Architectural Office Environments, Inc.
Employee Stock Ownership Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2022 Financial Statements
We have performed an audit of the financial statements of Architectural Office Environments, Inc. Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2022, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements (2022 financial statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2022 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate, to the best of their knowledge.

Opinion on the 2022 Financial Statements
In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2022 Financial Statements section:

- The amounts and disclosures in the accompanying 2022 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

- The information in the accompanying 2022 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2022 Financial Statements
We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2022 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion on the 2022 financial statements.

Emphasis of Matter for the 2022 Financial Statements—Investments
As discussed in Note 5, the financial statements include an investment representing 100% of total assets as of December 31, 2022, whose fair value has been estimated by an independent appraisal, in the absence of readily ascertainable fair value, with the assistance of management and approved by the trustee. Because of the inherent uncertainty of the valuation, the estimated value may differ significantly from the value that would have been used had a market for the investment existed, and the difference could be material. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the 2022 Financial Statements
Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2022 Financial Statements
Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2022 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2022 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the 2022 financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

2022 Supplemental Schedule Required by ERISA
The supplemental schedule of assets (held at end of year) as of December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2021 Financial Statements
We have audited the 2021 financial statements, and in our report dated September 28, 2022, we expressed an unmodified opinion on those 2021 financial statements.

In addition, as discussed in Note 5, the 2021 financial statements included an investment representing 100% of total assets as of December 31, 2021, whose fair value has been estimated by an independent appraisal, in the absence of readily ascertainable fair value, with the assistance of management and approved by the trustee. Because of the inherent uncertainty of the valuation, the estimated value may differ significantly from the value that would have been used had a market for the investment existed, and the difference could be material. Our opinion is not modified with respect to this matter.

Note 1. Plan Description

General: The following description of Architectural Office Environments, Inc. Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

BOS Holdings Inc. (formerly Architectural Office Environments, Inc.) (the Company) established the Plan effective January 1, 2000, which operates, in relevant part, as a leveraged employee stock ownership plan (ESOP), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (the Code). The ESOP covers substantially all employees of the Company. Employees who are excluded from participating are those who are a member of a unit of employees covered by a collective bargaining agreement or are leased employees. The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan has purchased Company common stock, originally purchasing 75,000 shares through a long-term note payable agreement that has been paid in full, and later purchasing the remaining 174,000 shares under a long-term note payable agreement, which has also been paid in full. The Plan holds the stock in a trust established under the Plan. The note payable was to be repaid over a period of years by fully-deductible Company contributions to the trust fund. As the Plan makes each payment of principal and interest, an appropriate percentage of stock is allocated to eligible participants' accounts in accordance with applicable regulations under the Code. Shares vest over a period of three years of service.

The note payable was collateralized by the unallocated shares of stock and are guaranteed by the Company. The lenders have no rights against shares once they are allocated to the ESOP. Accordingly, the financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to:

- the accounts of participants with rights in allocated stock (Allocated), and
- stock not yet allocated to participants (Unallocated).

The trust fund is invested primarily in the Company's common stock, although the trustee may also invest in other securities or investments as deemed appropriate.

Eligibility: Each employee of the Company is eligible to participate in the Plan on the earlier of January 1 or July 1 after the employee: (1) completes one year of employment during which at least 1,000 hours of service are completed, and (2) has attained the age of 21 years. Participants must be employed at the end of the year in order to receive an allocation of the Company contribution or have terminated employment on or after the participant's normal retirement date or due to death or total disability.

Company contributions: The Company is obligated to make contributions to the Plan to enable the Plan to provide for the required principal and interest due on the note payable discussed in Note 6. The Plan may also make discretionary contributions to eligible Plan participants.

Participant accounts and forfeitures: The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited with an allocation of: (a) the Company contribution and the common stock released during the year as discussed above, (b) Plan earnings and (c) forfeitures of terminated participants' non-vested accounts, and charged with an allocation of Plan losses.

Note 1. Plan Description (Continued)

Common stock released and Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for all Plan participants for the year. For the year ended December 31, 2022, 147 forfeited non-vested shares were allocated to participants. As of December 31, 2022 and 2021, there were no forfeited non-vested accounts. Plan earnings are allocated to each participant's account based on the participant's account balance.

Vesting: Participants are vested in their accounts based on years of continuing service. A participant is 100% vested after three years of vesting service, as defined.

Payment of benefits: Distributions from the Plan may be made in the event a participant retires, dies (in which case, payment shall be made to his or her beneficiary or, if none, to his or her legal representatives), elects diversification, or otherwise terminates employment with the Company. Distributions are made in cash. The Plan is permitted to pay distributions to participants in annual installments over a period not longer than five years. If the participant's balance attributable to Company stock is in excess of $985,000, the five-year period shall be extended one additional year for each $195,000 or fraction thereof by which such balance exceeds $985,000. These amounts are indexed for inflation.

Put option: Under federal income tax regulations, the Company stock that is held by the Plan and its participants is not readily tradable on an established market, or is subject to trading limitations that include a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The option must be exercised within 60 days of distribution or within 60 days of notice of the annual change in fair market value. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification: Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%, less any shares previously diversified. Participants who elect to diversify may receive a cash distribution or have funds transferred to another qualified retirement plan.

Voting rights: All shares of Company stock held by the trustee shall be voted by the trustee. In the case of corporate matters involving the voting of shares for the approval or disapproval of a merger or consolidation, recapitalization, reclassification, liquidation, dissolution, or sale of substantially all assets of the Company, each participant shall be entitled to direct the trustee as to the manner in which all Company Stock allocated to the participant's account shall be voted.

Plan termination: The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the interest of each participant in the trust fund will be nonforfeitable. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Code.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Payment of benefits: Benefits are recorded when paid.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See below for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Due to the lack of a readily ascertainable market value with respect to the Company's common stock, the Plan trustees engaged an independent valuation consultant to determine the fair value of the common stock. Because of the inherent uncertainty of valuation, those estimated values may differ significantly from the values that would have been used had a ready market for those securities existed.

Fair value measurements: Accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 2. Significant Accounting Policies (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value:

Shares of BOS Holdings Inc. common stock: Valued at the share price determined by an independent valuation appraiser. The appraiser uses two valuation methodologies: (1) the discounted cash flow method, which considers several years of normalized historical data and projected earnings or cash flows, and (2) a comparison to the guideline public company method which considers estimates of multiples derived from publicly traded companies and ongoing earnings. The two methods are both assigned weighting of 50%, and a discount is then applied to reflect the lack of marketability.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of the Company common stock could result in a different fair value measurement at the reporting date.

Subsequent events: The Company has evaluated subsequent events for potential recognition and/or disclosure through October 5, 2023, the date the financial statements were available to be issued.

Note 3. Information Certified by TI-Trust, Inc.

The following is a summary of the Plan's asset information as of and for the year ended December 31, 2022, included throughout the Plan's financial statements and ERISA-required supplemental schedule, obtained by management and agreed to or derived from the information certified by TI-Trust, Inc., the trustee of the Plan. The Plan Administrator has obtained a certification from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate, to the best of their knowledge. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and ERISA-required supplemental schedule related to the following assets:

Investments at fair value, BOS Holdings Inc. common stock	$ 21,018,090
Cash	118
	$ 21,018,208

The trustee also certified to the completeness and accuracy of $659,848 of net depreciation in fair value of investments for the year ended December 31, 2022.

Note 4. Administration of Plan Assets

The Plan's assets, which consist primarily of BOS Holdings Inc. common stock, are held by the trustee of the Plan.

Company contributions are held and managed by the trustee, who may invest cash received and makes distributions to participants. The trustee also administers the payment of interest and principal on the note payable, which is provided to the trustee through contributions as determined by the Company.

Certain administrative functions are performed by officers or employees of the Company for which no compensation is paid by the Plan. Plan expenses are paid by the Plan Sponsor.

Note 5. Investments and Related Party Transactions

At December 31, 2022 and 2021, the Plan owned 249,000 shares, or 100%, of the outstanding common stock of BOS Holdings Inc.

Information about the Plan's investment in BOS Holdings Inc.'s common stock at December 31, 2022 and 2021, is as follows:

	2022		2021	
	Allocated	Unallocated	Allocated	Unallocated
Number of shares, rounded	249,000	-	234,167	14,833
Cost	$ 4,680,000	$ -	$ 4,424,251	$ 255,749
Fair value	$ 21,018,090	$ -	$ 20,386,598	$ 1,291,342

Note 6. Pledged Assets and Note Payable

The Plan purchased 174,000 shares of Company stock in exchange for a note payable obligation with the Company. The note payable obligation was due in annual installments totaling $300,000 of principal, plus interest at 4%, with final payment being made in April 2022 with no further obligation as of December 31, 2022.

Note 7. Fair Value Measurements

The Plan's investments are classified by level within the fair value hierarchy. The fair value of the BOS Holdings Inc. common stock is classified as a Level 3 asset as of December 31, 2022.

Changes in fair value levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another.

We evaluate the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2022 and 2021 there were no transfers in or out of Level 3.

Note 8. Income Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated January 15, 2015, that the Plan is designed in accordance with the applicable requirements of the Code. The Plan has been amended since receiving the determination letter; however, the Plan Administrator believes the Plan is currently being operated in compliance with the applicable requirements of the Code.

The Plan Administrator has evaluated the Plan's tax positions and concluded that the Plan has maintained its tax-exempt status and has taken no uncertain tax positions that require adjustment to the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities for the years before 2019.

Note 9. Risks and Uncertainties

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.
