Report of Independent Auditors

The Audit Committee
Hawai'i Pacific Health

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Hawai'i Pacific Health 401(k) (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes (collectively referred to as the financial statements).

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with

GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matter

Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2022 (referred to as the supplemental schedule) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Hawai'i Pacific Health 401(k) Plan

Notes to Financial Statements

December 31, 2022

1. Plan Description

The following is not a comprehensive description of the Hawai'i Pacific Health 401(k) Plan (the Plan) and, therefore, does not include all situations and limitations covered by the Plan. Participants should refer to the plan document and summary plan description for more complete information, copies of which can be obtained from Hawai'i Pacific Health (the Plan Sponsor).

General

The Plan is a defined contribution plan covering certain employees of Hawai'i Pacific Health (HPH), companies whose sole member is HPH and/or any one or more of the entities required to be aggregated with HPH under Internal Revenue Code (Code) Section 414(b) or 414(c) (collectively referred to as HPH). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). As of December 31, 2022 and 2021, and for the years then ended, Charles Schwab was the custodian and trustee of the Plan's assets.

Effective December 31, 2005, the Plan was frozen and no employees may contribute to the Plan thereafter. Eligible employees may participate in the Hawai'i Pacific Health Savings Plan, a tax sheltered annuity plan described in Internal Revenue Service (IRS) Code Section 403(b), effective January 1, 2006.

Participant Accounts

Each participant's account is credited with the participant's contribution (prior to January 1, 2006), the employer's matching or discretionary contribution (prior to January 1, 2006), and an allocation of Plan earnings. Allocations are based on account balances as defined. Participants may select from several investment options, each providing varying degrees of risk and growth.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in HPH's contribution portion of their accounts is based on years of service or years of participation. Effective January 1, 2006, all Plan accounts became fully vested.

1. Plan Description (continued)

Participant Loans

Participants may borrow from their accounts up to a maximum of the lesser of 1) \$50,000 or 2) the greater of \$10,000 or 50% of their vested account balance. Loan terms range from one to five years. The loans are secured by the balance in the participant's account and bear interest at prevailing rates. As of December 31, 2022 and 2021, participant loans bore interest at various rates ranging from 4.25% to 13.84%, with various maturity dates. Principal and interest is paid ratably through loan coupons.

Payment of Benefits

On termination of service, a participant has the option to receive the total vested value of his or her account at any time. Benefits are recorded when paid.

Plan Termination

Although it has not expressed any interest to do so, HPH has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event the Plan is terminated, participant accounts would be distributed as soon as practicable.

Administrative Expenses

Administrative expenses may be paid from Plan assets. Certain administrative expenses of the Plan are paid by HPH. Expenses that are paid by HPH are excluded from these financial statements.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States (U.S. GAAP).

2. Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value (except for fully benefit-responsive investment contracts). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). Shares of mutual funds and personal choice retirement account investments allowed by the Plan (generally listed securities and mutual funds) are valued based on quoted market prices of shares held by the Plan at year-end. See Note 4 for further discussion and disclosure related to fair value measurements.

The HPH Retirement Investment Committee (the Committee) has engaged a third party to serve as a fiduciary with responsibility for determining the Plan's valuation policies and analyzing information provided by the investment custodian and issuers that is used to determine the fair value of the Plan's investments. The Committee oversees the services provided, including the Plan's valuation policies and investment analysis.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net realized and unrealized appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year. The Plan receives monies under a revenue sharing arrangement with certain investment funds, which are used to pay plan expenses. Amounts received by the Plan under revenue sharing agreements with its service providers totaled \$214,081 and \$220,246 for the years ended December 31, 2022 and 2021, respectively.

The Guaranteed Interest Account meets the fully benefit-responsive investment contract criteria and, therefore, is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals and administrative expenses. The Guaranteed Interest Account invests primarily in a conservative array of securities and cash-equivalent investments with a minimum interest credit range between 1.00% and 3.00%. These investments are intended to provide stable crediting rates and limited volatility consistent with preservation of principal. Participants may deposit and withdraw on a daily basis at contract value and may also transfer to other investment options in the Plan. However, transfer restrictions may exist if the Plan offers competing funds. No direct transfers

2. Summary of Significant Accounting Policies (continued)

from the Guaranteed Interest Account contract to a competing investment option are allowed. Competing options generally include money market funds, other guaranteed funds, and bond funds with a duration less than three years. Any transfers from the Guaranteed Interest Account to a competing fund must first go through a noncompeting investment option and be held there for at least 90 days before completing the transfer.

Notes Receivable From Participants

Participant loans are classified as notes receivable from participants and are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are recorded when they are incurred. No allowance for credit losses has been recorded as of December 31, 2022 or 2021.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Subsequent Events

Subsequent events have been evaluated through October 12, 2023, the date these financial statements were issued.

COVID-19 Pandemic

On March 27, 2020, the Coronavirus Aid, Relief and Economic Security Act (CARES Act) was enacted and signed into law. Certain provisions of the CARES Act ceased the automatic payments of required minimum distributions through calendar year 2020 and permitted Plan participants to request penalty-free distributions of up to \$100,000 for qualifying coronavirus-related reasons, including a variety of adverse financial consequences resulting from the COVID-19 pandemic. For new loans through September 2020, the Plan also temporarily increased the maximum amounts available for borrowings to the lesser of (1) \$100,000 or (2) 100% of participant vested balance. The CARES Act also allowed the delay of loan payments on new and existing loans becoming due prior to December 2020, for up to one year. The Plan enacted these provisions into operations during 2020 to provide immediate assistance to participants. HPH formally amended the Plan for these changes on December 3, 2021.

3. Investments

All investment information disclosed in the accompanying financial statements and supplemental schedule, including non interest-bearing cash, investments held, and notes receivable from participants at December 31, 2022 and 2021, and net (depreciation) appreciation in fair value of investments, interest, dividends, and other receipts, including interest income on notes receivable from participants (2022—\$10,780; 2021—\$14,980) for the years then ended, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the trustees and custodian.

4. Fair Value Measurements

Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, clarifies that fair value is an exit price representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering such assumptions, ASC 820 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows:

Level 1 – Observable inputs such as quoted prices in active markets for identical assets or liabilities.

Hawai'i Pacific Health 401(k) Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

Level 2 – Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term for the assets or liabilities.

Level 3 – Unobservable inputs in which there is little or no market data and that are significant to the fair value of the assets or liabilities.

The table below presents the Plan's net assets available for benefits by general type measured at fair value on a recurring basis:

		December 31, 2022			
		Total	Level 1	Level 2	Level 3
Investments:					
Mutual funds	\$ 85,458,979	\$ 85,458,979	\$	–	\$ –
Personal choice retirement accounts	7,722,682	7,722,682		–	–
Total investments available for benefits at fair value	\$ 93,181,661	\$ 93,181,661	\$	–	\$ –
		December 31, 2021			
		Total	Level 1	Level 2	Level 3
Investments:					
Mutual funds	\$ 109,906,699	\$ 109,906,699	\$	–	\$ –
Personal choice retirement accounts	9,507,781	9,507,781		–	–
Total investments available for benefits at fair value	\$ 119,414,480	\$ 119,414,480	\$	–	\$ –

The Plan has classified its mutual funds and personal choice retirement account common stock and mutual fund investments as Level 1 investments within the fair value hierarchy because these securities are valued using inputs observable in active markets for identical securities. The fair value of these securities is valued using the market approach and inputs observable in active markets for similar securities.

Hawai'i Pacific Health 401(k) Plan

Notes to Financial Statements (continued)

5. Tax Status

The Plan has received a determination letter from the IRS dated August 28, 2014, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Party-In-Interest Transactions

Certain investments of the Plan are managed by Charles Schwab, and therefore, these transactions qualify as party-in-interest transactions. All of these transactions are exempt from the prohibited transactions rules.
