Independent Auditors' Report

Plan Administrator
Regis University Defined
Contribution Plan
Denver, Colorado

Scope And Nature Of The ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Regis University Defined Contribution Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Regis University Defined Contribution Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (the DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institutions).

Management has obtained certifications from qualified institutions as of December 31, 2022 and 2021 and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities For The Audit Of The Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis For Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities For The Audit Of The Financial Statements section of our report. We are required to be independent of Regis University Defined Contribution Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities Of Management For The Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Regis University Defined Contribution Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities For The Audit Of The Financial Statements

Except as described in the Scope And Nature Of The ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in the United States of America will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with auditing standards generally accepted in the United States of America, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Regis University Defined Contribution Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Regis University Defined Contribution Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audits.

Other Matter - Supplemental Schedule Required By ERISA

The supplemental schedule of assets held at end of year as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

REGIS UNIVERSITY DEFINED CONTRIBUTION PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2022 And 2021

1. Description Of The Plan

The following description of Regis University Defined Contribution Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan is a 403(b) defined contribution plan established by Regis University (the Employer or the University) and covers all employees of the University, except students, employees who normally work fewer than 20 hours per week, members of the Society of Jesus and other religious orders and employees who are eligible to participate in another 403(b) plan that the University sponsors. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Empower Annuity Insurance Company of America (Empower) serves as custodian for certain investments held by the Plan. The Plan also holds certain investments that are managed by Teachers Insurance and Annuity Association of America (TIAA) and College Retirement Equities Fund (CREF), custodians of other certain Plan assets. TIAA is an insurance company, and CREF is a registered investment company as well as an insurance company. Empower, TIAA and CREF process and maintain the records of the participant data. Empower, TIAA and CREF (qualified institutions) were determined by management to meet the requirements of ERISA Section 103(a)(3)(C) to certify the investment information as complete and accurate.

Subsequent to April 1, 2011, contributions, including rollovers, are no longer allowed to be remitted to TIAA and CREF.

Eligibility

Employees are eligible to participate in the elective deferral portion of the Plan immediately upon hire. Participants are eligible to receive Employer contributions and begin making mandatory pre-tax salary deferrals (nonelective salary deferrals) upon attaining 18 years of age and 1 year of service, as defined by the Plan. For eligibility purposes only, the Plan credits eligible employees with service earned while they were employed at any regionally accredited institution of higher education, provided the employee accrued a benefit under a retirement plan maintained by such an institution.

REGIS UNIVERSITY DEFINED CONTRIBUTION PLAN

Notes To Financial Statements *(Continued)*

Contributions

The Plan requires all eligible employees to contribute through nonelective salary deferral of 4% of eligible compensation. The Plan also permits certain eligible employees, through an additional voluntary salary deferral election, to make annual pre-tax or Roth contributions of up to 100% of eligible compensation. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. Participants who have completed 15 years of service with a qualified institution, as defined by the Plan Agreement, may also make additional catch-up contributions. Participants may also make contributions to the Plan which represent distributions from other qualified plans (rollovers).

The University may make discretionary contributions to the Plan on behalf of each employee who makes a nonelective salary deferral contribution. Employer contributions are discretionary, as determined by the management of the University. Contributions are subject to certain limitations. Discretionary Employer contributions of \$3,503,926 were made by the University in 2022. Discretionary contribution rates for 2022 were as follows:

One to four years of service	6.00%
Over four years of service	8.00%

Participant Investment Account Options

Each participant's account is credited with the participant's contributions and the Employer discretionary contributions, as well as an allocation of the Plan earnings or losses. The allocation of earnings or losses is determined by the participant's investment elections and account balance. Each participant has the option of directing contributions into any of the investment accounts and may change the allocation daily; however, for certain investment accounts, in an effort to reduce market timing and excessive trading, certain restrictions apply. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their mandatory employee contributions, voluntary contributions and all Employer contributions, plus any earnings thereon.

REGIS UNIVERSITY DEFINED CONTRIBUTION PLAN

Notes To Financial Statements *(Continued)*

Payment Of Benefits

Amounts in a participant's account and earnings thereon may be distributed upon severance of employment or disability. Forms of payment include a lump-sum payment, partial distribution, installment payments (joint and survivor annuity: 50%) or purchase of an annuity contract equal to the value of his or her account. Additionally, participants are permitted to take an in-service withdrawal upon reaching the age of 59½. Generally, certain minimum distributions are required for participants who have separated from service and have reached age 72. Certain withdrawal restrictions apply if the participant is invested in the TIAA Traditional Annuity Account.

Active participants who experience a qualifying financial hardship may apply for a hardship withdrawal. Hardship withdrawals will be approved only if they conform to Plan provisions and established Internal Revenue Service (the IRS) safe harbors.

Notes Receivable From Participants

The Plan Agreement includes provisions authorizing loans from the Plan to active eligible participants who have accounts for which Great-West is the custodian. The minimum amount of a loan is \$1,000, and the maximum loan amount is restricted to the lesser of \$50,000 or 50% of the participant's vested account balance. All loans are required to be paid back over a period not to exceed 5 years unless it is for the purchase of a primary residence, which can be repaid over 10 years. The interest rates on loans are based on Prime plus 1%.

TIAA And CREF Plan Loans

Plan loans may be issued to participants directly from funds owned by TIAA and CREF and not from a participant's account and, therefore, are not considered assets of the Plan. Adequate security is required, and a portion of the participant's account is reserved to cover 110% of the outstanding loan in case of default. The collateral is held in the TIAA Traditional Annuity Account. At December 31, 2022 and 2021, outstanding Plan loans (including interest) totaled \$48,788 and \$60,605, respectively.

Administrative Expenses

Each participant will pay administrative expenses based ratably on the size of the participant's account balance or may be charged equally to each participant. In addition, some expenses are only charged to participants based on their use of a Plan feature or receipt of a distribution. The Employer may pay significant administrative expenses of the Plan.

2. Summary Of Significant Accounting Policies

Basis Of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting.

Investment Valuation And Income Recognition

The Plan's investments, other than fully benefit-responsive investment contracts, are stated at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Investment contracts held by a defined contribution plan that are fully benefit-responsive are reported at contract value, rather than fair value, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan's investment in the Empower Guaranteed Interest Fund is a fully benefit-responsive investment contract and is reported at contract value on the statement of net assets available for benefits.

Investment contracts held by a defined contribution plan are generally reported at contract value except for those contracts that are not fully benefit-responsive. In such instances, these contracts are required to be reported at fair value. The Plan's investment in the TIAA Traditional Annuity Account is not a fully benefit-responsive investment contract and is reported at fair value in the statement of net assets available for benefits.

Interest income is recorded as earned on the accrual basis. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net change in fair value of investments represents the difference between an investment's aggregate fair value at year end and its value at the beginning of the year, and includes any realized gains and losses in shares that were bought and sold during the year.

Estimates And Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

REGIS UNIVERSITY DEFINED CONTRIBUTION PLAN

Notes To Financial Statements *(Continued)*

Payment Of Benefits

Benefits are recorded when paid.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant accounts are reclassified as distributions based upon the terms of the Plan Agreement.

Reclassifications

Certain 2021 amounts have been reclassified, where appropriate, to conform to the presentation used in the 2022 financial statements. These reclassifications did not affect net assets available for benefits.

Subsequent Events

Management evaluates subsequent events through the date the financial statements are available for issue, which is the date of the Independent Auditors' Report.

3. Certified Investment Information

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520-103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, qualified institutions have certified that the following unaudited financial information as of December 31, 2022 and 2021, and for the year ended December 31, 2022, included in the accompanying financial statements and supplemental schedule, which has not been audited by the Plan's independent auditor, is complete and accurate:

- Investments and notes receivable from participants as shown in the statement of net assets available for benefits;
- Investment income and net change in fair value of investments as shown in the statement of changes in net assets available for benefits; and
- The supplemental schedule of assets held at end of year.

REGIS UNIVERSITY DEFINED CONTRIBUTION PLAN

Notes To Financial Statements (*Continued*)

4. Fully Benefit-Responsive Investment Contracts

Investment Contract With Empower

The guaranteed investment contract with Empower is a fully benefit-responsive investment contract. Empower maintains the contributions in a general account. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to this investment. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against the contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2022 and 2021 approximates contract value as provided by Empower. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 2%. Such interest rates are reviewed on a quarterly basis for resetting. The crediting interest rate was 2% for 2022.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: 1) amendments to the Plan Agreement (including complete or partial plan termination or merger with another plan), 2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, 3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or 4) the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

REGIS UNIVERSITY DEFINED CONTRIBUTION PLAN

Notes To Financial Statements (*Continued*)

5. Fair Value Measurements

The Plan utilizes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

REGIS UNIVERSITY DEFINED CONTRIBUTION PLAN

Notes To Financial Statements (*Continued*)

The following is a description of the valuation methodologies used for assets measured at fair value:

Guaranteed Investment Account

Valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

Self-Directed Brokerage Accounts

Self-directed brokerage accounts are comprised of mutual funds, which are valued at the daily closing price as reported by the fund. The mutual funds held by the Plan are open-end investment funds that are registered with the Securities and Exchange Commission. These investment funds are required to publish their daily net asset value (NAV) and transact at that price. The investment funds held by the Plan are deemed to be actively traded.

Variable Annuities In Pooled Separate Accounts

Variable annuities in pooled separate accounts are valued at NAV of units held by the Plan at year end. NAV is determined by dividing the net assets, at fair value, of the fund by the number of units outstanding on the day of valuation. Variable annuities in pooled separate accounts are primarily comprised of shares of registered investment companies held through subaccounts of a separate account of an insurance company at December 31, 2022 and 2021. The Plan has concluded that NAV as adjusted (for mutual fund dividends, mutual fund splits and administrative maintenance charges and other items) and reported by the insurance company approximates fair value of the investments. The investments are redeemable daily at the adjusted NAV under agreements with the insurance company. However, it is possible that the redemption rights may be restricted or eliminated in the future. Due to the nature of the investments, changes in the market conditions, liquidity requirements and the economic environment may significantly affect NAV of the registered investment companies and, consequently, the fair value of the Plan's investments.

Investments in pooled separate accounts are measured at fair value using NAV per share (or its equivalent) as a practical expedient and, therefore, have not been categorized in the fair value hierarchy. The TIAA Real Estate Fund is a direct filing entity and is therefore exempt from disclosing investment strategy.

Mutual Funds

Mutual funds are valued at the daily closing price as reported by the fund. The mutual funds held by the Plan are open-end investment companies that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The methods described above may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of:

	December 31, 2022			
	Level 1	Level 2	Level 3	Total
Guaranteed investment account	\$ —	\$ —	\$ 23,483,425	\$ 23,483,425

6. Income Tax Status

Currently, 403(b) plans are not required to submit information to the IRS for determination. However, the Plan Administrator believes that the Plan was designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Plan Termination

Although it has not expressed any intent to do so, the University has the right to terminate the Plan at any time subject to the provisions of ERISA. Upon termination, participants will remain 100% vested in their accounts.

8. Related Party And Party In Interest Transactions

Certain Plan investments are managed by TIAA and CREF and Empower. Therefore, these transactions qualify as allowable party in interest transactions.

Additionally, the University provides certain administrative services at no cost to the Plan and pays certain fees related to the Plan operations.

9. Risks And Uncertainties

The Plan invests in various investment securities, which, in general, are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
