Note 1 - Description of Plan

The following brief description of the Dacotah Banks, Inc. 401(k) Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Dacotah Banks, Inc. (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

There is no minimum age or service requirements for the elective deferrals or the employer match; however, one year of eligibility service (with at least 1,000 hours of service and 12 month of service) and being employed at December 31 of each year is required for an employee to receive a retirement income contribution for that year.

Entry Date

Employees may enter the 401(k) Plan the first of the month following employment. The retirement income is the first of the month following one year of eligible service.

Contributions

Each year, participants may contribute between 1% and 65% of their recognized compensation into a tax deferred or Roth 401(k) account, as defined in the Plan. The maximum compensation allowed to be considered for an individual participant is \$305,000. Participants may also, under certain conditions, contribute amounts representing rollovers from other tax-qualified retirement plans. Participants direct the investment of their contributions into various investment options offered by the Plan. On a pre-tax basis, the Company matches 100% of the first 3% of recognized compensation that a participant contributes to the Plan. The matching Company contribution is invested in an allocation as chosen by the individual employee, which may or may not, be the same as their allocation of their own employee deferrals. Additional retirement income amounts may be contributed at the option of the Company's Board of Directors and are invested as directed by each individual employee. The total amount of the retirement income contribution relating to the 2022 Plan year was \$1,950,933. The discretionary retirement income contributions are integrated with Social Security with the integration level equal to the taxable wage base. Plan contributions are subject to certain limitations.

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3 percent of eligible compensation and their contributions invested in a designated target date fund until changed by the participant. The Company match will also be turned on to match up to the 3 percent.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

The shares of Dacotah Banks, Inc., common stock held by the Plan are segregated from the other investments for internal purposes into a separate subfund of the Plan.

Upon termination of employment, the participant has 45 days to determine what to do with the Company stock within the ESOP subfund of the Plan. Each terminated employee has the choice of taking the actual shares of stock out of the Plan through an in-kind distribution or the shares must be sold. If the participant has not responded, the Plan will automatically sell the stock at the most recent appraised value and put the cash into a cash account.

Investment Options

Upon enrollment to the Plan, a participant may direct employee and employer contributions in any of the funds offered by the Plan. Participants may change their investment options daily.

Vesting

Participants are immediately 100% vested in their contributions and employer matching contributions plus actual earnings thereon. Discretionary retirement income contributions has a vesting schedule with the employee and is fully vested after five years, upon the participant's attainment of age 65, permanent disability, death or upon termination of the Plan. Forfeitures of terminated participants' nonvested accounts remain allocated to the participant pending a one-year break in service as defined in the Plan agreement. Upon such occurrence, the entire portion of the participant's account which was not vested is deemed to be a forfeiture as of the annual valuation date of the Plan and is used to reduce the amount of the next succeeding employer contribution to the Plan.

Forfeitures

At December 31, 2022 and 2021, forfeited nonvested accounts totaled \$34,909 and \$36,377, respectively. These accounts will be used to reduce future employer contributions. During the year ended December 31, 2022, employer contributions were reduced by \$16,446 from forfeited nonvested accounts.

Payment of Benefits

A participant is entitled to benefits based on the occurrence of the following events:

- a. At termination of service due to disability, retirement, or termination of employment. If the vested account exceeds \$5,000, payment will be made by the purchase and distribution of an annuity contract from an insurance company or, if elected, in a lump sum. Accounts with vested balances between \$1,000 and \$5,000 are rolled over into an IRA account under the terminated employee's name if the Plan administrator does not receive any direction to the contrary. Accounts with a vested balance of less than \$1,000 are paid in a lump sum only.
- b. At or after age 59½, employees may elect to receive a lump sum withdrawal of all or a portion of their vested accounts.
- c. The participant is experiencing an economic hardship as defined by the Plan document.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 2 - Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value of common stock of Dacotah Banks, Inc. is based on the December 31 semi-annual valuation of the stock performed by an independent third party each year. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date, except for common stock dividends which are paid directly to the owner of the account and not reinvested into the Plan. Interest income is recorded on the accrual basis. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as those held during the year.

The classification of investments earnings reported above and in the statement of changes in net assets may differ from the classification of earnings on Form 5500 due to different reporting requirements on Form 5500.

Payments of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

The Plan's expenses are paid by either the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net asset available for benefits. In addition, certain investment related expenses are included in net depreciation in fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on the established market or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Subsequent Events

The Plan sponsor has evaluated subsequent events through October 11, 2023, the date which the financial statements were available to be issued.

Note 3 - Fair Value Measurements

Topic ASC 820, "Fair Value Measurements and Disclosures", establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritized the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the authoritative guidance are described below:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2: Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common stock: The fair value of the Company common stock held in the Plan is valued at estimated fair value based upon an independent appraisal. The appraisal was based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables and estimated fair value of Company assets and liabilities.

The Retirement Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and other third parties.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes to Financial Statements

December 31, 2022 and 2021

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2022 and 2021:

	(Level 1)	(Level 2)	(Level 3)	Total
2022				
Mutual Funds	\$ 63,765,157	\$ -	\$ -	\$ 63,765,157

Total assets at fair value	<u>\$ 87,301,529</u>	<u>\$ 11,387,016</u>	<u>\$ -</u>	<u>\$ 98,688,545</u>

Note 4 - Certified Information

Other than the shares of Dacotah Banks, Inc. common stock, certain information related to investments disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments held at December 31, 2022 and 2021, and net depreciation in fair value of investments, interest and dividends, for the year ended December 31, 2021, was obtained by management and agreed to or derived from information certified as complete and accurate by Dacotah Bank Trust (the trustee of the plan). Common stock of \$8,911,262 and \$11,387,016 as of December 31, 2022 and 2021, respectively, and depreciation of \$336,338 for the year ended December 31, 2022 were not certified by the trustee.

Note 5 - Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated November 8, 2017, that the Plan and related trust were designed in accordance with the applicable regulations of the IRC. Subsequent to this issuance of the determination letter, the Plan has been amended and restated. However, the Company and Plan management believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC, and the Plan and related trust continue to be tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 - Related Party and Party-in-Interest Transactions

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. As described in Note 2, the Plan paid certain expenses related to Plan operations and investment activity to various service providers. These transactions are exempt party-in-interest transactions under ERISA.

Certain Plan investments are shares of Dacotah Banks, Inc. common stock. Dacotah Banks, Inc. is the Plan sponsor and; therefore, these transactions qualify as related party transactions. As of December 31, 2022 and 2021, the value of the common stock was \$8,911,262 and \$11,387,016, respectively.

Note 7 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or global conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
