Delaware Valley University DC Plan
Doylestown, Pennsylvania

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We were engaged to perform audits of the financial statements of the Delaware Valley University DC Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021 and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA ("ERISA Section 103(a)(3)(C) audit"). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency ("qualified institution"), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from qualified institutions as of December 31, 2022 and 2021 and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Disclaimer of Opinion

We do not express an opinion on the accompanying financial statements of the Plan. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion

Prior to January 1, 2009, records were maintained at a contract, not a plan level; therefore, management has not maintained, and Teachers Insurance and Annuity Association of America ("TIAA") and College Retirement Equities Fund ("CREF") did not provide sufficient accounting records and supporting documentation relating to certain annuity contracts and custodial accounts issued to current and former employees, and supporting documentation is not adequate to assure the completeness and accuracy of the amounts included in the financial statements. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the financial statements have been affected by these conditions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP"), and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our responsibility is to conduct an audit of the Plan's financial statements in accordance with auditing standards generally accepted in the United States of America ("GAAS") and to issue an auditor's report. However, because of the matter described in the *Basis for Disclaimer of Opinion* section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits.

Other Matter –Supplemental Schedule Required by ERISA

The supplemental schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* section of our report, it is inappropriate to and we do not express an opinion on the supplemental schedule referred to above.

Notes to Financial Statements

1. Description of the Plan

The following description of the Delaware Valley University DC Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the comprehensive Plan Document for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan under section 403(b) of the Internal Revenue Code (“IRC”) and covers all employees of Delaware Valley University (the “Employer” or the “University”), except for students and non-resident aliens with no U.S. earned income. Such eligible employees are permitted to begin making participant contributions on the first day of the month following commencement of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

Contributions

The amount of contributions for any plan year will be equal to the sum of the following subject to certain regulatory limitations:

- a) Participants may contribute up to 100% of their eligible compensation, as defined by the Plan.
- b) A participant must be 21 years of age and complete 1 year of service, in which at least 1,000 hours of service was performed, to be eligible to receive the Employer’s discretionary matching contribution. The Plan excludes adjunct faculty, graduate assistants, temporary employees expected to work less than six months, and housekeepers and custodial workers who belong to Teamsters Union Local 115 from Employer matching contributions. The Plan provides for a 2:1 match on participants’ contributions from 3% up to 4.5% of eligible compensation. Effective July 3, 2020, the Plan was amended to suspend the Employer matching contribution for participants classified as eligible staff members. Effective August 14, 2020, the Plan was amended to suspend the Employer matching contribution for participants classified as faculty members. Effective October 1, 2021, the Plan was amended to remove the age eligibility requirement. Effective January 1, 2022, the Plan was amended making participants who are Teamsters Union Local 115 employees eligible for discretionary matching contributions.

Effective with the August 27, 2021 pay date, the University reinstated a match contribution to the Plan for its eligible full time faculty who make elective deferrals to the Plan between 3% and 5% of their eligible compensation. The University made, on behalf of such faculty members, a matching contribution of 200% of that faculty member’s elective deferrals up to a maximum of 10% of his or her compensation. Effective with the April 22, 2022 pay date, for eligible full time faculty who were hired before March 19, 2022 and make elective deferrals to the Plan, the University will make on their behalf a matching contribution of 200% of that faculty member’s eligible compensation deferred into the Plan up to 4.5% of elective deferrals, where such matching contributions shall not exceed 9% of his or her compensation. Effective with the April 22, 2022 pay date, for eligible full time faculty members who were hired on or after March 19, 2022 and make elective deferrals to the Plan, the University will make on their behalf a matching contribution of 100% of that faculty member’s elective deferrals up to a maximum of 4% of compensation per calendar year.

Delaware Valley University DC Plan

Notes to Financial Statements

Effective with the first pay date in the 2023-2024 academic year, this matching contribution will apply to all eligible faculty members.

Effective with the October 8, 2021 pay date, the University will provide a 3% non-elective Employer contribution to the Plan for participants classified as staff employees. Effective with compensation earned on or after December 1, 2021, the University will provide a 3% non-elective Employer contribution to the Plan for participants who are Teamsters Union Local 115 employees. Effective with the April 22, 2022 pay date, for eligible full time faculty who were hired on or after March 19, 2022, the University will provide a 3% non-elective Employer contribution to the Plan. No contribution is required by the participant.

- c) Any participant who is eligible to make participant deferral contributions and who has attained age 50 before year-end, may elect to make catch-up contributions in accordance with and subject to certain limitations. Participants may also elect to make special catch-up contributions prior to the age of 50 if 15 years of service has been rendered by the participant subject to certain limitations.
- d) The Plan also allows participants to make qualified rollover contributions to the Plan.

Participant Accounts

Each participant's account is credited with the participant's contributions, employer contributions, and an allocation of net Plan earnings or losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which participants are entitled is the vested portion of their accounts.

Plan Loans

Up until December 31, 2021, participants could borrow directly from Teachers Insurance and Annuity Association of America ("TIAA") and College Retirement Equities Fund ("CREF"), a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of the vested accrued benefit of the TIAA Traditional Annuity Account. The Participant must pledge sufficient collateral. The collateral of the loans must be maintained in their investment accounts to the TIAA Traditional Annuity Account.

The loans are not shown in the Plan's statements of net assets available for benefits, as the loans are not made from plan assets and are, therefore, not considered assets of the Plan. Loan interest rates are variable at prevailing interest rates and can be increased or decreased by TIAA and CREF. Principal and interest is paid ratably by the participant directly to TIAA and CREF. A default charge will be assessed against the portion of the loan collateral used to foreclose on all or part of any loan.

Loan balances outstanding to TIAA and CREF to the Plan's participants were \$224,229 and \$375,112 as of December 31, 2022 and 2021, respectively. There were \$45,659 and \$43,883 in loans to participants in default, and subject to repayment from participant's accounts at the time of distribution, as of December 31, 2022 and 2021, respectively. There was \$96 in loan collateral that was foreclosed upon by TIAA and CREF and distributed from participant accounts to repay a defaulted loan during 2022.

Delaware Valley University DC Plan

Notes to Financial Statements

Notes receivable from participants

Participants are permitted to borrow a minimum of \$1,000 of their vested benefits under the Plan. Participants may borrow up to a maximum equal to the lesser of 50% of their vested account balance or \$50,000, reduced by the highest outstanding loan balance in their account during the prior 12-month period. Loans are secured by the participant's account and bear an interest rate at the prime rate plus 1% or at local prevailing rates as determined by the Plan Administrator, which would be made under similar circumstances and is fixed for the term of the loan. The notes are repaid ratably through payroll deductions over a period of five years or less, unless used to purchase a principal residence up to ten years. These loans are subject to certain restrictions as defined by the Plan Document and applicable restrictions under the IRC.

Also, each participant may not have more than 3 loans outstanding at any time.

Benefit Payments

A participant's vested account balance is distributed to him/her in a lump sum payment in the form of cash, installment or annuity payments or a rollover to a qualified plan based on his/her election under the Plan document upon normal retirement age (age 65), death, disability (as defined in the Plan document), or termination of employment. All vested account balances below \$1,000 may be automatically distributed to the participant. The Plan also provides for in-service withdrawals at age 59 ½ and for "hardship" withdrawals prior to retirement age and withdrawals of rollover contributions at any time.

Vesting

Each participant is immediately vested in his or her salary deferral contributions, rollover contributions, and the Employer matching contributions, plus related earnings thereon.

2. Summary of Significant Accounting Policies

Annual Reporting Requirements

Prior to January 1, 2009, TIAA and CREF maintained records at a contract, not Plan level, and administratively decided not to provide accounting records and supporting documentation at the participant or plan level relating to certain annuity and custodial accounts issued to current and former employees. As such, neither the Plan sponsor nor TIAA and CREF have been able to produce sufficient records and supporting documents relating to certain annuity and custodial accounts issued to current and former employees prior to January 1, 2009. As a result, the completeness and the accuracy of the annuity and custodial accounts, related investment income, and distributions related to these accounts, if any, could not be determined.

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Delaware Valley University DC Plan

Notes to Financial Statements

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information provided by its investment advisers, custodians, and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Employer. Expenses that are paid by the Employer are excluded from these financial statements. Fees related to participant-initiated transactions are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation (depreciation) in fair value of investments.

Revenue Credits

The Plan's trust agreement with TIAA and CREF provides for a participant revenue credit arrangement, whereby the trustee allocates quarterly deposits into the accounts of eligible participants who are invested in certain funds. Unallocated revenue credits at December 31, 2022 and 2021 are \$11 and \$1,575, respectively. During 2022, the Plan received credits of approximately \$19,000, and approximately \$21,000 was used to pay administrative expenses.

3. Certified Investment Information

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments and notes receivable from participants held at December 31, 2022 and 2021, and net depreciation in fair value of investments, interest and dividends, and interest income on notes receivable from participants for the year ended December 31, 2022, was obtained by management and agreed to or derived from information certified as complete and accurate by TIAA and CREF, qualified institutions.

Delaware Valley University DC Plan

Notes to Financial Statements

4. Fair Value Measurements

Accounting Standards Codification (“ASC”) 820, *Fair Value Measurement*, provides for a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument’s level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

There have been no changes in the methodologies used at December 31, 2022 or 2021. The following is a description of the valuation methodologies used for assets measured at fair value:

Fixed Annuity Contracts: The non-fully benefit responsive (“NFBR”) fixed annuity contracts, composed entirely of the TIAA Traditional Annuity Contracts, are reported at fair value, as approximated by contract value. Fair value is determined using a discounted cash flow model. The contract value equals the accumulated cash contributions and interest credited to the Plan’s contracts, less withdrawals. The TIAA Traditional Annuity is not available for sale or transfer on any securities exchange. The fixed annuity contracts are subject to various restrictions. See Note 5.

Pooled Separate Account: Units held in the pooled separate account (“PSA”) are valued at the NAV based on the fair market value of the underlying investments of the account less its liabilities. The NAV is published daily on NASDAQ; however, the PSA is not publicly traded. The PSA holds between 15% and 25% of its net assets in investments other than real estate and real estate related investments, comprised of publicly traded, liquid investments. Valuation of the PSA’s real estate properties are based on real estate appraisals, which are estimates of property values based on a professional’s opinion and may not be accurate predictors of the amount the PSA would actually receive if it sold a property. Appraisals can be subjective in certain respects and rely on a variety of assumptions (including comparable property sales and historic pricing) and conditions at that

Delaware Valley University DC Plan

Notes to Financial Statements

property or in the market in which the property is located, which may change materially after the appraisal is conducted. Among other things, market prices for comparable real estate may be volatile, in particular, if there has been a lack of recent transaction activity in such market.

Further, as the PSA generally obtains appraisals on a quarterly basis, there may be circumstances in the period between appraisals or interim valuation adjustments in which the true realizable value of a property is not reflected in the PSA's daily net asset value calculation or in the PSA's periodic financial statements. The disparity may be more apparent when the commercial and/or residential real estate markets experience an overall and possibly dramatic decline (or increase) in property values in a relatively short period of time between appraisals.

The PSA provides participants with a liquidity guarantee enabling the account to have funds available to meet participant redemption, transfer or cash withdrawals. TIAA guarantees that participants can redeem their accumulation unit value determined after their transfer or cash withdrawal request is received in good order. Withdrawals from the PSA are limited to once per calendar quarter. The PSA is a direct filing entity.

TIAA limits the ability of participants to transfer funds into the TIAA Real Estate Account. Specifically, individual participants are limited from making internal transfers into their account if, after giving effect to such transfer, the total value of such participant's account (under all contracts issued to such participant) would exceed \$150,000. A participant will not be required to reduce his or her contract balance to a level at or below \$150,000 if the participant's account totals more than \$150,000.

Variable Annuity Contracts:

TIAA Access Annuities: TIAA Access Annuities are variable annuity products that are funded through TIAA separate accounts that are registered under the Investment Company Act of 1940, but are not publicly traded. The separate account invests in proprietary and nonproprietary mutual funds through various subaccounts in order to provide target date funds using a mixture of equities and fixed income funds. Subaccount unit values are calculated daily and are available on the TIAA and CREF website. The underlying investments are generally valued using market quotations obtained from independent pricing services. The TIAA Access Annuities are reported at the NAV as a practical expedient to measuring fair value. There are no trading restrictions or unfunded commitments related to the TIAA Access Annuities.

CREF Accounts: These separate accounts are variable annuity contracts that invest principally in equity securities, fixed-income instruments and short-term investments in accordance with each portfolio's investment objectives. Units held in the CREF Accounts are valued at the NAV. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. The NAV is published daily on NASDAQ; however, the CREF Accounts are not publicly traded. The fair value of the underlying investments are determined using market quotations or prices obtained from independent pricing sources that may employ various pricing methods to value the investments, including matrix pricing. Money market account holdings are generally valued at amortized cost. On a daily basis, units in the registered investments are revalued to reflect performance of the underlying investments minus any fees and charges. There are no trading restrictions or unfunded commitments relating to the CREF Accounts. Participant transactions (purchases and sales) may occur daily, except as follows: participants will not be permitted to make electronic transfers (i.e., transfers over the Internet, by telephone or by fax) back into the same investment option through

Delaware Valley University DC Plan

Notes to Financial Statements

a purchase or exchange for 90 calendar days, if a purchase, sale and repurchase within that investment option is made within a sixty-day period, other than for the CREF Money Market Account.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level within the fair value hierarchy the Plan's investments at fair value:

<i>December 31, 2022</i>	<i>Total</i>	<i>Level 1</i>	<i>Level 2</i>	<i>Level 3</i>

- (a) In accordance with the Fair Value Measurements topic, certain investments that were measured at NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Delaware Valley University DC Plan

Notes to Financial Statements

The following table summarizes investments for which fair value is estimated using NAV per share (or its equivalent) as a practical expedient as of December 31, 2022 and 2021.

Type	Fair Value as of December 31, 2022	Fair Value as of December 31, 2021	Principal Valuation Technique	Significant Unobservable Inputs	Range
TIAA Traditional Annuity Contracts (RA)	\$ 16,810,065	\$ 16,665,055	Discounted cash flow/theoretical transfer (exit value)	Risk-adjusted discount rate applied	3.70% - 6.25%

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs as of December 31, 2022 and 2021.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

Type	Fair Value as of December 31, 2022	Fair Value as of December 31, 2021	Unfunded Commitment	Redemptions Frequency	Redemption Notice Period
TIAA Access Funds (a)	\$3,229,322	\$2,863,178	None	Daily	None

During 2022, total purchases and sales of the fixed annuity contracts (NFBR) were \$224,927 and \$684,378, respectively.

5. Fixed Annuity Contracts

As discussed in Note 4, fixed annuity contracts consist of investment options available to participants known as the TIAA Traditional Annuity Contracts ("Annuity"). Annuity contracts are established between the participants and TIAA, an insurance company registered in the State of New York. This investment option held by the Plan is the Retirement Annuities ("RA") contract. The return of Annuity contributions plus interest to participants is subject to TIAA's claims-paying ability.

Annuity accounts are credited with a guaranteed minimum rate of interest that is determined annually. Participants may also earn interest in addition to the guaranteed rate at the discretion of TIAA. Such discretionary interest, if any, is declared by TIAA on a year-by-year basis and remains in effect for the subsequent twelve-month "declaration year".

Contributions to the Annuity accounts are grouped by TIAA into "vintages" comprised of premiums received over defined time periods of one or more contiguous calendar months. The interest crediting rate for each vintage is determined, in part, by the net investment earnings rate of the TIAA assets supporting that vintage, minus a charge for administrative expenses and an amount set aside for contingency reserves. Crediting rates are also determined by the performance of investments contained in TIAA's general account.

Delaware Valley University DC Plan

Notes to Financial Statements

RA account balances may only be withdrawn over 10 annual payments. Because this provision is considered to restrict participants' "reasonable access" to their contract balances, RAs are not considered to be fully benefit-responsive investment contracts as defined by ASC 962, *Plan Accounting - Defined Contribution Pension Plans*, and therefore are recorded at fair value. See Note 4.

6. Plan Termination

Although it has not expressed any intention to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, participants would remain 100% vested in their accounts.

7. Tax Status

Effective January 1, 2020, the Plan was amended and restated using a 403(b) Volume Submitter Plan to comply with certain regulatory requirements. The 403(b) Volume Submitter Plan received an IRS opinion letter dated August 7, 2017, stating that the form of the plan is acceptable under the Internal Revenue Code ("IRC"). The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no IRS examinations for any tax periods in progress.

8. Risks and Uncertainties

The Plan holds various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements and participant account balances.

9. Party-In-Interest and Related Party Transactions

All investments are managed by TIAA and CREF, the contract issuer and record-keeper, and certain investments act as collateral to plan loans issued by TIAA. Investment management fees are recorded net of investment gains and losses in the statement of changes in net assets available for benefits. These transactions are considered exempt party-in-interest transactions. Notes receivable from participants also qualify as exempt party-in-interest transactions.

10. Subsequent Events

The Plan has evaluated subsequent events through October 13, 2023, the date the financial statements were available to be issued.

Effective June 30, 2023, the Delaware Valley University TDA Plan was merged into the Plan.
