INDEPENDENT AUDITOR'S REPORT

To the Participants and Plan Administrator of the
Westlake Defined Benefit Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the Financial Statements

We have performed audits of the financial statements of the Westlake Defined Benefit Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the Statements of Net Assets Available for Benefits as of December 31, 2022 and 2021, and the related Statements of Changes in Net Assets Available for Benefits for the years then ended, and the Statement of Accumulated Plan Benefits as of December 31, 2021, and the related Statement of Changes in Accumulated Plan Benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2022 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management then has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

INDEPENDENT AUDITOR'S REPORT, CONTINUED

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with U.S. GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with U.S. GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

INDEPENDENT AUDITOR'S REPORT, CONTINUED

Other Matter - Supplemental Schedule Required by ERISA

The supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with U.S. GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

WESTLAKE DEFINED BENEFIT PLAN

NOTES TO FINANCIAL STATEMENTS

1. Description of Plan

The Westlake Defined Benefit Plan (the "Plan") is a noncontributory defined benefit plan and is subject to the provisions of the Internal Revenue Code of 1986 ("IRC") and the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan was established effective March 1, 1990. It covers certain employees of Westlake Management Services, Inc. ("WMS") (the "Company"). Prior years' service is recognized for purposes of accruing benefits under the Plan with respect to certain employees as defined in the Plan agreement.

The Plan has been amended and restated from time to time, most recently on January 1, 2019, to incorporate all previous amendments and to comply with the latest tax laws and regulations.

Effective June 1, 2021, the Company amended the Plan to freeze benefit accruals for legacy Axiall Corporation Retirement Plan – Lake Charles participants and added a lump sum optional form of payment for these participants.

Administration

The Plan is administered by WMS. The Northern Trust Company (the "Trustee") serves as the Plan's trustee.

Following is a brief description of the Plan's provisions. Participants should refer to the Plan document for more complete information.

Investments

Investments are held in a master trust managed by The Northern Trust Company, named the Westlake Master Defined Benefit Trust (the "Master Trust"). The Master Trust was established for the investment of the Plan's assets and the assets of other defined benefit plans sponsored by WMS which may be acquired in the future. Each participating plan has an undivided interest in the net assets of the Master Trust. During 2018, the Westlake Salaried Employees' Defined Benefit Plan, a defined benefit plan sponsored by WMS, terminated and its remaining net assets were distributed, resulting in the Plan obtaining a 100% interest in the Master Trust (See Note 4).

Retirement Benefits

The Plan is frozen to new participants.

Normal monthly retirement benefits are generally calculated under a formula based upon the participant's number of years of credited service multiplied by a retirement income factor as defined in the Plan as forty-five dollars for the years ended December 31, 2022 and 2021. The Plan is responsible for payment of this monthly benefit, less the fixed portion of benefits to be paid by a previous employer, where applicable, which is based on previous service with that employer. Benefits payable in the event of death, disability or early retirement are computed in a similar manner as defined in the Plan. Lump-sum payments are allowed for eligible participants. Certain benefits that accrued under a previous plan that has merged into the Plan are calculated based on the provisions of the previous plan prior to the merger as further described in the Plan document.

The disability retirement pension payable to a participant shall be a monthly amount determined in the same manner as a normal retirement pension, except the participation years of benefit service shall be determined as of the date that the participant first becomes entitled to the disability retirement pension payment, and a different offset may apply than is otherwise applicable under the Plan.

Certain general and temporary limitations exist on the benefits described above and are more fully explained in the Plan document.

Payment of Retirement Benefits

Payment of benefits to which a participant is entitled and has elected to receive shall begin at:

1. Normal retirement - the participant attains age 65 and has completed 5 years of service;
2. Early retirement - the participant attains the earlier of age 55 and has completed 10 years of service or, for certain participants, has completed 30 years of participation; or
3. Late retirement - the participant terminates employment with the Company after attaining normal retirement age.

WESTLAKE DEFINED BENEFIT PLAN

NOTES TO FINANCIAL STATEMENTS

1. Description of Plan, continued

Payment of Retirement Benefits, continued

Unless a participant elects in writing to receive an alternate form of payment, benefits are payable in the form of a qualified joint and survivor annuity for married participants and a 5-year certain and life annuity for unmarried participants.

Vesting Provisions

An employee becomes 100 percent vested after five years of vesting service.

Funding Policy

The Company's funding policy is to contribute such amounts as are necessary, on an actuarial basis, to provide the Plan with assets sufficient to meet the benefits to be paid to participants and their beneficiaries. The contributions to the Plan are based on the limitations of maximum and minimum tax-deductible deposits certified by the actuary. Any gains resulting from forfeitures of non-vested benefits will be used to reduce future contributions that would otherwise be required to provide for the defined level of benefits under the Plan. The Company made no contributions to the Plan for the years ended December 31, 2022 and 2021. The Plan met the minimum funding requirements of the IRC and ERISA.

Termination of the Plan

Although it has not expressed any intent to do so, the Company has the right to discontinue contributions at any time and terminate the Plan. In the event of Plan termination, the assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Benefits attributable to employer contributions, taking into account those paid out before termination.
2. Annuity benefits for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
3. Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC") (a U.S. government agency) up to the applicable limitations.
4. All other vested benefits (that is, vested benefits not insured by the PBGC).
5. All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC. Any assets remaining after all Plan expenses have been paid and all accrued liabilities have been provided for by the purchase of annuities or otherwise will revert to the Company.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in Plan interest in Westlake Master Defined Benefit Trust investment (loss) income in the accompanying statements of changes in net assets available for benefits.

NOTES TO FINANCIAL STATEMENTS

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements and supplemental schedule of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Valuation of Investments and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect certain reported amounts of net assets available for benefits and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Accordingly, actual results could differ from those estimates.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the services employees have rendered. Accumulated plan benefits include benefits expected to be paid to retired or terminated employees or their beneficiaries, beneficiaries of employees who have died and present employees or their beneficiaries. The accumulated plan benefits for active employees are based upon current benefit levels and actual service.

Benefits payable under all circumstances (retirement, death, disability and termination of employment) are included to the extent they are deemed attributable to employee services rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The change in assumptions primarily represents the following: (i) the use of updated mortality tables as prescribed by the Internal Revenue Service ("IRS"); (ii) updated form of payment assumptions for legacy Axiall Corporation Retirement Plan – Lake Charles participants to reflect the 2021 plan amendment which added a lump sum form of payout effective May 31, 2021; and (iii) a decrease in assumed expenses from \$3.4 million to \$3.3 million. The actuarial present value of accumulated plan benefits was calculated as of January 1, 2022 and accordingly, the Plan presents the statement of accumulated plan benefits and the statement of changes in accumulated plan benefits using beginning of year actuarial data. Had the actuarial valuation been performed as of December 31, 2021, there would be no material differences.

The significant actuarial assumptions underlying the actuarial valuations for January 1, 2022 are as follows:

Interest rate	7%
Lump sum interest rate	4.25%

Risks and Uncertainties

The Master Trust utilizes various investment securities, including mutual funds, bank collective trust funds, and corporate bonds. Such investments are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities in the near term could materially affect investment balances reported in the statements of net assets available for benefits.

NOTES TO FINANCIAL STATEMENTS

2. Summary of Significant Accounting Policies, continued

Risks and Uncertainties, continued

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

3. Information Certified by Trustee (Unaudited)

The Plan Administrator has elected the method of annual reporting and compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, certain information related to investments disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2022 and 2021, and net (depreciation) appreciation in fair value of investments, and interest and dividends for the years then ended, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the Trustee of the Plan.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

4. Plan Interest in Westlake Master Defined Benefit Trust (Unaudited)

As of both December 31, 2022 and 2021, the Plan held a 100% interest in the Master Trust. The value of the Plan's interest in the Master Trust is based on the beginning of the year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. Investment income and administrative expenses related to the Master Trust are allocated to the individual plans based upon the amount of time the Plan's assets were invested in the Master Trust.

The Plan's interest in the Master Trust as of and for the years ended December 31, 2022 and 2021 are as follows (in thousands):

	<u>2022</u>	<u>2021</u>

Fair Value Measurements

Financial Accounting Standards Board Accounting Standards Codification Topic 820 ("ASC 820"), *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

- Level 1** Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

WESTLAKE DEFINED BENEFIT PLAN

NOTES TO FINANCIAL STATEMENTS

4. Plan Interest in Westlake Master Defined Benefit Trust (Unaudited), continued

Fair Value Measurements, continued

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies for the years ended December 31, 2022 and 2021.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Master Trust are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their net asset value ("NAV") and to transact at that price. The mutual funds held by the Master Trust are deemed to be actively traded.

Corporate bonds: Valued at fair value based on information provided by the investment advisor, which includes the use of pricing models that maximizes the use of observable inputs for similar securities.

Bank collective trust funds: Valued at the NAV of units of a bank collective trust. The NAV is a readily determinable fair value and is the basis for current transactions. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Income Tax Status

The IRS has determined and informed the Plan Sponsor by a letter dated October 19, 2015, that the Plan is qualified and the trust established under the Plan is tax-exempt, under the appropriate sections of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Accordingly, no provision for federal income tax has been recorded.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2022 and 2021, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Related Party Transactions

Certain Plan investments are in bank collective trust funds managed by an affiliate of The Northern Trust Company, and therefore, such transactions qualify as party-in-interest transactions under ERISA. Consequently, such transactions are covered by an exemption from the prohibited transaction provisions of ERISA and the IRC.

7. Subsequent Events

Plan management has evaluated subsequent events through October 13, 2023, which is the date the financial statements were available for issuance, and has concluded that there are no other significant events to be reported.

Benefit commencement date

- Preretirement death benefit
 - Former Westlake Salaried and former Westlake Wage participants:* Date the employee would have attained age 55 if death occurs before age 55 or age at death if after age 55
 - Former Georgia Gulf Corporation Retirement Plan participants:* Earliest date eligible to receive a benefit from the plan.
 - Former Axiall Blue Salaried Plan participants:* Immediately if eligible for early commencement at the date of death or at the date the employee would have attained age 65 if not eligible for early retirement.
 - Former Axiall Union participants:* Date the employee would have attained
 - (i) Age 55 if death occurs after completion of 85 points (age plus service),
 - (ii) Age 60 if death occurs following 10 years of service, or
 - (iii) Age 65
- Deferred vested benefit
 - Age 62 or normal retirement age if not able to commence early
- Disability benefit
 - Westlake DB and Former Axiall Blue Salaried Plan participants:*
Age 65
 - Former Westlake Salaried participants:*
None
 - Former Georgia Gulf Corporation Retirement Plan participants:*
Age 65 for plans that provide continued accruals. Otherwise upon termination of employment. Occupational pension from injury or disease is assumed to be \$0.
 - Former Axiall Union participants:*
Age 65 if less than 10 years of vesting service; otherwise, immediately upon disablement. Occupational pension from injury or disease is assumed to be \$0.
- Retirement benefit
 - Upon retirement

Percent married 70% of participants are assumed to be married.

Spouse age Based on valuation census data for current retirees, if available; otherwise wife 3 years younger than husband for future retirees.

Other assumptions

- Former Georgia Gulf Corporation Retirement Plan participants
 - 100% of plan participants with an SBT Employer Account as defined in the Axiall Corporation 401(k) Retirement Savings Plan take the account balance as a lump sum upon retirement rather than rolling their account balance into the plan. SBT account balances are assumed to earn investment returns of 7.0% per year.

Plan's definition of actuarial equivalence used to convert SBT account balances to annuities

- Former Georgia Gulf Corporation Retirement Plan participants 1971 Group Annuity Mortality table blended 80% male and 20% female for participants (and 80% female and 20% male for nonparticipants) and the interest rate set by the PBGC for valuing immediate annuities as of the preceding January 1 (assumed an interest rate of 2.5%).

Timing of benefit payments

Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on the date of decrement.

Methods

Valuation date

First day of plan year.

Funding target

Present value of accrued benefits as required by regulations under IRC §430.

Target normal cost

Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.

Decrement timing

The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.

Actuarial value of assets

Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year).

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Sources of Data and Other Information

Westlake Chemical Corporation, through a third-party administrator, furnished participant data as of January 1, 2022 for the Westlake DB Plan. Data was reviewed for reasonableness and consistency, but no audit was performed. Assumptions or estimates were made when data was not available.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale – Significant Economic Assumptions for Contributions

Interest rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Cash balance interest crediting rate	<p><i>Westlake DB:</i> The plan credits interest to cash balance accounts using the 30-year Treasury rate as of the last business day of October, but with a minimum interest credit rate of 4.00%.</p> <p>Interest crediting rate assumption is long-term assumption based on consensus economic forecasts for 30-year Treasury rates adjusted to reflect current conditions, minimum interest credits under the plan and the interest rate basis defined under the plan, if different.</p> <p>We believe that the selected assumptions do not significantly conflict with what would be reasonable based on future expectations consistent with other non-prescribed economic assumptions.</p>
Lump sum conversion rate	As required by IRC §430, lump sum benefits are valued using “annuity substitution”, so that the interest rates assumed are effectively the same as described above for the interest rate.
Assumed return for asset smoothing	Westlake selected expected long-term rates of return on assets based on an estimate of future experience for trust asset returns, reflecting the plans’ current asset allocations, and current and expected future market conditions. Rates are net of investment expenses paid from the trust.
Investment Return and Conversion Rate for Pension Roll-over Account	<p>For the Stock Bonus Trust (SBT) account in the Westlake DB Plan, an annual investment return assumption of 7.00% has been assumed for these sub-accounts of the 401(k) savings plan. This is a long-term assumption based on future expectations consistent with other non-prescribed economic assumptions.</p> <p>Conversion to annuity (used to offset pension benefit if account is not rolled over to the pension plan upon termination of employment) is based on plan’s definition defined as the interest rate set by the PBGC for valuing immediate annuities. The long-term assumption is 2.50% which is based on future expectations consistent with other non-prescribed economic assumptions.</p>

Assumptions Rationale – Significant Demographic Assumptions

Healthy and Disabled Mortality	As prescribed by IRC §430(h).

Termination	Termination rates are based on an experience study conducted in 2019 combined with best estimates for future experience with consideration given to whether any conditions have changed that would be expected to produce different results in the future.
Retirement	Retirement rates are based on an experience study conducted in 2019 combined with best estimates for future experience with consideration given to whether any conditions have changed that would be expected to produce different results in the future.
Deferred vested benefit commencement age for participants	Deferred vested participants are assumed to begin benefits at age 62 or normal retirement age if not able to commence early (or current age if later) which is based on an experience study conducted in 2019.
Form of Payment	Form of payment elections were based on an experience study conducted in 2019 combined with best estimates for future experience with consideration given to whether any conditions have changed that would be expected to produce different results in the future.
Spouse age	The assumed age difference for spouses is based on general population statistics on the age difference for married individuals of retirement age.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes as described here, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Change in assumptions since prior valuation

The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430.

The mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvement, as required by IRC §430.

The mortality table used for lump sum conversions was updated to a 50/50 blend of the Optional Combined Female and Male IRS 2006 base tables (RP-2014 base mortality, factoring out improvement back to 2006), where optional combined represents blend of annuitant and non-annuitant rates, with projection using Scale MP-2021 after 2006.

The assumed plan-related expenses added to the target normal cost were updated to reflect recent experience and estimated 2022 PBGC premiums, as shown below:

Year	Westlake DB Plan
2021	\$3,350,000
2022	\$3,295,000

The Flat Rate Formula (Former Westlake Wage Employees)

Coverage and Participation

All hourly employees of the Westlake PVC Corporation Calvert City Plant that are covered by a collective bargaining agreement and are not leased employees are eligible for participation in the plan on the first day of the Plan Year coincident with or following the attainment of 1 year of Vesting service.

Effective March 1, 1990, all employees who were participants in the BF Goodrich Retirement Program (for Salaried employees) as of February 28, 1990 became eligible to participate.

Effective August 15, 1997, former Wage employees of the CA&O division of BF Goodrich who were acquired by Westlake became eligible to participate.

In December 2004, employees of Westlake Vinyls, Inc. as of November 1, 2004 and employees of Westlake Management Service as of December 7, 2004 were given the choice to end their active participation in the plan as of January 1, 2005 in exchange for employer annual retirement contributions under the Westlake Savings Plan.

This portion of the plan was closed to new entrants effective November 1, 2004. All benefits were frozen as of January 31, 2015.

Vesting service

Elapsed time from original date of hire, rounded to completed months.

Benefit service

Elapsed time from October 15, 1991 for the PVC group, and elapsed time from original date of hire for all other participants, rounded to completed months. Benefit service was frozen for participants that transferred to the Westlake Savings Plan for benefit accrual purposes as of December 31, 2004, and for all participants as of January 31, 2015. Benefit service continues to accrue for early retirement eligibility determination.

Benefit Rate

The Benefit Rate at inception of the plan was \$31 for all employees. The Benefit Rate for employees of the Westlake Monomers Group and the PVC Group increased in accordance with the schedule below.

PVC Calvert City Group		Westlake Monomers Group

Accrued Benefit	The accrued benefit, payable monthly and commencing on the normal retirement date, is equal to the Benefit Rate multiplied by the participant's Benefit Service. For employees of the Westlake Monomers Group, this benefit is offset by the frozen accrued benefit payable under the BF Goodrich Plan.
Normal Retirement Date	First of the month coincident with or following the attainment of age 65 with 5 years of Vesting service.

Eligibility for Benefits

Normal Retirement	Retirement on Normal Retirement Date.
Early Retirement	Age 55 with 10 years of Vesting service, or 30 years of Benefit service.
Postponed Retirement	Retirement after Normal Retirement Date.
Vested Termination	Termination for reasons other than death or retirement after completing 5 years of Vesting service.
Disability	10 year of Vesting service.
Pre-Retirement Death Benefit	Married participants; Death while eligible for retirement or vested termination benefits.
Post-Retirement Death Benefit	Married participants in receipt of a benefit or other allowance, except for terminated vested participants that separated from employment prior to age 60.

Benefits Paid Upon the Following Events

Normal Retirement	Accrued benefit as of the Normal Retirement Date.
Early Retirement	<p>Accrued benefit, reduced by 0.4% for each month that actual retirement precedes age 62. No reductions apply if a participant retires after the attainment of 30 years of Benefit service.</p> <p>Participants that retire at age 55 after the attainment of 30 years of Benefit service may also choose to forego the aforementioned benefit in exchange for a benefit that they can receive until becoming eligible for either old age insurance or disability benefits under the Federal Social Security Act. The amount of this benefit is equal to the sum of (A), (B), and (C), as follows:</p> <p>(A) \$830</p>

Plan Name:	Westlake Defined Benefit Plan
EIN / PN:	76-0321065/001

Valuation Date:	January 1, 2022

- (B) \$10 for each year that the participant's age exceeds 55
- (C) \$31 for each year of the participant's Benefit service in excess of 30 years.

Postponed Retirement

The greater of the accrued benefit and the actuarial equivalent of the normal retirement benefit as of the retirement date.

Vested Termination

Accrued benefit as of the date of termination, payable at age 65. If the participant commences their benefit prior to age 65, the benefit will be the actuarial equivalent of the benefit payable at age 65.

Disability

An amount computed as for normal retirement but based on the participant's years of Benefit service at the date of disability, commencing as of the 1st day of the month following the date of disability.

Pre-Retirement Death Benefit

■ Before Early Retirement Eligibility

The spouse's benefit is a life annuity payable at the participant's 55th birthday in an amount equal to 50% of the Qualified Joint and Survivor Annuity to which the participant would have been entitled to based on the participant's accrued benefit at the earlier of their date of death and their date of separation from service. The annuity is reduced by 4.8% for each year that commencement precedes the participant's 62nd birthday.

■ After Early Retirement Eligibility

The spouse's benefit is a life annuity payable immediately in an amount equal to 50% of the Qualified Joint and Survivor Annuity to which the participant would have been entitled to based on the participant's accrued benefit at the earlier of their date of death and their date of separation from service. The annuity is reduced by 4.8% for each year that commencement precedes the participant's 62nd birthday.

Post-Retirement Death Benefit

The spouse is entitled to a lump sum payment of \$2,250.

Stock Bonus Trust Account (SBT Employer Account)

SBT Employer Account

Normal Retirement Benefit if Account is Rolled Over:

A member can elect to roll his SBT Employer Account over into the Retirement Plan when he retires or terminates. If he does so, the benefit described in "Monthly Pension Benefit" will be computed as if his SBT Employer Account is zero and, furthermore, in no event will the Pre- 1985 Accrual computed in "Monthly Pension Benefit" be less than an annuity which is the actuarial equivalent of his SBT Employer Account.

Early Retirement Benefit if Account is Rolled Over:

If a member rolls his SBT Employer Account over into the Retirement Plan, his early retirement benefit shall be the sum of:

- (i) the greater of
 - (a) the benefit calculated in "Monthly Pension Benefit", assuming his SBT Employer Account is zero, times the early retirement factor in "Early Retirement Benefit," or
 - (b) the actuarially equivalent annuity of his SBT Employer Account payable at his early retirement date; and
- (ii) the Post-1984 Accrual benefit calculated in "Monthly Pension Benefit" times the early retirement factor in "Early Retirement Benefit."

Death Benefit Guarantee: If a member rolls over his SBT Employer Account and subsequently dies, in no event will total payments made to him or his beneficiary be less than the value of his SBT Employer Account when rolled over.

INDEPENDENT AUDITOR'S REPORT

To the Participants and Plan Administrator of the
Westlake Defined Benefit Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the Financial Statements

We have performed audits of the financial statements of the Westlake Defined Benefit Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the Statements of Net Assets Available for Benefits as of December 31, 2022 and 2021, and the related Statements of Changes in Net Assets Available for Benefits for the years then ended, and the Statement of Accumulated Plan Benefits as of December 31, 2021, and the related Statement of Changes in Accumulated Plan Benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2022 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management then has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

INDEPENDENT AUDITOR'S REPORT, CONTINUED

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with U.S. GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with U.S. GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

INDEPENDENT AUDITOR'S REPORT, CONTINUED

Other Matter - Supplemental Schedule Required by ERISA

The supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with U.S. GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

WESTLAKE DEFINED BENEFIT PLAN

NOTES TO FINANCIAL STATEMENTS

1. Description of Plan

The Westlake Defined Benefit Plan (the "Plan") is a noncontributory defined benefit plan and is subject to the provisions of the Internal Revenue Code of 1986 ("IRC") and the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan was established effective March 1, 1990. It covers certain employees of Westlake Management Services, Inc. ("WMS") (the "Company"). Prior years' service is recognized for purposes of accruing benefits under the Plan with respect to certain employees as defined in the Plan agreement.

The Plan has been amended and restated from time to time, most recently on January 1, 2019, to incorporate all previous amendments and to comply with the latest tax laws and regulations.

Effective June 1, 2021, the Company amended the Plan to freeze benefit accruals for legacy Axiall Corporation Retirement Plan – Lake Charles participants and added a lump sum optional form of payment for these participants.

Administration

The Plan is administered by WMS. The Northern Trust Company (the "Trustee") serves as the Plan's trustee.

Following is a brief description of the Plan's provisions. Participants should refer to the Plan document for more complete information.

Investments

Investments are held in a master trust managed by The Northern Trust Company, named the Westlake Master Defined Benefit Trust (the "Master Trust"). The Master Trust was established for the investment of the Plan's assets and the assets of other defined benefit plans sponsored by WMS which may be acquired in the future. Each participating plan has an undivided interest in the net assets of the Master Trust. During 2018, the Westlake Salaried Employees' Defined Benefit Plan, a defined benefit plan sponsored by WMS, terminated and its remaining net assets were distributed, resulting in the Plan obtaining a 100% interest in the Master Trust (See Note 4).

Retirement Benefits

The Plan is frozen to new participants.

Normal monthly retirement benefits are generally calculated under a formula based upon the participant's number of years of credited service multiplied by a retirement income factor as defined in the Plan as forty-five dollars for the years ended December 31, 2022 and 2021. The Plan is responsible for payment of this monthly benefit, less the fixed portion of benefits to be paid by a previous employer, where applicable, which is based on previous service with that employer. Benefits payable in the event of death, disability or early retirement are computed in a similar manner as defined in the Plan. Lump-sum payments are allowed for eligible participants. Certain benefits that accrued under a previous plan that has merged into the Plan are calculated based on the provisions of the previous plan prior to the merger as further described in the Plan document.

The disability retirement pension payable to a participant shall be a monthly amount determined in the same manner as a normal retirement pension, except the participation years of benefit service shall be determined as of the date that the participant first becomes entitled to the disability retirement pension payment, and a different offset may apply than is otherwise applicable under the Plan.

Certain general and temporary limitations exist on the benefits described above and are more fully explained in the Plan document.

Payment of Retirement Benefits

Payment of benefits to which a participant is entitled and has elected to receive shall begin at:

1. Normal retirement - the participant attains age 65 and has completed 5 years of service;
2. Early retirement - the participant attains the earlier of age 55 and has completed 10 years of service or, for certain participants, has completed 30 years of participation; or
3. Late retirement - the participant terminates employment with the Company after attaining normal retirement age.

WESTLAKE DEFINED BENEFIT PLAN

NOTES TO FINANCIAL STATEMENTS

1. Description of Plan, continued

Payment of Retirement Benefits, continued

Unless a participant elects in writing to receive an alternate form of payment, benefits are payable in the form of a qualified joint and survivor annuity for married participants and a 5-year certain and life annuity for unmarried participants.

Vesting Provisions

An employee becomes 100 percent vested after five years of vesting service.

Funding Policy

The Company's funding policy is to contribute such amounts as are necessary, on an actuarial basis, to provide the Plan with assets sufficient to meet the benefits to be paid to participants and their beneficiaries. The contributions to the Plan are based on the limitations of maximum and minimum tax-deductible deposits certified by the actuary. Any gains resulting from forfeitures of non-vested benefits will be used to reduce future contributions that would otherwise be required to provide for the defined level of benefits under the Plan. The Company made no contributions to the Plan for the years ended December 31, 2022 and 2021. The Plan met the minimum funding requirements of the IRC and ERISA.

Termination of the Plan

Although it has not expressed any intent to do so, the Company has the right to discontinue contributions at any time and terminate the Plan. In the event of Plan termination, the assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Benefits attributable to employer contributions, taking into account those paid out before termination.
2. Annuity benefits for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
3. Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC") (a U.S. government agency) up to the applicable limitations.
4. All other vested benefits (that is, vested benefits not insured by the PBGC).
5. All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC. Any assets remaining after all Plan expenses have been paid and all accrued liabilities have been provided for by the purchase of annuities or otherwise will revert to the Company.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in Plan interest in Westlake Master Defined Benefit Trust investment (loss) income in the accompanying statements of changes in net assets available for benefits.

WESTLAKE DEFINED BENEFIT PLAN

NOTES TO FINANCIAL STATEMENTS

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements and supplemental schedule of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Valuation of Investments and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect certain reported amounts of net assets available for benefits and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Accordingly, actual results could differ from those estimates.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the services employees have rendered. Accumulated plan benefits include benefits expected to be paid to retired or terminated employees or their beneficiaries, beneficiaries of employees who have died and present employees or their beneficiaries. The accumulated plan benefits for active employees are based upon current benefit levels and actual service.

Benefits payable under all circumstances (retirement, death, disability and termination of employment) are included to the extent they are deemed attributable to employee services rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The change in assumptions primarily represents the following: (i) the use of updated mortality tables as prescribed by the Internal Revenue Service ("IRS"); (ii) updated form of payment assumptions for legacy Axiall Corporation Retirement Plan – Lake Charles participants to reflect the 2021 plan amendment which added a lump sum form of payout effective May 31, 2021; and (iii) a decrease in assumed expenses from \$3.4 million to \$3.3 million. The actuarial present value of accumulated plan benefits was calculated as of January 1, 2022 and accordingly, the Plan presents the statement of accumulated plan benefits and the statement of changes in accumulated plan benefits using beginning of year actuarial data. Had the actuarial valuation been performed as of December 31, 2021, there would be no material differences.

The significant actuarial assumptions underlying the actuarial valuations for January 1, 2022 are as follows:

Interest rate	7%
Lump sum interest rate	4.25%

Risks and Uncertainties

The Master Trust utilizes various investment securities, including mutual funds, bank collective trust funds, and corporate bonds. Such investments are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities in the near term could materially affect investment balances reported in the statements of net assets available for benefits.

WESTLAKE DEFINED BENEFIT PLAN

NOTES TO FINANCIAL STATEMENTS

2. Summary of Significant Accounting Policies, continued

Risks and Uncertainties, continued

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

3. Information Certified by Trustee (Unaudited)

The Plan Administrator has elected the method of annual reporting and compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, certain information related to investments disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2022 and 2021, and net (depreciation) appreciation in fair value of investments, and interest and dividends for the years then ended, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the Trustee of the Plan.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

4. Plan Interest in Westlake Master Defined Benefit Trust (Unaudited)

As of both December 31, 2022 and 2021, the Plan held a 100% interest in the Master Trust. The value of the Plan's interest in the Master Trust is based on the beginning of the year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. Investment income and administrative expenses related to the Master Trust are allocated to the individual plans based upon the amount of time the Plan's assets were invested in the Master Trust.

The Plan's interest in the Master Trust as of and for the years ended December 31, 2022 and 2021 are as follows (in thousands):

	<u>2022</u>	<u>2021</u>
Plan interest in Master Trust	\$ 415,462	\$ 561,770
Plan interest in Master Trust investment (loss) income	\$ (96,253)	\$ 52,307

Fair Value Measurements

Financial Accounting Standards Board Accounting Standards Codification Topic 820 ("ASC 820"), *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

- Level 1** Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Fair Value Measurements, continued

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies for the years ended December 31, 2022 and 2021.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Master Trust are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their net asset value ("NAV") and to transact at that price. The mutual funds held by the Master Trust are deemed to be actively traded.

Corporate bonds: Valued at fair value based on information provided by the investment advisor, which includes the use of pricing models that maximizes the use of observable inputs for similar securities.

Bank collective trust funds: Valued at the NAV of units of a bank collective trust. The NAV is a readily determinable fair value and is the basis for current transactions. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Income Tax Status

The IRS has determined and informed the Plan Sponsor by a letter dated October 19, 2015, that the Plan is qualified and the trust established under the Plan is tax-exempt, under the appropriate sections of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Accordingly, no provision for federal income tax has been recorded.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2022 and 2021, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Related Party Transactions

Certain Plan investments are in bank collective trust funds managed by an affiliate of The Northern Trust Company, and therefore, such transactions qualify as party-in-interest transactions under ERISA. Consequently, such transactions are covered by an exemption from the prohibited transaction provisions of ERISA and the IRC.

7. Subsequent Events

Plan management has evaluated subsequent events through October 13, 2023, which is the date the financial statements were available for issuance, and has concluded that there are no other significant events to be reported.
