Independent Auditors' Report

To the Participants and Plan Administrator of the
Upper Iowa University 403(b) Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Upper Iowa University 403(b) Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022 and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 9 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Other Matter — Supplemental Schedules Required by ERISA

The supplemental schedules, Schedule H, Line 4(a) - Schedule of Delinquent Participant Contributions for the year ended December 31, 2022 and Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2022, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Upper Iowa University 403(b) Retirement Plan

Notes to Financial Statements

December 31, 2022 and 2021

1. Description of the Plan

The following description of the Upper Iowa University 403(b) Retirement Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established by Upper Iowa University (the University) and is subject to the provisions of the Employee Retirement Income Security Act of 1974, (ERISA) and the requirements of Section 403(b) of the Internal Revenue Code (IRC). The University is the sponsor and administrator of the Plan. TIAA and CREF is the insurance company of the Plan (the Insurance Company). The Insurance Company provides recordkeeping services for the Plan. Management determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Audit Committee, which is responsible for oversight of the Plan.

Eligibility

All employees, except students, are eligible to participate in the employee deferral portion of the Plan immediately. All employees, except students, adjunct instructors and seasonal employees, are eligible to participate in the employer matching portion of the Plan immediately. Upon enrollment in the Plan, a participant may direct employee contributions to any combination of available investment options. Independent contractors or other non-employees performing services for the University are not eligible to participate.

Contributions

Each year, participants may contribute up to 100% of pretax annual compensation (salary reduction contributions), as defined in the plan document, up to the maximum limits of the Internal Revenue Code (IRC). Additional contributions are permitted for any participant who is 50 years of age or older or who has 15 years of service with a qualifying organization (catch-up contributions). Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions). Contributions are subject to certain Internal Revenue Service (IRS) limitations. The Plan allows for the University to make discretionary match contributions. For the year ended December 31, 2022, the University matched 100% of employee contributions for contributions up to 2% of the participant's eligible compensation.

Participant Accounts

Each participant's account is credited with the participant's contributions, rollover contributions and the University's contributions, as well as allocations of plan earnings (net of administrative expenses). Contributions are based on the participant's eligible compensation as defined in the Plan and investment earnings are based on the selected investment option or account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Plan participants can designate the investment of their accounts in various funds with pre-selected investment objectives, each of which is invested in securities selected and managed by the Insurance Company to meet the objectives of each fund.

Notes to Financial Statements
December 31, 2022 and 2021

Vesting

For participants hired before January 1, 2016, participant contributions, rollover contributions and the University's employer contributions are immediately vested upon deposit into the Plan. For participants hired after January 1, 2016, participants become 100% vested in the employer contributions after completing three full years of service or the occurrence of the earlier of death, total and permanent disability or the attainment of age 65.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest ranging from 4.25 to 8.00% at December 31, 2022, which was commensurate with local prevailing rates at inception of the loan as determined quarterly by the plan administrator. Terms range from one to five years or greater for the purchase of a primary residence. Participant loans outstanding were \$29,901 and \$48,852 as December 31, 2022 and 2021, respectively.

Plan Loans

The Insurance Company also runs a program whereby the participant may obtain a loan directly from the Insurance Company. This type of loan does not lower the participant's account balance. The Insurance Company requires adequate security to make a loan to the participant and uses the participant's account as a reserve or as collateral. The participant's account balance is required to cover 110% of the outstanding plan loan at inception, in case of default. Since the loans are secured by a participant's account balance, there is a risk of default to the Plan. The amount of plan loans with the Insurance Company at December 31, 2022 and 2021 totaled \$168,414 and \$265,462, respectively. As of December 31, 2022 and 2021, there were three loans in default totaling \$42,359 and \$40,693, respectively.

Payment of Benefits

Benefits may be paid to the participant or beneficiary upon death, disability, retirement, termination of employment or obtaining age 59½, as defined in the Plan agreement. The Plan provides for normal retirement at age 65. The participant's account balance is distributed in the form of a lump sum payment (including rollovers), installments or an annuity. Participants experiencing financial hardship may withdraw a portion of this account balance as defined in the Plan document.

Participants invested in certain TIAA Traditional Annuity contracts may be subject to liquidity restrictions on benefit payment withdrawals. Under certain contracts held by the Plan, participant-initiated withdrawals out of the Plan may only be for ten annual installments over a period of nine years plus a day, no lump-sum withdrawals permitted. Under other contracts, there may be no liquidity restrictions and an option for a lump-sum withdrawal is available.

Forfeited Accounts

At December 31, 2022 and 2021, forfeited non-vested accounts totaled \$46,294 and \$55,476, respectively. These accounts will be used to reduce future employer contributions or to pay for plan expenses. For the year ended December 31, 2022, \$30,000 of forfeitures were used to reduce employer contributions.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the insurance company. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest and dividends are recorded on the cash basis, which approximates U.S. GAAP. Net appreciation (depreciation) includes the gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2022 and 2021.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the University. Expenses that are paid by the University are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The University has evaluated subsequent events through October 12, 2023, which is the date that the financial statements were approved and available to be issued, for events requiring recording or disclosure in the Plan's financial statements.

The Secure 2.0 Act of 2022 was signed into law on December 29, 2022. This legislation includes a vast array of provisional changes to retirement plans, becoming effective in 2023 and beyond. Plan management is evaluating the impact of the adoption and implementation of this legislation on the Plan.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets in active markets;
- quoted prices for identical or similar assets in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. As disclosed in the 2021 financial statements, as of December 31, 2021, the pooled separate account was presented within Level 2 of the fair value hierarchy. During 2022, the University elected to use the net asset value (NAV) practical expedient and the pooled separate account was transferred from Level 2 within the fair value hierarchy to NAV. There were no changes to the amounts or presentation of assets on the Statements of Net Assets Available for Benefits as of December 31, 2022 and December 31, 2021. There have been no other changes in the valuation methodologies used at December 31, 2022 and 2021.

The money market fund is valued at the quoted net asset value (NAV) of shares held by the Plan at year end.

The mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The interest in variable annuity contracts are valued at NAV of shares, which are valued by the Insurance Company at accumulation unit value based on the estimated value of the underlying investments, held by the Plan at year-end. NAV is a readily determinable fair value and is the basis for current transactions. There are no unfunded commitments as of December 31, 2022 and 2021.

Upper Iowa University 403(b) Retirement Plan

Notes to Financial Statements
December 31, 2022 and 2021

The pooled separate account is valued at the NAV of units of such pooled accounts held by the Plan at year end. The NAV, as provided by the Insurance Company, is used as a practical expedient to estimate fair value. The pooled account generally invests in real estate properties and real estate-related investments. The value is principally derived from the market value of the underlying real estate holdings or other real estate-related investments as well as such liquid fixed-income investments. Real estate holdings are valued principally using external appraisals, which are estimates of property values based on a professional's opinion. The pooled account also holds liquid, fixed-income investments. These are generally priced using quoted prices in active markets or values obtained from independent pricing sources. Unit values are calculated each day.

Investments in fixed annuity contracts (guaranteed investment contracts) are valued at fair value by the Insurance Company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuers (see Note 4). In determining the reasonableness of the methodology, the plan administrator evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration of payout date) while others are substantiated utilizing available market data (for example, swap curve rate).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2022:

Assets at Fair Value as of December 31, 2022				
	Level 1	Level 2	Level 3	Total
Fixed annuity contracts	\$ -	\$ -	\$ 10,026,706	\$ 10,026,706

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets Available for Benefits.

Quantitative Information About Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following tables represent the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments and the significant unobservable inputs and the ranges of values for those inputs as of December 31:

2022

Notes to Financial Statements

December 31, 2022 and 2021

The following table sets forth a summary of certain changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2022:

Purchases	\$	788,541
Issuances		1,109,352
Transfers in and/or out of Level 3		-

In estimating fair value of the investments in Level 3, management may use third-party pricing sources or appraisers.

Investments Measured Using NAV per Share Practical Expedient

The following table summarizes investments for which fair value is measured using NAV per share as a practical expedient. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

	Assets at Fair Value as of December 31, 2022			
	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Pooled separate account	\$ 2,367,021	N/A	Daily	Once per quarter

- (1) The fair value of investments is based on the fair values of the underlying investments in the funds.
- (2) Certain events may cause funds held in the pooled separate account to be deferred, including, but not limited to, the following:
 - (i) Closing or disruption of the financial markets or exchanges in which a transaction is unable to be settled prudently.
 - (ii) An emergency situation in which the disposition of assets would be seriously prejudicial to participants.
 - (iii) Breakdown in the means of communication normally employed to determine fair market value of an investment.
 - (iv) Investments cannot be effected at normal rates of exchange.

None of these events occurred in 2022

- (3) Certain pooled separate accounts require redemption notice periods for plan withdrawals at the discretion of the investment advisor.
- (4) Redemption notice period of 12 months may be required at the discretion of the investment advisor.

4. Fully Benefit-Responsive Investment Contract

The Plan offers the option to invest in the TIAA Traditional Annuity Account, a guaranteed annuity contract with TIAA. Plan participants enter into this contractual agreement with TIAA by selecting a TIAA Traditional Annuity Account. Participants of the Plan previously invested in the following transitional accounts: Supplemental Retirement Annuity (SRA), Group Supplemental Retirement Annuity (GSRA), Group Retirement Annuity (GRA) or Retirement Annuity (RA). All new contributions are directed into the Retirement Choice (RC) and Retirement Choice Plus (RCP) accounts. All amounts in the SRA, GSRA, GRA and RA accounts will remain in those accounts until distributed or transferred to another investment option by the participant.

The SRA, GSRA and RCP are considered fully benefit-responsive and are reported at contract value. Contract value, as reported to the Plan by TIAA, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. The GRA, RA and RC are considered nonbenefit-responsive and are reported at fair value.

The TIAA Traditional Annuity Account is a guaranteed annuity contract with a fixed rate of interest. Interest is credited to the account and accumulations include a guaranteed rate, plus discretionary additional amounts determined annually by the TIAA Board of Trustees. The additional amounts, when declared, remain in effect through the "declaration year," which begins each March 1. The guaranteed annual interest rate is 3% for all premiums remitted since 1979 under all TIAA Traditional Annuity accumulating contracts. They are not a portfolio of contracts whose yields are based on changes in fair value of underlying assets, therefore the average yield earned by the Plan is the interest earned on the group annuity contract.

There are no reserves against contract value for credit risk of TIAA or otherwise. The crediting interest rate is based on a formula agreed upon by TIAA, which will not be less than 3%. Such interest rates are reviewed on an annual basis for resetting. The TIAA Traditional Annuity Account does not permit TIAA to terminate the agreement prior to the scheduled maturity date.

Certain Traditional Annuity individual annuity contracts meet the fully benefit-responsive criteria and therefore are reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Upon termination of the investment contract, the lump sum liquidation value of the guaranteed account portion of the participant's accumulation value shall be equal to the product of (a) the participant's guaranteed account accumulation value of the liquidation date, reduced by the liquidation charge applicable on the liquidation date and (b) a market value adjustment percentage. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the IRC or the failure of the trust to be tax-exempt under Section 501(a) of the IRC;
2. Premature termination of the contracts;
3. Plan termination or merger;
4. Changes to the Plan's prohibition on competing investment options; and
5. Bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

Upper Iowa University 403(b) Retirement Plan

Notes to Financial Statements

December 31, 2022 and 2021

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following: (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract and (3) a material misrepresentation and (4) a material amendment to the agreements without proper consent of TIAA.

5. Related-Party and Party in Interest Transactions

The Plan's investments are managed by TIAA and CREF, the Insurance Company, and therefore, the transactions qualify as party in interest transactions. Fees incurred by the Plan for the investment manager services are included in net appreciation (depreciation) in fair value of investments, as they are paid through revenue sharing, rather than a direct payment. Additionally, the Plan issues loans to participants, which are secured by the participant's account balances. These transactions qualify as party in interest transactions.

Certain administrative functions of the Plan are performed by officers or employees of the University. No such officer or employee receives compensation from the Plan.

6. Plan Termination

Although it has not expressed any intent to do so, the University has the right under the Plan to discontinue its contributions at any time and to terminate the Plan at any time subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their employer contributions.

7. Tax Status

The Plan has been designed to qualify under Section 403(b) of the IRC. The plan administrator believes the Plan is operating in accordance with the applicable requirements of Section 403(b) of the IRC and therefore believes the Plan is qualified and the related custodial accounts are tax-exempt.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Notes to Financial Statements

December 31, 2022 and 2021

As of December 31, 2022 and 2021, the Plan had investments of \$18,018,640 and \$20,683,357, respectively, that were concentrated in two funds.

9. Information Certified by Insurance Company

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2022 and 2021. Accordingly, TIAA and CREF, the Insurance Company of the Plan, has certified to the completeness and accuracy of all investments reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2022 and 2021 and the supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2022 and the related investment activity reported in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2022.

10. Delinquent Participant Contributions

For the year ended December 31, 2022, the University did not remit certain participant contributions to the Plan on a timely basis as defined by the Department of Labor's Rules and Regulations for Reporting and Delinquent Participant Contributions Disclosure under ERISA. Untimely remittances identified on the Schedule H, Line 4(a) - Schedule of Delinquent Participant Contributions, which totaled \$5,620, were corrected outside of the Department of Labor Voluntary Fiduciary Correction Program in 2022. Additionally, the University has compensated participants for lost earnings resulting from the delay in contributions.
