Independent Auditor's Report

The Plan Administrator
Ply Gem Group Pension Plan
Houston, Texas

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Ply Gem Group Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the years then ended, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- The certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined met the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2022 and Schedule H, Line 4j - Schedule of Reportable Transactions for the year ended December 31, 2022 are presented for purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the

financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The certified investment information in the supplemental schedules agrees to, or are derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Ply Gem Group Pension Plan

Notes to Financial Statements

1. Description of The Plan

The following description of the Ply Gem Group Pension Plan (the Plan) provides only general information. Participants and all others should refer to the Plan Document and its underlying appendixes for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit pension plan sponsored by Ply Gem Industries Inc. (the Company) covering all employee categories of the Company and certain other participating companies as described in the Plan Document. Ply Gem Industries Inc. is a subsidiary of Cornerstone Building Brands, Inc. (Cornerstone). As of December 31, 1998, all benefit accruals under the Plan were frozen (Freeze Date). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Trustee and Administration of the Plan

The trustee is Fidelity Management Trust Company (Fidelity or Trustee). Fidelity Workplace Services LLC also provides benefit administration services and is the Plan's actuary. The administrator of the Plan is the Committee. The Cornerstone Building Brands Benefits Committee (Committee) establishes, amends and monitors compliance with investment policies, and selects and monitors the trustee, investment managers, and outside investment advisors and consultants to the Plan.

Eligibility

Salaried and hourly non-union employees were eligible to enter the Plan upon meeting the eligibility requirements as specified in the Plan Document. There were no newly eligible participants since the Freeze Date of December 31, 1998.

Pension Benefits and Vesting

Under the terms of the agreement with the Company, participants are eligible for monthly benefit payments upon reaching age 65 in an amount actuarially determined based on participant's average earnings and/or years of service as defined in the Plan Document.

The Plan permits benefit payments in the form of a joint and survivor annuity; a lump sum (under certain provisions of the Plan); and other optional forms of benefits. Certain small amounts less than \$2,500 are forced out of the Plan. The Plan permits early retirement at age 55 (provided the participant has completed the number of years of service applicable to the particular early retirement benefit). Death and disability benefits are also provided by the Plan as outlined in the Plan Document.

The benefits of all participants in the Plan are fully vested.

2. Summary of Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting principles generally accepted in the United States of America (GAAP).

Ply Gem Group Pension Plan

Notes to Financial Statements

Use of Estimates

The preparation of financial statements in accordance with GAAP requires plan management to make estimates and assumptions that affect the accompanying reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates and such differences could be material.

Investments and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for a discussion of fair value measurements.

Interest and dividend income (including capital gain distributions) is recorded when earned or on the ex-dividend date, respectively. Net appreciation (depreciation) in the fair value of investments represents the realized and unrealized gains and losses on the investments. Purchases and sales are recorded on a trade-date basis.

Administrative Expenses

The Plan's operating, investment, and administrative expenses are generally paid as provided for in the Plan Document. Expenses for trustee, investment management, actuarial, and auditing services are paid through the Plan. Other administrative functions are performed by employees of the Company or its subsidiaries at no cost to the Plan. All other costs not paid by the Plan are paid by the Company and are excluded from these financial statements.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

3. Funding Policy

The Company's policy is to make contributions to meet the minimum funding requirements as specified by ERISA and determined under Internal Revenue Code (IRC) section 430(a). The minimum contribution is determined as of the beginning of the plan year. The Plan has currently met all minimum funding requirements. For the years ended December 31, 2022 and 2021 no contributions were made.

4. Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions for services rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to: (1) retired or terminated employees or their beneficiaries; (2) beneficiaries of employees who have died; and (3) present employees or their beneficiaries. Benefits for retired, terminated and disabled employees or their beneficiaries are based on each former employee's credited service prior to his or her termination or retirement date or Freeze Date (whichever is earlier). Accumulated plan benefits for active employees are based on each employee's credited service as of the Freeze Date. Benefits payable under all circumstances—retirement, death, disability, and termination of

Ply Gem Group Pension Plan

Notes to Financial Statements

employment—are deemed included to the extent they are attributable to employee service prior to the Freeze Date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of benefit payments (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The effect of Plan amendments on accumulated plan benefits is recognized during the year in which such amendments are adopted.

The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2022 and 2021. Had the valuations been performed as of December 31, there would be no material differences.

The significant assumptions used in the actuarial valuation as of December 31, 2021 are as follows:

Mortality	Pri-2012 Mortality Tables with MP-2021 Mortality Improvement
Form of payment	Single life annuity
Retirement age	For ages 55-64, probability of annual retirement rates ranges from 1.60% to 3%. Age 65 is 100%
Discount rate	5.00%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits as determined by the actuary as of December 31, 2021 is as follows:

Vested Benefits	
Participants currently receiving benefits	\$ 11,453,977
Other deferred vested benefits	5,021,210
Total Vested Benefits	16,475,187
Nonvested Benefits	-
Total Actuarial Present Value of Accumulated Plan Benefits	\$ 16,475,187

The remainder of this page intentionally left blank.

Ply Gem Group Pension Plan

Notes to Financial Statements

The changes in the actuarial present value of the Plan's accumulated plan benefits for the year ended December 31, 2021 are as follows:

Actuarial Present Value of Accumulated Plan Benefits, December 31, 2020	\$ 14,735,367
Increase (decrease) during the year attributed to:	
Interest accumulation	916,023
Benefits paid	(1,305,974)
Assumption changes ^(a)	1,938,612
Benefits accumulated and actuarial (gain) loss	191,159
Net Increase	1,739,820
Actuarial Present Value of Accumulated Plan Benefits, December 31, 2021	\$ 16,475,187

^(a) Assumption changes represent a change in the mortality table from the Pri-2012 Mortality Tables with MP-2020 Mortality Improvement to the Pri-2012 Mortality Tables with MP-2021 Mortality Improvement and a change in the discount rate from 6.50% to 5.00%.

5. Certified Investment Information

The plan administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C), pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulation for Reporting and Disclosure under ERISA. Accordingly, Fidelity, a qualified institution, has certified the following information included in the accompanying financial statements and ERISA required supplemental schedules as complete and accurate:

- Investments as shown in the statements of net assets available for benefits as of December 31, 2022 and 2021.
- Net investment income (loss) as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2022 and 2021.
- Investment amounts included in Note 6 to financial statements.
- Investment information included in the accompanying supplemental schedules as of and for the year ended December 31, 2022.

At the request of the plan administrator, the Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing the certified investment information with the related information presented and disclosed in the financial statements and supplemental schedules, reading the disclosures relating to the investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP and whether the supplemental schedules are in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

6. Fair Value Measurements

Accounting Standards Codification (ASC) 820, provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the

Ply Gem Group Pension Plan

Notes to Financial Statements

lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021:

Domestic Fixed Income Commingled Pools - These assets are valued at the beneficial interest in the net asset of each pool which is represented by units. Net asset value (NAV) per unit is determined each business day. Issues and redemptions of units are recorded, upon receipt of the unitholder's instructions in good order, based on the next determined NAV per unit, normally each day. In unusual market conditions, in accordance with the Declaration of Trust, the trustee of the pool may in its sole discretion, impose restrictions on issues and redemptions of units. The issuance and redemption provisions of the underlying funds are consistent with those of the pool. In certain circumstances units may be purchased or redeemed through the exchange of securities, the fair value of which is used to determine the number of units issued or redeemed.

Mutual Funds - These assets are valued at the quoted market price which represent the net asset value (NAV) of shares held by the Plan at year-end. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective Investment Trust - The T. Rowe Price Large Cap Growth Fund is a collective investment trust that is valued at the NAV of units of the trust. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the trust will sell the investment for an amount different from the reported NAV. This trust is a Direct Filing Entity.

Ply Gem Group Pension Plan

Notes to Financial Statements

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables sets forth by level, within the fair value hierarchy, the Plan's investments, at fair value as of December 31, 2022 and 2021:

December 31, 2022

	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 3,263,076	\$ -	\$ -	\$ 3,263,076
Domestic fixed income commingled pools	-	9,298,423	-	9,298,423
Total Investments, in the fair value hierarchy	\$ 3,263,076	\$ 9,298,423	\$ -	12,561,499
Investments measured at NAV ^(a)				626,006
Total Investments, at fair value				\$ 13,187,505

^(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) as a practical expedient, have not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Investments Measured Using the Net Asset Value per Share Practical Expedient

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient, as of December 31, 2022.

	2022	2021			
Collective investment trust	\$ 626,006	\$ -	None	Daily	Up to 30 days

7. Plan Termination

Although it has not expressed any intention to do so, the Company has the right, under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan is terminated, the assets of the Plan will be allocated to Plan participants and beneficiaries in accordance with applicable provisions of ERISA.

Ply Gem Group Pension Plan

Notes to Financial Statements

and the Plan Document. Should unfunded vested benefits exist, such benefits will be provided up to specified limitations as described in ERISA and by the Pension Benefit Guaranty Corporation (PBGC).

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated plan benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

Additional information regarding the priority of participants' claims to the assets of the Plan upon termination and benefits guaranteed by the PBGC is available from the plan administrator.

8. Income Tax Status

The Plan has received a determination letter from the IRS dated July 3, 2012, stating that the Plan is designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receipt of the letter, the plan administrator and the Company believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan is qualified, and the related trust is tax exempt, thus, no provision for income taxes is included in the accompanying financial statements.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no IRS audits for any tax periods in progress.

9. Concentrations, Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are subject to various risks, such as interest rate, credit and overall market volatility risk. Additionally, the value, liquidity and related income of the investment securities are sensitive to changes in the economic conditions and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of such investment securities, it is possible that changes in the value of investment securities could occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits and the funded status of the Plan. At December 31, 2022 and 2021 there were three investments held in the Plan which individually represented more than 10% of investments held.

Plan contributions are determined and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is possible that changes in these estimates and assumptions in the near

Notes to Financial Statements

term could impact the amounts reported in the financial statements and accompanying notes and could be material to the Plan's financial statements.

10. Related Party and Exempt Party-in-Interest Transactions

Certain Plan investments are units of funds managed by Fidelity and its affiliates. Fidelity also provides trustee and other administrative and actuarial services to the Plan during the plan year. Certain expenses related to audit, custody, asset management and actuarial services are paid from Plan assets. These transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

11. Subsequent Events

The Plan Administrator has evaluated subsequent events through October 12, 2023, which is the date the financial statements were available to be issued. No events or transactions discovered during this evaluation require recognition or disclosure in the financial statements, other than described below.

Effective June 1, 2022, the Plan was amended to establish a lump sum window during which eligible participants could elect to receive a distribution of his or her accrued benefit or deferred retirement benefit in a single lump sum or an immediate commencing annuity. Eligible participants had to make the election between July 19, 2023 and August 18, 2023.

During 2023 the Company completed a purchase of a single premium group annuity contract with American United Life Insurance Company (AUL) that would take over existing annuity payments for participants and beneficiaries who are currently receiving monthly payments of \$250 or less. Plan assets of approximately \$2.4 million were transferred to AUL during April 2023. Effective June 1, 2023, AUL took over payment of these amounts. The annuity buyout is expected to reduce the Plan's benefit obligation by approximately \$2.4 million.

Actuarial Assumptions and Methods

ERISA Interest Rates as required by IRC Section 430 based on plan sponsor election of the look-back month for the segment rates:

“Minimum” means for the purpose of calculating the PPA funding liability and normal cost for the minimum required contribution.

“Maximum” means for the purpose of calculating the PPA funding liability and normal cost for the maximum tax-deductible contribution.

	2022 Plan Year		2021 Plan Year	
Purpose	Minimum	Minimum	Minimum	Maximum
Segment rates or full yield curve	Segment	Segment	Segment	Segment
Look-back months	4	4	4	4
First 5 years	4.75%	1.07%	4.75%	2.22%
Next 15 years	5.18%	2.68%	5.36%	3.38%
Over 20 years	5.92%	3.36%	6.11%	3.92%
Applicable Law for the segment rates corridor	ARPA	Not Applicable	ARPA	Not Applicable

Interest Rate for FASB ASC 960: 5.00% (previously 6.50%). This is consistent with the long-term rate of return on assets for 2022 which is selected by the plan sponsor for corporate accounting purposes. The assumption will be reviewed annually for reasonability.

Salary Scale: Not Applicable.

Increase in Consumer Price Index (CPI): Not Applicable.

Increase in Social Security Taxable Wage Base: Not Applicable.

Administrative Expenses: Estimate based on an underlying non-investment related expense assumption of \$110,000 plus PBGC premiums for the current year.

Actuarial Assumptions and Methods (continued)

Mortality:

ERISA: IRS 2022 Static Mortality Table using separate tables for annuitants and non-annuitants as prescribed by IRC Section 430. These tables include future mortality improvement of 8 years for males and 9 years for females with the following adjustments: For ages below 80, the projection period is increased by 1 year for each year below age 80. For ages above 80, the projection period is reduced (but not below zero) by 1/3 year for each year above 80 (previously IRS 2021 Static Mortality Table).

FASB ASC 960: Pri-2012 Mortality Tables with MP-2021 Mortality Improvement (previously Pri-2012 Mortality Tables with MP-2020 Mortality Improvement).

Retirement Rates: Rates vary by age, based on the assumption used by the prior actuary for this plan. This decrement has been determined not to be a source of significant gain/loss over the previous plan year. Rates are listed below:

Age	Rate	Age	Rate
55	1.60%	61	1.90%
56	1.65%	62	10.00%
57	1.70%	63	2.80%
58	1.75%	64	3.00%
59	1.80%	65+	100.00%
60	1.85%		

Actuarial Assumptions and Methods (continued)

Termination: Rates varying by age, based on Table T-2 of "The Pension Actuary's Handbook". This decrement has been determined not to be a source of significant gain/loss over the previous plan year. Sample rates are shown below:

<u>Age</u>	<u>Rate</u>	<u>Age</u>	<u>Rate</u>
20	5.44%	40	3.50%
25	5.29%	45	1.77%
30	5.07%	50	0.40%
35	4.70%	55+	0.00%

Marital Status: 80% of males and females are assumed married, with females 3 years younger than males, based on the assumption used by the prior actuary for this plan.

Maximum Benefit: \$245,000 for 2022. For determining limitations under funding amounts and liabilities under FASB ASC 960, no future increases in the IRC Section 415 limit have been reflected.

Maximum Salary: \$305,000 for 2022. For determining limitations under funding amounts and liabilities under FASB ASC 960, no future increases in the salary limit have been reflected.

Form of Payment: It has been assumed that 100% of term vested and non-retiring active participants will elect to defer their benefits to be commenced as a single life annuity at age 65. 100% of retiring active participants are assumed to elect to take their benefits as an immediate single life annuity.

Actuarial Assumptions and Methods (continued)

Actuarial Value of Plan Assets for Funding Purposes: The actuarial value of assets is equal to:

- a) the market value of assets, including discounted receivables, on the valuation date, less
- b) the following percentages of prior years' investment gains (losses):
 - i) 67% of the prior year, and
 - ii) 33% of the second prior year,

Investment gains and losses are defined as the excess or deficiency of the expected return on the market value (at an assumed rate of 6.50%, not to exceed the third segment rate for that year) over the actual return on the market value of assets, including discounted receivables, for any given year.

- c) The actuarial value of assets can be neither less than 90% nor greater than 110% of the market value of assets, including discounted receivables.

Actuarial Assumptions and Methods (continued)

Shortfall Amortization Charge for ERISA Funding Purposes: Per IRC Section 430(c), the shortfall amortization charge for any plan year is the aggregate total (not less than zero) of the shortfall amortization installments for such plan year with respect to any shortfall amortization base which has not been fully amortized. The shortfall amortization installments are the amounts necessary to amortize the shortfall amortization base of the plan for any plan year in level annual installments over the 15-year period beginning with such plan year.

Actuarial Cost Method: The unit credit cost method is used for ERISA funding target (FT) purposes. Under this method, accrued pension benefits are determined for all eligible active participants. These benefits reflect service, salary and negotiated benefit increases to date. The liability is then equal to the present value of all benefits (PVAB) for inactive participants plus the PVAB for active participants.

The normal cost is determined on an individual basis for all active participants who have not attained the assumed retirement age and is equal to the present value of the difference between the current accrued benefit and the anticipated accrued benefit one year later, with the accrued benefit based upon earnings, or negotiated benefit increases, to date in both cases. The total normal cost is based upon the sum of the individual normal costs. The target normal cost for funding is equal to the total normal cost plus assumed administrative expenses expected to be paid from the trust.

The projected unit credit method is used for IRS maximum deductible limit cushion amount purposes. Under this method, accrued pension benefits are determined for all eligible active participants reflecting service to date and anticipated salary and negotiated benefit increases to the assumed retirement age. This liability for active participants is then added to the present value of all benefits for inactive participants to determine the total liability under this method.

The normal cost is determined on an individual basis for all active participants who have not attained the assumed retirement age and is equal to the present value of the difference between the current accrued benefit and the anticipated accrued benefit one year later, with the accrued benefit based upon earnings and negotiated benefit increases projected to assumed retirement age in both cases. The total normal cost is based upon the sum of the individual normal costs.

Plan Provisions

Name of Plan: Ply Gem Group Pension Plan

Employer Identification Number / Plan Number: 11-1727150 / 001.

Effective Date: December 31, 1976. Amended and restated effective January 1, 2019.

Covered Employees: All current and former employees covered by the plan immediately prior to the participation and accrual freeze date on December 31, 1998.

Definitions:

Vesting Service: Vesting Service includes all employment from an employee's date of hire with the Company (with some exceptions for legacy plan participants). Vesting Service may continue to be accrued after the plan freeze date of December 31, 1998 for purposes of determining retirement eligibility.

Credited Service: Credited service was frozen as of December 31, 1998 for all plan participants.

Average Earnings: The highest average of total pay (including overtime, bonuses, and commissions) during any five consecutive calendar years, within the 10-calendar year period prior to termination of employment. Average pay is limited to \$100,000 and was frozen as of December 31, 1998 for all plan participants.

Normal retirement date (NRD): The first day of the month coincident with or next following the attainment of age 65.

Accrued Benefit: 15% of Average Earnings up to employee's Social Security covered compensation level (1987 Table) plus 30% of Average Earnings above employee's Social Security covered compensation level, reduced for Credited Service under 20 years, payable at NRD. Employees who were participants in the plan before October 1, 1987 will receive a benefit not less than that determined under the prior plan benefit formula. All accrued benefits were frozen as of December 31, 1998.

Plan Provisions (continued)

Eligibility for Benefits:

Normal retirement: Retirement from active service on NRD.

Early retirement: Retirement after attaining age 55 and 10 years of vesting service.

Late retirement: Retirement after NRD.

Deferred vested: Terminations for reasons other than death, disability, or retirement.

Pre-retirement spouse benefit: Death prior to receipt of benefits, with a surviving spouse.

Disability: Retirement from active service due to disability (as defined under the Social Security Act) and after attaining age 55 and 10 years of vesting service.

Monthly Benefits Paid Upon the Following Events:

Normal retirement: Accrued Benefit determined as of NRD.

Early retirement: Accrued Benefit reduced by 5/9 of 1% for each of the first 60 months and 5/18 of 1% for each of the next 60 months by which the actual commencement of benefits precedes NRD.

Late retirement: Accrued Benefit increased by the plan interest rate of 8% compounded annually, without mortality adjustment, to the date of actual commencement after NRD.

Termination with deferred vested benefit: Accrued Benefit payable no earlier than NRD.

Monthly pre-retirement spouse death benefit:

- a) *For participants who were eligible for early retirement upon death:* 50% of the pension benefit accrued to date of death reduced by appropriate early retirement and joint-and-survivor factors.
- b) *For participants eligible for vesting but not eligible for early retirement:* 50% of the vested pension benefit accrued to date of death, payment deferred to no earlier than the earliest retirement date of the deceased Participant and reduced by the appropriate early retirement and joint-and-survivor factors.

Disability benefit: Accrued Benefit reduced by 5/9 of 1% for each of the first 60 months and 5/18 of 1% for each of the next 60 months by which the actual commencement of benefits precedes NRD.

Plan Provisions (continued)

Forms of Payment:

Normal form (single participants): Single life annuity.

Normal form (married participants): Actuarially reduced 50% joint and survivor annuity with spouse as beneficiary.

Optional forms: Participants who retire under the plan may elect a 10 or 15-year certain and continuous annuity, life annuity, 50%, 75% or 100% joint and survivor annuity, or a lump sum distribution. Only benefits accrued as of September 30, 1987 are eligible to be paid as a lump sum. Any remaining benefit under the plan after such one-time distribution must be paid out in one of the available annuity forms.

Description of optional form conversion factors: Optional form conversion factors for annuity forms are determined using the UP84 Unisex mortality table and 8% interest rate. Lump sum conversions use the applicable 417(e) mortality and interest rates, using an October lookback month.

Maximum on Benefits and Pay: All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective.

Future Plan Changes: No future plan changes were recognized in determining minimum and maximum contributions.
