Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Melmark, Inc. Supplemental Retirement Annuity Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained a certification from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP); and
- the certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and

other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the certified investment information in the supplemental schedule agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Melmark, Inc. Supplemental Retirement Annuity Plan

Notes to Financial Statements

1. Plan Description

The following description of the Melmark, Inc. Supplemental Retirement Annuity Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan was adopted effective January 1, 2009, by Melmark, Inc. (the Company), and is the sponsor of the Plan. The Plan is a defined contribution plan under Section 403(b) of the Internal Revenue Code (IRC) covering substantially all employees of the Company. The Plan Committee is responsible for oversight of the Plan. The Plan Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

Employees are immediately eligible to make deferrals to the Plan. Employees are eligible for employer matching contributions on the first day of the payroll period in which the eligible employee completes one year of service, as defined in the Plan.

Contributions

Participants may contribute up to 100% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollovers). The Company may make matching contributions, at its discretion, in an amount not to exceed 2% of participant's compensation. The Company's contribution percentage was 0.4% of compensation for each elective deferral of 1% of compensation up to 2% of compensation. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Investment Options

Upon enrollment in the Plan, a participant may direct all contributions to selected investments as made available and determined by the Plan Administrator in 1% increments. Participants may change their investment options daily.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's matching contribution, and an allocation of net Plan earnings or losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan Sponsor. Allocations are based on participant earnings, account balances or specific requested participant transactions, as defined. The benefit to which participants are entitled is the vested portion of their accounts.

Melmark, Inc. Supplemental Retirement Annuity Plan

Notes to Financial Statements

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Participants are vested in the Company's matching contributions plus actual earnings thereon based on years of continuous service. A participant is 100% vested after three years of continuous service.

Notes Receivable from Participants

Participants may borrow from their accounts up to a maximum equal to the lesser of \$50,000 less the highest outstanding loan balance in the previous 12 months or 50% of their vested account balance. Loan terms may not exceed five years, with the exception of loans for the purchase of a principal residence, which can have a longer term. Loans are collateralized by the balance in the participant's account and bear interest at a variable rate based on the monthly corporate bond yield average. Loan repayments are made through an ACH Agreement. Also as discussed in Note 10, TIAA and CREF offers a loan program where participants are also able to borrow funds outside of the Plan.

Payment of Benefits

The Plan permits withdrawals when a participant terminates employment, retires, or becomes disabled or deceased. In-service withdrawals are also permitted for certain financial hardships, or when a participant attains age 59½. Benefits are payable in lump-sum payments, installments, or in the form of various annuities. If the participant's vested balance does not exceed \$5,000, the Plan will distribute the benefit in a lump sum in a direct rollover to an individual retirement plan designated by Melmark.

Forfeitures

Forfeitures are created when participants terminate employment before becoming vested in their full benefits under the Plan. The non-vested portion of Employer contributions, after a participant incurs a one year break in service, are used to reduce future Employer contributions by the Company. During 2022, \$5,234 was used to reduce Employer matching contributions. Forfeited non-vested accounts totaled \$588 and \$5,238 at December 31, 2022 and 2021, respectively.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Melmark, Inc. Supplemental Retirement Annuity Plan

Notes to Financial Statements

Investment Valuation and Income Recognition

Investments are reported at fair value (except for the fully benefit responsive (FBR) investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by TIAA and CREF. See Note 4 for discussion of fair value measurements.

The Plan's fully benefit responsive investment contracts with TIAA and CREF (Note 5) are valued at contract value. Contract value equals the accumulated cash contributions and interest credited to the Plan's contracts.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions Receivable

Contributions from Plan participants and the matching contributions from the Company are recorded in the year in which the participant contributions are withheld from compensation paid. All participant and Employer contributions are participant-directed.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Administrative expenses, if any, include fees that are charged directly to the participant's account and certain recordkeeping fees paid by the Plan. Investment related expenses are included in net depreciation of fair value of investments.

Revenue Credit Account

The Plan receives a revenue credit from TIAA for excess revenue that was generated by the investments within the Plan. The revenue credit amount may be used to pay reasonable and necessary Plan expenses or can be allocated to participants. As of December 31, 2022 and 2021, the Plan did not use or allocate any of the revenue credit amount. The amount received by the Plan was not material to the financial statements and is included in the investment income (loss) on the statement of changes in net assets available for benefits.

3. Certified Investment Information

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments and notes receivable from participants held at December 31, 2022 and 2021, and net appreciation (depreciation) in fair value of investments, dividend and interest income (net of fees), and interest income on notes receivable from participants for the year ended December 31, 2022,

Melmark, Inc. Supplemental Retirement Annuity Plan

Notes to Financial Statements

was obtained by management and agreed to or derived from information certified as complete and accurate by TIAA and CREF, qualified institutions.

At the request of the Plan Administrator, the Plan's independent auditors did not perform auditing procedures with respect to this certified information, except for comparing such certified investment information to the related investment information included in the financial statements, including reading the disclosures related to the investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP, and in the ERISA-required supplemental schedule, including assessing whether the supplemental schedule is in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

4. Fair Value Measurement

Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, provides for a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Melmark, Inc. Supplemental Retirement Annuity Plan

Notes to Financial Statements

Fixed annuity contracts - The non-fully benefit responsive (NFBR) fixed annuity contracts, composed entirely of the TIAA Traditional Annuity Contracts, are reported at fair value as approximated by contract value. Fair value is determined using a discounted cash flow model. The contract value equals the accumulated cash contributions and interest credited to the Plan's contracts, less withdrawals. The TIAA Traditional Annuity Contracts are not available for sale or transfer on any securities exchange. The fixed annuity account is subject to various restrictions. See Note 5.

Variable annuity contracts - Invest in mutual funds, which are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan deemed to be actively traded.

Pooled separate accounts - Valued at the NAV of shares in each account held by the Plan at year end. The net asset value is not a publicly-quoted price in an active market. The NAV, as provided by the insurance carrier, is used as a practical expedient to estimating fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level within the fair value hierarchy the Plan's assets at fair value:

Investment Assets at Fair Value at December 31, 2022				
	Level 1	Level 2	Level 3	Total
Fixed annuity contract NFBR	\$ -	\$ -	\$ 432,764	\$ 432,764
Variable annuity contracts	21,721,823	-	-	21,721,823

Melmark, Inc. Supplemental Retirement Annuity Plan

Notes to Financial Statements

Change in Fair Value - Level 3 Investment

During the year ended December 31, 2022, there were net transfers of \$87, purchases and issues totaling \$7,181 and \$13,195, respectively relating to participant directed transactions. Transfers in totaled \$20,716 and transfers out totaled \$20,629.

Investments that Calculate Net Asset Value

<i>December 31,</i>	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Real Estate - 2022	\$ 969,358	N/A	Quarterly	Daily
Real Estate - 2021	\$ 900,170	N/A	Quarterly	Daily

Real Estate: The investment objective of the TIAA Real Estate Account, the pooled separate account offered by the Plan, is to seek long-term returns primarily through rental income and appreciation of real estate owned by the account.

5. Investments, at Contract Value

As discussed in Note 4, fixed annuity contracts consist of investment options available to participants through the TIAA Traditional Annuity Contracts (Annuity). An annuity contract is established between the participant and TIAA.

The Annuity has different underlying investments based on the source of contributions. The revenue credit received from TIAA, as described in Note 2, *Administrative Expenses and Revenue Credit Account*, is invested in the Retirement Choice Plus (RCP) and can be allocated to participants. The RCP has no liquidity restrictions applicable to the participants' withdrawals and transfers with the exception of a 90-day equity wash if a transfer is made to the TIAA Real Estate Account. Participants can invest their salary reduction contributions in the Group Supplemental Retirement Annuity (GSRA) or in the Supplemental Retirement Annuity (SRA). The GSRA and SRA have no liquidity restrictions applicable to the participants' withdrawals and transfers. The RCP, GSRA and SRA are benefit responsive investment contracts, as defined.

Annuity Type	RCP	GSRA	SRA	Total
December 31, 2022	\$ 4,823	\$ 3,958,307	\$ 40,724	\$ 4,003,854
December 31, 2021	\$ 4,681	\$ 4,029,904	\$ 36,966	\$ 4,071,551

Participants can invest the Company's contributions in the Group Retirement Annuity (GRA). The GRA has liquidity restrictions including no lump-sum withdrawals and participant-initiated transfers may only be made in 10 annual installments. Because this provision is considered to restrict participants' "reasonable access" to their contract balances, the GRA is not considered to be fully benefit-responsive investment contract and is shown on the ASC 820 table in Note 4.

An annuity contract is credited with a guaranteed minimum rate of return of interest that is determined annually. Participants may also earn interest in addition to the guaranteed rate at the

Melmark, Inc. Supplemental Retirement Annuity Plan

Notes to Financial Statements

discretion of TIAA. Such discretionary interest, if any, is declared by TIAA on a year-by-year basis and remains in effect for the subsequent twelve-month “declaration year”.

Contributions to the Annuity Contracts are grouped by TIAA into “vintages” comprised of premiums received over defined time periods of one or more contiguous calendar months. The interest crediting rate for each vintage is determined, in part, by the net investment earnings rate of the TIAA assets supporting that vintage, minus a charge for administrative expenses and an amount set aside for contingency reserves. Crediting rates are also determined by the performance of investments contained in TIAA’s general account.

Credit Interest Rates	RCP	GSRA	SRA
December 31, 2022	3.20% - 5.75%	3.00% - 5.50%	3.00% - 5.50%
December 31, 2021	2.00% - 3.15%	3.00% - 3.05%	3.00% - 3.05%

The Plan began offering a fixed-rate group annuity contract, the TIAA Stable Value (Stable Value), that is benefit-responsive, during the year ended December 31, 2021. Contributions are maintained in a nonutilized separate account of TIAA and buys a contractual or guaranteed amount of future benefits for the participants. The crediting interest rate is guaranteed between 1% and 3% before reduction for contract fees. Allocations to the Stable Value are backed by the value of the assets in the separate account.

The Stable Value is immediately liquid to participants and does not have participant-level withdrawal restrictions. There is an equity wash provision that prevents participants from the immediate transfer of amounts to any completing investment in the Plan. If the Plan chooses to terminate the Stable Value, the payout can take up to two years and if the two-year payout applies, a discontinuance fee will be assessed, reducing the interest credited during the two-year period by up to 0.75%.

6. Plan Termination

Although it has not expressed any intent to do so, Melmark has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all participants will become fully vested in the Employer matching contributions.

7. Tax Status

On April 14, 2009, the IRS released Announcement 2009-34, which provides a draft of a revenue procedure that would establish an opinion letter process for 403(b) prototype plans. The IRS also reiterated its intention to establish a determination letter program for 403(b) plans at a later date that would allow an employer to obtain a determination letter for its individually designed plan that the Plan language satisfies the requirements of Section 403(b) of the IRC. Although the Plan is not required to have obtained and has not obtained a determination letter as of December 31, 2022, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. As of December 31, 2022, no provision for income taxes has been included in the Plan’s financial statements.

Melmark, Inc. Supplemental Retirement Annuity Plan

Notes to Financial Statements

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken any significant uncertain tax positions that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

9. Related Party and Party-In-Interest Transactions

The Plan provides for funds to be invested in TIAA and CREF investments. Therefore, these transactions, including, any revenue credit earned on the investments, qualify as parties-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in the fair value of the investment, as they were paid through revenue sharing rather than a direct payment.

Certain officers of the Company are also administrators and trustees of the Plan. As employees, they are eligible to participate and were active participants during 2022 and 2021. The only transaction involving the officers was the Employer matching contributions. The Plan sponsor pays directly any fees related to the Plan's operations.

10. Plan Loans

Participants may request loans directly from TIAA and CREF using a portion of their plan account as security for the loan. Such loans are subject to certain limitations. Applicants receiving such loans are required to pledge as collateral, annuity account value of 110% of the loan amount for the period of time the loan is outstanding.

Loan balances outstanding from TIAA and CREF to the Plan's participants were \$305,240 and \$470,773 as of December 31, 2022 and 2021, respectively. The loans are not made from Plan assets and therefore are not recorded as assets of the Plan. As such, approximately \$335,764 and \$517,851 of annuity account values (110% of outstanding loans from TIAA and CREF) as of December 31, 2022 and 2021, respectively, serves as collateral for the related loans. The collateral is included in investments in the accompanying statements of net assets available for benefits. Loans totaling \$161,751 from 21 participants are currently in default. Upon a deemed distributable event from the Plan, the collateral will be used to satisfy these defaults.

11. Subsequent Events

The Plan has evaluated subsequent events through October 13, 2023, the date the financial statements were available to be issued.
