year for each plan year after age 18, in which the employee has at least 1,000 hours of service.

Plan Changes Since the Prior Year

None

INDEPENDENT AUDITORS' REPORT

To the Participants and the Pension and Profit Sharing Committee
Broadway Stores, Inc. Pension Plan for Participating Concessionaires

Opinion

We have audited the financial statements of the Broadway Stores, Inc. Pension Plan for Participating Concessionaires, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits the year ended December 31, 2022, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Broadway Stores, Inc. Pension Plan for Participating Concessionaires as of December 31, 2022 and 2021, and the changes in its net assets available for benefits for the year ended December 31 2022, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Broadway Stores, Inc. Pension Plan for Participating Concessionaires and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Broadway Stores, Inc. Pension Plan for Participating Concessionaires' ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements
Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Broadway Stores, Inc. Pension Plan for Participating Concessionaires' internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Broadway Stores, Inc. Pension Plan for Participating Concessionaires' ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

1. Description of the Plan

The following brief description of the Broadway Stores, Inc. Pension Plan for Participating Concessionaires (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

a. General

The Plan is a non-contributory defined benefit pension plan sponsored and administered by Macy's, Inc. (the Company or Plan Sponsor) that covers substantially all former employees of participating operators of leased departments (the Concessionaires) in certain divisions of Broadway Stores, Inc. The Plan is subject to the various requirements of the Employee Retirement Income Security Act of 1974 (ERISA) and U.S. tax law. Pursuant to an agreement and plan merger dated August 14, 1995, Broadway Stores, Inc. became a subsidiary of the Company. The Plan remained in place.

b. Eligibility and Vesting

Employees of the Concessionaires were generally eligible for participation in the Plan after one year of service of at least 1,000 hours and after reaching a minimum age of 21. Generally, a participant became fully vested in the Plan upon completing five years of vesting service. Effective December 31, 1995, the date as of which Broadway Stores, Inc. ceased its business operations, the Company amended the Plan to fully vest as of December 31, 1995 all individuals who were participants in the Plan as of December 31, 1995. The Plan was closed to new participants on June 30, 1996.

c. Plan Benefit Formula

The monthly normal retirement benefit is determined by multiplying the participant's years of Credited Service at retirement by the appropriate factor from the monthly benefit table in effect at the time of retirement. The factor is based on the age they first became a participant in the Plan or, if they incurred a break in employment and were required to re-qualify for participation, at the time they again become a participant following reemployment. The maximum monthly benefit is $413.00.

d. Pension Benefits

Participants with five years of vesting service are entitled to a pension benefit beginning at age 65 based on the years of credited service and the age the employee becomes a participant, as described in the Plan agreement. Benefits are computed on the basis of a straight-life annuity for unmarried participants and a 50% joint and survivor benefit for married participants. In addition, participants may elect to receive a reduced retirement benefit at age 55 with 15 years of vesting service.

e. Death Benefits

If a married participant dies, a pre-retirement spousal annuity is payable to such participant's, or terminated participant's, spouse in lieu of any other benefit payable from the Plan.

2. Summary of Significant Accounting Policies

a. Master Trust

The Plan participates in the Macy's, Inc. Defined Benefit Plans Master Trust (Master Trust) Agreement with JP Morgan Chase N.A. (the Trustee). Under the terms of the Master Trust, the Trustee serves as the custodian for the Master Trust. At December 31, 2022 and 2021, the Master Trust held the assets of the Plan and the Macy's, Inc. Cash Account Pension Plan (the CAPP), both of which are sponsored by the Company. The Macy's, Inc. Pension and Profit Sharing Committee and the Trustee select a diversified group of investment managers who determine purchases and sales of investments for the respective portions of the assets in the Master Trust managed by them. In addition, investment

managers may enter into certain derivative financial instruments within the guidelines of the Plan's investment policy in order to meet the Plan's primary investment objectives of payment of benefit obligations to Plan participants and an ultimate realization of investment returns over longer periods in excess of inflation. Derivative investments of the Master Trust may include the following types of financial instrument contracts: interest rate, foreign exchange, equity, commodity, credit, agency mortgage forward and other types of contracts.

b. Basis of Presentation

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

c. Investment Valuation and Income Recognition

The fair value of the Plan's participation in the Master Trust, as certified by the Trustee, is based on the beginning of year value of the Plan's participation in the Master Trust plus allocated investment income or loss and actual contributions, less actual distributions and allocated administrative expenses (Note 4).

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses on the sale of securities are reported on the average cost method.

The Plan provides for investments in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, overall market volatility, political, currency and regulatory risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Money market investments include highly liquid fixed-income securities with a maturity of three months or less.

Dividend income is recorded on the ex-dividend date. Interest and other income from investments are recorded as earned on an accrual basis.

d. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions, that are attributable under the Plan's provisions to the service participants have rendered. Accumulated plan benefits include benefits expected to be paid to (a) active participants (b) retired participants and (c) terminated vested participants. Benefits payable are included, to the extent they are deemed attributable to participant service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

Actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

e. Payment of Benefits

Benefit payments to participants are recorded upon distribution.

f. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

g. Subsequent Events

The Plan has evaluated subsequent events through October 12, 2023, the date the financial statements were available to be issued.

3. Obligation for Pension Benefits

The Concessionaires contributes amounts to the Plan as deemed necessary on an actuarially determined basis to provide the Plan with assets sufficient to meet the anticipated benefits to be paid to participants. The contributions are calculated using the standard unit credit method. These amounts fall between the minimum and maximum contributions allowed under the provisions of the Internal Revenue Code and ERISA. For the 2022 and 2021 Plan years, the Plan's funding was impacted by the Pension Protection Act of 2006. No pension contributions were required for the 2022 and 2021 Plan years.

The calculation of the present value of accumulated plan benefits was made by a third party actuary. Significant assumptions underlying the actuarial computations as of December 31, 2022 and 2021 include:

a) For 2022 and 2021, the Pri-2012 Blue Collar mortality table, projected forward to the measurement date using Scale MP-2021.

b) Withdrawal and retirement rates based on years of service and an age-graded scale.

c) Interest rate of 5.30% and 4.60% compounded annually at December 31, 2022 and 2021, respectively.

The actuarial present value of accumulated plan benefits at December 31, 2022 and 2021 is as follows:

	2022	2021
	(in thousands)	
Vested benefits:		
Participants currently receiving payments	$ 817	$ 906
Other participants	340	396
Total actuarial present value of accumulated plan benefits	$ 1,157	$ 1,302

The changes in the actuarial present value of accumulated Plan benefits for the year ended December 31, 2022 are as follows:

	2022
	(in thousands)
Actuarial present value of accumulated plan benefits at beginning of year	$ 1,302
Increase (decrease) during the year attributable to:	
Benefits paid	(104)
Interest	58
Assumption changes	(69)
Other changes	(30)
Net decrease	(145)
Actuarial present value of accumulated plan benefits at end of year	$ 1,157

4. Investments

All of the Plan's investments are included in the Master Trust. The assets of the Master Trust are held by the Trustee. Each participating plan has an undivided interest in the Master Trust. At December 31, 2022 and 2021, the Plan's interest in the net assets of the Master Trust was approximately 0.1%. Investment income or loss and administrative expenses relating to the Master Trust are allocated to the individual plans based upon monthly balances invested by each plan.

The Plan's investment managers may execute transactions in various financial instruments that may give rise to varying degrees of off-balance sheet market and credit risk, including derivatives. Derivatives are instruments that derive their value from underlying asset prices, indices, reference rates and other inputs, or a combination of these factors. Derivatives may be privately negotiated contracts, which are usually referred to as over-the- counter (OTC) derivatives, or they may be listed and traded on an exchange (exchange-traded). The Plan may enter into various types of derivatives, including:

- *Futures and Forwards:* Contracts that commit counterparties to purchase or sell financial instruments, commodities or currencies in the future.
- *Swaps:* Contracts that require counterparties to exchange cash flows such as currency or interest payment streams. The amounts exchanged are based on the specific terms of the contract with reference to specified rates, financial instruments, commodities, currencies or indices.
- *Options:* Contracts in which the option purchaser has the right, but not the obligation, to purchase from or sell to the option writer financial instruments, commodities or currencies within a defined time period for a specified price.

Market risk includes risk that arises from the potential for changes in value of financial instruments resulting from fluctuations in interest and foreign exchange rates and in prices of debt and equity securities. In many cases, these financial instruments serve to reduce, rather than increase, the Plan's exposure to losses

from market or other risks. In addition, the measurement of market risk is meaningful only when all related and offsetting transactions are identified. The investment managers may limit the Plan's market risk by holding or purchasing offsetting positions.

As a writer of options contracts, the Plan may receive a premium to become obligated to buy or sell financial instruments for a period of time at the holder's option. During this period, the Plan would bear the risk of an unfavorable change in the market value of the financial instrument underlying the option, but would have no credit risk, as the counterparty has no performance obligation to the Plan once it has paid its cash premium.

The Plan may be subject to credit risk of counterparty nonperformance on derivative contracts in a gain position, except for written options, which obligate the Plan to perform and do not give rise to any counterparty credit risk.

Investments, including equity securities and fixed income securities, are reported at fair value as determined by quoted market prices on an active market, where applicable. Certain debt instruments are valued based on yields currently available on comparable securities of issuers with similar credit ratings. The fair value of money market investments, other types of investments, including real estate and private equity, and other derivative contracts, represents the net asset value of shares or underlying assets of the investment as a practical expedient to estimate fair value. Real estate investments are valued using appraisals conducted by experts at least once per year on each property, and those appraisals are certified by independent appraisal consulting firms. Derivatives which are traded over the counter are valued using dealer supplied valuations and certain other derivatives are valued on the basis of valuations received from the counterparty. Derivatives are presented on a gross basis in the disclosure of fair values of investments of the Master Trust.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

As of December 31, 2022 and 2021, the Master Trust had approximately $619,404,000 and $809,661,000 respectively, of investments for which the Plan has concluded that the net asset value reported by the underlying fund approximates the fair value of the investment or net asset value is used as a practical expedient to fair value. These investments are redeemable with the fund at net asset value under the original terms of the partnership agreements and/or subscription agreements and operations of the underlying funds. Due to the nature of the investments held by the funds, changes in market conditions and the economic environment may significantly impact the net asset value of the funds and, consequently, the fair value of the Plan's interests in the funds.

Money market pooled funds invest in high quality, short-term money market instruments which are issued and payable in U.S. dollars. The funds aim to provide the highest possible level of current income while still maintaining liquidity and preserving capital. International equity pooled funds seek to provide long-term capital growth and income by investing in equity securities of non-U.S. companies located both in developed and emerging markets. There are generally no redemption restrictions or unfunded commitments related to the Master Trust's money market pooled funds, equity securities or fixed income securities.

Real estate investments include several funds which seek risk-adjusted return by providing a stable, income-driven rate of return over the long term with high potential for growth of net investment income and appreciation of value. Investments may relate to various types of real estate including stable properties of high quality and design, properties under distress or dislocation which can produce high investment returns and wholly-owned equity real estate assets diversified based on strategy and life-cycle. The Master Trust has unfunded real estate commitments at December 31, 2022 of approximately $16,066,000.

Private equity investments have an objective of realizing aggregate long-term returns in excess of those available from investments in the public equity markets. The funds may include investments in partnerships or direct investments in various stages of business development, industry sectors, investment cycles and geographic areas. The funds may also invest in pooled investment vehicles relating to business growth strategies, business changes or acquisition transactions, refinancing and recapitalization transactions, or other corporate finance transactions. The Master Trust's private equity investments are subject to lock-up periods ranging from approximately four to six years with no redemption provisions and the Master Trust has unfunded private equity commitments at December 31, 2022 of approximately $17,683,000.

Due to the nature of the underlying assets of the real estate and private equity investments, changes in market conditions and the economic environment may significantly impact the net asset value of these investments and, consequently, the fair value of the Pension Plan's investments. These investments are redeemable at net asset value to the extent provided in the documentation governing the investments. However, these redemption rights may be restricted in accordance with the governing documents. Redemption of these investments is subject to restrictions including lock-up periods where no redemptions are allowed, restrictions on redemption frequency and advance notice periods for redemptions.

Although a secondary market exists for certain of these real estate, and private equity investments, it is not active and individual transactions are typically not observable. When transactions occur in this limited secondary market, they may occur at discounts to the reported net asset value. Therefore, if the redemption rights in the funds were restricted or eliminated and the Plan were to sell these investments in the secondary market, it is reasonably possible that a buyer in the secondary market may require a discount to the reported net asset value, and the discount could be significant. However, the Plan does not anticipate selling any of these investments in such a secondary market.

The following table presents the fair values of investments and total net assets for the Master Trust and the Plan's Interest in the Master Trust at December 31, 2022 and 2021:

ASC Topic 820 defines fair value, establishes a framework for measuring fair value in accordance with generally accepted accounting principles and requires additional disclosures about fair value measurements. The ASC Topic 820 fair value hierarchy consists of three levels: Level 1 fair values are valuations based on quoted market prices in active markets for identical assets or liabilities that the Plan has the ability to access; Level 2 fair values are those valuations based on quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable data for substantially the full term of the assets or liabilities; and Level 3 fair values are valuations based on inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

For the years ended December 31, 2022 and 2021 there were no significant transfers in or out of levels 1, 2 or 3 investments.

The following tables present investments of the Master Trust that are measured at fair value on a recurring basis as of December 31, 2022 and 2021, and their level within the fair value hierarchy. The fair values within the tables below exclude interest and dividend receivables and pending investment purchases and sales.

(a) Certain investments that are measured at fair value using the net asset value per share as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the table of fair values of investments and total net assets for the Master Trust.

5. Plan Termination

While the Company has not expressed any intent to terminate the Plan or to discontinue contributions, it has the right to do so at any time, subject to the provisions set forth in ERISA. Should the Plan be terminated at some future date, all participants will become 100% vested in benefits earned as of the termination date.

If the termination is the result of the bankruptcy or near bankruptcy of the Company and the Plan's assets are not adequate to pay all benefits vested prior to the termination, the Pension Benefit Guaranty Corporation (the PBGC) will take over the Plan and will pay those benefits which it guarantees. In this case, some participants may receive a smaller benefit than if the Plan had continued. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits (as described in the Plan document) and the level of benefits guaranteed by the PBGC at that time.

If however, the Plan is terminated for any reason other than the bankruptcy or near bankruptcy of the Company and the Plan has insufficient assets, the Company will be required to pay to the Plan an amount which together with Plan assets will satisfy all benefits accumulated to the date of the Plan termination.

6. Federal Income Taxes

The Plan obtained its latest determination letter on March 28, 2012, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. While the Plan has been amended since receiving such determination letter, the Plan Sponsor and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require the Plan Sponsor to evaluate tax positions taken by the Plan. The financial statement effects are recognized when the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the Internal Revenue Service. The Plan Sponsor has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2022, there are no uncertain tax positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Sponsor believes the Plan is no longer subject to income tax examinations for years prior to 2019.

7. Administrative Expenses

The Plan pays reasonable and necessary expenses incurred for the ongoing administration of the Plan. Administrative expenses are paid directly by the Plan or the Master Trust or are first paid by the Plan Sponsor and subsequently reimbursed by the Plan or the Master Trust.

8. Related Parties

Certain Master Trust investments are units of the JPMCB International Equity Fund, Prime Money Market Fund and various private equity funds. JP Morgan Chase N.A. is the Trustee of the Plan and, therefore, these transactions qualify as party-in-interest transactions. In addition, the Master Trust paid the Trustee approximately $333,000 in administrative expenses, principally Trustee fees in 2022. In addition to expenses incurred by third party service providers, administrative expenses include an allocable portion of services provided by the Plan Sponsor and salaries and benefits of associates who provide services to the plans included in the Master Trust. The Master Trust was allocated approximately $1,606,000 of Plan Sponsor administrative expense in 2022.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.
