INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator
The New School 403(b) Retirement Plans

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of The New School 403(b) Retirement Plans (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022 stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

(Continued)

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year from the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

(Continued)

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental schedule of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

THE NEW SCHOOL 403(b) RETIREMENT PLANS
NOTES TO FINANCIAL STATEMENTS
December 31, 2022 and 2021

NOTE 1 – DESCRIPTION OF PLAN

The following description of The New School 403(b) Retirement Plans (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions. The Plan agreement is the governing document with respect to the operation of the Plan.

General: The New School (the “Plan Sponsor”) maintains retirement plans for its faculty and staff. Prior to December 31, 2013, the Plan Sponsor maintained three separate plans (described below) that were merged under plan amendments to create the Plan.

The New School Retirement Plan: The New School Retirement Plan was a noncontributory plan for non-union faculty and staff who had completed one year of service (1,000 hours) and attained age 25. Participation in the Plan was mandatory. A one-year eligibility or waiting period may have been offset by qualified prior employment with another 501(c)(3) organization, governmental entity, public or private college or university, or if the individual was previously a plan participant in The New School Part-Time Faculty Retirement Plan.

The New School Tax Deferred Annuity Plan: The New School Tax Deferred Annuity Plan was available for all faculty and staff. Prior to September 1, 2009, participation was voluntary; however, all non-union faculty and staff hired or transferred to that position on or after September 1, 2009, and union employees whose collective bargaining agreement expressly stated that the Plan’s automatic enrollment provisions should be applicable, were automatically enrolled in the Plan at a 3% contribution rate. Employees were able to opt out at their discretion.

The New School Part-Time Faculty Retirement Plan: The New School Part-Time Faculty Retirement Plan was a noncontributory plan for part-time faculty who had completed the eligibility requirements outlined in the Collective Bargaining Agreement (“CBA”) between the Plan Sponsor and Academics Come Together, ACT-UAW, Local 7902 and the International Union, United Auto Workers. All enrolled employees were immediately and fully vested in the retirement plan.

The New School 403(b) Retirement Plans: Effective December 31, 2013, the New School Retirement Plan, along with two existing Plans - the New School Part-Time Faculty Retirement Plan and the New School Tax Deferred Annuity Plan (the “sub-plans”) were merged into one plan. The surviving plan is The New School Retirement Plan, renamed The New School 403(b) Retirement Plans (the “Plan”). The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended. The Plan Sponsor’s Staff Pension Review Committee is responsible for oversight of the Plan. The Staff Pension Review Committee determines the appropriateness of the Plan’s investment offerings and monitors investment performance.

Teachers Insurance and Annuity Association (“TIAA”) and College Retirement Equities Fund (“CREF”) (collectively, “TIAA and CREF”), the custodian of the investments, holds the Plan’s investment assets and executes investment transactions.

THE NEW SCHOOL 403(b) RETIREMENT PLANS
NOTES TO FINANCIAL STATEMENTS
December 31, 2022 and 2021

NOTE 1 – DESCRIPTION OF PLAN (Continued)

Contributions: Participants' elective deferrals are made on a tax-deferred basis in whole percentage increments from 1% to 100% of compensation or a fixed dollar amount per pay period, and up to a limit of \$20,500. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds, variable annuity contracts, and a fixed annuity contract. If a participant fails to designate an investment allocation, then the contributions are automatically invested in the Plan's Qualified Default Investment Alternative ("QDIA"), which is the age-based TIAA-CREF Lifecycle Fund that corresponds to the participant's estimated date of retirement at age 65. Participants who are automatically enrolled into the Plan are enrolled at a deferral rate of 3% of their compensation.

For the employees in the former New School Retirement Plan sub-plan, the Plan Sponsor contributes 7% of base annual salary as defined in the Plan up to the Internal Revenue Code (the "Code") limits for all eligible non-union faculty and staff participants who have not attained age 40 and have completed less than six years of service. Following attainment of age 40 or completion of six years of service, whichever occurs first, the Plan Sponsor contributes 10% of base annual salary. The Plan Sponsor contributions are also remitted on unused accrued vacation payments to terminated participants.

For the employees in the former New School Part-Time Faculty Retirement sub-plan, the Plan Sponsor contributes 10% of all wages paid as defined in the Plan up to the Code limits pursuant to the CBA, excluding payments made under a settlement agreement and severance agreement.

Participant Accounts: Individual accounts are maintained for each Plan participant. Each eligible participant's account is credited with the participant's contributions and Plan Sponsor contributions (if eligible), as well as Plan earnings (losses). Participants' accounts may also be charged with an allocation of certain administrative expenses. Allocations are based on participant earnings (losses), account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately and fully vested in all contributions to their accounts, plus earnings on the accumulation in their accounts.

Plan Loans: Plan loans were available to participants through TIAA, subject to certain limitations. Plan loans were issued directly from the funds owned by TIAA and loan proceeds are not removed from a participant's account balance. However, a portion of a participant's TIAA Traditional Annuity Contract (the "Traditional Annuity") account balance is reserved, or held in collateral, to cover the outstanding loan amount for the period of time the loan is outstanding. Interest on plan loans is paid directly to TIAA. Effective January 1, 2022, TIAA no longer offers plan loans, and has not issued any plan loans after that date.

At December 31, 2022 and 2021, participants had outstanding Plan loan balances due to TIAA of \$729,475 and \$1,341,270, respectively. These loans were collateralized by Traditional Annuity account balances equal to 110% of the outstanding balance or \$802,423 and \$1,475,397 as of December 31, 2022 and 2021, respectively. During the Plan year ended December 31, 2022, accumulations totaling \$1,490 were used to satisfy loan defaults, which have been recorded as benefits paid to participants in the accompanying statement of changes in net assets available for benefits.

(Continued)

THE NEW SCHOOL 403(b) RETIREMENT PLANS
NOTES TO FINANCIAL STATEMENTS
December 31, 2022 and 2021

NOTE 1 – DESCRIPTION OF PLAN (Continued)

Notes Receivable from Participants: Participants with a TDA Contribution Account may borrow from their accounts up to a maximum equal to the lesser of (1) \$50,000 or (2) 50 percent of their accounts, reduced for participants with prior loans by the highest outstanding balance of loans from the Plan during the one-year period ending on the day before the date the loan is made. The loans are secured by the balance in the participant's account. Loans used to purchase a primary residence can be repaid over 10 years. Loans for all other purposes must be repaid within five years. Principal and interest are paid by the participant directly to the Plan. Loans outstanding as of December 31, 2022 and 2021 were \$611,113 and \$326,236, respectively.

Payment of Benefits: On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in their account, or annual installments in the form of an annuity contract. For termination of service for other reasons, a participant receives the value of the vested interest in their account as a lump-sum distribution. The Plan also allows for in-service withdrawals for participants who are at least 59.5 years old or in instances of certain hardships.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("US GAAP").

Use of Estimates: The preparation of financial statements in accordance with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: The fully benefit-responsive portion of the Plan's fixed rate annuity contract with TIAA is reported at contract value. This includes the Supplemental Retirement Annuity ("SRA"), Group Supplemental Retirement Annuities ("GSRA"), Retirement Choice Plus ("RCP"), and TIAA Traditional Annuity contracts, as well as the Plan Loan Default Fund. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value equals the accumulated cash contributions and interest credited to the contract, less any withdrawals (see Note 3).

All other Plan investments, including the Plan's interest in non-fully benefit-responsive contracts, are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's valuation policies utilize information provided by its custodians. See Note 4 for additional fair value disclosures.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable from Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees incurred are recorded as administrative expenses. There are no credit losses for the notes receivable as of December 31, 2022 and 2021.

(Continued)

THE NEW SCHOOL 403(b) RETIREMENT PLANS
NOTES TO FINANCIAL STATEMENTS
December 31, 2022 and 2021

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Payment of Benefits: Benefit payments to participants are recorded when paid.

Administrative Expenses: Certain expenses of maintaining the Plan are paid directly by the Plan Sponsor and are excluded from these financial statements. Fees related to the administration of participants' accounts and distributions are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net depreciation of fair value of investments.

Other Receipts: Other receipts represent a return of fees that exceeded fees actually incurred by the Plan administrator to cover Plan expenses known as a Plan Service Credit. These funds may be used to pay reasonable and necessary expenses for the Plan and can also be used to provide Plan servicing credits to participants. The Plan Servicing Credit balance was \$467,189 and \$519,175 as of December 31, 2022 and 2021, respectively.

Subsequent Events: Subsequent events have been evaluated through October 12, 2023, the date the financial statements were available to be issued. There were no subsequent events that would require recognition or disclosure in the financial statements.

NOTE 3 – INVESTMENT CONTRACTS

The Plan invests in the TIAA Traditional Annuity, which is a fixed-rate contract that is fully and unconditionally guaranteed by TIAA (Issuer). The Plan's TIAA Traditional Annuity investments are considered fully benefit-responsive through the SRA, GSRA and the RCP contract types. The Plan Loan default fund investment is also considered fully benefit-responsive. Investments in the TIAA Traditional Annuity earn a specific amount of lifetime income based on the contractual rate schedule in effect at the time the premium is paid. The TIAA Traditional Annuity also provides the potential for additional interest if declared by TIAA's Board of Trustees. Together, the guaranteed minimum and additional amounts make up the crediting interest rate. The crediting interest rate is calculated on a daily basis. When a participant's accumulation in the TIAA Traditional Annuity is converted to a lifetime payout annuity, the present value of the stream of payments is equal to the accumulated balance, and the entire amount is recorded as a distribution on the statement of changes in net assets available for benefits. The SRA, GSRA, and RCP contracts provide for full participant-directed liquidity. Plan management believes no events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuer, and also that limit the ability of the Plan to transact at contract value with participants.

All investment contracts through the TIAA Traditional Account are directly between TIAA and the participants. Benefit payments from the contracts are paid as an annuity or a lump-sum, as defined in the contracts and as elected by the participant upon meeting the eligibility requirements. There are no conditions specified in any of the contracts under which participant withdrawals and transfers would be restricted or made at a value other than contract value or the annuity or lump-sum benefit, as defined in the contracts. The contracts do not provide any provisions that would allow the Issuer to terminate the contracts between the Issuer and the participants.

(Continued)

THE NEW SCHOOL 403(b) RETIREMENT PLANS
NOTES TO FINANCIAL STATEMENTS
December 31, 2022 and 2021

NOTE 3 – INVESTMENT CONTRACTS (Continued)

The crediting interest rates of the fully benefit-responsive contracts may vary from participant to participant. The crediting rates are based on an agreed-upon formula with the Issuer, as defined in the contract agreement. The guaranteed annual interest rate is 3% for all premiums remitted since 1979 under the RA, GRA, SRA and GSRA contracts and is between 1% and 3% for the RC and RCP contracts. Such interest rates are reviewed on a periodic basis and may from time to time have a new rate substituted for the one in the current certificate. A new rate will apply only to benefits arising from any premiums, additional amounts, and internal transfers applied to the Traditional Annuity while such rate schedule is in effect and will not affect any benefits purchased prior to the change, as defined in the contracts. The key factors that influence future interest crediting rates could include the following: the level of market interest rates; the amount and timing of participant contributions, transfers and withdrawals into/out of the contracts; and the duration of the underlying investments backing the contract.

NOTE 4 – FAIR VALUE MEASUREMENTS

The accounting framework for measuring fair value provides a hierarchy that prioritizes the inputs for valuation techniques. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The most observable inputs are used when available. The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access;

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability and inputs that are derived from or corroborated by observable market data by correlation or other means; and

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

The following are descriptions of the valuation methodologies and inputs used for assets measured at fair value. There have been no significant changes in the methodologies used at December 31, 2022 and 2021.

Mutual Fund Investments - The Plan's mutual fund investments values are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Fixed-Rate Annuities - The Plan's fixed-rate annuities are primarily within the TIAA Traditional Annuity, with an investment through the Retirement Annuity ("RA"), a fixed rate contract that is non-fully benefit-responsive. Observable prices for identical or similar investments do not exist, and it is classified as Level 3.

NOTE 4 – FAIR VALUE MEASUREMENTS (Continued)

Investments in the TIAA Traditional Annuity RA contract earn a specific amount of lifetime income based on the contractual rate schedule in effect at the time the premium is paid. The accumulated crediting interest rate was approximately 4.24% for the RA, net of annual fees, for the year ended December 31, 2022. The crediting interest rate is calculated on a daily basis. The RA contract does not allow lump-sum cash withdrawals, and transfers must be distributed over 10 annual installments.

Variable Annuities - The Plan's variable annuities related to investments in CREF annuities are valued at quoted market prices at the close of the last business day of the year and classified as Level 1.

Self-Directed Brokerage Account - Participant-directed investments in a TIAA-CREF mutual fund account are valued at quoted market prices at the close of the last business day of the year and classified as Level 1.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. While Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments may result in a different fair value measurement at the reporting date. The Plan's policy is to recognize transfers in and transfers out at the end of the reporting period. There were no transfers of investments among any of the levels during 2022 or 2021.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2022 and 2021:

Fair Value Hierarchy as of December 31, 2022

Quantitative Information Regarding Level 3 Fair Value Measurements

The following table presents information about significant unobservable inputs related to the Plan's investments in assets categorized as Level 3 in the Accounting Standards Codification ("ASC") 820 fair value hierarchy:

<u>Type</u>	<u>Fair Value</u>	<u>Valuation Technique</u>	<u>Significant Unobservable Inputs</u>	<u>Range</u>
<u>December 31, 2022</u>				
TIAA Traditional Annuity*	\$ 67,244,186	Discounted cash flow theoretical transfer (exit value)	Risk-adjusted discount rate applied	RA 3.70% - 6.25%
<u>December 31, 2021</u>				
TIAA Traditional Annuity*	\$ 67,251,314	Discounted cash flow theoretical transfer (exit value)	Risk-adjusted discount rate applied	RA 3.00% - 3.80%

* Non-fully benefit-responsive component of fixed-rate annuities.

NOTE 5 – CERTIFIED INFORMATION

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, TIAA and CREF have certified on behalf of (1) TIAA and CREF insurance carriers and issuers of certain annuity contract investment assets of the Plan, and (2) TIAA as recordkeeper for certain investments, which TIAA, FSB, a federal saving association, held as a directed trustee or custodian that the following data included in the accompanying financial statements and supplemental schedule are complete and accurate:

- Investments, as shown in the statements of net assets available for benefits as of December 31, 2022 and 2021;
- Investment income and net depreciation, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2022; and
- Schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2022.

NOTE 6 – PARTY-IN-INTEREST TRANSACTIONS

Plan investments include variable annuity contracts, Traditional Annuity contracts, and shares of mutual funds managed by TIAA-CREF. Therefore, transactions pertaining to these investments qualify as party-in-interest transactions. Additionally, the Plan pays certain investment and recordkeeping fees and expenses to TIAA-CREF. These transactions qualify as party-in-interest transactions. Notes receivable from participants also qualify as party in interest transactions. Certain administrative functions are performed by officers or employees of The New School. The New School is reimbursed by the Plan for the portion of their compensation related to providing services to the Plan. No profit component for the Plan Sponsor is built into the related reimbursement.

NOTE 7 – PLAN TERMINATION

The Plan Sponsor has the right under the Plan by resolution of the board of trustees to amend, otherwise modify, or terminate the Plan subject to the provisions of ERISA, or to discontinue its contributions at any time. The Plan Sponsor has expressed no intention to exercise this right.

NOTE 8 – TAX STATUS

The Plan has been designed to qualify under Section 403(b) of the Code. The terms of the Plan have been prepared to conform with the sample language provided by the Internal Revenue Service (the “IRS”) in Revenue Procedure 2007-71. The Plan administrator intends to apply for a determination letter on the Plan once the IRS opens such a program. The Plan is required to operate in conformity with the Code to maintain the tax-exempt status for Plan participants under Section 403(b). The Plan administrator believes that the Plan is currently designed and operating in accordance with the applicable requirements of Section 403(b) of the Code and, therefore, believes the Plan is qualified and the related custodial accounts and tax-deferred annuities are tax-exempt. Therefore, no provision for income taxes has been included in the Plan’s financial statements.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2022 and 2021, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2019.

NOTE 9 – RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, credit, liquidity, and overall market volatility risks, including global events. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants’ account balances and the amounts reported in the statements of net assets available for benefits.
