Report of Independent Auditors

The Trustees of
El Camino Hospital 403(b) Retirement Plan

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of El Camino Hospital 403(b) Retirement Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net position available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net position available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net position available for benefits of El Camino Hospital 403(b) Retirement Plan as of December 31, 2022 and 2021, and the changes in its net position available for benefits for the year ended December 31, 2022, in accordance with accounting principles generally accepted in the United States of America (GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of El Camino Hospital 403(b) Retirement Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about El Camino Hospital 403(b) Retirement Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of El Camino Hospital 403(b) Retirement Plan's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about El Camino Hospital 403(b) Retirement Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Management has omitted the Management Discussion and Analysis that the Governmental Accounting Standards Board requires to be presented to supplement the basic financial statements. Such missing information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by the missing information.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year) as of December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

El Camino Hospital 403(b) Retirement Plan

Notes to Financial Statements

NOTE 1 – DESCRIPTION OF PLAN

The following description of the El Camino Hospital 403(b) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement, as amended, for a more complete description of Plan provisions.

General – The Plan is a 403(b) defined contribution retirement plan covering all employees of El Camino Hospital (the Organization), including hospital-represented, PRN, and SEIU-UHW participants. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Organization is the Plan's sponsor and serves as plan administrator. At December 31, 2022, there were 5,296 Plan participants consisting of 4,033 active participants and 1,263 inactive or separated participants, and at December 31, 2021, there were 4,871 Plan participants consisting of 3,787 active participants and 1,084 inactive or separated participants.

Eligibility – All full-time, part-time, and per-diem employees of the Organization are eligible to participate in elective contributions in the Plan upon date of hire. Employees are eligible to receive employer matching contributions upon completion of one year of service, defined as working 12 months for a minimum of 1,000 hours.

Contributions – Participants may elect to contribute up to the legal limit on a before-tax basis. Participants may also elect to contribute Roth contributions to the Plan. The Plan permits the automatic enrollment of eligible full time employees in the Plan with contributions of 2% of eligible compensation, unless the employee affirmatively elects otherwise. Employer matching contributions are made for eligible employees based on a percentage of a participant's eligible compensation. Employer matching contributions range from 4% to 6% and are determined based on years of continuous service. Contributions are subject to regulatory limitations.

Participant accounts – Each participant's account is credited with the participant's and employer's contributions and allocations of plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. Participants may direct the investment of their account balances into various investment options offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are fully vested in their salary deferrals plus actual earnings thereon. All participants vest 100% in the Organization's matching contributions after three benefit years of credited service.

Notes receivable from participants – Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The maximum loan term is five years unless the loan term qualifies as a home loan, in which case the term of the loan is not to exceed fifteen years.

Loans are secured by the balance of the participant's account and bear fixed, reasonable rates of interest, as determined by the custodians. Principal and interest are paid ratably through payroll deductions or paid directly by the participant to the custodians through monthly ACH transactions. As of December 31, 2022, the rates of interest on outstanding loans with Fidelity Management Trust Company (Fidelity) ranged from 4.25% to 7.25%, with various maturities through December 2037. The loans with Fidelity are considered assets of the Plan and totaled \$10,312,093 and \$10,234,487 as of December 31, 2022 and 2021, respectively.

El Camino Hospital 403(b) Retirement Plan

Notes to Financial Statements

Prior to 2009, the Plan allowed plan loans made directly between the participant and Lincoln National Life Insurance Company (Lincoln) and The Variable Annuity Life Insurance Company (VALIC) and collateralized by the participant's account. The rates of interest on outstanding loans with Lincoln ranged from 3.25% to 5.50%, with various maturities through October 2021. The rates of interest on outstanding loans with VALIC ranged from 2.50% to 4.50%, with various maturities through June 2013. The total collateral included in the Plan's assets was approximately \$210,000 and \$201,000 at Lincoln and \$39,000 and \$46,000 at VALIC as of December 31, 2022 and 2021, respectively. The loans themselves are not reported assets of the Plan.

Payment of benefits – On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's account balance, or annual installments over a period of time. For termination of service for other reasons, a participant may receive the value of the vested interest in their account as a lump-sum distribution.

Forfeitures – Forfeitures are the nonvested portion of a participant's account that is lost upon termination of employment. Forfeitures are retained in the Plan and will be used to pay plan administrative expenses or to reduce future Organization contributions. As of December 31, 2022 and 2021, forfeited nonvested accounts totaled approximately \$113,000 and \$153,000, respectively, and no forfeitures were used to reduce 2022 Organization contributions.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) as applied to governmental units, using the accrual method of accounting. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

Use of estimates – The preparation of financial statements in conformity with U.S. GAAP requires the use of estimates and assumptions that affect the reported amounts of net position available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation – Investments are stated at fair and contract value.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (the "exit price") in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Contract value is the relevant measurement for assets invested in fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net appreciation or depreciation in fair value of investments consists of both the realized gains and losses and unrealized appreciation and depreciation of those investments.

Benefits paid to participants – Benefits are recorded when paid.

Notes to Financial Statements

Administrative and investment expenses – Administrative expenses related to operating and maintaining the Plan are paid by the Organization. Certain investment and transaction fees are paid by participants in the Plan.

The Plan entered into a revenue credit program (the Program) with Fidelity where revenue credits are deposited to an account held in the Plan. The amount of the revenue sharing received from each investment manager and calculated for each quarter using the fund balances in the Program is credited to the account. Amounts in this account are used to offset program administrative expenses and any amounts unused for expenses will be allocated to participant accounts. During the year ended December 31, 2022, the account was credited with approximately \$427,975 in revenue sharing, used \$87,685 to pay administrative fees and \$409,000 of revenue sharing credits was allocated to participants. As of December 31, 2022 and 2021, revenue credits held in the Plan were approximately \$110,000 and \$172,000, respectively.

Subsequent events – Subsequent events are events or transactions that occur after the statement of net position available for benefits date but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net position available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net position available for benefits but arose after the statement of net position available for benefits date and before the financial statements are available to be issued.

The Plan has evaluated subsequent events through October 12, 2023, which is the date the financial statements were available to be issued.

NOTE 3 – INVESTMENTS

Investment risk – Investment securities are exposed to various risks that can affect the value of the Plan's investments such as custodial credit risk, interest rate risk, credit risk, concentration risk, and foreign currency risk. The Plan invests in registered investment companies (mutual funds), a money market account, a self-directed brokerage account, and variable annuity contracts. Mutual fund holdings in equity securities, money market accounts, self-directed brokerage accounts, and variable annuity contracts respond to such factors as economic conditions, individual company earnings performance, and market liquidity, while holdings in debt securities are particularly sensitive to credit risk and change in interest rates.

Custodial credit risk – Custodial credit risk is the risk that in the event of a failure by the counterparty, the Plan will not be able to recover the value of its investments that are in the possession of an outside party. The Plan's policies do not specifically address custodial credit risk, but all of the Plan's investments are insured or registered, or held by the Plan or its agent in the Plan's name.

Interest rate risk – Interest rate risk arises from the likelihood that interest rates will rise or fall during the holding period of a fixed rate security and adversely affect the selling price of the security prior to maturity. The price of a debt security typically moves in the opposite direction of the change in interest rates. The Plan invests in mutual funds, a money market account, and a self-directed brokerage account; however, there are no restrictions to the Plan's ability to sell these investments on any given trading date, which mitigates the interest rate risk of the investments.

El Camino Hospital 403(b) Retirement Plan

Notes to Financial Statements

Credit risk – Credit risk exists when there is a possibility that the issuer or other counterparty to an investment may be unable to fulfill its payments on a security under the original term. The Plan does not have this type of credit risk. The Plan invests in mutual funds, a money market account, a self-directed brokerage account, and variable annuity contracts; however, information regarding the credit risk of the investments was not readily available.

NOTE 4 – FAIR VALUE MEASUREMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of inputs used to establish fair value are as follows:

Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Following are descriptions of the valuation methodologies used for assets measured at fair value:

Registered investment companies (mutual funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Self-directed brokerage accounts: Accounts primarily consist of mutual funds and common stocks that are valued on the basis of readily determinable market prices.

El Camino Hospital 403(b) Retirement Plan

Notes to Financial Statements

Interest-bearing cash (money market fund): Certificates of deposit are valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The following tables disclose the fair value hierarchy of the Plan's assets at fair value at December 31:

2022				
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 589,472,144	\$ -	\$ -	\$ 589,472,144

Investments at fair value				<u>\$ 738,753,126</u>

NOTE 5 – VARIABLE ANNUITY CONTRACTS

The Plan's variable annuity contracts meet the fully benefit-responsive investment contract (FBRIC) criteria and therefore are reported at contract value. Contract value is the relevant measure for FBRICs because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value as reported to the Plan by Fidelity, Lincoln, and VALIC represents contributions made under the contract, plus earnings, less participant withdrawals. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations, which may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (5) premature termination of the contract. No events are probable of occurring that might limit the Plan's ability to transact at contract value with the contract issuer and that also would limit the ability of the Plan to transact at contract value with the participants.

El Camino Hospital 403(b) Retirement Plan

Notes to Financial Statements

The Plan invests in the New York Life Guaranteed Interest Account, which is a variable annuity contract that guarantees principal and accumulated interest. Guarantees are provided to participating retirement plans through a group annuity contract issued by New York Life Insurance Company. The fund seeks to provide competitive yields and limited volatility with a guarantee of principal and accumulated interest. These guarantees are backed by the full faith and credit of New York Life Insurance Company. Contributions to the Guaranteed Interest Account are invested in a group annuity contract issued by New York Life Insurance Company. Contributions to the contract are currently invested in a broadly diversified fixed income portfolio within New York Life Insurance Company's general account. The investments in the general account are intended to provide a stable crediting rate consistent with preservation of principal.

The Plan invests in the Lincoln Financial Fixed Account, which is a variable annuity contract. Funds under the variable annuity contract are maintained in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Lincoln is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

There are no reserves against contract value for credit risk or the contract issuer or otherwise. Crediting rates on the investment contracts are based on a formula agreed upon with the issuer. Interest rates are reviewed on an annual basis for resetting.

Crediting interest rates estimated for each of the custodians for the years ended December 31 were as follows:

	<u>2022</u>	<u>2021</u>
Fidelity Variable Annuity Contracts		
New York Life Guaranteed Interest Account		
Crediting interest rate	2.30%	2.26%
Lincoln Variable Annuity Contracts		
Fixed Account		
Crediting interest rate	3.44%	3.48%

NOTE 6 – TAX STATUS

The Plan has been designed to qualify under Section 403(b) of the Internal Revenue Code (IRC). The terms of the Plan have been prepared to conform with the sample language provided by the IRS. The Plan is required to operate in conformity with the IRC to maintain the tax exempt status for participants under Section 403(b).

In accordance with guidance on accounting for uncertainty in income taxes, the plan administrator has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 7 – PARTY-IN-INTEREST TRANSACTIONS

Plan investments include shares of registered investment company funds managed by Fidelity, Lincoln, and VALIC. As these are custodians of the Plan, and transactions with these entities qualify as exempt party-in-interest transactions.

NOTE 8 – PLAN TERMINATION

Although it has not expressed any intention to do so, the Organization has the right to terminate the Plan and discontinue its contributions at any time. If the Plan is terminated, amounts allocated to a participant's account become fully vested.
