INDEPENDENT AUDITORS' REPORT

To The Plan Trustee of
Leading Pharma 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Leading Pharma 401(k) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules ("DOL") and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, Part IV, Line 4i - Schedule of Assets (Held At End of Year) as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTES TO FINANCIAL STATEMENTS

Note 1 - Description of the Plan:

The following description of the Leading Pharma 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General - The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), covering all eligible employees of Leading Pharma, LLC (the “Company” and “Plan Sponsor”). An employee becomes eligible to participate in the Plan upon completion of 6 months of eligibility service and obtaining 21 years of age. An employee is not eligible to participate in the Plan if they are: (1) a non-resident alien; (2) covered by a collective bargaining agreement for which retirement benefits have been the subject of good faith negotiations; or (3) a leased employee. Eligible participants may enter the plan on the first day of each Plan year quarter coinciding with or following the date the eligibility requirements are met.

Plan Administration - The Plan is administered by the Plan Sponsor. The Plan’s assets are held by Nationwide Trust Company, FSB (the “Trustee”), who is responsible for the custody and management of the Plan’s assets.

Participants’ Contributions - Eligible participants may elect to contribute up to 100% of annual eligible compensation (pre-tax or Roth) within limits prescribed by the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions during that year. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contribution into various investment options offered by the Plan.

Employer Contributions - The Company makes safe harbor matching contributions to the participants’ accounts, in an amount equal to 100% of participant’s elective deferrals up to the first 3% of compensation, plus 50% elective deferrals up to the next 2% of compensation.

The Company may also decide to make a discretionary employer profit sharing contribution on behalf of participants to the Plan. There were no discretionary employer profit sharing contributions made to the Plan for the year ended December 31, 2022.

Vesting - Participants are fully vested in their employee contributions, safe harbor matching contributions, and any earnings thereon. Discretionary employer profit sharing contributions, and any earnings thereon will be vested as follows:

<u>Years of Vesting Service</u>	<u>Vesting Percentage</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

LEADING PHARMA 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

Participant Accounts - Individual accounts are established for each plan participant. Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings/losses, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Payment of Benefits - Under the Plan, normal retirement age is 65. On termination of service due to death, disability, retirement or other reasons, a participant or its beneficiary with a vested balance greater than \$5,000 may elect to receive either a lump sum or to roll over the distribution into another qualified plan or individual retirement plan. A participant with a vested balance of less than \$5,000 will receive the value of the vested interest in his or her account as a lump sum distribution.

Forfeitures - Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan. Forfeitures can be used to reduce employer contributions or they can be used to offset the Plan's administration expenses. At December 31, 2022 and 2021, there are no forfeitures of non-vested accounts. During 2022, there are no forfeitures used to offset the Plan's administration expenses or reduce employer contributions.

Note 2 - Summary of Significant Accounting Policies:

Basis of Accounting - The accompanying financial statements are prepared on the accrual basis of accounting.

Investment contracts held by defined contribution plans are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive group annuity contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions in net assets available for benefits during the reporting period. Actual results, as determined at a later date, could differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value (except for fully-benefit responsible group annuity contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainties - Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in value of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the financial statements.

LEADING PHARMA 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

The Plan may invest in funds with contractual cash flows, such as asset backed securities, collateralized mortgage obligations and commercial mortgage-backed securities, including securities backed by sub-prime mortgage loans. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

Concentration of Investment Risk - The Plan's investment in four funds comprises approximately 48% of total investments at December 31, 2022, and three funds comprises approximately 36% of total investments at December 31, 2021.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2022 or 2021. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Administrative Expenses - Certain expenses of maintaining the Plan are paid by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants, and withdrawals are charged directly to the participant's account and are included in administrative expenses. Asset fees and investment advisory fees are also included in administrative expenses. Investment related expenses are included in net depreciation of fair value of investments.

Payment of Benefits - Benefits are recorded when paid.

Hardship Withdrawals - The Plan provides for hardship withdrawals from participants' elective deferral and rollover contribution accounts, not to exceed an amount required to meet an immediate need created by hardship, and then only to the extent that such immediate need cannot be satisfied by other sources reasonably available to the participant. Permissible circumstances for hardship withdrawals include medical expenses, purchase of a home, tuition payments, amounts necessary to prevent eviction from the participants' personal residence, and such other circumstances as the Plan Administrator may determine in accordance with Internal Revenue Service (IRS) rules and regulations.

Subsequent Events - The Plan Administrator has reviewed and evaluated all events and transactions from December 31, 2022 through October 5, 2023, the date the financial statements were available to be issued. The effect of those events and transactions that provide additional pertinent information about conditions that existed at the Statements of Net Assets Available for Benefits date have been recognized in the accompanying financial statements.

Note 3 - Certified Investment Information:

The Plan Administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA. Accordingly, the Trustee, a qualified institution, has certified that the following investment information included in the accompanying financial statements and ERISA-required supplemental schedule is complete and accurate:

- Investments, as shown in the Statements of Net Assets Available for Benefits as of December 31, 2022 and 2021.

LEADING PHARMA 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

- Investment (loss)/income, as shown in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2022.
- Investment information included in the Schedule H, Part IV, Line 4i - Schedule of Assets (Held at End of Year), as of December 31, 2022, as shown on the ERISA-required supplemental schedule of assets (held at end of year).

At the request of the Plan Administrator, the Plan's independent auditors did not perform auditing procedures with respect to this certified information, except for comparing such certified investment information to the related investment information included in the financial statements and ERISA-required supplemental schedule of assets (held at end of year).

Note 4 - Fair Value Measurements:

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified contractual term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

- *Mutual Funds*: Valued at the quoted prices in the active market in which the fund is traded.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan Administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

LEADING PHARMA 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

The following tables set forth by the level, within the fair value hierarchy, the Plan's investments at fair value:

Investments at Fair Value as of December 31, 2022

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual funds	<u>\$ 3,215,008</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 3,215,008</u>

Investments at Fair Value as of December 31, 2021

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual funds	<u>\$ 3,536,040</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 3,536,040</u>

Transfers Between Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in the economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the years ended December 31, 2022 and 2021, there were no significant transfers in or out of Levels 1, 2, 3.

Note 5 - Group Annuity Contract:

The Plan holds an investment contract with Nationwide Life Insurance Company. The contract meets the fully benefit-responsive investment criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. The contract value of the contract totaled \$499,506 and \$397,275 at December 31, 2022 and 2021, respectively.

The investment contract held by the Plan is a guaranteed investment contract. The issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the issuer but may not be less than .5 percent. The crediting rate is reviewed on a quarterly basis for resetting. The contract cannot be terminated before the scheduled maturity date.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. These events may be different under each contract. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the IRC or the failure of the Trust to be tax-exempt under Section 501(a) of the IRC.
2. Premature termination of the contract
3. Plan termination or merger

LEADING PHARMA 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

4. Changes to the Plan's prohibition on competing investment options
5. Bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the Issuer and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events that allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines
2. A breach of material obligation under the contract
3. A material misrepresentation
4. A material amendment to the agreements without the consent of the issuer

Note 6 - Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to provisions of ERISA. In the event of Plan termination, participants' contributions remain fully vested and Company contributions become fully vested. Under no circumstances may the Company take ownership of any of the Plan's assets as a result of such termination.

Note 7 - Notes Receivable from Participants:

Participants may obtain loans from the Plan from a minimum of \$1,000 up to 50% of their vested account balance or a maximum of \$50,000, whichever is less. Loans bear an interest rate based on the prime rate and are collateralized by a participant's account balance. Loans are generally payable through payroll deductions within five years, from the date granted unless it is for the purchase of a principal residence. Participants are limited to two loans outstanding at a time.

Note 8 - Tax Status:

The Plan was written on an Internal Revenue Service (IRS) non-standardized pre-approved document, which obtained its latest opinion letter on June 30, 2020, in which the IRS stated that the Plan as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC, and therefore believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress.

NOTES TO FINANCIAL STATEMENTS

Note 9 - Party-in-Interest:

All Plan investments are managed by the Trustee. Services provided by the Trustee includes recordkeeping and administrative services to the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the year ended December 31, 2022 totaled \$29,557.
