INDEPENDENT AUDITOR'S REPORT

To the Participants and Plan Administrator of
the Justworks Retirement Savings Plan

Opinion

We have audited the accompanying financial statements of the Justworks Retirement Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Justworks Retirement Savings Plan as of December 31, 2022 and 2021 and the changes in its net assets available for benefits for the year ended December 31, 2022, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

To the Participants and Plan Administrator of
the Justworks Retirement Savings Plan

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Justworks Retirement Savings Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

the Justworks Retirement Savings Plan

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the supplemental schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

JUSTWORKS RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2022 and 2021

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the Justworks Retirement Savings Plan (the “Plan”) provides only general information. Participants should refer to the plan document for a more complete description of the Plan’s provisions.

General

The Plan is a multiple employer defined contribution profit sharing plan and trust with a qualified cash or deferred 401(k) arrangement covering all eligible employees of Justworks Employment Group, LLC (the “Plan Sponsor”) and its adopting employers. All participating employers of this multiple employer plan have signed joiner agreements that enable them to accept or modify the elections of a master plan document to meet their needs. Each participating employer’s adopted plan agreement should be referred to by the participants for additional information regarding plan specifications. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

National Financial Services, LLC (Fidelity) is the Plan’s custodian. Slavic Integrated Administration, Inc. provides recordkeeping services to the Plan. The plan administrator has overall responsibility for the operation and administration of the Plan. The Investment Committee determines the appropriateness of the Plan’s investment offerings and monitors investment performance.

Amendments

Effective April 1, 2022, the Plan was amended to modify the definition of compensation for the purposes of plan contributions to exclude all cash and noncash fringe benefits, reimbursements, or other expense allowances, moving expenses, deferred compensation, and welfare benefits.

Contributions

Participants may contribute 100% of annual eligible compensation, as defined in the Plan, and designate those contributions as either pre-tax or Roth. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Plan includes an auto-enrollment provision whereby adopting employers may elect to have all newly eligible employees automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at a pre-determined contribution rate and their contribution invested in a designated fund until changed by the participant. In addition, the Plan has adopting employers that have a contribution accelerator feature which automatically increases participant deferrals rates to a pre-determined rate annually, with a pre-determined ceiling, unless a participant opts out. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover).

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Contributions (Continued)

Each adopting employer's matching contributions are discretionary and determined as a percentage of participant elected deferrals for that employer.

If elected, each adopting employer can make a safe harbor matching contribution.

Each adopting employer's discretionary profit-sharing contributions are determined annually by the adopting employer. Profit sharing contributions are allocated to each participant based upon the ratio of the participant's compensation to the total compensation of the adopting employer.

Participants should refer to their adopting employers' specific plan provisions for the calculation and amount of employer contributions for the year ended December 31, 2022.

Contributions are subject to certain IRS limits. Participants direct the investment of their contributions, including their employer contribution, into various investment options offered by the Plan.

Participant Accounts

Each participant's account is credited with the participant's contributions, employer safe harbor matching contributions, and employer matching contributions, as well as allocations of employer profit-sharing contributions and plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately with respect to their contributions, employer safe harbor matching contributions, plus earnings thereon. Each participating employer provides vesting of participating employer discretionary contributions; refer to specific plan agreements for service criteria, vesting percentages, and the policies regarding vesting upon termination. Profit sharing contributions are offered at the discretion of each participating employer.

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Notes Receivable from Participants

Participants may borrow a maximum of two loans from their fund accounts at a minimum of \$1,000 up to a maximum equal to \$50,000 or 50% of the participant's vested account balance, whichever is less. The loans have a maximum of five years unless the purchase of a principle residence is involved. The loans are secured by the balance in the participant's account. The loans bear interest at rates which are commensurate with local prevailing rates as determined by the plan administrator. Principal and interest is paid ratably through payroll deductions.

Payment of Vested Benefits

On termination of service due to death, disability or retirement, participants may elect to receive an amount equal to the value of the vested interest in their accounts in either a lump-sum amount or in installments, depending on the size of the participant's account balance at the time of termination. Participants with a vested account balance of less than \$1,000 must take a lump-sum distribution. Participants that have a vested account balance less than \$5,000, but greater than or equal to \$1,000, will have their vested balance rolled into an IRA. Participants with a vested account balance greater than \$5,000 can elect a lump-sum distribution. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account in a lump-sum distribution. At December 31, 2022 and 2021, there were requested distributions that had not been paid in the amount of \$9,805,993 and \$6,624,732, respectively.

In-service distributions are allowed when a participant reaches age 59½. Rollover contributions may be withdrawn at any time. The Plan Sponsor may authorize certain withdrawals from a participant's account in the event of proven financial hardship. Hardship withdrawals are subject to specific statutory and regulatory requirements.

Forfeitures

Forfeited nonvested accounts may be used to pay plan expenses or reduce employer contributions. For the year ended December 31, 2022, forfeitures in the amount of \$714,663 were used to pay plan expenses and \$2,638,867 were used to reduce employer contributions. Unallocated forfeitures were \$2,248,823 and \$3,267,680 at December 31, 2022 and 2021, respectively.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

NOTES TO FINANCIAL STATEMENTS
December 31, 2022 and 2021

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. As of December 31, 2022 and 2021, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the plan document.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with the corresponding reduction to contributions. The Plan distributed the 2022 excess contributions to the applicable participants prior to March 15, 2023.

Payments of Benefits

Benefits are recorded when paid.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Plan Sponsor. Expenses paid by the Plan Sponsor are excluded from these financial statements. Fees related to the administration of notes receivable from participants and benefit payments to participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net depreciation of fair value of investments. Personnel and facilities of the Plan Sponsor used by the Plan for its accounting and other activities are reimbursed to the Plan Sponsor, as allowable by the Plan's provisions.

Subsequent Events

The Plan Sponsor has performed a review of events subsequent to the statements of net assets available for benefits date through October 10, 2023, the date the financial statements were available to be issued and has determined that there are no material events that have occurred during this period.

NOTE 3 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

JUSTWORKS RETIREMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2022 and 2021

NOTE 3 – FAIR VALUE MEASUREMENTS (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Money market funds: Valued at the daily closing price as reported by the fund. The money market funds are an open-ended fund that are registered with the Securities and Exchange Commission (SEC). The funds are required to publish their daily net asset value (NAV) and to transact at that price. The money market funds are deemed to be actively traded.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds registered with the SEC. These funds must publish their daily NAV and transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Goldman Sachs Stable Value collective trust fund: A stable value fund that is composed primarily of fully benefit-responsive investment contracts that is valued at the net asset value of units of the Goldman Sachs Collective Trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 30-day notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

Galliard Stable Return Fund C collective trust fund: Valued at the NAV of units of the fund, which is based on the estimated market value of the underlying investments less its liabilities. The NAV is used as a practical expedient to estimate fair value.

Self-directed brokerage accounts: Accounts primarily consist of mutual funds and common stocks that are valued on the basis of readily determinable market prices.

NOTE 4 – PARTY-IN-INTEREST TRANSACTIONS

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan, including the Plan Sponsor. During the year ended December 31, 2022, there were direct fees of \$6,841,823 paid to BKS Retirement Services; Justworks Employment Group LLC; UHY LLP; and Slavic Integrated Administration, Inc., parties-in-interest as defined in Section 3(14) of ERISA. During the years ended December 31, 2022 and 2021, there were transactions involving the investment of plan assets in investment funds maintained by National Financial Services, LLC (Fidelity). Indirect fees paid by the Plan for investment management services are included in the net depreciation of the fair value of investments.

NOTE 5 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

NOTE 6 – TAX STATUS

The Plan is a volume submitter document plan for which the Internal Revenue Service has issued an advisory letter dated June 30, 2020, stating that while they do not issue a determination as to whether a specific employer's plan is qualified, any employer who adopts this plan document will be considered to have a plan qualified under code section 401(a) provided all the terms are not more favorable for officers, owners, or highly compensated employees than for other employees. Management believes that the Plan is operating in accordance with the terms provided in the volume submitter document.

The Plan is subject to examination by the Internal Revenue Service for the statutory period.

NOTE 7 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
