INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator and participants
Riesbeck Food Markets, Inc. Employee Stock Ownership Plan
St. Clairsville, Ohio

Opinion

We audited the financial statements of Riesbeck Food Markets, Inc. Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2022 and 2021, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule as outlined on the Table of Contents is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplemental schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO THE FINANCIAL STATEMENTS

NOTE 1: PLAN DESCRIPTION

The following description of the Riesbeck Food Markets, Inc. Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

On January 28, 1986, Riesbeck Food Markets, Inc. (the Company and Plan Sponsor) adopted the Plan effective January 1, 1986 for eligible employees. The plan qualifies as a leveraged employee stock ownership plan (ESOP), but the leverage feature of the Plan is not in effect. The Plan, as amended, is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (IRC) of 1986, as amended and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan is administered by a Committee appointed by the Board of Directors of the Company. The Committee includes trustees selected by the Board of Directors to receive, hold and distribute plan assets.

ESOP Contributions

Employer contributions to the Plan are at the discretion of the Company's Board of Directors. Participants are not required or permitted to make contributions to the Plan. Contributions may be invested in common stock of the Company or in other qualified investments. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

In 2022 and 2021, dividends were paid in the amount of \$155,399 and \$447,164, respectively and the Company made discretionary contributions of \$240,000 and \$240,000, respectively.

Participant Accounts

Individual accounts are maintained for each plan participant to reflect the participant's entire interest under the Plan. Each participant's account is credited with the Plan Sponsor's contribution as well as net gains and losses on investments and reduced by distributions from the participant's account. As of each valuation date, the Plan allocates earnings (losses) into each participant's account so that the total of all participant account balances equals the fair market value of the ESOP trust fund as of each valuation date. Generally, participants who have attained the age of 21 and have completed at least 1,000 hours of service during the Plan year and who are employed by the Company on the last day of that Plan year are eligible for Company contributions. The Company's contributions are allocated to eligible participants' accounts based on the ratio of each eligible participant's compensation for the year to the total compensation for all participants. A participant is entitled to that benefit which his or her account can provide. Dividends, if declared, on the shares are allocated based on each participant's stock account balance to the total of all participant stock account balances.

Eligibility

A non-leased employee of the Company becomes eligible as a participant in the Plan upon reaching age 21 and completing 1000 hours of service. Participation commences on the entry date, which is the first day of the plan year in which you first become eligible.

Voting Rights

The Plan Administrator has the right to direct the Trustee as to the voting of allocated and unallocated shares of Company Stock in any matter which any other shares of the Company may be voted, except that the Participants shall have the right to direct the Trustee as to the voting of stock allocated to their account in certain matters.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1: PLAN DESCRIPTION (CONTINUED)

Vesting

Accrued benefits in the Plan shall vest at the rate of zero percent (0%) upon completion of less than three vesting years and 100% upon completion of the third vesting year. A vesting year is defined as a year of service in which the participant completes at least 1,000 hours of service. Participants who have less than three years of eligible service and are terminated due to death, permanent disability or retirement at age 65 or over are 100% vested.

Payment of Benefits

No distributions from the Plan are made prior to a participant's death, normal retirement date, or without his or her prior consent. Upon the death of a participant, his or her capital accumulation will be distributed to a named beneficiary or, if none, their legal representative. A participant who is at least age 59 ½, and who is fully vested in their capital accumulation may elect to make an in-service withdrawal of such capital accumulation up to 20% per year. A participant may make only one such withdrawal in any single calendar year. Effective January 1, 2018, in the case of a participant who incurs a separation from service for reasons other than retirement on or after his normal retirement date, death or permanent disability, distribution of the participant's capital accumulation shall be made or commenced no later than the anniversary date of the sixth plan year following the plan year in which his separation from service occurs. Distributions are to be made in cash or, if the participant elects, in the form of Company common shares plus cash for any fractional share.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock out of the plan and into investments which are more diversified. Pursuant to Code Section 401(a)(28), a qualified participant shall be permitted to direct the Plan as to the investment of up to 25% of the Participant's stock account at any time during the participant's qualified election period, except that, as of the sixth year of such period, the Participant may direct the Plan as to the investments of up to 50% of the stock account.

Further, the Plan allows for in-service distributions to provide participants an opportunity to diversify their retirement holdings. A participant who has (a) attained age 55 and completed six years of service or (b) completed 10 years of service may elect to receive an annual in-service distribution. The amount of distribution to a participant has both annual and lifetime limitations as defined in the Plan document.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA. In the event of termination, each participant's account automatically becomes 100% vested. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.

NOTE 1: PLAN DESCRIPTION (CONTINUED)

Forfeitures

Non-vested account balances of terminated participants are forfeited and re-allocated to the accounts of remaining participants according to the Plan's provisions. For the years ended December 31, 2022 and 2021, approximately 79 and 58 shares, of Company stock and \$1,704 and \$2,977, of company cash were reallocated to eligible participants, respectively.

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants is not readily tradable on an established market, or is subject to trading limitations including a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures. Actual results could differ from those estimates. The Plan relies significantly on the use of estimates in determining the valuation of the Riesbeck Food Markets, Inc. common stock, which is the primary Plan investment.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a settlement-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Dividends are recognized when received.

Benefit Payments

Benefit payments are recorded when paid.

RIESBECK FOOD MARKETS, INC.
EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO THE FINANCIAL STATEMENTS

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Administrative Expenses

Administrative expenses are paid by the Company or the Plan, as provided in the plan document. Expenses paid by the Company are excluded from these financial statements.

Subsequent Events

Plan management has evaluated subsequent events through October 11, 2023, the date the financial statements were available to be issued.

NOTE 3: INVESTMENTS

The Plan provides that, to the extent the Plan's administrator and trustees (the "Committee") deem practicable, the custodian shall use all available cash, as directed by the Committee, to buy Company stock. If no Company stock is available for purchase, and the Committee determines that the purchase of additional Company stock is not practicable, the custodian may invest in other securities or property as directed by the Committee.

The investment in common stock of the Company is recorded at its estimated fair value at year-end, as determined by an annual independent appraisal as of the Company's fiscal year-end. The independent appraised fair value of the Company at December 31, 2022 and 2021 was \$136.15 and \$130.65 per share, respectively.

The Plan held 88,799 shares of Company common stock as of December 31, 2022 and 2021 with a cost basis of \$3,734,515.

NOTE 4: FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

RIESBECK FOOD MARKETS, INC.
EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO THE FINANCIAL STATEMENTS

NOTE 4: FAIR VALUE MEASUREMENTS (CONTINUED)

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes to the methodologies used at December 31, 2022 and 2021.

Money Market: Valued at the daily closing price as reported by the fund.

Plan Sponsor Common Stock: The fair value of the common stock held by the Plan is valued at fair value based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparable, and fair value of Company assets and liabilities. Plan management has concluded that a market participant would also recognize a discount for lack of marketability.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

For the year ended December 31, 2022 and 2021, the Plan did not hold any Level 2 assets.

NOTE 5: TAX STATUS

The IRS has determined and informed the Company by a letter dated July 12, 2016 that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

In accordance with GAAP, Plan management is required to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 6: RELATED PARTY TRANSACTIONS

Certain Plan investments include shares of the Plan Sponsor. Riesbeck Food Markets, Inc. is the Plan Sponsor and, therefore, these transactions qualify as related party transactions.

NOTE 7: RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

As of December 31, 2022, the Plan holds stock in Riesbeck Food Markets, Inc., totaling \$12,089,984. Therefore, net assets available for benefits are particularly sensitive to changes related to these investments.
