Report of Independent Auditors

To the Board of Directors and Plan Administrators of the
Lake State Railway Company 401(k) Profit Sharing Plan
Saginaw, MI

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Lake State Railway Company 401(k) Profit Sharing Plan (Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Lake State Railway Company 401(k) Profit Sharing Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2022 and 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all

material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

- The information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Lake State Railway Company 401(k) Profit Sharing Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Lake State Railway Company 401(k) Profit Sharing Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud

may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Lake State Railway Company 401(k) Profit Sharing Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about Lake State Railway Company 401(k) Profit Sharing Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or

derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Lake State Railway Company 401(k) Profit Sharing Plan

Notes to Financial Statements

December 31, 2022

1. Description of Plan

The following description of the Lake State Railway Company 401(k) Profit Sharing Plan (Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a contributory, defined contribution plan with a 401(k) elective deferral arrangement, which covers substantially all full-time and part-time employees of Lake State Railway Company (Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

Employees that are age 18 or older and have completed 6 months of service are eligible to participate in the 401(k) deferral arrangement of the Plan. Leased employees and certain employees are excluded from the Plan. Participants are automatically enrolled in the Plan at 5% (1% for employees enrolled prior to January 1, 2022) of Plan compensation, unless the participant opts out or selects a different deferral.

Contributions

The Plan allows participants to defer up to a maximum of 100% of their compensation, not to exceed the maximum contribution allowable by the Internal Revenue Code (IRC) adjusted annually for cost-of-living changes. There is no minimum elective deferral limit for the Plan. The Plan allows pre-tax deferrals but does not allow Roth deferrals. Rollover contributions are allowed by the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make additional catch-up contributions. Prior to 2022, the Company could make a discretionary contribution to participants that would be allocated based on a uniform percentage of Plan compensation. To be eligible for the discretionary employer contribution a participant was required to be employed on the last day of the Plan year. Beginning in 2022, the Plan allows the Company to make a discretionary employer match and/or contribution. The Company has elected to match 50% of a participant's elective deferral to a maximum of 5% of the participants compensation.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and Plan earnings. The participant has the responsibility to decide how his or her contribution will be invested. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Description of Plan (continued)

Vesting

Effective January 1, 2022, all participants are immediately vested in employer contributions, including both matching or other discretionary contributions. Participants are immediately vested in their voluntary contributions and rollover contributions plus actual earnings thereon. Prior to January 1, 2022, new participants were subject to a six-year graded vesting schedule for employer contributions. Based on this schedule, after two years of service a participant was 20% vested in any employer contributions and an additional 20% vested each year thereafter. The participant would become fully vested related to any employer contributions after their sixth year of service. Special vesting rules were in place under the Plan which allowed a participant to become 100% vested upon attainment of normal or early retirement age while an employee, participant death while an employee, or if a participant became disabled while an employee.

Forfeitures

Forfeitures may be used in any permissible method, such as to reduce Company contributions or pay Plan expenses. Forfeited nonvested accounts totaled \$429 as of December 31, 2022 and \$550 as of December 31, 2021. For the year ended December 31, 2022, forfeitures totaling \$0 were used to fund employer contributions, \$127 were used to pay Plan expenses, and \$6 of interest were earned. For the year ended December 31, 2021, forfeitures totaling \$6,000 were used to fund employer contributions and \$112 were used to pay Plan expenses.

Notes Receivable from Participants

Participants are permitted to borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of 50% of their vested account balance or \$50,000. Such loans are secured by the balance of the participant's account and shall be charged an annual prevailing rate of interest to be fixed by the Plan administrator. Participants are eligible to have one loan outstanding at a given time. Such loans shall be fully repaid on or before five years from the date of disbursement.

Payment of Benefits

Plan participants are eligible to receive distributions upon reaching retirement age of 65. In this instance they are eligible for a normal distribution from their account for the full value of their account balance. Early retirement distributions are available at the age of 60. Upon separation of employment, because of death, disability, or for other reasons, participants receive their benefits as a lump-sum payment.

1. Description of Plan (continued)

Administrative Expenses

Certain administrative expenses were paid for by the Company. Additionally, certain administrative expenses were paid by the Plan and are reflected in the accompanying financial statements.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance. Interest income is recorded on the accrual basis.

Subsequent Events

Subsequent events have been evaluated through October 6, 2023, which is the date the financial statements were available to be issued.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires the Plan administrators to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Based on the observability of the inputs used in the valuation techniques, the Plan is required to provide information according to the fair value hierarchy.

2. Summary of Significant Accounting Policies (continued)

Fair Value Measurements (continued)

The fair value hierarchy ranks the quality and reliability of the information used to determine fair values.

Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

Level 1 – Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2 – Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets and liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3 – Significant unobservable inputs that reflect a company's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In determining the appropriate levels, the Plan performs a detailed analysis of the assets and liabilities. At each reporting period, all assets and liabilities for which the fair value measurement is based on significant unobservable inputs are classified as Level 3.

For the years ended December 31, 2022 and 2021, the application of valuation techniques applied to similar assets and liabilities has been consistent.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair market value, except the stable value fund which is stated at contract value. Shares of mutual funds are valued at quoted market prices in an active market, which represent the value of shares held by the Plan at year end. The stable value fund is an investment in a fully benefit-responsive investment contract. The fund invests in the T. Rowe Price Stable Value Fund A, which is a fund investing primarily in guaranteed investment contracts, bank investment contracts, synthetic investment contracts, and separate account contracts. These contracts are designed to potentially provide principal stability and a competitive yield. See Note 5 for more information on the stable value fund.

2. Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition (continued)

There are no unfunded commitments related to the stable value fund. The stable value fund has certain restrictions related to withdrawals and exchanges.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. The change in aggregate fair value and the cost of investments purchased, sold, and held is reflected in the statements of changes in net assets available for benefits as net appreciation/depreciation in fair value of investments.

Payment of Benefits

Benefits are recorded when paid.

3. Financial Data Certified by the Trustee – Unaudited

The Plan's financial information and data was certified by Newport Trust Company (Newport) as of and for the year ended December 31, 2022, and by PNC Bank, National Association (PNC) as of and for the year ended December 31, 2021, in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the participant directed investments, notes receivable from participants, interest and dividends, and net appreciation/depreciation in fair value of investments included in the financial statements and supplemental schedule were obtained from data that has been prepared and certified as complete and accurate by Newport and PNC. This certified information has not been audited by independent auditors.

4. Fair Value Measurements

The following tables set forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis as of December 31:

	Level 1	Level 2	Level 3	Total
2022				
Mutual funds	\$ 5,025,356	\$ -	\$ -	\$ 5,025,356
Total assets at fair value	\$ 5,025,356	\$ -	\$ -	\$ 5,025,356

Total assets at fair value	\$ 6,022,285	\$ -	\$ -	\$ 6,022,285

5. Stable Value Fund

Participants in the Plan have a stable value investment option that invests in the T. Rowe Price Stable Value Fund A, which is composed primarily of fully benefit-responsive synthetic investment contracts (SICs) held directly. The contract value of the investment contracts represents contributions made under the contract and related earnings offset by participant withdrawals. Investments underlying a synthetic structure are owned by a benefit plan or collective trust fund. SICs consist of a portfolio of underlying assets (which may include units of fixed income commingled or common trust funds) owned by a benefit plan or collective trust fund and a wrap contract issued by a financially responsible third party, typically an insurance company, bank, or other financial services institution. The issuer of the wrap contract provides for unscheduled withdrawals from the contract at contract value, regardless of the value of the underlying assets, in order to fund routine permitted participant-initiated withdrawals from a stable value fund.

SICs provide for a variable crediting rate, which typically resets at least quarterly, and the issuer of the wrap contract provides assurance that future adjustments to the crediting rate cannot result in a crediting rate less than zero.

The crediting rate is based, in part, on the relationship between the contract value and the market value of the underlying assets, as well as previously realized gains and losses on underlying assets. The crediting rate will generally reflect, over time, movements in prevailing interest rates. However, at times the crediting rate may be more or less than prevailing rates or the actual income earned on the underlying assets. In most cases, realized and unrealized gains and losses on the underlying investments are not reflected immediately in the net assets of a stable value fund, but rather are amortized either over the time to maturity or the duration of the underlying investments, through adjustments to the future interest crediting rate.

The existence of certain conditions can limit a benefit plan's or collective trust fund's ability to transact at contract value with the issuers of its investment contracts. Specifically, any event outside the normal operation of a benefit plan or collective trust which causes a withdrawal from an investment contract may result in a contract value adjustment with respect to such withdrawal. Examples of such events include, but are not limited to, partial or complete legal termination of

5. Stable Value Fund (continued)

the plan or collective trust fund, tax disqualification, and certain plan or trust amendments if issuer consent is not obtained. The Company does not believe the occurrence of any such event is probable.

In addition to the limitations noted above, issuers of investment contracts have certain rights to terminate a contract and settle at an amount that differs from contract value. For example, certain breaches by a benefit plan or the investment manager of their obligations, representations, or warranties under the terms of an investment contract can result in its termination at market value, which may differ from contract value. Investment contracts may also provide for termination with no payment obligation from the issuer if the performance of the contract constitutes a prohibited transaction under ERISA or other applicable law. SICs may also provide issuers with the right to reduce contract value in the event an underlying security suffers a credit event or terminate the contract in the event certain investment guidelines are materially breached and not cured.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. At termination, participant accounts would become fully vested.

7. Income Tax Status

The Company adopted a volume submitter plan, which received a favorable opinion letter from the IRS dated September 21, 2017. The letter states the Plan is designed in accordance with the applicable section of the Internal Revenue Code (IRC) and is qualified for federal income tax exempt status. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed, and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust exempt.

Generally, tax years from 2019 through the current year remain open to examination. The Plan does not believe that the results from any examination of these open years would have a material adverse effect on the Plan.

8. Party-in-Interest Transactions

Newport Trust Company and its affiliates, as the recordkeeper and custodian, qualifies as a party-in-interest. Notes receivable from participants are also considered party-in-interest transactions. PNC also qualifies as a party in interest, as an advisor to the Plan.

9. Risk and Uncertainties

The Plan's investments consist of mutual funds and a stable value fund. These investments are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near-term and long-term and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

10. Reconciliation of Audited Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the audited financial statements to Form 5500 as of December 31:
