INDEPENDENT AUDITOR'S REPORT

To the Corning Incorporated Benefits Committee and
the Participants of the Corning Incorporated Investment Plan

Opinion

We have audited the financial statements of Corning Incorporated Investment Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2022 and 2021, and the changes in its net assets available for benefits for the year ended December 31, 2022, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Respectfully submitted,

1. Description of Plan

General
The following brief description of the Corning Incorporated Investment Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document and summary plan description for a more complete description of the Plan's provisions.

The Plan is a defined contribution profit-sharing plan established in January 1967 and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Administration
The Plan is administered by the Corning Incorporated Benefits Committee (the "Benefits Committee"), which is appointed by either the Vice President of Human Resources or the Senior Vice President of Human Resources of Corning Incorporated (the "Company"). Except for matters relating to the Plan's investment funds, the Benefits Committee administers the Plan in accordance with its terms and applicable laws and has all necessary and appropriate powers to carry out the provisions of the Plan.

The Investment Committee, appointed by the Treasurer, is generally responsible for the investment funds under the Plan.

Trustee and Recordkeeper
The Plan's assets are held by The Bank of New York Mellon, as trustee (the "Trustee"). The recordkeeper is Empower Retirement, LLC.

Eligibility
The Plan covers all employees of the Company and participating subsidiaries who are not members of a union. An employee is eligible for participation in the Plan upon reaching the age of 18 and completing one year of eligible service. Notwithstanding the foregoing, an employee who has attained age 18 and is scheduled on a normal basis to work at least 16 hours a week shall be immediately eligible.

Participant Accounts
Each participant's account is credited with the participant's contribution and allocations of (*a*) the Company's contribution and (*b*) Plan earnings, and charged for withdrawals and administrative expenses. Trustee and investment management fees are deducted from the earnings credited to participants' accounts. A flat monthly fee is charged to each participant's account to subsidize administrative expenses of the Plan and is determined by the Plan administrator. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested balance.

Vesting
Participants are vested immediately in their contributions plus actual earnings thereon. Company contributions to the Plan are fully vested after three years of service. All Company contributions become fully vested upon attainment of age 65, total and permanent disability, or death.

Contributions – Employer
Depending upon date of hire or employee election, Company matching contributions will be determined under the following provisions:

1) Employees hired on or after July 1, 2000 (and employees hired before July 1, 2000 who so elected) receive matching contributions that equal 100% of the first 2% of eligible pay contributed and 50% of the next 4% of eligible pay contributed, up to 6% of eligible pay.

2) Certain employees hired before July 1, 2000 receive Company matching contributions as a percentage of a participant's first 5% of eligible pay contributed according to years of service as of December 31 of the prior year as follows:

Less than 19 years of service	50%
19 but less than 24 years of service	75%
24 or more years of service	100%

Effective January 1, 2023, the Company matching contribution for this group of employees was changed to 100% of the first 2% of eligible pay contributed and 50% of the next 4% of eligible pay contributed, up to 6% of eligible pay.

With respect to all employees eligible to participate in the Plan and covered by the service-based match described above, beginning in January of the year the participant is expected to reach ten years of vesting service, irrespective of whether such employee has elected to contribute to the Plan, the Company contributes weekly, bi-weekly or monthly (based on the employee's pay frequency) a supplemental contribution to the Plan equal to 1.175% of such employee's eligible compensation. Employees hired on or after July 1, 2000 do not receive the supplemental contribution. Effective December 31, 2022, the Company discontinued this contribution.

Forfeiture balances of terminated participants' non-vested accounts are used to reduce future employer contributions to the Plan.

Contributions – Participants
Generally, participants may contribute up to 75% of their eligible compensation to the Plan on a before-tax basis, after-tax basis or any combination of the two.

The maximum amount a participant could contribute to the Plan on a before-tax basis in 2022 was $20,500. The Plan permits employees who have attained age 50 or older during a given year to contribute additional before-tax amounts up to the prescribed Internal Revenue Code ("IRC") limitation for "catch-up contributions."

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their before-tax deferral rate set at 6% of eligible compensation. New employees have 90 days in which to change or opt-out of this provision before deferrals begin.

Such auto-enrolled new employee shall have their before-tax contribution automatically increased annually in 1% increments until the employee's contribution percentage reaches 10% of eligible compensation, provided the employee has not elected to opt-out of the automatic increase feature.

Participants may elect, with the exception of the Corning Common Stock Fund, to have their contributions invested in the investment options listed below:

Vanguard Federal Money Market Fund
Vanguard Total Bond Market Index Trust
Vanguard Total Stock Market Index Trust
Vanguard Total International Stock Market Index Trust
Vanguard Target Retirement 2070 Trust Select
Vanguard Target Retirement 2065 Trust Select
Vanguard Target Retirement 2060 Trust Select

Vanguard Target Retirement 2035 Trust Select
Vanguard Target Retirement 2030 Trust Select
Vanguard Target Retirement 2025 Trust Select
Vanguard Target Retirement 2020 Trust Select
Vanguard Target Retirement Income Trust Select
Corning Common Stock Fund

Payment of Benefits
Benefit payments are made upon retirement (i.e., at least age 55 with five years of service), or in the event of a participant's total and permanent disability, death or other termination of employment. A retired participant can elect to receive distributions in a lump sum, installments, or intermittent withdrawals. The Plan also provides for withdrawals by participants prior to termination.

Administrative Expenses
Plan expenses can be paid by the Plan or the Company.

Notes Receivable from Participants
Participants are eligible to obtain loans from the Plan. Loans are limited to one loan per participant with a repayment term not to exceed 4.5 years, except for primary residence loans for which the term may not exceed ten years. The maximum amount of any loan is the lesser of one-half of the vested account balance or $50,000. The interest rate on a loan is established by the Benefits Committee. Participants are charged a fee on all loans, which reduces the loan proceeds.

Subsequent Events
In preparing the financial statements, the Company has evaluated events and transactions for potential recognition or disclosure through June 20, 2023, the date that the financial statements were available to be issued.

2. Summary of Significant Accounting Policies

Basis of Accounting
The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Due to the inherent uncertainty involved in making estimates, actual results reported in future periods could differ from those estimates.

Basis of Allocation from the Corning Incorporated Master Investment Trust
The Plan has a specific interest in the Corning Incorporated Master Investment Trust (the "Master Trust") in which another plan sponsored by the Company also participates. The Plan's specific interest in the Master Trust is credited or charged for contributions, transfers, and benefit payments relating to its participants. Realized gains and losses and changes in net unrealized appreciation or depreciation on investments, income (loss) from investments and expenses reflect the Plan's specific interest in the Master Trust.

Valuation of Master Trust Investments
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability at the measurement date. See Note 4 for further discussion of fair value measurements.

Interest is accrued by the Master Trust as earned, and dividends are recorded on the ex-dividend date.

Purchases and sales of securities are recorded by the Master Trust on a trade-date basis. Realized gains and losses for security transactions are reported using the average cost method. Unrealized gains and losses represent the difference between the cost and fair value of securities. Net appreciation/depreciation includes unrealized and realized gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits
Benefits are recorded when paid.

New Accounting Standards
There were no new accounting standards adopted during the year ended December 31, 2022 that materially impacted the Plan's disclosures.

Risks and Uncertainties
The Plan's investments are exposed to various risks, such as changes in interest rates, credit risks and market returns. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of these investments, it is at least reasonably possible that changes in valuations in the near term would materially affect participants' account balances and the amounts of such investments reported in the Plan's financial statements.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

3. Investments

The following presents the Master Trust's investments and the Plan's interest in Master Trust, at fair value, at December 31 (in thousands):

	$ 3,774,755	**$ 3,394,636**	**$ 4,513,343**	**$ 4,052,324**

Investment loss of the Master Trust for the year ended December 31, 2022 is as follows (in thousands):

	Master Trust
Net depreciation in fair value of investments	$ (694,027)
Interest and dividends	13,070
Total investment loss	**$ (680,957)**

4. Fair Value Measurements

The Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, Fair Value Measurement and Disclosure ("ASC 820") defines the fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities required to be recorded at fair value, the Plan considers the principal or most advantageous market in which it would transact and considers assumptions that market participants would use when pricing the asset or liability, such as inherent risk, transfer restrictions, and risk of nonperformance.

ASC 820 also establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There were no changes in the methodologies used at December 31, 2022 and 2021.

Corning common stock and short-term investment funds: Valued at the closing price reported on the active market on which the individual securities are traded.

Collective trust funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end. The NAV is used as a practical expedient to estimate fair value. The NAV of the underlying investments is obtained from information provided by the investment advisor using the audited financial statements of the common collective trust at year end.

Preferred stock: Valued at a fixed price as per information received from investment managers.

While the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Master Trust's assets at fair value as of December 31, 2022 and 2021 (in thousands):

	Assets at Fair Value as of December 31, 2022			
	Level 1	**Level 2**	**Level 3**	**Total**
Assets within the Master Trust:				
Short-Term Investment Funds	$ 265,074	$ -		$ 265,074
Preferred Stock			$ 345	345
Corning Common Stock	274,383			274,383
Total Investments	**$ 539,457**	**$ -**	**$ 345**	**$ 539,802**
Investments Measured at Net Asset Value (a)				3,222,126

Corning Common Stock	342,251			342,251
Total Investments	**$ 574,593**	$ -	**$ 387**	**$ 574,980**
Investments Measured at Net Asset Value (a)				3,938,364
Total Investment at Fair Value				**$ 4,513,344**

(a) In accordance with Subtopic 820-10, certain investments that are measured at fair value using the net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts included in the Corning Master Trust Fund (Note 3).

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 investments for the year ended December 31, 2022 (in thousands):

Balance, Beginning of the year	$ 387
Unrealized loss	(42)
Balance, End of the year	**$ 345**

5. Plan Termination

Although the Company has not expressed any intent to do so, it has the right to terminate the Plan subject to the provisions of ERISA and the IRC. In the event of Plan termination, all amounts credited to participants' accounts will become 100% vested and will be distributed to participants in accordance with Plan provisions.

6. Tax Status

The Plan received a favorable determination letter dated July 6, 2017 from the Internal Revenue Service ("IRS") indicating that it meets the requirements of Section 401(a) and 501(a) of the IRC and has qualified status as an employee retirement plan. The Plan has been amended since receiving the determination letter. The Plan administrator and the Plan's benefits counsel believe that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. A Voluntary Correction Procedure was filed in July 2021 related to certain distributions made from the Plan. No formal response from the IRS has been received related to proposed corrections.

7. Related Parties (in thousands)

Certain investments in the Master Trust are shares of the money market account managed by the Trustee. Transactions with this investment qualify as party-in-interest transactions. Notes receivable from participants also qualify as party-in-interest transactions.

The Master Trust held common stock issued by the Company of $274,383 and $342,251 as of December 31, 2022 and 2021, respectively.

8. Reconciliation of Financial Statements to Form 5500 (in thousands)

INDEPENDENT AUDITOR'S REPORT

To the Corning Incorporated Benefits Committee and
the Participants of the Corning Incorporated Investment Plan

Opinion

We have audited the financial statements of Corning Incorporated Investment Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2022 and 2021, and the changes in its net assets available for benefits for the year ended December 31, 2022, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Respectfully submitted,

1. Description of Plan

General
The following brief description of the Corning Incorporated Investment Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document and summary plan description for a more complete description of the Plan's provisions.

The Plan is a defined contribution profit-sharing plan established in January 1967 and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Administration
The Plan is administered by the Corning Incorporated Benefits Committee (the "Benefits Committee"), which is appointed by either the Vice President of Human Resources or the Senior Vice President of Human Resources of Corning Incorporated (the "Company"). Except for matters relating to the Plan's investment funds, the Benefits Committee administers the Plan in accordance with its terms and applicable laws and has all necessary and appropriate powers to carry out the provisions of the Plan.

The Investment Committee, appointed by the Treasurer, is generally responsible for the investment funds under the Plan.

Trustee and Recordkeeper
The Plan's assets are held by The Bank of New York Mellon, as trustee (the "Trustee"). The recordkeeper is Empower Retirement, LLC.

Eligibility
The Plan covers all employees of the Company and participating subsidiaries who are not members of a union. An employee is eligible for participation in the Plan upon reaching the age of 18 and completing one year of eligible service. Notwithstanding the foregoing, an employee who has attained age 18 and is scheduled on a normal basis to work at least 16 hours a week shall be immediately eligible.

Participant Accounts
Each participant's account is credited with the participant's contribution and allocations of (*a*) the Company's contribution and (*b*) Plan earnings, and charged for withdrawals and administrative expenses. Trustee and investment management fees are deducted from the earnings credited to participants' accounts. A flat monthly fee is charged to each participant's account to subsidize administrative expenses of the Plan and is determined by the Plan administrator. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested balance.

Vesting
Participants are vested immediately in their contributions plus actual earnings thereon. Company contributions to the Plan are fully vested after three years of service. All Company contributions become fully vested upon attainment of age 65, total and permanent disability, or death.

Contributions – Employer
Depending upon date of hire or employee election, Company matching contributions will be determined under the following provisions:

1) Employees hired on or after July 1, 2000 (and employees hired before July 1, 2000 who so elected) receive matching contributions that equal 100% of the first 2% of eligible pay contributed and 50% of the next 4% of eligible pay contributed, up to 6% of eligible pay.

2) Certain employees hired before July 1, 2000 receive Company matching contributions as a percentage of a participant's first 5% of eligible pay contributed according to years of service as of December 31 of the prior year as follows:

Less than 19 years of service	50%
19 but less than 24 years of service	75%
24 or more years of service	100%

Effective January 1, 2023, the Company matching contribution for this group of employees was changed to 100% of the first 2% of eligible pay contributed and 50% of the next 4% of eligible pay contributed, up to 6% of eligible pay.

With respect to all employees eligible to participate in the Plan and covered by the service-based match described above, beginning in January of the year the participant is expected to reach ten years of vesting service, irrespective of whether such employee has elected to contribute to the Plan, the Company contributes weekly, bi-weekly or monthly (based on the employee's pay frequency) a supplemental contribution to the Plan equal to 1.175% of such employee's eligible compensation. Employees hired on or after July 1, 2000 do not receive the supplemental contribution. Effective December 31, 2022, the Company discontinued this contribution.

Forfeiture balances of terminated participants' non-vested accounts are used to reduce future employer contributions to the Plan.

Contributions – Participants
Generally, participants may contribute up to 75% of their eligible compensation to the Plan on a before-tax basis, after-tax basis or any combination of the two.

The maximum amount a participant could contribute to the Plan on a before-tax basis in 2022 was $20,500. The Plan permits employees who have attained age 50 or older during a given year to contribute additional before-tax amounts up to the prescribed Internal Revenue Code ("IRC") limitation for "catch-up contributions."

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their before-tax deferral rate set at 6% of eligible compensation. New employees have 90 days in which to change or opt-out of this provision before deferrals begin.

Such auto-enrolled new employee shall have their before-tax contribution automatically increased annually in 1% increments until the employee's contribution percentage reaches 10% of eligible compensation, provided the employee has not elected to opt-out of the automatic increase feature.

Participants may elect, with the exception of the Corning Common Stock Fund, to have their contributions invested in the investment options listed below:

Vanguard Federal Money Market Fund
Vanguard Total Bond Market Index Trust
Vanguard Total Stock Market Index Trust
Vanguard Total International Stock Market Index Trust
Vanguard Target Retirement 2070 Trust Select

Payment of Benefits
Benefit payments are made upon retirement (i.e., at least age 55 with five years of service), or in the event of a participant's total and permanent disability, death or other termination of employment. A retired participant can elect to receive distributions in a lump sum, installments, or intermittent withdrawals. The Plan also provides for withdrawals by participants prior to termination.

Administrative Expenses
Plan expenses can be paid by the Plan or the Company.

Notes Receivable from Participants
Participants are eligible to obtain loans from the Plan. Loans are limited to one loan per participant with a repayment term not to exceed 4.5 years, except for primary residence loans for which the term may not exceed ten years. The maximum amount of any loan is the lesser of one-half of the vested account balance or $50,000. The interest rate on a loan is established by the Benefits Committee. Participants are charged a fee on all loans, which reduces the loan proceeds.

Subsequent Events
In preparing the financial statements, the Company has evaluated events and transactions for potential recognition or disclosure through June 20, 2023, the date that the financial statements were available to be issued.

2. Summary of Significant Accounting Policies

Basis of Accounting
The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Due to the inherent uncertainty involved in making estimates, actual results reported in future periods could differ from those estimates.

Basis of Allocation from the Corning Incorporated Master Investment Trust
The Plan has a specific interest in the Corning Incorporated Master Investment Trust (the "Master Trust") in which another plan sponsored by the Company also participates. The Plan's specific interest in the Master Trust is credited or charged for contributions, transfers, and benefit payments relating to its participants. Realized gains and losses and changes in net unrealized appreciation or depreciation on investments, income (loss) from investments and expenses reflect the Plan's specific interest in the Master Trust.

Valuation of Master Trust Investments
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability at the measurement date. See Note 4 for further discussion of fair value measurements.

Interest is accrued by the Master Trust as earned, and dividends are recorded on the ex-dividend date.

Purchases and sales of securities are recorded by the Master Trust on a trade-date basis. Realized gains and losses for security transactions are reported using the average cost method. Unrealized gains and losses represent the difference between the cost and fair value of securities. Net appreciation/depreciation includes unrealized and realized gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits
Benefits are recorded when paid.

New Accounting Standards
There were no new accounting standards adopted during the year ended December 31, 2022 that materially impacted the Plan's disclosures.

Risks and Uncertainties
The Plan's investments are exposed to various risks, such as changes in interest rates, credit risks and market returns. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of these investments, it is at least reasonably possible that changes in valuations in the near term would materially affect participants' account balances and the amounts of such investments reported in the Plan's financial statements.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

3. Investments

The following presents the Master Trust's investments and the Plan's interest in Master Trust, at fair value, at December 31 (in thousands):

	$ 3,774,755	**$ 3,394,636**	**$ 4,513,343**	**$ 4,052,324**

Investment loss of the Master Trust for the year ended December 31, 2022 is as follows (in thousands):

	Master Trust
Net depreciation in fair value of investments	$ (694,027)
Interest and dividends	13,070
Total investment loss	**$ (680,957)**

4. Fair Value Measurements

The Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, Fair Value Measurement and Disclosure ("ASC 820") defines the fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities required to be recorded at fair value, the Plan considers the principal or most advantageous market in which it would transact and considers assumptions that market participants would use when pricing the asset or liability, such as inherent risk, transfer restrictions, and risk of nonperformance.

ASC 820 also establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There were no changes in the methodologies used at December 31, 2022 and 2021.

Corning common stock and short-term investment funds: Valued at the closing price reported on the active market on which the individual securities are traded.

Collective trust funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end. The NAV is used as a practical expedient to estimate fair value. The NAV of the underlying investments is obtained from information provided by the investment advisor using the audited financial statements of the common collective trust at year end.

Preferred stock: Valued at a fixed price as per information received from investment managers.

While the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Master Trust's assets at fair value as of December 31, 2022 and 2021 (in thousands):

	Assets at Fair Value as of December 31, 2022			
	Level 1	**Level 2**	**Level 3**	**Total**
Assets within the Master Trust:				
Short-Term Investment Funds	$ 265,074	$ -		$ 265,074
Preferred Stock			$ 345	345
Corning Common Stock	274,383			274,383
Total Investments	**$ 539,457**	**$ -**	**$ 345**	**$ 539,802**
Investments Measured at Net Asset Value (a)				3,222,126
Total Investment at Fair Value				**$ 3,761,928**

	Assets at Fair Value as of December 31, 2021			
	Level 1	**Level 2**	**Level 3**	**Total**
Assets within the Master Trust:				
Short-Term Investment Funds	$ 232,342	$ -		$ 232,342
Preferred Stock			$ 387	387
Corning Common Stock	342,251			342,251
Total Investments	**$ 574,593**	$ -	**$ 387**	**$ 574,980**
Investments Measured at Net Asset Value (a)				3,938,364
Total Investment at Fair Value				**$ 4,513,344**

(a) In accordance with Subtopic 820-10, certain investments that are measured at fair value using the net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts included in the Corning Master Trust Fund (Note 3).

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 investments for the year ended December 31, 2022 (in thousands):

Balance, Beginning of the year	$ 387
Unrealized loss	(42)
Balance, End of the year	**$ 345**

5. Plan Termination

Although the Company has not expressed any intent to do so, it has the right to terminate the Plan subject to the provisions of ERISA and the IRC. In the event of Plan termination, all amounts credited to participants' accounts will become 100% vested and will be distributed to participants in accordance with Plan provisions.

6. Tax Status

The Plan received a favorable determination letter dated July 6, 2017 from the Internal Revenue Service ("IRS") indicating that it meets the requirements of Section 401(a) and 501(a) of the IRC and has qualified status as an employee retirement plan. The Plan has been amended since receiving the determination letter. The Plan administrator and the Plan's benefits counsel believe that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. A Voluntary Correction Procedure was filed in July 2021 related to certain distributions made from the Plan. No formal response from the IRS has been received related to proposed corrections.
