Independent Auditors' Report

To the Board of Trustees
New Hampton School Defined Contribution and Tax Deferred Annuity Retirement Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of New Hampton School Defined Contribution and Tax Deferred Annuity Retirement Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the New Hampton School Defined Contribution and Tax Deferred Annuity Retirement Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the New Hampton School Defined Contribution and Tax Deferred Annuity Retirement Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the New Hampton School Defined Contribution and Tax Deferred Annuity Retirement Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the New Hampton School Defined Contribution and Tax Deferred Annuity Retirement Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the New Hampton School Defined Contribution and Tax Deferred Annuity Retirement Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters - Supplemental Schedules Required by ERISA

The supplemental schedule of Schedule of Assets (Held at End of Year) as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all

material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NEW HAMPTON SCHOOL DEFINED CONTRIBUTION AND TAX DEFERRED ANNUITY RETIREMENT PLAN

Notes to Financial Statements

As of December 31, 2022 and 2021 and for the Year Ended December 31, 2022

1. Description of Plan:

The following brief description of the New Hampton School ("School") Defined Contribution and Tax Deferred Annuity Retirement Plan ("Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General – The Plan is a defined contribution plan covering all employees over the age of 21 with a minimum employment period of one year to be eligible. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA).

Contributions – Participants are allowed to elect to defer from one percent (1%) up to one hundred percent (100%) of pre-tax annual compensation, subject to annual dollar limitations established by the Internal Revenue Service (IRS). Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans, and participants that are 50 years old or older could make additional "catch-up" contributions. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers several mutual funds and insurance contracts as investment options for participants. The School contributes a matching contribution equal to 150% of each participant's elective deferrals up to a deferral election of 4% of the participant's pre-tax annual compensation.

Participant Accounts – Each participant's account is credited with the participant's voluntary contribution, the School's matching contribution, investment income and an allocation of the School's discretionary contribution. Allocations are based on participant account balances.

Vesting – All contributions, including voluntary participant contributions, employer matching and discretionary contributions and related investment income, are fully vested at all times.

Payment of Benefits – Participants may not make withdrawals from their Participant's Elective Account except for:

- (1) Normal retirement - age 65;
- (2) Total and permanent disability;
- (3) Death;
- (4) Termination of employment;
- (5) Attainment of age 59½; or
- (6) Financial hardship

Distributions will be paid as soon as possible following termination date, except for financial hardship withdrawals which are payable immediately. Distributions are paid to participants in a lump sum or annual payments. To the extent that a participant's account includes investments in the TIAA Traditional Annuity investment option, those distributions must be spread over a 10-year period.

Investment Options – TIAA and CREF are the custodians for the Plan. At December 31, 2022, participants could direct their contributions to various investment options/funds offered by TIAA and CREF.

Forfeited Accounts – As participants are at all times 100% vested in their accounts, there would never be any amounts forfeited due to terminations.

As of December 31, 2022 and 2021 and for the Year Ended December 31, 2022

2. Summary of Significant Accounting Policies:

The following are the significant accounting policies followed by the Plan:

Basis of Accounting – The Plan’s policy is to prepare its financial statements on the accrual basis of accounting; revenues are recognized when earned and expenses are recorded when the obligation is incurred.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – The Plan’s investments are stated at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 8 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan’s gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits – Benefits are recorded when paid.

Operating Expenses – Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the School. Expenses that are paid by the School are excluded from these financial statements. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

Subsequent Events – The Plan has evaluated subsequent events through October 12, 2023, the date the financial statements were available to be issued.

3. Plan Termination:

Although it has not expressed any intent to do so, the School has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would be entitled to the full value of their account.

4. Investments:

The Plan administrator had elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. TIAA served as the Plan’s custodian. They have provided the Plan administrator with certifications as to the completeness and accuracy of cash, investment balances, supplemental schedule, interest and dividend income, realized gains (losses) on the sale of investments and unrealized appreciation (depreciation) of investments in accordance with the Department of Labor Regulations.

As of December 31, 2022 and 2021 and for the Year Ended December 31, 2022

5. Investments, at Contract Value:

Participants may direct their contributions to TIAA Traditional Annuities. These are traditional investment contracts between TIAA and each participant invested in one of the annuities. These contracts meet the fully benefit-responsive investment contract criteria and therefore are reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

The traditional investment contracts held by the Plan participants are guaranteed investment contracts. TIAA is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. Interest is at the effective annual rate of 3% from the first day of the month in which the premium is received to the annuity starting date or the date death benefits begin, and then at the effective annual rate of 2.5% thereafter, plus an annually established discretionary rate.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contraction obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan); (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan; (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA or (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include the following: (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract; (3) a material misrepresentation; or (4) a material amendment to the agreements without the consent of the issuer.

6. Risks and Uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect participant's accounts and the amounts reported in the statements of net assets available for benefits.

Notes to Financial Statements

As of December 31, 2022 and 2021 and for the Year Ended December 31, 2022

7. Tax Status:

The Plan has been designed to qualify under Section 403(b) of the Internal Revenue Code (Code). The terms of the Plan have been prepared to conform with the sample language provided by the IRS in Revenue Procedure 2007-71. The Plan administrator intends to apply for a determination letter on the Plan should the IRS open such a program. The Plan is required to operate in conformity with the Code to maintain the tax-exempt status for Plan participants under Section 403(b).

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2022 and 2021, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Fair Value Measurements:

Financial Accounting Standards Board (FASB), Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | Inputs to the valuation methodology include: <ul style="list-style-type: none">quoted prices for similar assets or liabilities in active markets;quoted prices for identical or similar assets or liabilities in inactive markets;inputs other than quoted prices that are observable for the asset or liability; andinputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability. |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

As of December 31, 2022 and 2021 and for the Year Ended December 31, 2022

8. Fair Value Measurements (continued):

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Guaranteed investment contracts: Following guidance provided by TIAA, management has determined that contract value approximates fair value for its fixed annuity contracts that are not fully benefit-responsive. Therefore, the non-fully benefit responsive TIAA Traditional Annuity account balances are reported at contract value. Contract value represents the accumulation of contributions made under the contract, plus guaranteed and additional interest, less funds used to pay benefits and administrative expense of the contract.

The conclusion that contract value approximates fair value for the TIAA Traditional Annuity is supported by two approaches: (1) the theoretical transfer of assets owned by a pension plan and (2) a quantitative model based on assumptions of future interest rates and related discounted cash flows.

The first approach considers transactions in the TIAA Traditional Annuity to occur in a theoretical marketplace given the number of plans and participants served by TIAA. It recognizes participants with a number of investment choices willingly transact at contract value on a daily basis in the TIAA Traditional Annuity. When participants change employers, they continue to willingly invest at contract value in the TIAA Traditional Annuity if it is offered in their new plan. Lastly, when distributable events occur, participants settle their contracts with a cash payout based on the contract value.

For the second approach, TIAA has studied its data and found a strong correlation between the blended return on TIAA Traditional Annuity contracts compared to the 10-year risk-free rate derived from U.S. Treasury yields and average AAA corporate credit spreads. Differences in the credit spreads from corporate bonds are assumed to represent the overall liquidity of the TIAA Traditional Annuity, and those associated U.S. Treasury yields represent a credit spread for a highly rated insurance company. Thus, the interest rate used to discount future cash flows under a TIAA Traditional Annuity contract would approximate the contract's crediting rate and the present value would, therefore, approximate current contract value.

Because participants transact at contract value, the fair value approaches and assumptions related to the TIAA Traditional Annuity are only reviewed annually for financial reporting purposes. In determining the reasonableness of the fair value methodology, the Audit Committee reviews the crediting rates on existing contracts held by the Plan, current economic conditions and rates of return, the financial status of TIAA and similar factors that could impact the above approaches.

8. Fair Value Measurements (continued):

Pooled separate accounts: Pooled separate accounts are stated at their net unit values as reported by the investment manager of the fund based on the fair value of the underlying assets and liabilities at the measurement date. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily. The fund has no unfunded commitments and there is no redemption notice period. Investments which use net asset value as a practical expedient to measure fair value are not included in the fair value hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of the different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2022 and 2021:

	<u>Fair Value Measurements at December 31, 2022</u>

Transfers in – participant directed	\$ 1,548,622
Transfers out – participant directed	\$ (1,582,556)

9. Related Party and Party-in-Interest Transactions:

The School provides certain accounting and administrative services to the Plan for which no fees are charged. The employees that provide these services are also contributing participants in the Plan. These transactions qualify as party-in-interest transactions.

Plan investments are managed by TIAA. TIAA is the custodian and recordkeeper for the Plan and, therefore, transactions with TIAA qualify as party-in-interest transactions.
