Report of Independent Auditors

The Participants and Plan Administrator of
Fremont Bank Employee Stock Ownership
and 401(k) Plan

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Fremont Bank Employee Stock Ownership and 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of Fremont Bank Employee Stock Ownership and 401(k) Plan as of December 31, 2022 and 2021, and the changes in its net assets available for benefits for the year ended December 31, 2022, in accordance with accounting principles generally accepted in the United States of America (GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Fremont Bank Employee Stock Ownership and 401(k) Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Fremont Bank Employee Stock Ownership and 401(k) Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Fremont Bank Employee Stock Ownership and 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Fremont Bank Employee Stock Ownership and 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year) as of December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Fremont Bank Employee Stock Ownership and 401(k) Plan

Notes to Financial Statements

NOTE 1 – DESCRIPTION OF PLAN

The following description of the Fremont Bank Employee Stock Ownership and 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General – Fremont Bancorporation (the Company) established the “Fremont Bank Profit Sharing Plan” effective July 1, 1976, which was amended through August 23, 2000, in accordance with applicable Internal Revenue Service (IRS) regulations. On August 23, 2000, participation in the Plan was frozen, and the Plan was converted to an Employee Stock Ownership Plan (ESOP) in 2004 as part of the bank's Subchapter S conversion. Although the Plan was frozen, employees who were already participants in the Plan continued to have their accounts debited and credited for gains and losses. Effective January 1, 2005, the Plan was unfrozen, amended, and restated as the “Fremont Bank and Fremont Bancorporation Employee Stock Ownership Plan”.

In addition, effective January 1, 2012, the Company approved the merger and the transfer of assets from the Fremont Bank and Fremont Bancorporation Savings Plan (the Savings Plan) to the Plan and renamed the Plan the Fremont Bank Employee Stock Ownership and 401(k) Plan. As a result of the Savings Plan merger into the Plan, there were no changes to Plan provisions.

The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986 (the Code) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan provides benefits for substantially all employees, excluding union, nonresident alien or leased employees of Fremont Bank and Fremont Bancorporation (the Company and the Trustee) after the employee meets the eligibility requirements.

Eligibility – For the ESOP portion of the Plan, employees of the Company are eligible to participate in the Plan upon completion of one year of employment, in which they work at least 1,000 hours, are at least 21 years of age, and a current employee on the last day of the Plan year. For the 401(k) portion of the Plan, employees are eligible to participate upon reaching age 18 and completing one hour of employment.

Employer contributions – In the ESOP portion of the plan, the Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan.

Contributions and deferrals – Each year, participants may contribute 1-100% of their annual compensation to the 401(k) portion of the Plan, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company matches 50% of employee contributions, up to 6% of eligible compensation deferred to the Plan. ESOP contributions to the Plan are at the discretion of the Company's Board of Directors. ESOP contributions to the Plan may be in cash or shares of the Company's common stock. ESOP contributions will be divided among eligible participants in proportion to each participant's eligible compensation compared to the total compensation of all participants. Eligible compensation is defined as gross compensation. Contributions are subject to regulatory limitations. During the year ended December 31, 2022, the Company made employer matching contributions of \$1,899,916 and ESOP cash contributions of \$1,000,000.

Fremont Bank Employee Stock Ownership and 401(k) Plan

Notes to Financial Statements

S-Corp Distributions – The Plan receives dividends from the Company for shares of common stock held by the Plan. The dividends are allocated to participant accounts on a pro-rata basis based on the number of shares held by a participant at the time the dividend is paid.

Participant accounts – Each participant's account is credited with the participant's contributions and allocations of: (a) the Company's contribution; (b) interest or dividend income; (c) the allocation of forfeited shares to participants' accounts from unvested balances of terminated participant accounts; (d) dividends paid by the Company on shares held in the Plan; and (e) changes in value of the Company's stock over time.

Vesting – Participants are vested immediately in their contributions plus actual earnings thereon. Employees who were participants prior to the Plan being unfrozen and amended on January 1, 2005, are 100% vested. For all other affected participants, vesting in the Company's contribution portion of their accounts is based on years of service and they are 100% vested after five years of credited service.

A participant whose employment is terminated due to death, disability, or normal retirement (as defined in the Plan) is 100% vested under the Plan.

Notes receivable from participants – Participants may borrow from the 401(k) portion of their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested 401(k) account balance. The loans are issued by the Plan and secured by the balance in the participant's 401(k) account. All loans must be repaid within a period of five years, unless the loan is used to purchase a principal residence, in which case, the loan may be repaid over a longer period. Under the terms of the Plan agreement, Plan loans will bear a reasonable rate of interest determined by the Plan administrator. Principal and interest is paid ratably through monthly payroll deductions. As of December 31, 2022, the rates of interest on outstanding loans ranged from 4.25% to 9.50% with various maturities through May 2051.

Notes payable – The ESOP Loans (See Note 6) are collateralized by the unallocated shares of common stock and guaranteed by the Company. The Company has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2022 and 2021, and for the year ended December 31, 2022, present separately the assets and liabilities and changes therein pertaining to:

- a. the accounts of employees with vested rights in allocated common stock (allocated), and
- b. common stock not yet allocated to employees (unallocated).

Payment of benefits – Upon retirement, termination of service, or death, an eligible participant may elect to receive benefits in the form of a lump sum distribution or fixed installments. Distributions are made in the form of one or more payments of (a) number of whole shares of Company stock equal to the whole number of shares vested in the participant's Company stock account and (b) cash equal to the total value of all vested balances remaining. Any distribution of the Company's stock is subject to the Company's right to immediately require the participant to sell the shares of stock to the Company or the Plan at the then fair value.

If an employee is terminated and their vested balance does not exceed \$1,000, a lump sum payment will be made as soon as administratively practicable following termination. If the amount of the balance is between \$1,000 and \$5,000, and one does not elect to withdraw the balance, the balance will automatically rollover to an IRA.

Fremont Bank Employee Stock Ownership and 401(k) Plan

Notes to Financial Statements

Forfeitures – Forfeitures are the nonvested portion of a participant's account that are lost upon termination of employment. Forfeitures shall be allocated to eligible participants annually or used to pay Plan expenses.

Put option – Under federal income tax regulations, Company stock that is held by the Plan and its participants and is not readily tradable on an established market or is subject to trading limitations must include a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification – Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in the Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution or their funds will be transferred to their 401(k) account.

In-service withdrawals – Beginning at age 50, participants with at least 10 years of service may request a withdrawal of up to 25% of their Other Investments Account each year. At age 59 ½ with 15 years of service, participants may request a withdrawal of up to 50% of their Other Investments Account each year. Other Investment Accounts are comprised of interest-bearing cash accounts.

Mandatory reshuffling – On a specified date during the year in which a participant reaches age 62, 5% of the number of shares in the participant's Company Stock Account will be subject to a mandatory reshuffling to all other participants in the Plan during the following year and each year thereafter where they remain a participant in the Plan. The cash equivalent of the shares subject to the mandatory reshuffling will be distributed to the participant each year.

Voting rights – The trustees of the Plan have the right to decide how shares of Company stock held in the Plan will be voted, except in a matter which involves corporate merger, consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all assets or similar transaction as described in Section 409(e)(3) of the Code. In these situations, each participant has the right to exercise voting rights attributable to the shares allocated to his or her account and will be notified by the Trustees prior to the time that such rights are to be exercised.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting.

Cash and cash equivalents – All highly-liquid investments with a maturity of three months or less at the time of purchase are considered to be cash equivalents.

Use of estimates – The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Fremont Bank Employee Stock Ownership and 401(k) Plan

Notes to Financial Statements

Allocations – The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock (“allocated”) and (b) stock not yet allocated to employees (“unallocated”), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment valuation – Investments, other than Company common stock, are stated at fair value. The common shares of the Company are valued at fair value as determined by an annual independent appraisal. Investments represent the net asset value (NAV) of shares held by the Plan as of the last day of the year and are stated at their aggregate fair values.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (i.e., the “exit price”) in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Contract value is the relevant measurement for assets invested in fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net depreciation in fair value of investments consists of both the realized gains or losses and unrealized appreciation and depreciation of those investments.

Notes receivable from participants – Notes receivable from participants are measured at amortized cost, which represents unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are recorded as distributions upon the occurrence of a distributable event, based on the terms of the Plan document. No allowance for credit losses has been recorded as of December 31, 2022 or 2021.

Concentration of credit risk – The Plan maintains its cash and cash equivalents in business checking and commercial money market accounts. Cash and cash equivalents include investments in money market funds and short-term securities purchased with a maturity of generally three months or less, and are carried at cost which approximates fair value. Periodically throughout the year, cash is maintained in trust accounts in excess of Federal Deposit Insurance Corporation (FDIC) limits.

Payment of benefits – Benefits are recorded when paid.

Expenses – Substantially all expenses of maintaining the Plan are paid by the Company. Certain transaction fees are paid by the Plan.

Subsequent events – Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before the financial statements are issued.

Notes to Financial Statements

The Plan has evaluated subsequent events through October 12, 2023, which is the date the financial statements were available to be issued.

NOTE 4 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation techniques used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Cash and cash equivalents – Cash and cash equivalents are reported at carrying value.

Registered investment companies – Valued at the NAV of shares held by the Plan and are valued at the closing price reported on the active market on which the individual securities are traded.

Self-directed brokerage accounts – Accounts primarily consist of mutual funds and common stocks that are valued on the basis of readily determinable market prices.

Pooled separate accounts – Units held in pooled separate accounts (PSA) are valued using the NAV practical expedient of the PSA as reported by the account managers. The NAV practical expedient is based on the fair value of the underlying assets owned by the PSA, minus its liabilities, and then divided by the number of units outstanding. The NAV practical expedient of a PSA is calculated based on a compilation of primarily observable market information. PSAs are redeemable daily at NAV.

Notes to Financial Statements

Company common stock – The fair value of Company common stock is stated at the value determined annually through an independent appraisal. This appraisal was based upon a combination of the discounted future stream of earnings and capitalization of earning techniques. The appraisal considers historical and projected cash flow and net income, return on assets, return on equity, market comparables, and estimated fair value of the Company assets and liabilities. The methods used to develop the fair value calculation may not be indicative of net realizable value or reflective of future fair values. The appraiser prepares a preliminary report that Plan management, along with the Trustee, review in detail, discuss, and approve.

Plan management has determined that Company common stock is classified as a Level 3 investment as of December 31, 2022 and 2021.

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2022 and 2021:

NOTE 5 – GUARANTEED INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has a fully benefit-responsive guaranteed income account with Principal Life Insurance Company (Principal). Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 0%. The crediting rate is reviewed on a quarterly basis for resetting. The FBRIC does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The contract meets the FBRIC criteria and is therefore reported at contract value. Contract value is the relevant measure for FBRICs because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Principal Life, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations, which may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (5) premature termination of the contract. No events are probable of occurring that might limit the Plan's ability to transact at contract value with the contract issuer and that also would limit the ability of the Plan to transact at contract value with the participants.

Fremont Bank Employee Stock Ownership and 401(k) Plan

Notes to Financial Statements

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Examples of such events include the following: (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, or (4) a material amendment to the agreements without the consent of the issuer.

NOTE 6 – NOTES PAYABLE

The following table sets forth the notes payable of the Plan as of December 31, 2022 and 2021:

	2022	2021
Notes payable:		
2018 ESOP Loan	\$ -	\$ 1,469,948
2022 ESOP Loan	4,487,106	-
	<u>\$ 4,487,106</u>	<u>\$ 1,469,948</u>

The proceeds of the notes payable were used to purchase Company common stock. Unallocated shares are collateral for the loan. Shares of common stock are released from collateral and allocated to participants as payments of principal and interest are made on the notes payable. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year principal and interest payments, divided by the total of the current year principal and interest payments, plus all future years' principal and interest payments.

The Plan has incurred notes payable related to the purchase of Company common stock as follows:

2018 ESOP Loan – Note payable to the Company, dated October 26, 2018 in the original amount of \$3,516,968. The proceeds of the loan were used to purchase approximately 728 shares of Company common stock. Principal and interest payments of \$768,433 were due annually beginning October 26, 2019, continuing through October 26, 2023, after which time any remaining principal and interest was due in full. Interest accrued at 3.02% per annum. The balance on the 2018 ESOP Loan was \$1,469,948 as of December 31, 2021.

During the year ended December 31, 2022, annual installments on the 2018 ESOP Loan were paused by mutual agreement until the maturity date of the note. Effective December 29, 2022, the Company completed a refinance of the unpaid principal balance and accrued interest of the 2018 ESOP Loan by consolidation with a new loan, the 2022 ESOP Loan. The unpaid principal balance and accrued interest prior to refinancing was \$1,469,948 and \$51,933, respectively. The number of unallocated shares prior to the refinancing totaled to 291.20. The total amount of principal and accrued interest was refinanced in connection with the Company entering into the 2022 ESOP Loan.

2022 ESOP Loan – Note payable to the Company, dated December 29, 2022. The balance of the 2022 ESOP Loan at inception was \$4,487,106, which consists of two parts: a) a balance of \$2,965,226 that enabled the Plan to purchase approximately 566.671 shares of Company common stock, and b) a balance of \$1,521,881 representing the balance of principal and accrued interest remaining on the 2018 ESOP Loan at the time of refinance. The 2022 ESOP Loan is payable in annual installments of \$561,725 beginning December 15, 2023, including interest at 4.34% per annum, through December 15, 2032. The balance on the 2022 ESOP Loan was \$4,487,106 as of December 31, 2022.

NOTE 7 – TAX STATUS

The IRS has determined and informed the Company by a letter dated February 2, 2012, that the Plan and related trust are designed in accordance with applicable sections of the Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

In accordance with guidance on accounting for uncertainty in income taxes Accounting Standards Codification (ASC) 740-10, management evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 8 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities, as well as Company common stock. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities that changes in the near term could materially affect a participant's account balance and the amounts reported in the financial statements.

NOTE 9 – PARTY-IN-INTEREST TRANSACTIONS

The Plan holds cash and cash equivalents in Fremont Bank and Bank of America accounts and invests in common stock of Fremont Bancorporation. As Fremont Bank is the Plan Sponsor and custodian and Bank of America is a Plan custodian, these transactions qualify as party-in-interest transactions.

As of the years ended December 31, 2022 and 2021, the Plan held 12,608 shares of common stock of Fremont Bancorporation. During the year ended December 31, 2022, the Plan recorded net depreciation in the fair value of the stock of \$4,196,579. Interest from the money market account maintained at the Company's subsidiary bank was \$12,908 for the year ended December 31, 2022. The Plan received Sub S distributions from the Company in the amount of \$4,295,546 for the year ended December 31, 2022. Sub S distributions on unallocated shares in the amount of \$380,756 were allocated to participant accounts. This is reported as a transfer from the unallocated accounts to the allocated accounts on the Statement of Changes in Net Assets Available for Benefits.

NOTE 10 – RECLASSIFICATION

The form 5500 has certain items that differ from amounts shown on the accompanying financial statements. These differences relate to reclassification only and have no effect upon net assets available for benefit for either period.

NOTE 11 – PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right to terminate the Plan and discontinue its contributions at any time. If the Plan is terminated, participants will become 100% vested in their accounts.
