INDEPENDENT AUDITOR'S REPORT

To the Willis Towers Watson U.S. Benefit Plans Administration Committee

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Willis Towers Watson Pension Plan for U.S. Employees (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the years then ended, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter — Supplemental Schedules Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2022 and Schedule of Reportable Transactions for the Year ended December 31, 2022 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

WILLIS TOWERS WATSON PENSION PLAN FOR U.S. EMPLOYEES

Notes to the Financial Statements

As of and for the Years Ended December 31, 2022 and 2021

1. DESCRIPTION OF THE PLAN

The following description of the Willis Towers Watson Pension Plan for U.S. Employees (“the Plan”) is provided for general information purposes only. Additional information regarding the Plan’s provisions may be found in the Plan document.

The Plan is a defined benefit plan sponsored by Willis Towers Watson US LLC (the “Plan Sponsor”), a wholly-owned subsidiary of Willis Towers Watson plc (“the Company” or “WTW”). The Plan was established to provide retirement benefits for eligible participants (except for employees with a job title of “Producer” in certain business units) following the completion of one year of service. The Plan has a 100% interest in the net assets of the Willis Towers Watson Pension Plan Trust (the “Master Trust”). The Benefit Plans Administration Committee of WTW controls and manages the operations of the Plan. Effective December 1, 2020, Northern Trust Company (the “Trustee”) serves as the trustee of the Plan. State Street Bank and Trust Company (the “Predecessor Trustee”) served as the trustee of the Plan through November 30, 2020 and continued to serve only as a custodian of certain investments through April 30, 2021. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

The Plan, as amended, covers generally all U.S. employees of the Company as disclosed above. Employees participating in the Plan accrue benefits under a stable value pension formula. Prior to July 1, 2017, the Plan was entirely a non-contributory defined benefit plan. Beginning July 1, 2017, the Plan was divided into two portions, a non-contributory portion and a contributory portion. All eligible new employees hired after January 1, 2017, following completion of a year of service, may participate in the contributory portion of the Plan. For each year of eligible service, the Company credits an employee’s stable value account with a percentage of eligible pay. The percentage of pay credited is dependent on the employee’s years of service and whether they are under the contributory or non-contributory formula. Employees in the contributory formula are required to contribute 2% of pay to participate in the Plan. Once vested, which occurs following five years of service, an employee can receive their pension benefit at any age. They can receive the payment as a single lump sum payment or as a monthly annuity payable for their lifetime. If election is made to receive the benefit prior to age 65, the lump sum benefit will be reduced by 5% (compounded) for each year (prorated monthly) before age 65, to reflect the earlier start date. If election is made to receive the benefit as a monthly annuity, the lump sum benefit will be converted to an actuarially equivalent monthly benefit, based on applicable interest and mortality rates. During the years ended December 31, 2022 and 2021, employee contributions into the Plan were \$15,866,275 and \$16,723,788, respectively. There were no employee contributions receivable to the Plan at December 31, 2022 and 2021.

The Company may make an annual contribution to the Plan based on an actuarial study conducted each year by the Company. The Company’s funding policy is to contribute an amount equal to the minimum required contribution under ERISA. The Company’s policy also includes increasing its contribution above the minimum if appropriate to its tax and cash position and the Plan’s funded position. During 2022, the Company made a contribution to the Plan of \$246,920 for the 2022 plan year; the Company elected not to contribute to the Plan for the 2021 plan year as it was in compliance with the minimum funding requirements of ERISA.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting — The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”).

Use of Estimates — The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, the disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from these estimates.

Investment Valuation and Income Recognition — Investments are stated at fair value. The Plan follows the guidance of Accounting Standards Codification 820, *Fair Value Measurements and Disclosures* (“ASC 820”), which establishes a framework for measuring fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Refer to Note 6 for a discussion of fair value measurements.

Investment transactions are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation)/appreciation includes net gains and losses on investments bought and sold as well as held during the year.

Derivative Accounting Policy — As of December 31, 2022 and 2021, only exchange-traded futures contracts remain in the Plan. See Note 7 regarding the Plan’s derivative accounting policy.

Payment of Benefits — Benefit payments to participants are recorded when paid.

Tax Status — The Internal Revenue Service (“IRS”) has determined and informed the Company by a letter dated August 17, 2017, that the Plan and related Master Trust are designed in accordance with applicable regulations of the Internal Revenue Code (“IRC”). In December 2016, the IRS began publishing a Required Amendments List for individually designed plans which specifies changes in qualification requirements. The list is published annually and requires plans to be amended for each item on the list, as applicable, to retain its tax-exempt status. The Plan administrator and the Plan’s tax counsel believe that the Plan is currently designed and is currently being operated in compliance with the applicable requirements of the IRC and the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan’s financial statements.

3. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service that employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on the participant's salary and service history as of the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Company and is that amount which results from applying actuarial assumptions to reflect the time value of money (through discounts for interest) and the probability of payment (considering death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The following presents the significant actuarial assumptions used in the valuation of the Plan's accumulated plan benefits as of December 31, 2021 and 2020. The actuarial present value of accumulated plan benefits at December 31, 2021 and 2020 are presented using a beginning-of-year benefit information date. The actuarial present value of accumulated plan benefits below is measured as of January 1, which is a proxy for December 31 for each respective year presented. The effect of plan amendments on accumulated plan benefits are recognized during the year in which such amendments are adopted. There were no amendments effective January 1 recognized in the actuarial present value of accumulated plan benefits in the summary included below.

	December 31, 2021	December 31, 2020
	PRI-2012 White Collar and Employee and Annuitant Mortality Table	PRI-2012 White Collar and Employee and Annuitant Mortality Table
Mortality		
Interest discount assumptions	7.25 %	7.25 %
Retirement age assumptions range	55-80	55-80
Average retirement age	61	61
Cash balance crediting rate	1.50% - 4.00%	0.78% - 4.00%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to be terminated, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

4. PLAN TERMINATION

In accordance with the provisions of the Plan document, the Company may voluntarily terminate or partially terminate the Plan. In either event, and subject to certain early termination restrictions as specified by the Plan and in ERISA, assets shall be allocated among the participants and their beneficiaries as follows:

- There shall first be set aside an amount that will provide retirement income for participants, beneficiaries or contingent annuitants who were receiving benefits at least three years prior to termination of the Plan based on the lowest benefit under the Plan's provisions in effect during the five years preceding the date of the Plan's termination.
- There shall next be set aside an amount that will provide retirement income for participants, beneficiaries or contingent annuitants who were eligible to receive benefits at least three years prior to termination of the Plan based on the lowest benefit under the Plan's provisions in effect during the five years preceding the date of the Plan's termination.
- There shall next be set aside an amount that will provide all guaranteed benefits as provided for under Title IV, Section 4044 of ERISA.

WILLIS TOWERS WATSON PENSION PLAN FOR U.S. EMPLOYEES

Notes to the Financial Statements

As of and for the Years Ended December 31, 2022 and 2021

-
- There shall next be set aside an amount that will provide all other nonforfeitable benefits under the provisions of the Plan just prior to its termination, but which are not guaranteed under ERISA.
 - Finally, there shall be set aside an amount that will provide all other accrued benefits as of the date of Plan termination.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (“PBGC”) if the Plan terminates involuntarily. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits, and certain disability and survivor’s pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan’s termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual’s monthly benefit that the PBGC guarantees. For Plan terminations occurring during the years ended December 31, 2022 and 2021, that ceiling, which is adjusted periodically, was \$6,205 and \$6,034 per month, respectively. That ceiling applies to those pensioners who elect to receive the benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form other than a single-life annuity, the corresponding ceilings are adjusted downward. Additionally, in some instances, a participant may receive amounts in excess of the maximum guarantee depending on pension plan assets and PBGC recoveries.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan’s net assets to provide these benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the existing net assets and the PBGC guaranty, while other benefits may not be provided for at all.

5. CERTIFIED INVESTMENT INFORMATION

The Company, acting in its capacity as the Plan administrator, has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The following is a summary of the information regarding the Plan as of and for the years ended December 31, 2022 and 2021, included in the Plan's financial statements and supplemental schedules, that was prepared by or derived from information prepared by the Trustee or Predecessor Trustee and furnished to the Company. The Company has obtained certifications from the Trustee as of December 31, 2022 and 2021, and for the year ended December 31, 2022, that such information is complete and accurate. The Predecessor Trustee held certain investments through the end of April 2021 and related investment income was minimal.

The Willis Towers Watson Group Trust Diversified Equity Fund of \$597,982,550 and \$892,859,298 at December 31, 2022 and 2021, respectively; the Willis Towers Watson Group Trust Long Credit Fund of \$144,118,433 and \$325,096,396 at December 31, 2022 and 2021, respectively; the Willis Towers Watson Group Trust Real Asset Fund of \$404,262,235 and \$379,658,920 at December 31, 2022 and 2021, respectively; the private equities amounting to \$611,327,241 and \$577,529,801 at December 31, 2022 and 2021, respectively, the hedge funds of \$936,912,761 and \$1,059,144,153 at December 31, 2022 and 2021, respectively, and related investment loss of \$240,490,171 for the year ended December 31, 2022, are not certified.

6. FAIR VALUE MEASUREMENTS

The Plan follows the guidance of ASC 820, which establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

WILLIS TOWERS WATSON PENSION PLAN FOR U.S. EMPLOYEES

Notes to the Financial Statements

As of and for the Years Ended December 31, 2022 and 2021

Following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used.

Short-term Securities (principally foreign cash classified as level 1 and short-term investment fund classified as level 2) — The foreign cash balances are valued at the amount held and translated on the reporting date based on prevailing exchange rates. The short-term investment fund is not an exchange-traded fund, however, the prices per unit are published and represent the actual price at which the units held in the fund can be bought or sold.

Corporate Bonds — Valued using pricing models maximizing the use of observable inputs for similar securities. The corporate debt investments classified as level 3 have been put on a trading freeze by regulators, and therefore the reported value is based on the latest available sale price.

Commingled Trust Funds — Valued at the net asset value of shares held by the Plan at year end as a practical expedient. The respective investment manager determines the net asset values of shares by reference to the quoted closing market prices of the underlying investments held in the portfolio.

Private Equities/Hedge Funds — The fair values for these investments are estimated based on the net asset values derived from the latest audited financial statements or most recent capital account statements provided by the funds' investment manager or third-party administrator, as a practical expedient.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

In accordance with ASC 820, certain investments that are measured at fair value using the net asset value per share practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets.

The following table sets forth by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2022:

	Assets at Fair Value at December 31, 2022			
	Level 1	Level 2	Level 3	Total
Short-term securities	\$ 197,825	\$ 71,101,061	\$ —	\$ 71,298,886

Notes to the Financial Statements

As of and for the Years Ended December 31, 2022 and 2021

These investments cannot be redeemed during the life of the funds, although such investments may be liquidated through secondary markets, subject to negotiated terms. Distributions are received through the liquidation of the underlying assets of the funds. It is expected that the underlying assets will be liquidated over the remaining life and any contractual extension of the investment agreements.

The Plan's private equities are invested directly or indirectly in other investments by their ownership in master fund structures. The fair value of these investments is estimated based on the net asset values derived from the latest audited financial statements or most recent capital account statements provided by the funds' investment manager or third-party service providers.

There are significant unobservable inputs used in the fair value measurement of the Plan's corporate bond investments. These investments are illiquid and as such are classified as level 3. The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the years ended December 31, 2022 and 2021.

Fair Value Measurements Using Significant Observable Inputs

7. DERIVATIVE INSTRUMENTS

Derivative Policy

Derivative instruments, although permitted to be held by the Plan, as of December 31, 2022 and 2021 consist only of exchange-traded futures contracts, which are discussed elsewhere within this note.

Derivative instruments which may be used within the Plan include, but are not limited to, futures, swaps and options which may be used to gain desired exposures to various equity and fixed income markets worldwide. This includes enhanced index strategies, other portable alpha strategies, execution of transition management, overlaying desired market exposures on top of cash holdings, or to provide liquidity. These instruments may be used under the following conditions:

- if instruments are not exchange-traded, the portfolio managers shall be responsible for assessing and managing counterparty risk to ensure that counterparties are able to fulfill contract terms, even in extreme market conditions;
- the use of these instruments, when considered on a notional basis together with the underlying portfolio securities, would not violate notional exposure guidelines;

Notes to the Financial Statements

As of and for the Years Ended December 31, 2022 and 2021

-
- their use would be consistent with the portfolio manager's stated investment approach; and
 - a sufficient market exists that these instruments could be transacted at reasonable costs and could reasonably be expected to continue to exist even under substantially adverse conditions.

Derivative Risk & Risk Mitigation

When the Plan engages in over-the-counter ("OTC") transactions there is exposure to counterparty credit loss in the event of nonperformance by the counterparties. The Plan's investment managers manage this exposure through credit approvals, counterparty risk limits, and monitoring procedures which may include the posting of collateral against unrealized loss positions.

Procedures are in place at the investment manager level to regularly monitor and report market and counterparty credit risks associated with these instruments. The Plan does not anticipate nonperformance by counterparties to these contracts, and no material loss would be expected from any such nonperformance over the amount of any collateral held.

In addition to the counterparty risk, derivative instruments used by the Plan may contain, but are not limited to, the following risks:

- (1) the risk that the price of a derivative contract may not move in the same magnitude or even the same direction as the price of underlying security or index;
- (2) the risk that there will be no liquid secondary market when the Plan attempts to enter into a closing position;
- (3) the risk that the plan may have to sell other assets in order to meet margin requirements on derivatives in a loss position;
- (4) the risk that the benchmark referenced in a given derivative instrument may become unavailable or unreliable; and
- (5) the risk that an unfavorable legal interpretation of the terms of a derivative contract may vary from the intended terms, leading to an unexpected change in the terminal value of the contract, especially in highly individualized OTC contracts such as credit default swaps.

Accounting for Futures and Forward Contracts

Exchange-Traded Futures Contracts — Generally, upon entering into such a contract, the Plan is required to pledge to the broker an amount of cash or securities equal to the minimum "initial margin" requirements of the exchange. Pursuant to the contract, the Plan agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in value of the contract. Such receipts or payments are known as "variation margin" and are recorded by the Plan as unrealized appreciation or depreciation. When the contract is closed the Plan records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed.

OTC Futures and Forward Contracts — Depending on the agreement with the counterparty, initial and variation margin amount and settlement mechanisms may vary from exchange-traded products in order to maximize operational efficiency. The Plan is party to derivative financial instruments, including forward contracts and futures contracts, in its normal course of business.

* The unrealized appreciation (depreciation) presented in the tables above represents the variation margin for the last day of the reporting period. It is considered unrealized because each day's cash settlement will be completed on the following day. These amounts are classified within other receivables/payables on the statements of net assets available for benefits.

The gains and losses of derivative contracts, currently limited to exchange-traded futures, are included in net appreciation in fair value of investments in the statements of changes in net assets available for benefits. The net appreciation/(depreciation) in exchange-traded futures for the years ended December 31, 2022 and 2021 is summarized as follows:

Primary Underlying Risk	Location on Statements of Changes of Net Assets Available for Benefits	Gain/(Loss) for the Year Ended December 31,	
		2022	2021
	Net (depreciation)/appreciation in fair value of investments		
Exchange-traded Futures		\$ 179,810	\$ (4,064,955)
Total depreciation of derivatives		\$ 179,810	\$ (4,064,955)

8. MASTER NETTING AGREEMENTS

The Plan is subject to master netting agreements, or netting arrangements, with certain counterparties. These agreements govern the terms of certain transactions and reduce the counterparty risk associated with relevant transactions by specifying offsetting mechanisms and collateral posting arrangements at pre-arranged exposure levels. Since different types of transactions have different mechanics and are sometimes traded out of different legal entities of a particular counterparty organization, each type of transaction may be covered by a different master netting arrangement, possibly resulting in the need for multiple agreements with a single counterparty. Master netting agreements are specific to each different asset type; therefore, they allow the Plan to close out and net its total exposure to a specified counterparty in the event of a default with respect to any and all the transactions

WILLIS TOWERS WATSON PENSION PLAN FOR U.S. EMPLOYEES

Notes to the Financial Statements

As of and for the Years Ended December 31, 2022 and 2021

governed under a single agreement with the counterparty. As of December 31, 2022 and 2021, the Plan did not have any material gross positions with any of its counterparties.

9. TRUST AGREEMENT

Plan administrative expenses are paid from the assets of the Plan and have been reflected as administrative expenses in the accompanying statements of changes in net assets available for benefits.

10. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are held in funds managed by the Trustee, Predecessor Trustee or by investment managers responsible for managing portions of the Plan's investment portfolio. Transactions with the Trustee, Predecessor Trustee and investment managers qualify as party-in-interest transactions. Fees paid by the Plan to the Trustee and for investment management services were \$1,029,887 and \$1,416,292 during the year ended December 31, 2022 and 2021, respectively; fees paid by the Plan to the Predecessor Trustee and for investment manager services were \$366,114 during the year ended December 31, 2021.

Furthermore, the Plan is invested in certain WTW-sponsored funds. The fair value and related (depreciation)/appreciation of these investments as of and for the years ended December 31, 2022 and 2021 are detailed in the table below.

	Fair Value at December 31,		Net (Depreciation)/Appreciation in Fair Value of Investments For the Year Ended December 31,

11. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits. The Plan invests in certain commingled trust funds and hedge funds whose respective fair values at December 31, 2022 and 2021 are in excess of 10% of the Plan's respective net assets available for benefits at December 31, 2022 and 2021.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Contributory and Non-Contributory Stable Value benefits are unreduced at age 65. Stable value benefits earned prior to 7/1/2017 are unreduced at age 62. LTP final average earnings benefits are unreduced at age 60. LWW final average earnings benefits are unreduced at age 65 for those not eligible to retire and either age 60 or 62 for those eligible for early retirement.

Stable value benefits can be paid as a lump sum or an annuity. To convert the stable value benefit into a single life annuity the 417(e)(3) equivalence basis is used.

Cash balance accounts can be paid as a lump sum or an annuity while final average earnings benefits must be paid as annuities. To convert cash balance accounts into a single life annuity, the Moody's conversion basis is used (not greater than the account balance projected to Normal Retirement Date and converted on a 417(e)(3) basis). If the value of the final average earnings benefit exceeds the value of the cash balance account earned prior to December 31, 2007 and the cash balance account is paid as a lump sum, then the remaining benefit value is paid as a residual annuity. The residual annuity is calculated using either the Moody's or 417(e)(3) equivalence basis, whichever produces the greater benefit.

Percent married	80%
Spouse age	Wife three years younger than husband
Covered pay	Assumed plan compensation for the year beginning on the valuation date was determined as the weighted average of the January 1, 2022 base pay (25%) and April 1, 2022 base (75%) plus the actual bonus paid in March 2022.
Administrative expenses	\$2,800,000. This amount is based on the administrative expenses paid from the trust in the prior year plus the expected change in the PBGC premium from the prior year, rounded to the nearest \$100,000.
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year, as required by regulations under IRC §430.
Actuarial value of assets	<p>Average of the fair market value of assets on the valuation and the dates that are 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings of 7.25% for 2021 and 7.75% for 2020 (with such expected earnings limited as described in IRS Notice 2009-22) . The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2021 plan year.)</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued All benefits described in the Plan Provisions section of this report were valued. WTW has reviewed the plan provisions with the plan sponsor and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

The plan sponsor furnished participant data as of 1/1/2022. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions for Contributions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Cash Balance Interest crediting rate	The plan credits interest to cash balance accounts using the 10-year Treasury rate. Our long term estimate of the 10-year Treasury rate is 4.00%, based on a combination of current conditions and future economic expectations. However, because current conditions differ from our long-term expectation, we have adopted a select and ultimate assumption beginning at 1.50% in 2022 and increasing to 4.00% by 2027.
Annuity conversion rate for Stable Value Benefits	Annuity benefits are valued by converting accounts to annuities using the current IRC 430 interest rates, so that the interest rates assumed are effectively the same as described above for the discount rate.
Administrative expenses	Administrative expenses are estimated by determining the actual expenses paid from the trust the preceding year plus the expected change in the PBGC premium from the prior year.

Assumptions Rationale - Significant Demographic Assumptions

Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Retirement and Termination	<p>Retirement and termination rates were based on an experience study conducted in 2019, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.</p> <p>Assumed retirement and termination rates differ by age and service because of observed differences in retirement and termination rates by age and service.</p>
Form of payment and timing	The percentage of participants in the WTW Pension Plan for U.S. Employees assumed to take lump sums were based on an experience study conducted in 2019 and future expectations.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V Summary of Plan Provisions

Plan Overview – WTW Pension Plan for U.S. Employees (WTW Pension Plan)

Beginning on July 1, 2017 benefit accruals are provided under either a Non-Contributory or Contributory Stable Value formula. The Non-Contributory Stable Value formula generally applies for colleagues who participated under the prior Stable Value Benefit formula as of December 31, 2016. The Contributory Stable Value formula applies for other colleagues, including colleagues not eligible for the Stable Value formula as of December 31, 2016 (Legacy Willis, Exchange Solutions colleagues) and colleagues hired after January 1, 2017.

Effective June 30, 2017 the prior Stable Value benefit formula was frozen.

Effective January 1, 2017 the plan name was changed to the WTW Pension Plan for U.S. Employees.

Effective January 1, 2012, the Watson Wyatt & Company Pension Plan for U.S. Employees was merged into the Towers Perrin Retirement Plan for U.S. Employees. The Towers Perrin Retirement Plan for U.S. Employees was amended and restated effective January 1, 2012 and renamed the Towers Watson Pension Plan for U.S. Employees.

Effective December 31, 2011, benefit accruals were frozen under the legacy Towers Perrin and legacy Watson Wyatt formulas. Beginning on January 1, 2012, benefit accruals were provided under a stable value benefits formula.

Plan Provisions – Contributory and Non-Contributory Stable Value Benefits (Applicable to active employees as of January 1, 2017 and employees hired or rehired after January 1, 2017)

Contributory Employees Most U.S. colleagues that were hired after January 1, 2017 or were not Covered Employees under the prior Stable Value plan as of June 30, 2017. Certain legacy Willis U.S. colleagues with unique compensation arrangements (such as some producers) are not eligible.

Non-Contributory Employees Generally, a colleague who was a Covered Employee as of June 30, 2017 under the prior Stable Value formula.

Powell, Softec, LFWF, Diversity and Vidmere Employees, no Credited Service is given for service preceding employment with Towers Perrin.

Social Security Supplemental Benefit

For participants who retired, reached Normal Retirement Date or terminated prior to January 1, 1982, the Social Security Supplemental Benefit is 12 times the participant's estimated accrued prospective primary Social Security benefit, calculated at time of termination of active service.

For participants terminating with vested benefits or retiring, the Social Security Supplemental Benefit is \$9,600 per year multiplied by the ratio of Credited Service to termination over projected Credited Service at Unreduced Early Retirement Date. The Social Security supplement is payable from Unreduced Early Retirement Date to age 62.

Accrued Pension Benefit

For inactive participants who terminated prior to January 1, 2009, who were eligible for early retirement and participants active as of January 1, 2009, the WTW Pension Plan benefit is the same as described in the Pension Benefits at Unreduced Early, Normal or Postponed Retirement. In addition, the Social Security Supplemental Benefit described above is payable at age 60.

For inactive participants not eligible for retirement whose date of termination is prior to January 1, 2009, the WTW Pension Plan benefit is the same as described below, but based on prospective Credited Service at Unreduced Early Retirement Date limited to 20 years (and pre-merger and post-merger service at date of determination for Tillinghast employees) and multiplied by the ratio of Credited Service at the earlier of

determination date and December 31, 2007 to prospective Credited Service at Unreduced Early Retirement Date. For participants not yet eligible for Early Retirement, their TW SERP accrued benefit shall be based on the above formula for benefits without pay and benefit limitations, offset by their WTW Pension Plan accrued benefit, not less than \$0. In addition, the Social Security Supplemental Benefit as described above is payable at age 60.

For terminations in 2008, the WTW Pension Plan benefit shall not be less than the benefit described below, based on Credited Service on December 31, 2007 limited to 20 years multiplied by the ratio of Credited Service at the date of determination to the projected Credited Service at Normal Retirement Date. In addition, the Social Security Supplemental Benefit as described above is payable at age 60.

For former Stennes employees, the benefit is the benefit described above less "Prior Plan Credits" listed in Schedule 1 of the Plan, but no less than the "Pension Credits Accrued" as of August 21, 1978 under the former Stennes plan.

Minimum benefit for former Stennes employees is the "Minimum Pension" listed in Schedule 3 of the Plan.

Actuarial Equivalence

For purposes of converting a straight life annuity to an optional form of annuity, factors are based on a 7% interest rate and the 1983 Towers Perrin Group Annuity Mortality Table for males. Plan Provisions – Cash Balance Formula

Effective Date - January 1, 2003.

Provisions applicable to active employees as of January 1, 2003 and employees hired January 1, 2003 or later.

- Cash balance contribution equals 5% of Plan Earnings (same definition as for FAE plan, except shareholder bonus is not recognized) up to Social Security Wage Base, plus 10% of Plan Earnings above this level. Benefits on Plan Earnings in excess of the IRC 401(a)(17) limits are covered by the TW SERP. This formula is frozen as of December 31, 2011.
- Cash balance account is credited with interest based on average 10-year Treasury rates for September, October and November of preceding year.
- Accrued benefit is equal to the cash balance account.
- Cash balance account is available as a lump sum upon termination.
- Conversion of full or partial CB account to an annuity determined using "Moody's approach" (interest rate equal to average Moody's Aa rates for the first business day of September, October and November of preceding year, plus 25 bps, rounded to the nearest 25 bps; Mortality equal to GAR94), subject to minimum or maximum calculation rules using applicable 417(e)(3) approach.
- Upon death prior to retirement, greater of cash balance account or applicable pre-retirement spouse's benefit is payable.
- Upon disability, cash balance contribution continued based on latest rate of compensation.

Plan Provisions – Transition Provisions

Transition provisions applicable to employees active on both December 31, 2002 and January 1, 2003.

Opening cash account balance equals present value of accrued benefit under FAE formula as of December 31, 2002 based on a 7% interest rate and GAR-94 mortality table. Opening balance includes “accrued” Social Security Supplement as of December 31, 2002, but excludes the value of any Subsidized Surviving Spouse Benefits.

Future cash balance contributions and interest credits determined in same way as for employees hired January 1, 2003 and later.

Accrued benefit equal to (A) & (B), below:

- (A) benefit for service through December 31, 2007 is equal to the greater of cash balance account or benefit accrued under FAE formula. Service and final average earnings frozen under FAE formula as of December 31, 2007.
- (B) benefit for service after December 31, 2007 is equal to cash balance formula accrued after that date.

For purposes of the accrued benefit above under portion (A):

- Any excess of the FAE formula over the cash balance account is payable as an annuity and not as a lump sum.
- The comparison of the CB account with the FAE plan annuity relies upon the “Moody’s Approach”, subject to 417(e)(3) minimum or maximum rules for converting the cash balance account to an annuity.

Preretirement death

If the participant is married and not currently eligible for early retirement but is fully vested, the participant's surviving spouse receives a benefit equal to 50% of the benefit that would have been payable to the participant if he had retired on the day before his death and chosen the joint and 50% survivor benefit form, payable commencing at the later of: (a) the date of death; or (b) the participant's age 55.

If the participant is married and eligible for early retirement, the participant's surviving spouse receives a benefit equal to the benefit that would have been payable to the participant if he had retired on the day before his death and chosen the joint and 100% survivor benefit form, payable commencing at the date of death.

If the participant is unmarried, no benefit is payable.

Effective January 1, 2012 associates with a same-sex domestic partner are eligible for a similar pre-retirement death benefit as described above.

Other Plan Provisions

Forms of payment

Monthly pension benefits are paid as described above as a life annuity, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of 100% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan. Optional forms are a 100%, 75% and 50% joint and survivor annuities, 5 or 10 year certain and life annuities, or (for married participants) a life annuity. Actuarial equivalence is based on a 7% interest rate the male 1983 GAM table for the participant and the female 1983 GAM table for the beneficiary.

Preretirement death benefits are payable only as described above.

2003 Grandfathered Benefits

The accrued normal retirement benefit under the new formula, which became effective on July 1, 2003, will not be less than the benefit earned under the prior formula based on continuous service and annual average salary as of June 30, 2003. This benefit includes any grandfathered benefits incorporated into the plan from plan changes made as of January 1, 1997.

All Associates hired on or before June 30, 2003 will be grandfathered for five years until June 30, 2008. At that time, the Accrued Benefit under the old formula will be frozen. Also, the Accrued Benefit as of June 30, 2003 will be indexed annually at a rate of 3.00%. These amounts will always have the grandfathered early retirement factors used when calculating early retirement benefits. Each participant will receive the greater of these two benefits or the new formula.

All Associates hired after June 30, 2003 will only be eligible for the Current Plan provisions. Current versus grandfathered benefits are summarized as follows:

Feature	Grandfathered Provision	Current Provision
Early Retirement Eligibility	Eligible at age 50 with 10 years of continuous service, or age 55 with 5 years of continuous service	Eligible at age 55 with 5 years of continuous service
Unreduced Retirement Benefit	Available at age 60	Available at age 62
Early Retirement Reduction Factors	5% a year between ages 50 and 60	8% a year between ages 58 and 62 6% a year between ages 55 and 58
Average Annual Salary	3 year average salary	5 year average salary
Standard Unreduced Form of Payment	5-year certain and continuous annuity	Single life annuity
