INDEPENDENT AUDITORS' REPORT

To the Plan Committee
C & I Engineering, Inc.
Salary Savings Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the financial statements of C & I Engineering, Inc. Salary Savings Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of C & I Engineering, Inc. Salary Savings Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the years ended December 31, 2022 and 2021, stating that the certified investment information, as described in Note F to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C)

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of C & I Engineering, Inc. Salary Savings Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about C & I Engineering, Inc. Salary Savings Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of C & I Engineering Inc. Salary Savings Plan's internal control. Accordingly, no such opinion is expressed.

INDEPENDENT AUDITORS' REPORT - (CONTINUED)

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about C & I Engineering, Inc. Salary Savings Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

The supplemental schedule of assets (held at end of year) and schedule of delinquent participant contributions are presented for purposes of additional analysis and are not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTES TO FINANCIAL STATEMENTS

YEARS ENDED DECEMBER 31, 2022 AND 2021

A. DESCRIPTION OF PLAN

The following description of C & I Engineering, Inc. Salary Savings Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General - The Plan is a defined contribution plan covering all Category I employees of Chemical and Industrial Engineering, Inc. (Company) who have been employed with the Company longer than a month. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Company is the Plan Sponsor. The original Plan became effective September 1, 1986, and at various times has been amended to modify certain of its provisions.

Effective December 17, 2020, Category II and IV employees may participate in the Plan after they work 1,000 hours or more in a year, however, they are exempt from receiving a Company match.

2. Contributions - Contributions may consist of (a) salary deferral contributions, (b) employer matching contributions, (c) employer discretionary contributions, (d) voluntary contributions and (e) rollover contributions. Participants may contribute any percentage of their eligible compensation, subject to limitation of the Internal Revenue Code (IRC). Contributions may be allocated to the available investment options at the discretion of the participant. Gains and losses under the Plan are valued on a daily basis and allocated to participant accounts based on account balances. Effective January 2007, the Plan has added Roth 401(k) features to the Plan allowing participants to make deferrals on an after-tax basis with distributions from Roth Contributions to be tax-free in retirement.

The Company's matching contribution rates are set by the Company's Board of Directors and may vary periodically. The Company may contribute to the Plan from their respective net profits as determined by the Board of Directors. The amount of the Company contribution will vary from year to year and in some plan years the Board of Directors may decide not to make any contribution.

The Plan also accepts rollover contributions from other qualified plans. Rollovers are credited to a participant's rollover contribution account, are treated in a manner similar to before-tax contributions for Plan accounting and federal income tax purposes and are not eligible for matching contributions by the Company.

3. Automatic Enrollment - The plan has an automatic enrollment feature for all eligible employees. Eligible employees are enrolled automatically in the Plan at a 6% pre-tax contribution rate (increasing by 1% at the beginning of each subsequent year up to a maximum percentage of 10%) unless they formally opt-out of the Plan within 30 days or elect to contribute at a higher or lower rate. Such participants receive an immediate company match, with the participant generally becoming fully vested in such matching contributions after attaining two years of service. Pre-tax contributions of participants who are automatically enrolled in the Plan will be invested in the appropriate Lifetime Portfolio Fund based on the participant's date of birth unless the participant elects other investments permitted under the Plan.
4. Participant Accounts - Each participant's account is credited with the salary deferral contribution and employer matching contribution as well as an allocation of Plan earnings. Allocations are based on participant earnings and on account balances as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

NOTES TO FINANCIAL STATEMENTS - (CONTINUED)

YEARS ENDED DECEMBER 31, 2022 AND 2021

A. DESCRIPTION OF PLAN - (Continued)

5. Vesting - Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of credited service. A participant is 100 percent vested after two years of credited service.
6. Participant Loans - Participants who are not shareholders owning more than 5% of the Company's outstanding stock at any time during the Company's tax year may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of (a) \$50,000 or (b) the greater of (1) 50% of their vested account balance or (2) \$10,000, reduced by any outstanding loans. The loans are secured by the balance in the participant's account and bear interest at a rate of 5.25% to 7.50%, which is commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are payable ratably through bi-weekly payroll deductions.
7. Payment of Benefits - On termination of service, a participant will receive the value of his or her account in a single lump-sum amount or in periodic installments over a fixed period of time not longer than the life expectancy of the participant or that of his or her spouse. The method of payment is at the discretion of the Plan administrator. In addition, hardship distributions are permitted if certain criteria are met.
8. Forfeitures - When certain terminations of participants in the Plan occur, the non-vested portion of the participant's account, as defined by the Plan, represents a forfeiture. Forfeitures are utilized to reduce plan expenses and then employer's contributions for the plan year. However, if the participant is re-employed and fulfills certain requirements, as defined in the Plan, the participant's account will be reinstated. At December 31, 2022 and 2021, forfeited non-vested accounts totaled \$109,453 and \$126,646, respectively. Employer contributions in 2022 and 2021 were not reduced from forfeited non-vested accounts.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Accounting - The financial statements of the Plan are prepared using the accrual method of accounting. The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America.
2. Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.
3. Investment Valuation and Income Recognition - The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for discussion of fair value measurements. Empower has provided the Plan administrator a certification attesting that the information provided to the Plan administrator is complete and accurate.

NOTES TO FINANCIAL STATEMENTS - (CONTINUED)
YEARS ENDED DECEMBER 31, 2022 AND 2021

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The Plan presents, in the statement of changes in net assets available for benefits, the net appreciation or depreciation in the fair value of its investments, which consists of realized gains or losses and unrealized appreciation and depreciation on those investments.

The Plan's investment options include a guaranteed interest account under a guaranteed benefit policy (as defined in section 401(b) of the Employee Retirement Income Security Act of 1974, as amended (ERISA)) of Empower. The guaranteed interest account is reported at fair value as determined by Empower.

This investment option is non-benefit responsive. The guaranteed interest account's fair value is the amount Plan participants would receive currently if they were to withdraw or transfer funds within the Plan prior to their maturity for an event other than death, disability, termination, or retirement. This fair value represents guaranteed interest account values adjusted to reflect current market interest rates only to the extent such market rates exceed contract crediting rates. This value represents contributions allocated to the guaranteed interest accounts, plus interest at the contractually guaranteed rate, less funds used to pay Plan benefits and administrative expenses.

4. Notes Receivable from Participants - Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest.
5. Payment of Benefits - Benefits are recorded when paid. Accordingly, benefits payable to persons that have elected to withdraw from the Plan but not yet paid have not been accrued.
6. Risks and Uncertainties - The Plan provides for various investment options in combinations of stock, bonds, fixed income securities, mutual funds, and other investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value in investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in these financial statements.
7. Administrative Expenses - The Company, at its discretion, may absorb certain costs of the administration of the Plan to maximize the benefit available to the participants. The expenses include, but are not limited to trustee, legal, and accounting fees. The administrative expenses paid by the Company were approximately \$26,625 and \$38,709 for the years ended December 31, 2022 and 2021, respectively.
8. Subsequent Events - The Plan administrator has evaluated subsequent events through October 11, 2023, the date which the financial statements were available to be issued.

C. TAX STATUS

The Plan has obtained a favorable tax determination letter dated June 30, 2020, in which the Internal Revenue Service stated that the Plan was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The plan administrator and the trustee believe the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

C. TAX STATUS - (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service or Department of Labor. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2019.

D. DEPOSITS WITH INSURANCE COMPANY

On December 17, 2020, the Plan entered into a group annuity contract with Empower.

The group annuity account is credited with actual earnings on the underlying investments and charged with Plan withdrawals and administrative expenses charged by the custodian. The deposits are included in the financial statements at the December 31, 2022 and 2021 fair values as reported to the Plan by the custodian.

E. FAIR VALUE MEASUREMENTS

The Plan measures certain financial assets and liabilities at fair value in accordance with FASB ASC topic 820, Fair Value Measurements and Disclosures, which establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 or Level 2 inputs because they generally proved the most reliable evidence of fair value. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Determination of Fair Value -

The following discussion describes the valuation methodologies used for assets measured at fair value on a recurring basis. The techniques utilized in estimating the fair values of the financial instruments are reliant on the assumptions used. Care should be exercised in deriving conclusions based on the fair value information of the financial instruments presented below.

Fair value estimates are made at a specific point in time, based on available market information and judgements about the financial instrument. Such estimates do not consider the tax impact of the realization of unrealized gains or losses. In addition, the disclosed fair value may not be realized in the immediate settlement of the financial instrument. There were no significant changes to the valuation processes during 2022.

Mutual Funds -

Valued at the fund's quoted price, which is in an active market.

NOTES TO FINANCIAL STATEMENTS - (CONTINUED)

YEARS ENDED DECEMBER 31, 2022 AND 2021

E. FAIR VALUE MEASUREMENTS - (Continued)

Participant-directed Brokerage Account -

This account includes mutual funds and common stock which are valued at quoted prices in an active market.

Collective Trust Funds -

The NAV of each of the collective trust funds is calculated in a manner consistent with U.S. GAAP for investment companies and is determinative of their fair value and represents the price at which the Plan would be able to initiate a transaction. Several of the collective trust funds invest in publicly quoted mutual funds or actively managed stocks. Some of the collective trust funds also invest in fixed income securities. The fair value of the underlying mutual funds or stock and of the underlying securities, which is based on quoted prices of similar assets, is used to determine the NAV of the collective trust fund which is not publicly quoted. Participant transactions may occur daily.

U.S. Property Pooled Separate Account -

The U.S. Property pooled separate account invests in real estate, for which the fair value of the underlying real estate is based on unobservable inputs and used to determine the NAV of the separate account. The fair value of the underlying real estate is estimated using discounted cash flow valuation models that utilize public real estate market data inputs such as transaction prices, market rents, vacancy levels, leasing absorption, market cap rates and discount rates. In addition, each property is appraised annually by an independent appraiser giving consideration to income, cost, and sales comparison approaches for valuing real estate. Values are updated daily based on changes in market rates and conditions. The U.S. Property pooled separate account is redeemed at NAV on a daily basis.

Principal Life has the ability to apply a contractual limitation to the U.S. Property pooled separate account which delays the payment of withdrawal requests (a "Withdrawal Limitation"). If the Withdrawal Limitation were applied, withdrawal requests included within the Withdrawal Limitation would be paid on a pro rata basis as cash becomes available for distribution, as determined by Principal Life. On March 20, 2020, Principal Life applied the withdrawal limitation. As of December 31, 2021, all amounts had been withdrawn and the Plan no longer held any funds in the U.S. Property pooled separate account.

Guaranteed Interest Accounts -

The guaranteed interest accounts with an insurance company are not actively traded and significant other observable inputs are not available.

The guaranteed interest accounts cannot be sold to a third-party; thus, the only option to exit the guaranteed interest accounts is to withdraw the funds prior to maturity. The fair value of the account is the value paid when funds are withdrawn prior to their maturity. The valuation of the guaranteed interest accounts is based on the applicable interest rate. If the applicable interest rate is greater than the interest rate on the account, the fair value is the contract value reduced by a percentage. This percentage is equal to the difference between the applicable interest rate and the interest rate on the account, multiplied by the number of years (including fractional parts of a year) until the maturity date.

If the applicable interest rate is equal to or less than the interest rate on the account, the fair value is equal to the contract value.

This percentage is equal to the difference between the applicable interest rate and the interest rate on the account, multiplied by the number of years (including fractional parts of a year) until the maturity date.

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the years ended December 31, 2022 and 2021 are reported in net investment gain from deposits with insurance company.

F. INFORMATION PREPARED AND CERTIFIED BY PLAN CUSTODIAN

Effective December 17, 2020, the Plan custodian was changed from Principal Financial Group to Empower and a "black-out period" began that lasted through January 4, 2021. All significant funds were transferred to Empower on December 17, 2020, except for amounts held in the U.S. Property pooled separate account which were transferred on or before April 30, 2021; see Note E for discussion of the Withdrawal Limitation applied to this account.

The information included in the accompanying financial statements and supplemental schedules was obtained from data that has been prepared and certified to as complete and accurate by the custodians of the Plan.

G. PLAN TERMINATION

Although it has not expressed any interest to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the participants will become 100 percent vested in their account.

H. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Additionally, certain line items of assets and net asset additions and deductions in the 2022 and 2021 Forms 5500 differ from similar classifications in the accompanying financial statements. However, such differences are not considered material and create no differences in net asset balances at December 31, 2022 and 2021.

J. AMOUNTS ALLOCATED TO WITHDRAWING PARTICIPANTS

Approximately \$154,000 is due withdrawing participants for benefit claims submitted prior to December 31, 2022, which were not distributed to participants until the first quarter of 2023.

As discussed in Note B-5, benefits are recorded when paid; therefore, this amount has not been accrued at December 31, 2022.

K. PARTIAL PLAN TERMINATION

As a result of a reduction in the Company's workforce in 2020 due to COVID-19, the Plan experienced a partial termination as defined by ERISA. Under ERISA, a partial plan termination may occur if a significant percentage of the Plan participants are terminated because of an action taken by the Plan Sponsor. If a partial plan termination occurs, full vesting in the employer's contribution is required for the affected participants, but the remaining participants' vesting continues to be determined per the plan provisions.

In accordance with Internal Revenue Service ("IRS") guidance, participants of the Plan whose employment terminated during 2020 were made fully vested in all contributions under the Plan. During 2021, the Plan withheld forfeitures totaling \$12,817 from the distributions of two participants who were later determined to be "affected" participants of the partial termination. Therefore, the Plan must reimburse these two participants for the forfeitures withheld from their distributions; the \$12,817 liability has been included as "forfeitures refundable to participants" on the Plan's 2022 and 2021 statement of net assets available for benefits.
