Independent Auditor's Report

Board of Trustees
Potter Employees 401(k) Plan

Opinion

We have audited the financial statements of Potter Employees 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2022 and 2021, and the changes in its net assets available for benefits for the year ended December 31, 2022, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule, schedule h, line 4i—schedule of assets (held at end of year) as of December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Potter Employees 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of Potter Employees 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions, which is available from the Plan Administrator.

General: The Plan was established on January 1, 1985, as a defined contribution plan covering nonunion eligible and participating employees of Potter Electric Signal Company, LLC (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Employees are eligible to participate in the Plan as of January 1, April 1, July 1 or October 1 coinciding with the first entry date that is 90 days after the employee's date of hire.

Contributions: Participants may defer up to 90% of compensation, in increments of 1%, not to exceed the applicable calendar year limit under section 402(g)(1) of the Internal Revenue Code (IRC), which was \$20,500 for 2022. Participants who have attained age 50 before the end of the Plan year may elect an additional catch-up deferral of \$6,500. Participants are also allowed to make a separate deferral election on bonuses. Rollover contributions from another qualified plan are permitted as defined by the Plan.

The Company will make a matching contribution to the Plan in an amount equal to 50% of the first 6% of participant deferrals on a payroll-period basis. The Company's matching contribution, net of \$0 of forfeitures used to reduce the Company's matching contribution, was \$597,988 for the year ended December 31, 2022.

The Company may also make a discretionary contribution to the Plan as approved by a resolution of the board. Any such contribution shall be allocated to eligible participants on a pro rata basis based on the compensation of the participant as it compares to total compensation of all Plan participants. Employees must work 1,000 hours and be employed on the last day of the Plan year to share in the discretionary contribution. There was no discretionary employer contribution to the Plan for the year ended December 31, 2022.

Participants direct the investment of contributions into various investment options offered by the Plan. At December 31, 2022 and 2021, these options include a common collective trust fund and various mutual funds. Participants may change their investment options daily.

Participant accounts: Each participant's account is credited with the participant's contribution, the Company's contributions and Plan earnings, and charged with an allocation of administrative expenses, if any. Allocations of Plan earnings are based on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately 100% vested in their contributions, past employer safe harbor contributions, rollovers and earnings thereon. Vesting in the employer matching contributions and other discretionary employer contributions plus earnings thereon is based on years of continuous service. To earn a year of service, a participant must be credited with a minimum of 1,000 hours each Plan year. A participant is 100% vested in this portion of his or her account after three years of service. In the event of death, disability or reaching the normal retirement date of age 65, a participant becomes 100% vested. The nonvested balance of a participant's account is forfeited upon the earlier of a five-year break in service or upon distribution of a participant's vested account balance.

Payment of benefits: Upon termination of service due to death, disability, retirement (age 65) or other termination of employment, the amount the participant is entitled will be paid as soon as administratively feasible to the participant or, in the case of death, to the participant's beneficiary, in a cash lump-sum equal to the value of the participant's vested interest in his or her account. The Plan also allows for hardship distributions and in-service distributions upon attaining age 59½.

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Participant hardship withdrawals: Participants who are active employees may receive distributions for substantial financial hardship in accordance with requirements as outlined in the Plan document.

Notes receivable from participants: Participants may borrow from their fund accounts up to the lesser of 50% of the vested account balance or \$50,000. Note receivable terms range from one to five years, unless the note receivable is for a principal residence. Repayment terms for a participant's principal residence can be extended to 15 years. Notes receivable are secured by the balance in the participant's account and bear interest that is commensurate with the prime rate plus 1%. A participant may have only two notes receivable outstanding during any calendar year.

Forfeited accounts: Forfeitures plus any earnings or losses may be used to restore participant forfeitures, reduce future Company contributions and pay reasonable expenses of administering the Plan. As of December 31, 2022 and 2021, forfeited non-vested balances totaled approximately \$9,300 and \$6,500, respectively. During the year ended December 31, 2022, \$0 of forfeitures were used to reduce employer contributions.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The Plan prepares its financial statements on the accrual basis of accounting.

Investment valuation and income recognition: Investments are recorded at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date and in the principal and most advantageous market for the asset or liability. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Payment of benefits: Benefit payments to participants are recorded when paid.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. This accrued interest is separately reported in the statements of net assets available for benefits as other receivables, if applicable. Delinquent notes receivable are reclassified as distributions based on the terms of the Plan document.

Note 3. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Notes to Financial Statements

Note 4. Related-Party Transactions and Party-in-Interest Transactions

The Plan incurs expenses related to general administration and record keeping. Certain accounting and auditing fees related to the Plan are paid by the Company while other fees are being paid indirectly by participants to the Plan's third-party administrator as subtransfer/recording fees based on a percentage of Plan assets. Expenses that are paid directly by the Company that are not reimbursed by the Plan are not included in these financial statements. These transactions are party-in-interest transactions as defined under ERISA.

Note 5. Fair Value Measurement

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022.

Mutual funds: Mutual funds are valued based on the fair market value of the shares held by the Plan at year-end based on quoted prices.

Notes to Financial Statements

Note 5. Fair Value Measurement (Continued)

Common collective trust: The Plan invests in the Wilmington Trust Collective Investment Trust III for MetLife Fixed Fund #25554, which is a common collective trust. The fund invests predominantly in a group annuity contract. The Plan's investment is not considered a direct investment in investment contracts, and accordingly, the fund is presented at fair value using the net asset value practical expedient. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value.

The methodologies described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis as of December 31, 2022:

Assets at Fair Value as of December 31, 2022				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 16,651,192	\$ -	\$ -	\$ 16,651,192
Total assets in the fair value hierarchy	\$ 16,651,192	\$ -	\$ -	16,651,192
Investments measured at net asset value*, common collective trust				1,993,607
Total investments at fair value				\$ 18,644,799

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis as of December 31, 2021:

Assets at Fair Value as of December 31, 2021				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 21,408,391	\$ -	\$ -	\$ 21,408,391
Total assets in the fair value hierarchy	\$ 21,408,391	\$ -	\$ -	21,408,391
Investments measured at net asset value*, common collective trust				928,092
Total investments at fair value				\$ 22,336,483

*In accordance with FASB ASC 820-10, certain investments that were measured at net asset value per share have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Note 5. Fair Value Measurement (Continued)

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using net asset value per share as of December 31, 2022 and 2021:

	Fair Value		Unfunded	Redemption	Redemption
	2022	2021	Commitment	Frequency	Notice Period
Common collective trust (a)	\$ 1,993,607	\$ 928,092	\$ -	Immediate	None

(a) This category consists of the Wilmington Trust Collective Investment Trust III, which invests predominantly in a MetLife Group Annuity contract. The investment may be redeemed daily at the current net asset value per share based on the fair value of the underlying assets. The Fund seeks to provide safety of principal, adequate liquidity, and a competitive yield with low volatility.

Note 6. Plan Termination

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

Note 7. Tax Status

The Plan adopted a non-standardized form of a prototype plan sponsored by Qualified Benefits Consultants, Inc. The prototype plan provider has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable authorities. The Plan is subject to routine audit by the taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Subsequent Events

The Plan Administrator has evaluated subsequent events through October 11, 2023, the date the financial statements were available to be issued.

In December 2021, Valcom Inc. was acquired by Potter Electric Signal Company, LLC. In July 2023, the board of trustees voted to merge the Valcom 401(k) Plan into the Plan, effective January 1, 2024. The Plan does not expect any impact to participant benefits.
