Retirement Plan Committee
Chemtrade Delaware Inc. Retirement Plan (Plan No. 131)
Toronto, Ontario

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Chemtrade Delaware Inc. Retirement Plan (Plan No. 131) (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for plan benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for plan benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the years then ended, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

(Continued)

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter

As described in Note 1 to the financial statements, the Plan merged into the Chemtrade Chemicals Corporation Consolidated Pension Plan (Plan No. 10) effective December 31, 2022. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year from the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

(Continued)

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

CHEMTRADE DELAWARE INC. RETIREMENT PLAN
(PLAN NO. 131)
NOTES TO FINANCIAL STATEMENTS
December 31, 2022 and 2021

NOTE 1 – DESCRIPTION OF PLAN

The following brief description of the Chemtrade Delaware Inc. Retirement Plan (Plan No. 131) (the “Plan”) provides only general information. Participants should refer to the plan document for a more complete description of the Plan’s provisions.

General: The Plan is a defined benefit pension plan sponsored by Chemtrade Chemicals Corporation (the “Company”). The Administrative Committee of the Plan and the Plan administrator control and manage the operation and administration of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Effective December 15, 2022, the Plan purchased a group annuity contract with Minnesota Life Insurance Company for in-pay retirees in the Plan, who: (i) commenced their benefit prior to January 1, 2022; and (ii) had a monthly annuity benefit of less than \$750; subject to certain exceptions. The payments under the group annuity contract commenced on December 15, 2022. This is shown as a “Payment for purchase of group annuity contracts” on the statement of changes in net assets available for plan benefits. Further, in connection with the purchase of the group annuity contract, the Plan’s accumulated plan benefits will decrease by approximately \$2 million (unaudited).

Effective December 31, 2022, the Plan’s assets were merged into the Chemtrade Chemicals Corporation Consolidated Pension Plan (Plan No. 10) (the “Consolidated Plan”), a participating plan in the Master Trust. As a result of the merger, net assets totaling \$4,482,974 and accumulated plan benefit obligation of \$5,112,412 (unaudited) transferred into the Consolidated Plan.

Eligibility: Effective April 1, 2004, the Company amended the Plan to provide that employees hired or rehired on or after that date are not eligible to participate in the Plan and that all future retirement benefit accruals under the Plan shall cease and, as of such date all accrued benefits under the Plan shall be frozen as set forth in the provisions of the Plan. Benefits accrued under the Plan for frozen employees through March 31, 2004, will not be reduced, diminished or eliminated and shall remain payable in accordance with the Plan, as amended April 1, 2004.

Pension Benefits: Employees with five years of vesting service, as defined by the Plan, are entitled to pension benefits upon retirement. There is no partial vesting of benefits. The Plan provides for normal retirement benefits upon reaching age 65 and has provisions for early retirement, death and disability benefits. Married participants may elect to receive their pension benefits from various forms of joint and survivor annuities or life annuities. Unmarried participants may elect to receive the value of their benefits in the form of a life annuity.

Master Trust: The assets of the Plan are held in a trust account, Chemtrade Delaware Inc. Defined Benefit Master Trust (“Master Trust”). As of December 31, 2022, the Consolidated Plan is the only plan in the Master Trust. As of December 31, 2021, the assets of the Plan, along with the assets of the Reheis Pension Plan for Hourly Employees (Plan No. 030); the Chemtrade Chemicals Corporation Salaried Employees’ Pension Plan (Plan No. 108); the Peridot Chemicals (New Jersey), Inc. Newark Union Employees Pension Plan (Plan No. 003); and the Consolidated Plan, are held in the Master Trust.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The accompanying financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

(Continued)

(PLAN NO. 131)
NOTES TO FINANCIAL STATEMENTS
December 31, 2022 and 2021

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition: The Plan's interest in the Master Trust is reported at fair value based upon the fair values of the underlying investments held in the Master Trust. Purchases and sales of securities are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded when earned on an accrual basis. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make significant estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates. It is reasonably possible that a significant change may occur in the near term for the estimate of the actuarial present value of accumulated plan benefits and the fair values of the Plan's interest in the Master Trust.

Risks and Uncertainties: The Plan invests in the Master Trust which invests in various investments. The underlying investments are exposed to various risks, such as interest rate, market, liquidity, credit risks as well as risks associated with global events. Due to the level of risk associated with certain investments and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for plan benefits and the statements of changes in net assets available for plan benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are prepared based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in this estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could also be material to the Plan's financial statements.

Administrative Expenses: The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the Plan document. Investment management fees are charged to the Plan as a reduction of investment return and included in the investment income (loss) reported by the Plan.

Benefit Payments: Benefits are recorded when paid.

NOTE 3 – FUNDING POLICY

Contributions to provide benefits under the Plan are made solely by the Company. The Company's funding policy is to make cash contributions to the Plan in amounts as determined by the Plan's independent actuary. This method and the actuarial assumptions referred to in Note 4 have been designed to provide sufficient funds to pay benefits as they become payable under the Plan. The Company met the minimum funding requirements of ERISA for the plan years ended December 31, 2022 and 2021. No participant contributions are allowed under Plan provisions.

NOTE 4 – ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan’s provisions to service rendered by the employees through the valuation date. Accumulated plan benefits as of December 31, 2021, include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died, and (3) present employees or their beneficiaries. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions underlying the computations for the Plan as of December 31, 2021, are as follows:

Assumed settlement interest rate	2.69%
Mortality basis	
Healthy & Disable	Pri-2012 mortality study projected generationally from 2012 with scale MP-2021 reflecting a slow COVID-19 recovery
Retirement	Specified percentages commencing at age 50 through age 67

The actuarial assumptions used by the Plan are based on the presumption that the Plan will continue. Should the Plan terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuary performed a valuation as of December 31, 2021. The accumulated plan benefit information as of this valuation date is as follows:

Actuarial present value of accumulated plan benefits

Vested benefits	
Participants currently receiving payments	\$ 7,348,427
Other participants	1,861,048
Total vested benefits	<u>9,209,475</u>

NOTE 4 – ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (Continued)

The changes in the actuarial present value of accumulated plan benefits for the year ended December 31, 2021, consist of the following:

Actuarial present value of accumulated plan benefits as of December 31, 2020	\$ 9,879,066
Increase (decrease) attributed to:	
Benefits paid	(696,043)
Interest accumulations	217,353
Assumption changes	(350,683)
Benefits accumulated and (gains)/losses	<u>159,782</u>
Net increase	<u>(669,591)</u>
Actuarial present value of accumulated plan benefits as of December 31, 2021	\$ <u>9,209,475</u>

Assumption changes for the year ended December 31, 2021, consist of a change in the assumed settlement interest rate from 2.28% to 2.69%.

An actuarial valuation of the Plan's accumulated plan benefits as of December 31, 2022, has not yet been completed.

NOTE 5 – FAIR VALUE MEASUREMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's and Master Trust's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

NOTE 5 – FAIR VALUE MEASUREMENTS (Continued)

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan's interest in the Master Trust.

Mutual Funds: The fair values of mutual funds are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Collective Trusts: The fair values of shares of the collective trusts are based upon the net asset values of the funds reported by the fund managers as of the Plan's financial statement dates and recent transaction prices. The net asset value is used as a practical expedient to estimate fair value.

Limited Partnerships: The fair value of the Master Trust's interest in each limited partnership is based on the Master Trust's proportionate interest in net asset value of the partnership as reported in the audited financial statements of the partnership as of the Plan's financial statement date. The net asset value is used as a practical expedient to estimate fair value. The inputs used by the general partners in estimating the fair values of the investments held by the limited partnerships include the original transaction prices, recent transactions in the same or similar instruments, completed or pending third-party transactions in the underlying investments or comparable issuers, subsequent rounds of financing, recapitalizations and other transactions across the capital structure, offerings in the equity or debt capital markets, and changes in financial ratios or cash flows. These investments may also be adjusted to reflect illiquidity and/or non-transferability, with the amount of such discounts estimated by the general partners in the absence of market information. Due to the lack of observable inputs, the determination of the fair value by the general partners may differ materially from the value ultimately realized by the partnership. These investments can never be redeemed; instead, the nature of these investments is that distributions are received through the liquidation of the underlying assets.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

See Note 7 for investments of the Master Trust measured at fair value on a recurring basis.

NOTE 6 – CERTIFIED INVESTMENTS

Certain information related to investments disclosed in the accompanying financial statements, including investments held at December 31, 2022 and 2021 and investment gain (loss) from Master Trust for the years then ended, was obtained by management and agreed to or derived from information certified as complete and accurate by The Bank of New York Mellon / BNY Mellon, N.A., the trustee ("Trustee") of the Plan.

NOTE 7 – INTEREST IN MASTER TRUST

The Plan's investment assets are held in a trust and consist of an undivided interest in the Master Trust established by the Company and its affiliates and are administered by the Trustee. Use of the Master Trust permits the commingling of trust assets of a number of pension plans of the Company and its affiliates for investment and administrative purposes. Although assets of the plans are commingled in the Master Trust, the Trustee maintains supporting records for the purpose of allocating the net gain or loss of the investment account to the participating plans. The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income, less actual distributions and allocated administrative expenses. Due to the merger of the Plan into the Consolidated Plan, the Plan held no assets as of December 31, 2022. At December 31, 2021, the Plan's interest in the net assets of the Master Trust was approximately 5 percent. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon average monthly balances invested by each plan.

The following presents the net assets held by the Master Trust and the Plan's interest in the Master Trust at December 31, 2022 and 2021:

* Investments measured at fair value using net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the hierarchy tables for such investments are intended to permit reconciliation of the fair value hierarchy to the investments at fair value noted in the table in Note 7.

The following tables summarize investments for which fair value is measured using the net asset value per share as a practical expedient as of December 31, 2022 and 2021. There are no significant redemption restrictions for these investments; the redemption notice period is applicable only to the Master Trust.

CHEMTRADE DELAWARE INC. RETIREMENT PLAN
(PLAN NO. 131)
NOTES TO FINANCIAL STATEMENTS
December 31, 2022 and 2021

NOTE 8 – PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under the Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. At December 31, 2022 and 2021, certain investments in the Master Trust were held in investment funds which were managed by certain affiliates of the independent actuary and the Trustee of the Plan and, therefore, qualify as party-in-interest transactions. The majority of fees paid for by the Plan are considered party-in-interest transactions.

NOTE 9 – INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated March 7, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (“IRC”). Although the Plan has been amended since receiving the determination letter, Plan management believes that the Plan is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date. No provision for income taxes has been included in the Plan’s financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2022 and 2021, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2019.

NOTE 10 – PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan is terminated, the net assets of the Plan will be allocated for payment of Plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder, and the Plan document.

Prior to the merger of the Plan with the Consolidated Plan, certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (“PBGC”) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor’s pensions. However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan’s termination, subject to a statutory ceiling on the amount of an individual’s monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan’s net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

Schedule SB, line 23—Information on Use of Multiple Sets of Mortality Tables

The 2022 Static Mortality Table for Annuitants and Non-Annuitants per§1.430(h)(3)-1(a)(3) was used for healthy lives while the Revenue Ruling 96-7 Mortality Table was used for disabled lives. Currently there is one disabled life in this population.

Schedule SB, line 24—Change in Actuarial Assumptions

The expected return on asset changed from 5.25% to 4.90% to better reflect anticipated future market experience and current asset allocation.

Since this change to non-prescribed assumption did not reduce funding standard either (1) by more than \$50 million or (2) reduce the Funding standard by more than the greater of \$5 million and 5% of the FT before change, IRS approval was not required.

Decrement Timing	Middle of year decrements (except that retirement is assumed to occur at the beginning of the year for ages where the assumed retirement rate is 100%)
Surviving Spouse Benefit	It is assumed that 100% of males and 100% of females have an eligible spouse. Male employees are three years older than their spouses. Female employees are two years younger than their spouses.
Benefit Limits	Projected benefits are limited by the current IRC section 415 maximum benefit of \$245,000.
Valuation of Plan Assets	<p>Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.</p> <p>A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).</p>
Expected Return on Assets

Schedule SB, Part V—Summary of Plan Provisions

Effective Date	January 1, 1986.
Eligibility	Any participant of The Henley Group, Inc. Retirement Plan who was actively employed by GenTek Inc. on January 1, 1988 became a participant as of January 1, 1988. Any other employee of GenTek Inc. not covered by a collective bargaining agreement shall be eligible to be a participant in the plan upon completion of one year of employment during which the employee has 1,000 or more hours of service. Eligibility for the plan was closed for new hires on or after April 1, 2004.
Bayberry and Corporate Participants	Participants at the Bayberry and Corporate locations had all their benefits frozen as of July 31, 1994 and ceased accruing additional benefits.
Normal Retirement Eligibility	Any participant may retire on the last day of the month in which the participant attains age 65.
Benefit	If a participant retires after attaining age 65, then the benefit is the greater of (1) and (2) below: <ol style="list-style-type: none">1. The sum of: <ol style="list-style-type: none">a. 1.1% of average monthly pay multiplied by credited service up to 35 years; plusb. 0.4% of average monthly pay in excess of the Social Security earnings limit, multiplied by credited service up to 35 years; plusc. 1.5% of average monthly pay multiplied by credited service in excess of 35 years.2. 1.25% of average monthly pay (considering only base pay) multiplied by credited service.
Early Retirement Eligibility	Age 55 with 10 years of credited service.

Schedule SB Attachment (Form 5500)—2022 Plan Year
Chemtrade Delaware Inc. Retirement Plan
EIN: 02-0505547 PN: 131

Benefit	The early retirement benefit is equal to the normal retirement benefit, computed using the credited service that would have been completed at the normal retirement date, multiplied by a fraction whose numerator is the credited service actually completed at the early retirement date and whose denominator is the credited service that would have been completed at the normal retirement date. The benefit is then reduced by $\frac{1}{3}\%$ for each of the first 60 months that early retirement precedes age 60, and by actuarial equivalence for months in excess of 60.
Disability Retirement Eligibility	Any participant with 10 years of credited service who becomes totally and permanently disabled.
Benefit	The disability retirement benefit is computed in the same way as the early retirement benefit but with reduction on the minimum (nonintegrated) benefit limited to 50%.
Deferred Vested Pension Eligibility	Any participant with five years of credited service whose employment is terminated is eligible for a deferred pension.
Benefit	The deferred vested benefit is equal to the normal retirement benefit, computed using the credited service that would have been completed at the normal retirement date, multiplied by a fraction whose numerator is the credited service actually completed at termination and whose denominator is the credited service that would have been completed at the normal retirement date. If eligible, an early pension may be taken but is reduced by actuarial equivalence for payments beginning before age 65.
Preretirement Survivor Annuity Eligibility	The spouse of any participant with five years of credited service who has not yet begun receiving retirement benefits.
Benefit	For participants eligible for early retirement, an immediate monthly benefit to the spouse of 50% of the single life normal retirement benefit calculated using the participant's credited service at the time of death. For vested participants not eligible for early retirement, a monthly benefit deferred until the participant's earliest retirement date of 50% of the single life early retirement benefit then payable. For participants with a deferred vested benefit, an actuarial reduction is made in the participant's accrued benefit for this optional coverage.

Normal Form of Payment	
Single Participant	Life annuity.
Married Participant	Actuarially reduced joint and 50% survivor annuity.
Optional Forms of Payment	Reduced joint and 100% survivor annuity; Reduced joint and 75% survivor annuity; Reduced joint and 50% survivor annuity; Reduced 5 year certain annuity; Reduced 10 year certain annuity; Reduced 15 year certain annuity; Social Security option.
Definitions	
Average Monthly Pay	Total compensation received during the 60 highest months of credited service of the last 120 months of credited service divided by 60. Compensation includes base pay, plus overtime, bonus, and incentive pay. Average monthly pay was frozen on March 31, 2004.
Social Security Earnings Limit	The average maximum amount of earnings subject to Social Security tax from 1959 to the year the participant reaches the Social Security retirement age, assuming no future increases. This amount was frozen on March 31, 2004.
Credited Service	Prior plan credited service plus all service from the later of date of hire or the effective date to the date of termination, retirement, disability, or death. Credited service for purposes of determining benefit accruals under the plan was frozen March 31, 2004. Credited service for purposes of vesting and benefit eligibility was not frozen.
Equivalent Actuarial Value	Based on the 1984 Unisex Pension Annuity Mortality Table and a 7.5% interest rate.

Schedule SB, line 24—Change in Actuarial Assumptions

The expected return on asset changed from 5.25% to 4.90% to better reflect anticipated future market experience and current asset allocation.

Since this change to non-prescribed assumption did not reduce funding standard either (1) by more than \$50 million or (2) reduce the Funding standard by more than the greater of \$5 million and 5% of the FT before change, IRS approval was not required.

Decrement Timing	Middle of year decrements (except that retirement is assumed to occur at the beginning of the year for ages where the assumed retirement rate is 100%)
Surviving Spouse Benefit	It is assumed that 100% of males and 100% of females have an eligible spouse. Male employees are three years older than their spouses. Female employees are two years younger than their spouses.
Benefit Limits	Projected benefits are limited by the current IRC section 415 maximum benefit of \$245,000.
Valuation of Plan Assets	<p>Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.</p> <p>A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).</p>
Expected Return on Assets	
2020 Plan Year	6.50%, limited to 5.94%

Schedule SB, Part V—Summary of Plan Provisions

Effective Date	January 1, 1986.
Eligibility	Any participant of The Henley Group, Inc. Retirement Plan who was actively employed by GenTek Inc. on January 1, 1988 became a participant as of January 1, 1988. Any other employee of GenTek Inc. not covered by a collective bargaining agreement shall be eligible to be a participant in the plan upon completion of one year of employment during which the employee has 1,000 or more hours of service. Eligibility for the plan was closed for new hires on or after April 1, 2004.
Bayberry and Corporate Participants	Participants at the Bayberry and Corporate locations had all their benefits frozen as of July 31, 1994 and ceased accruing additional benefits.
Normal Retirement Eligibility	Any participant may retire on the last day of the month in which the participant attains age 65.
Benefit	<p>If a participant retires after attaining age 65, then the benefit is the greater of (1) and (2) below:</p> <ol style="list-style-type: none">1. The sum of:<ol style="list-style-type: none">a. 1.1% of average monthly pay multiplied by credited service up to 35 years; plusb. 0.4% of average monthly pay in excess of the Social Security earnings limit, multiplied by credited service up to 35 years; plusc. 1.5% of average monthly pay multiplied by credited service in excess of 35 years.2. 1.25% of average monthly pay (considering only base pay) multiplied by credited service.
Early Retirement Eligibility	Age 55 with 10 years of credited service.

Benefit	The early retirement benefit is equal to the normal retirement benefit, computed using the credited service that would have been completed at the normal retirement date, multiplied by a fraction whose numerator is the credited service actually completed at the early retirement date and whose denominator is the credited service that would have been completed at the normal retirement date. The benefit is then reduced by $\frac{1}{3}\%$ for each of the first 60 months that early retirement precedes age 60, and by actuarial equivalence for months in excess of 60.
Disability Retirement Eligibility	Any participant with 10 years of credited service who becomes totally and permanently disabled.
Benefit	The disability retirement benefit is computed in the same way as the early retirement benefit but with reduction on the minimum (nonintegrated) benefit limited to 50%.
Deferred Vested Pension Eligibility	Any participant with five years of credited service whose employment is terminated is eligible for a deferred pension.
Benefit	The deferred vested benefit is equal to the normal retirement benefit, computed using the credited service that would have been completed at the normal retirement date, multiplied by a fraction whose numerator is the credited service actually completed at termination and whose denominator is the credited service that would have been completed at the normal retirement date. If eligible, an early pension may be taken but is reduced by actuarial equivalence for payments beginning before age 65.
Preretirement Survivor Annuity Eligibility	The spouse of any participant with five years of credited service who has not yet begun receiving retirement benefits.
Benefit	For participants eligible for early retirement, an immediate monthly benefit to the spouse of 50% of the single life normal retirement benefit calculated using the participant's credited service at the time of death. For vested participants not eligible for early retirement, a monthly benefit deferred until the participant's earliest retirement date of 50% of the single life early retirement benefit then payable. For participants with a deferred vested benefit, an actuarial reduction is made in the participant's accrued benefit for this optional coverage.
